23 July 2024

Dear Mayor Williams,

RE: Western Foreshore Commercial Site Proposal

The Strategic Economic Advisory Group (SEAG) would like to provide its support for the proposed development of the Western Foreshore Commercial Site. A redevelopment of this nature and scale proposed by Left Coast Leisure Group will not only be an invaluable enhancement to the new public infrastructure on the Western Foreshore, but it will have a significantly positive impact on Mandurah's local economy through the creation of new local business and significant employment opportunities.

The core function of SEAG is to provide expert advice to Council and City officers on matters of strategic and economic significance, and to advocate for strategic outcomes that will promote investment attraction for the long-term benefit of our community.

We would expect that the proposed commercial development will achieve this and add significantly to our local and regional economy as a result of the benefits outlined below:

- Expected to generate 174 jobs during construction (direct and indirect) with approximately 437 ongoing jobs will be created (292 direct and 145 indirect), offering various types of employment within a range of industries. Opportunities for casual and part-time positions will exist, in addition to full-time professional roles.
- Estimated to inject \$29 million directly into the local economy over the first 6 years.
- Estimated to attract 750,000 visitors per year, bringing in an additional \$30 million in tourism spending. Attract interstate and international visitors, as well elevating the number of day tripper/short stays from Perth and other areas within WA.
- The development will offer work placement, work experience, and graduate programs for hospitality students from Mandurah TAFE campus.

The Strategic Economic Advisory Group acknowledges the significant investment this development will bring to Mandurah and the broader Peel Region and is fully supportive such projects that attract private investment and increase local job creation.

Please do not hesitate to contact us, should you have any further queries.

Kind regards,

Strategic Economic Advisory Group

Professor Lyn Beazley AO

28th June 2024

Dear Mayor Williams,

RE: Western Foreshore Commercial Proposal

On behalf of the Peel Chamber of Commerce and Industry Inc. it is my pleasure to provide our support for the Mandurah Western Foreshore Commercial Proposal. Based upon the EOI from Leftcoast Leisure Group and the economic assessment by the City Of Mandurah the redevelopment of this unique and strategic location provides a once-in-a-life-time opportunity to revolutionise the area, enhancing the existing infrastructure and opening up opportunities for new and exciting local business ventures, resulting not only in a vibrant new precinct, but also economic growth, and diverse employment opportunities.

The core functions of the Chamber are to enhance business capability and assist with economic growth and development of the region. We also advocate passionately for the creation of local jobs and increased investment into our local economy, to build a better community for everyone.

The commercial proposal as outlined, fulfills the above criteria and reflects the purpose and values of the Chamber. The key areas of the commercial proposal that we support and assert will add value to the community and the broader region are as follows:

- The project is expected to generate 174 jobs during construction (direct and indirect) and approximately 437 ongoing jobs will be created (292 direct and 145 indirect), offering various types of employment within a range of industries. Opportunities for casual and part-time positions will exist, in addition to full-time professional roles, catering to the majority of the community
- The Commercial Site is estimated to inject \$29 million directly into the local economy over the first 6-year period.
- The Commercial Site in the City of Mandurah is estimated to support 292 direct local jobs per annum on an ongoing basis with flow on effects supporting another 145 indirect local jobs per year
- Estimated to attract 750,000 visitors per year, bringing in an additional \$30 million in tourism spending. Attract interstate and international visitors, as well elevating the number of day tripper/short stays from Perth and other areas within WA

The Chamber acknowledges the significant investment this will bring to Mandurah and also the broader Peel Region and supports any project that attracts investment and increases local job creation. At the same time, we are acutely aware that the foreshore commercial proposal is currently undergoing a community feedback / consultation process. We commend The City for this initiative and formally advise we will respect any decisions or further consultations that arise from this process.

Please do not hesitate to contact me, personally, should you have any further queries.

Kind regards,

Ian Cadwallander
Strategic Development Manager, Peel Chamber of Commerce & Industry Inc.

23 July 2024

Dear Casey,

Re: Support for the Western Foreshore Leisure Precinct Development

On behalf of South Metropolitan TAFE, I am writing to express our support for the development of the Western Foreshore Leisure Precinct and associated commercial site. This project will enhance the hospitality offering in Mandurah, providing opportunities for employment and skill development for young people and increasing the tourism offering in the region.

As the public provider of skills in the Peel region, South Metro TAFE has recently had a significant uplift in capability to service the growing skills needs for the Hospitality and tourism industry. This uplift includes the "Salt Bush training restaurant" and accompanying commercial kitchens on our Mandurah Campus. Since opening in 2023, the number of apprentice chefs, and students in other hospitality related courses has increased significantly in Mandurah.

It is noted that the \$23 million private investment in this project will create around 174 jobs during construction, and 292 direct and 145 indirect jobs during operation. SMTAFE has a strong track record of working with the proponents of developments such as this, to first understand their workforce development needs and then provide training to meet their needs. The SMTAFE Mandurah campus is well equipped to provide training during the construction stage and ongoing skills options once the precinct becomes operational.

SMTAFE would encourage the City of Mandurah to build in requirements for the proponent to commit to training its workforce. This may include a commitment for the successful builder to employ apprentices during construction (examples may include Carpenters, plumbers, electricians), and also employ apprentices during operations (commercial cooks). SMTAFE is happy to assist the City of Mandurah in the wording of such requirements.

SMTAFE looks forward to preliminary discussions with the proponent at the appropriate stage of the project.

We encourage Council to support the development which will deliver education and employment opportunities for young people in Mandurah.

Thank you for considering our endorsement. We look forward to the positive impact this development will have on Mandurah and are excited about the opportunities it will bring.

Yours sincerely,

Annette Keller

Dear Mayor Williams

WESTERN FORESHORE COMMERCIAL SITE PROPOSAL

The Peel Development Commission would like to express its endorsement for the proposed redevelopment of the Western Foreshore Commercial Site. This initiative, as presented by the Left Coast Leisure Group, promises to greatly enhance the new public infrastructure on the Western Foreshore and will have a profoundly positive effect on Mandurah's local economy.

The Peel Development Commission embraces growth in the region and advocates for investment through visionary projects that create new industry and jobs.

This project is expected to generate 174 jobs during its construction phase (both direct and indirect) and approximately 437 ongoing positions (292 direct and 145 indirect), spanning a variety of industries. This will include opportunities for casual, part-time, and full-time professional roles.

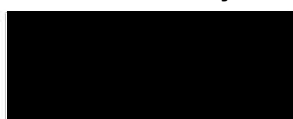

It is further acknowledged that the development would attract around 750,000 visitors annually, leading to an additional \$30 million in tourism spending in the Peel Region.

The proposed operators have further demonstrated a commitment to sustainable workforce training through an intent to offer work placement, work experience, and graduate programs for hospitality students from Mandurah TAFE campus.

The Peel Development Commission recognizes the substantial investment this project will bring to Mandurah and the wider Peel Region and supports ventures that drive investment and foster local job creation.

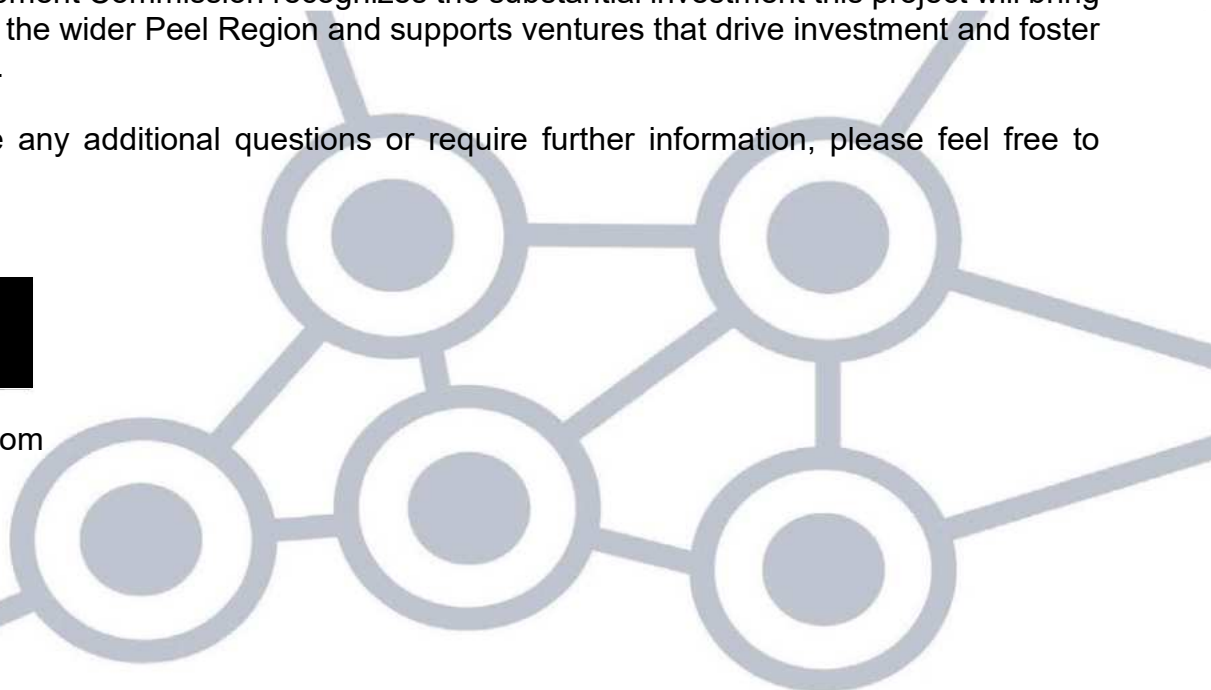

Should you have any additional questions or require further information, please feel free to contact me.

Yours sincerely

Michelle Sidebottom
DEPUTY CHAIR

12th July 2024

Dear Elected Members,

Re: Support for the Western Foreshore Leisure Precinct Development

On behalf of Visit Mandurah, I am writing to express our strong support for the development of the Western Foreshore Leisure Precinct. This initiative is poised to significantly enhance Mandurah's appeal as a premier tourism destination within Western Australia and provide substantial benefits to our community.

The proposed development, led by Left Coast Leisure Group Pty Ltd, includes a licensed restaurant and microbrewery, an 18-hole mini golf course and café, and a chocolate production and retail facility. Covering a total area of 7,000 square meters, these attractions are expected to draw approximately 750,000 visitors annually, contributing an estimated \$30 million in visitor spending each year.

The \$23 million private investment in this project will not only create around 174 jobs during construction but will also generate 292 direct and 145 indirect jobs during operation. Additionally, the proposed lease terms will result in \$6.2 million in revenue over 25 years, which is \$700,000 more than a market rate lease would generate. This additional revenue will be reinvested into the management, maintenance, and ongoing enhancement of the Western Foreshore Leisure Precinct, ensuring its continued vibrancy and success for future generations to enjoy.

Visit Mandurah is particularly excited about the project's alignment with our organisational goals. The development supports our key objectives of enhancing visitor experiences, expanding tourism offerings, and contributing to local economic growth. The inclusion of work placement, work experience, and graduate programs for hospitality students from Mandurah TAFE campus will nurture local talent and support the region's workforce development.

We believe that the Western Foreshore Leisure Precinct will be a major asset to Mandurah, enhancing our tourism offerings and strengthening our position as Australia's Top Tourism Town. We strongly encourage Elected Members to support this development, which promises to deliver significant economic, social, and cultural benefits to our community.

Thank you for considering our endorsement. We look forward to the positive impact this development will have on Mandurah and are excited about the opportunities it will bring.

Yours sincerely,

Anita Kane

General Manager

Visit Mandurah

12th July 2024

Dear City of Mandurah

Re: Support for the Western Foreshore Leisure Precinct Development

I am writing as the owner of Pirate Ship Mandurah to express my support for the Western Foreshore Leisure Precinct development. This project offers a significant opportunity for Mandurah to enhance its appeal and extend its tourism season beyond the traditional summer months.

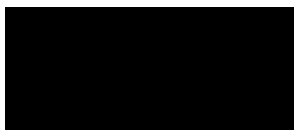

While Mandurah is renowned as a summer destination, the Western Foreshore Leisure Precinct will introduce a diverse range of attractions that are much needed for the city. Importantly, this development has the potential to attract visitors during the quieter winter months. By offering year-round activities, the precinct will help stabilize seasonal fluctuations in visitor numbers. This increased year-round traffic is important for local businesses like mine, as it will enable us to grow our operations and provide consistent employment opportunities for our staff throughout the entire year, not just the peak summer period.

I strongly support this development and urge the City of Mandurah members to endorse this transformative project.

Thank you for considering my support.

Sincerely,

Ben Dougherty

City Of Mandurah
3 Peel Street.
Mandurah WA 6210
15th July 2024

Dear Elected Members,

Re: Support for the Western Foreshore Leisure Precinct Development

I am writing to express our support for the development of the Western Foreshore Leisure Precinct, including the commercial component of the proposal. Boundary Island Brewing Co opened in January 2022 and we were welcomed into the community wholeheartedly, and since opening, our patronage and support from the community has exceeded all expectations.

Over the past 2 ½ years, our customer base has continued to grow, and we pride ourselves on offering a top-quality food and beverage service, but also through the hosting of functions, events, specialised classes and more, and we now employ over 100 local staff.

I believe that Mandurah is not only growing in size but also in its status as a tourism destination and the more we embrace the development of quality specialised offerings, the more we can create a unique destination that offers consumers options. With the huge success of tourism in Mandurah in recent years, the opportunity to stay in this position is highly reliant on continual growth and development, particularly in the family friendly sector. With the inclusion of such attractions as an 18-hole mini golf course and café, and a chocolate production and retail facility again only enhance and build on the family friendly culture for both our locals and our visitors. With an estimated draw of approximately 750,000 visitors each year to be generated by the proposed development, this additional visitation will benefit all local businesses.

I am pleased to hear that Left Coast Leisure Group will be offering work placement, work experience, and graduate programs for hospitality students from Mandurah TAFE campus as this will only strengthen the pool of skilled workers in our industry and help achieve a sustainable workforce in the region. This is of benefit to us all in the hospitality and microbrewing industry.

I believe that the Western Foreshore Leisure Precinct upgrades will be a major asset to Mandurah, and I encourage our Elected Members to support this development which will deliver significant economic, social, and cultural benefits to our community and local businesses.

I look forward to the positive impact this development will have on Mandurah and the value it will add to the flourishing hub of hospitality venues that offer a wide variety of high-quality food and craft beers in unique locations across Mandurah. This is a great opportunity, and we offer our support to the proposed development.

Yours sincerely,

Cynthia Graham

RE: Western Foreshore Leisure Development.

Dear Casey,

We write with regards to our opinion on the proposed Western Foreshore Leisure Development, in response to a request by Visit Mandurah for our thoughts on this development.

The City of Mandurah has a City Centre foreshore development strategy, as part of Transform Mandurah, in which it has already invested millions of dollars, enabled by local, State and Federal funding, to develop the post-COVID visitor economy.

This strategy has created high quality, modern developments including the Kwilena Gabi pool, the Western foreshore playground, Mandjar Square and the current upgrades of the Eastern foreshore, as well the Giants of Mandurah.

This strategy has increased visitation from local, interstate and international visitors. These guests come here in increasing numbers because they seek broadly appealing, high quality, modern facilities and we know, because we talk to them daily, that they are attracted by facilities meeting these criteria in Mandurah's lovely waterfront precinct.

This visitation increase has delivered millions of dollars of upside in the local economy - both directly to businesses like us, as well as in ancillary sectors.

Our company is a case in point; we lost 80% revenues when borders closed and greatly reduced our workforce and local spend. We have regrown revenue to more than pre COVID levels, and employment is now close to 50 Mandurah locals - up from 20 in 2018, as well as spending on employment and in the community.

This business health not only enables us to provide employment and spend but also support where we live - for example we fund many dolphin and ecosystem education incursions in local Mandurah schools. We also fund a researcher into local dolphin standings, to help us better protect local dolphins in future. None of this would be possible without a healthy local visitor economy

Completion of this strategy and developing the remaining foreshore precincts to offer broadly appealing modern, high-quality facilities which attract visitation is important because the strategy works, and it drives real benefit in the economy.

The proposed Western Foreshore Leisure development, along with the current works on the Eastern Foreshore, are a continuation and final pillar of this strategy, and in this context, we support both

In terms of the specific development/ operator selected, we know the City of Mandurah and Council have considered all market opportunities brought forward after a wide and competitive EOI process, and the best one has been selected. We believe the process was rigorous and thus we support the proposed outcome.

We do note the sustainable success of this strategy depends on future developments being executed with appropriate supporting physical (e.g. road access, parking) and corporate infrastructure (e.g. regulation, contracting and governance) to ensure they deliver benefits that are in harmony with existing businesses and residents in and around central Mandurah, and allow developments to fully capture the upside potential by offering a great, well managed, visitor experience.

Yours Sincerely,
Myrianthe Riddy

Re Objection to Land Excision on the Western Foreshore

Attention: CEO and Director, Strategy and Economic Development

The PMRA hereby officially lodge an **Objection to the "Major Land Transaction and Disposal"** that would see 8000sqm removed for commercial purposes from the Class A Crown Reserve, known as Hall Park. We respectfully ask that the City does not proceed with this project and returns the parkland and foreshore to family-friendly passive recreational use.

PMRA represents some 800 households (1500 members) in the immediate vicinity of Hall Park who have supported the recent diverse improvements undertaken by the City, since completion of the new Town Bridge. The PMRA sub-committee has canvassed the Western Foreshore proposal widely with the residents. Over 80% of the numerous respondents have objected to part, or all, of the proposed commercial developments in the Western Foreshore Commercial Site Business Plan with disposal through sublease to Left Coast Leisure Group Pty Ltd. (This pertains to Lot 1561 on Deposited Plan 209268 in Certificate of Crown Land Title Volume LR3014 Folio 635, and Portion of Lot 500 on Deposited Plan 404353 in Certificate of Crown Land Title Volume LR3165 Folio 486)

The main documented objections have been:

- (1) the lack of any credible traffic modelling and the congestion that the proposal will create both to the roundabout and the single entry to Leighton Place.
- (2) the substantial loss of public open green-space given up for parking and road access ways.
- (3) the unsuitability and incompatibility of a large 650-seat brewery/restaurant complex adjoining a residential area.
- (4) the noise and anti-social aspects of the "expected 750,000 visitors" (quote) that this development may attract.

Respectfully,

Jim Booker,

President PMRA

Dear Bonnie,

Apologies for the late submission to your request for feedback on the proposed Western Foreshore Development.

On behalf of Mandurah Boat Charters, I write to express our support for the proposed Western Foreshore Leisure Precinct development. It is our belief that this proposal has the potential to drive significant economic and lifestyle benefits for all Mandurah business stakeholders.

As the tourism sector in Western Australia grows increasingly competitive, high-quality, modern facilities are the single largest driver for visitor attraction and we believe that this project, in conjunction with the ongoing enhancements on the Eastern Foreshore will substantially broaden Mandurah's appeal.

The extension of the tourism season beyond the peak summer months is a key business issue for us and many other local tourism operators, and attracting visitors outside high season during the shoulder and winter seasons is crucial for revenue generation and thus job creation within the local community.

The City of Mandurah's strategic approach to redevelopment seems to us to be both considered and bold, and if delivered within the proposed timeframes promises to enhance Mandurah's economic stability and vibrancy.

Thank you for the opportunity to feedback on the proposed development.

Yours Sincerely

Steve Cooke

24th July 2024

Chief Executive Officer
City of Mandurah Council
3 Peel Street
MANDURAH WA 6210

Attention: Casey Mihovilovich, Chief Executive Officer– City of Mandurah Council

Dear Casey,

As the owner of the freehold land and landlord to the 'Brighton Hotel' of 10/12 Mandurah Terrace, located across the bridge to the east, the proposal submitted by the Left Coast Leisure Group on the Western Foreshore Commercial Site Business Plan is of concern, having reviewed the development documents that are currently out for public comment.

The subject site in this matter is currently zoned 'Regional Open Space' under the Peel Region Scheme and described as Lot 1561 & 500 of Plan 209268 & 404353 in Crown Land Vol LR3014 | Fol 635 & Vol LR3165 | Fol 486.

I wish to raise a number of matters that require further consideration in relation to the site, proposal and potential outlook for business activity in the Mandurah Town Centre, as set out in detail below.

1. Increase in Noise and Congestion

The proposed development site, located at the end of a quiet residential street, has not received appropriate consideration. Plans for road expansion to accommodate the increased traffic have been overlooked, particularly since Old Coast Road and Mary Street are already congested single-lane roads.

Residents along Leighton Place, a single-lane, no-through road serving only 40 residences, bear the brunt of the congestion being the only street to facilitate traffic flow to and from the premises. This situation would exacerbate noise levels, especially during construction and late-night business operations, unfairly impacting residents' quality of life.

If the proposed plan progresses, the inevitable strain on the Mary Street, Old Coast Road, and Pinjarra Road roundabout will worsen congestion in the wider area. Main Roads reports an average of 23,315[^] cars and trucks daily on Mandurah Traffic Bridge, emphasising the need to prevent additional strain on this critical intersection.

Efforts to mitigate congestion are crucial for ensuring efficient travel for residents of Mandurah and neighbouring suburbs to the west such as Halls Head and Falcon, who depend on this route for commuting to Greater Perth.

These compromises threaten the peaceful living conditions that residents value, potentially affecting property values and community cohesion. It's essential to prioritise measures that preserve the area's valued lifestyle and minimise disruptions caused by increased traffic and development.

[^] Main Roads latest figures (21/22)

2. Detracts from Town Centre & venues along Eastern Foreshore

If the proposed plans for Shelter Brewery proceed, it will lead to a notable diversion of activity away from the Town Centre, particularly affecting venues already facing challenges along the Eastern Foreshore. The Eastern Foreshore already hosts a considerable number of licensed venues, with 9 establishments within a 100 metres radius of the Centre Precinct.

Introducing another venue in this competitive landscape would disperse foot traffic and diminish the vibrancy that defines a bustling town centre and divert valuable activity towards quiet residential areas.

3. Compromise Public Park & Amenity

Progressing the proposed development, and construction upon the public park land in place of hospitality offerings and circa 6,000sqm parking is a compromise of public amenity that is not conducive to what the area requires.

In addition, the proposed development site being within 100 metres of the war memorial would detract from its cultural significance and trade valued public amenity for relatively insignificant financial gains.

The brewery's noise and increased activity would disrupt the peaceful atmosphere needed for reflection and remembrance. This development shows insensitivity to the sacrifices honored at the memorial, detracting from its significance. Protecting this site ensures that future generations can continue to enjoy and respect this open space, maintaining its historical importance and ensuring it remains a place for public amenity and reflection.

Conclusion

In summary, the proposed Shelter Brewery and additional business development poses several critical challenges. Neglecting considerations for increased noise and traffic congestion on already strained roads threatens residential tranquility. Diverting activity from the Town Centre and Eastern Foreshore venues risks diminishing any future potential for the Town Centre's vibrancy and atmosphere. Moreover, compromising public parkland and the proximity to the war memorial undermines cultural significance and public amenity. Preserving these aspects is vital for community cohesion, property values, and maintaining a cherished lifestyle. Sustainable development must enhance public spaces and preserve cultural integrity for future generations.

In accordance with the above, I respectfully request that reconsideration is given for the proposed development to address the matters raised, before the proposal is progressed for approval.

Should you have any queries or require clarification on the above matter, please do not hesitate to get in contact on 0408 080 508.

Yours sincerely,

Tim Mack

SUBMISSION: WESTERN FORESHORE LEISURE PRECINCT AND COMMERCIAL SITE BUSINESS PLAN JULY 2024

Introduction

The Silver Wheels Cycle Club is a Mandurah-based over 45's club that conducts recreational group cycle rides primarily within the City of Mandurah. We are very familiar with the area covered by the Western Foreshore Leisure Precinct and Commercial Site Business Plan (the Plan), as we ride through this area several times most weeks, and many of our members ride individually in the area. Thus, we are well qualified to comment on the Plan, the outcomes of which will affect cycling for both recreational and transport purposes.

We are keen to see Council's plans for this area succeed- not only in respect of preserving and enhancing cycle infrastructure, but also to make this an attractive and interesting area for Mandurah residents and visitors alike to visit. We submit that extensive, high quality cycling infrastructure is an essential component in achieving these aims for the benefit of everyone, not only cyclists.

Overview

Silver Wheels has no opinion regarding what type of business should occupy the Western Foreshore's main commercial site, and we note that in any case, the Plan concerns a much larger area than this site alone. The draft Plan does not contain anything that we object to; our comments are intended to assist Council in setting essential standards for cycle infrastructure regardless of the type and mix of uses in the Plan's area.

We note with approval, from the documents submitted to the Council meeting of 28 May 2024, that paths within the area are recognised as important routes, with a minimum 3.5 m width to be implemented, and the planned path alongside the estuary to be well set back from the water allowing room for high quality design of the path. This is a welcome and important starting point for our comments below.

Important Note:

The relevant subject matter of this submission overlaps considerably with comments already made in our recent submissions to Council regarding the City Centre Master Plan and Parking Plan, the Integrated Transport Strategy, and, most especially, the Waterways Waterfront Master Plan.

For brevity, we only touch on those points in this submission; however, to the extent that they are relevant, those documents should be referenced for a full previous explanation of the points which are reproduced below, and thus form part of this submission.

Key Issues

- All current and future cycle and pedestrian routes within the Plan area should be identified at the earliest opportunity, the space reserved, and any new routes, widening or other enhancement built as quickly as possible. This is essential to avoid other land-uses encroaching on these routes and thus preventing their construction or severely limiting their utility and safety.
- The importance of ample path widths cannot be over-emphasised. Widths should reflect not only current but future anticipated use, and if adjacent to water views, bars/cafes or other attractions, should allow extra width for people who are lingering on the path rather than cycling, scooting or walking along it, or better still, separate space for those people.

3.5m width paths are a great improvement on previous standards, however other councils are designing their waterfront paths to even higher standards. This 1.7 km path along the Geraldton Waterfront is a full 5m in width, despite being outside the main commercial waterfront area.

- In recreational areas, particularly those with high volumes of children present, it is essential to maintain the highest design standards to prevent injuries- this includes strong pavement marking and signage, clear sightlines and appropriate barriers (such as low shrubs) guiding people to clear crossing points. Excellent lighting is also an essential safety feature for this area.
- In balancing the need for parking against the undesirability of it consuming more space than necessary, Council should be aiming to replace car trips to the area with cycle journeys. As this area is a destination in its own right (in addition to being a through route for destination cycling), we submit that it should be well served with bicycle parking rails, preferably under-cover and in areas with good passive surveillance to deter theft, such that people are comfortable with leaving their bicycles for several hours whilst enjoying the attractions within the study area. Charging facilities for e-bikes should also be provided.
- The study area is presently on a peninsula. However, planned bridges linking the northern tip of the study area across the canal to Henry Sutton Grove, and from there to Stingray point, will create both a 'Round Mandjar Bay Circuit' and a more attractive commuting route from the northern part of Halls Head to Mandurah Bridge, as an alternative to Mary Street (although this route serves many closer destinations and will remain busy). These bridges will greatly increase active travel use through the study area, and all future planning and construction should accommodate these future volumes from the outset.
- The upgraded intersection of Leighton Place and Mary Street should include a raised hump crossing of the Principal Cycle Route along Mary Street, with priority over the motor vehicle traffic turning into and out of Leighton Place. This is already consistent with modern design standards which prioritise principal shared paths that run parallel to major roads over minor side roads and will be even more commonplace by 2028 when this work is due to start.
- Likewise, noting that the planned shared path parallel to Leighton Place across the car park entrance will be a busy route, especially once the above-mentioned bridges are built, it should be constructed with priority over the car-park entry.
- Replacement of the current waterside path in front of Kings Carnival is urgent. Noting that the replacement path will be further inland (as far as we can determine from the drawings) and that the present path therefore does not warrant more than minimal repair in the interim, we submit that construction of the new path should be very high priority.

The current path in front of Kings Carnival is in urgent need of replacement, and the replacement path should be built as a high priority.

Further discussion and contact information

Silver Wheels would be pleased to discuss this submission and individual aspects of it in more detail with the Plan's authors. We would also like to be consulted whenever detailed design of its components takes place.

Silver Wheels' contact committee member in respect of this submission is:

Chief Executive Officer
City of Mandurah
Casey Mihovilovich

10th August 2024

Casey,

The members at the City of Mandurah RSL have asked me to pass on their thanks for the opportunity you have offered us to have input into the redevelopment of the Mandurah Western Foreshore.

The following is discussion entered into by the members of this RSL at the General Meeting conducted on Thursday the 25th July 2024.

For your information, the City of Mandurah RSL has a large membership of just over 655, within three categories. They are service members, affiliate members (spouse / relative of a service member) and social members. With the largest category being ex-service veterans from 60's of age and older.

As the new Mandurah Bridge (Pinjarra Road to Mary Street) is too steep for our older veterans to march over we have had to change our form up point, for our march, from Pinjarra Road on the eastern side of the bridge to the western side at Hall Park. This was done to achieve inclusiveness of our older veterans but at the cost of not allowing our veterans to march through the streets of their city on ANZAC Day.

The City of Mandurah RSL would welcome any modifications to Hall Park that would assist our aging veterans on our formal ceremonial occasions, such as wide footpaths that would allow veterans to march 4 abreast on a flat even surface and modified curbing to assist with the veterans transition from Hall Park to the Memorial in a safe manner.

The addition of ablutions closer to the memorial would be advantageous not only for our veterans but the general public who also attend the Memorial site.

The City of Mandurah RSL, because of past vandalism, has installed Security cameras at the memorial site and the additional instillation of more at or near the memorial car park would also be advantageous to dissuade any future vandalism.

Raymon David Mabbs

President

The Price of Liberty is Eternal Vigilance

Public submissions received by email, letter and in-person

Date	Submission
29/05/2024	I would like to register my objection to what you have planned for the above. We certainly don't need another brewery, especially so close to the town. Nor do we need more cafes, restaurants, especially when others are closing. No doubt a rate increase is on the cards if you go ahead with this unnecessary development. The inadequate design of the bridge at both ends would not cope with the traffic. The new bridge was badly placed and creates congestion along the foreshore every weekend. Our taxpayer's money would be better spent supporting the Kings Carnival growth which is more a family venue. So many other community items are more important. It's not always all about more tourists, we have enough of those. Let's hope good sense prevails in this case.
29/05/2024	It's [redacted] here, I would like to give my feedback on the plan proposals for the western foreshore, I like the idea of the mini golf, cafe and chocolate factory but not so much keen on the microbrewery. We have many places to drink, so I don't see why we need another place that sells alcohol but what we do need is more things for kids to do, I grew up in Mandurah and I always felt there wasn't much to do especially in winter which one of the reasons I moved away from Mandurah.
29/5/2024 & 27/5/2024	I would like to know if the City of Mandurah has plans to release a document that is more accessible for those with a cognitive impairment and/or reading difficulties? The lack of a simplified document, and only providing a pdf full of legal jargon and long-winded explanations, is excluding those who may require simple language, are time-poor, and/or will need to access this using their phone only. I don't require any of those things myself, and I found it incredibly dry and difficult to read. There are no doubt many residents of Mandurah that would find it overwhelming. If the City of Mandurah truly wants to hear the opinion of every resident regarding the Western Foreshore Commercial Site Business Plan then please provide alternative versions accessible to all. Also, the feedback form was difficult to fill in and navigate with a keyboard only.
29/05/2024	The plans for the future of the Mandurah foreshore sound very good for our city with it growing in population & the many people that visit . Something my husband and I talked about & think would be great also is a Ferris wheel like they have at Fremantle. This would be great not only for Mandurahs people but also the many that visit. The views would be amazing. Maybe something for council to think of in the future.
29/05/2024	I would like to provide my feedback on the preposed Brewery, chocolate factory etc on the Western foreshore. I have live in Mandurah since I was 13 years old and have seen the rapid decline of the entertainment available to adults, teens and children of all ages over the past 35 years. I do not feel the preposed Brewery is either required or in the best interest for that space or Mandurah community. We have so many pubs cafes and restaurants in Mandurah already that we do not need any more, and we should be pushing support of those smaller local businesses, not inviting in outsiders or big companies and taking away those customers. I do not feel I am alone in my thoughts, as you only need to read through all the feedback on various post to see the majority of Mandurah do not want the current preposed and the sentiment is echoed that Mandurah is in desperate need of "active bases business " and family targeted activities, not more places for people to drink ! It's great that there is going to be a nod to some form of activity also where they have included the mini golf, but what happens in winter, or for families with younger children that mini golf is not suitable for? I also share the sentiment of others about the Breweries location being right next to our war memorial. How long would it be before some drunken yahoo decides it would be "funny" to destroy that, or how often is it going to be use as a toilet block ? The majority of people of have read comments from or spoken to have said the same thing. 1. Leave it as the carnival and build on that to includ things like ten pin bowling, skating, lazer tag etc etc etc. (Which is what most people want) 2. Leave it as a "nature space" and work out great ideas based around that. But please DO NOT allow the current preposed to go ahead. If you do, you will be acting out side of the Mandurah communities needs and wishes, and only acting to line your pockets. If I did not have family ties that I can not leave right now, I myself would have left Mandurah years ago due to the lack of things to do here. You always have to travel if you want do anything. Please help make the change to Mandurah for the better.
31/05/2024	My major concerns with this proposed redevelopment is who is going to oversee and manage the proposed use of local labour in the construction & ongoing management of this project? This overseeing operation can only be carried out by an independent third party, not the City of Mandurah! Has this cost been allowed for? AND this overseeing operation must carryon forever if the proposal of ongoing employment of locals is to be honoured. Please advise who the proposed third party is and the costs involved.
1/06/2024	Our family and friends strongly object. A further development along our sensitive Foreshore and waterways will only contribute to destroying and damaging the unique natural landscape of the city and public space. Consider first nations people who would strongly object to any further construction and commercialization on our sensitive and unique Foreshore. If anything is to be done... It should remain as free open public space for all of us, including future generations to enjoy. A protected reserve would be better still to stop this sort of thing ever threatening it again. Public access to our waterways especially the unique location should always be preserved. Natural space on the estuary in the city center is a rare and precious commodity that will be the envy in other cities around the world. Natural space is what us humans crave and value. It is what will bring long term economic prosperity from eco-tourism. People won't come from other parts of the state, interstate, overseas to visit some more buildings! More likely the natural beauty. Having more alcohol proprieties can exacerbate public health issues, antisocial behavior and domestic and other violence. Preferably return the land to public space. Otherwise leave the existing Kings Carnival. Please save our foreshore for future generations.

1/06/2024	I was happy to see the new plans for the Western foreshore but i have a couple of questions please 1. Will the entrance road in and out be made into a double access from a single. 2. Will the access road be changed from its current position. 3. My only gripe in the plans is that a new indoor ten pin bowling alley was not incorporated into the new plans, this would of been more suitable for families than a micro brewery or could be attached to the brewery. could the council please look at this in a future site
5/06/2024	I want to add my voice to the concern around an alcohol focused establishment on the western foreshore.1. Alcohol is not a positive contribution to family environments. A brewery will bring more visitors to that area, but not family/kids focused activities. 2. The brewery would be too far from taxis stands and public transport, encouraging drink driving. 3. The addition of an alcohol focused outlet on the western side will impact established businesses on the east side of the bridge, effectively splitting clientele. 4. A licensed restaurant would be sufficient for alcohol in a more family friendly atmosphere.
5/06/2024	KING CARNIVAL: The other subject King Carnival, this icon should remain, how can you think of approving another brewery, especially in an area near the War Memorial, that is not showing respect This Brewery would be near a skate park and children's play area, you really need to get a new planner, who does not consider these things or people? And you yourselves as a City Council need to seriously examine these proposals and consider everyone , find another appropriate place for a brewery and as we have 10 other breweries close in and around Mandurah why are you not considering the business that they could lose as well? You have to take into consideration all different reasons on why they can't be relocated to another area. King Carnival should stay in my opinion it is an icon in Mandurah and get them to update it to suit the area , but keep it!
10/06/2024	Usually any City development goes on and on way beyond dates published with fanfare but never any honesty or transparency or accountability exhibited when those dates are not met. The public is put to great trouble and tell people do not come to Mandurah as it is a mess again. Get on with the Western Foreshore. When will it start and be complete? When will a schedule be provided so we can monitor progress? What powers does the City have to crack the whip to force contractors to get back on schedule when running late? Etc etc. I presume the City will hold a 10% bank guarantee from the contractor which will be several million. The Eastern Foreshore is a good example of how not to do things but very good at upsetting residents. 95% fenced off for a week and no work done. A week wasted. Get on with it and finish before this Xmas.
10/06/2024	I am accepting your invitation to give feedback regarding the western foreshore proposed redevelopment. I am very disappointed and greatly opposed to another alcohol facility being proposed for this site. There are plenty of alcohol facilities in central Mandurah and the surrounding suburbs for local residents and tourist. We should not have to resort to this type of development to attract tourists to this town. The land on the eastern foreshore in question has always been and should remain a recreational area for the community and for visitors. It is a prime position for sports, picnics and activities for families and particularly youths and I object to consideration being given to a place supplying such an unhealthy substance being in this position where youth and children enjoy healthy activities. I am enclosing an article from Last Saturday's West which exposes the danger of our children once again to alcohol and the results of alcohol abuse are available to us all.
17/06/2024	As local residents of Port Mandurah we are totally against going ahead with the proposed Western Foreshore Leisure Precinct under the current planning. At present it is hard enough to exit from Maclarty Rd to Old Coast Road at certain times of the day and bringing more traffic into the area with only one entry to the precinct it will become a disaster. An example of future congestion has been seen when there has been an incident on the estuary bridge and traffic has been diverted through to the town bridge. Unless there can be changes made to accommodate the future traffic flow, and as a responsible local council, you must veto this proposal. With what's been happening around town concerning current developments (cutting down old trees and destroying vegetation) with no regards to residents wishes, we are rapidly losing faith in Council's decision making capabilities beyond thinking about the dollars and tourism awards.

17/06/24	I previously submitted to Council my objection to having a brewery in what is and should remain, a predominately family-friendly precinct as there are plenty of opportunities for this type of facility on the Eastern foreshore where spaces for parking already exist, more land is seemingly available and waiting redevelopment and with already established law and order regimes to curb anti-social behaviour in place. There is far easier access for public transport for out-of-town visitors. This applies for both day and evening/night time patrons, and security needs. It seems to me there are 2 very different scenarios for this Western Foreshore proposal - with or without a brewery - as the inclusion of a brewery changes the clientele and therefore the social impact, dramatically. <u>The proposal</u>, with or without a brewery - micro or macro. The general proposal is an attractive, family orientated upgrade to this corner of Mandurah and its stunning location cannot be underestimated. But it does have limitations due to its "squashed in" position with water boundaries and access only by one no-through road. <u>Food/drink outlets</u>. With the proposed entertainment and family-friendly activities in this Western Foreshore redevelopment, it would be expected restaurants/cafes be included. And needed. However, a brewery - micro or maxi - should not be part of this. It sends a completely wrong message to the community that we cannot have anywhere alcohol free (even children's play areas) but, to be seen to be "sophisticated" and a "tourist destination" we must have a licensed venue of this sort - and a brewery will be a "trendy" drawcard. Can you not encourage a family day-out without this type of liquor outlet? Is WA so addicted to this Mandurah has to follow the mob? There is the eastern foreshore for those that must drink. A quality restaurant would be great with perhaps take-away and/or sit-down options....even a licensed restaurant following normal hospitality hours as in Dolphin Quays etc. - but NOT a brewery and all that signifies. Access and parking are going to be real issues. <u>Access</u>: Access is by one small residential street, a no-through road - Leighton Place. There is virtually no off-street parking currently except for the War Memorial carpark and No-Standing signs in many places - which of course many people ignore anyway when places are busy. If Mandurah is looking to emulate Busselton as a benchmark and entertainment/destination, there is no comparison here between the two. Looking at where the Shelter Brewery is in Busselton, it is situated in a wide, open beach-side entertainment and recreational precinct, serviced by two main roads of Marine Terrace and Foreshore Parade, both wide with central median strips. There is extensive parking between these roads and nearby, unlike the constrained, limited, access in this proposal which would seem to be fraught with long term, on-going issues, especially if a brewery is included. There is no current quick public transport access although bus routes could be altered no doubt to include a frequent loop to this side of Mandurah from the train station. Eventually. And there is the little green train?? Access at the intersection of Leighton Pl with Mary Street is already tricky and at times worse than that. Traffic coming from Halls Head, from the right if in Leighton Pl, at peak times can be constant causing a build-up trying to get onto the main road/round-about at the bridge, as the Old Coast Road is also busy. Traffic also comes from the small shopping centre directly opposite and can go any which-way!! Visitor traffic coming off the bridge will often be out-of-towners and not familiar with these tricky few metres. I recently checked this corner out and came off Old Coast Road in front of the shopping centre, then left into Mary St, and while approaching Leighton Pl but still on Mary St, a big new ute came out of Leighton Place and straight across in front of me, to the shopping centre carpark. So straight across the road. Almost, as it is not quite straight across but deemed to be! Obviously a local, and no waiting for him! It was a quiet Sunday pm and I am used to this corner so expected almost anything but visitors will not be, going in or out. No amount of "traffic management" is going to fix this unless you radically redesign the whole corner and possibly Leighton Pl and the shopping centre access points <u>Parking</u> Parking along Leighton Pl is shown opposite housing on the new Design in several places, impinging on the current green space with new parking lots. If Leighton Pl is already going to be busy, and it is a narrow street, how are people going to enter/exit these smaller car parks? They are not appear to be yet drawn on the map but only number of bays indicated. There may be many frustrated drivers - which leads to angst as we know. Leighton Pl is too narrow for this in a busy environment. Will the parking costs be shared between all the commercial activities - perhaps in their rents/leases?? Ratepayers should not have to fund this. Parking bay numbers (total bays) you have shown on your Design proposal are misleading. Including the current car park alongside the War Memorial, a new car park to be constructed nearby which is currently grassed and open space, plus the new small car parks along Leighton Pl. (mentioned above) totals 293 car spaces. You maintain there a 381 car spaces. To meet this larger figure, you appear to have included the 88 car bays under the traffic bridge, on the other side of the road. This is a not close to most of the activities, except the skate park etc, and the car park itself is not easily accessed, leading off the round-about as you come immediately down off the bridge. Tricky for new-comes. To include this car park is misleading - deceptive - and it should not be included. It is potentially dangerous as the access to this carpark is ON the round-about as you come down off the bridge, a two-lane road in itself. To return over the bridge on a homeward journey, as most visitors no doubt would, it will be necessary to immediately cross the outer lane of traffic to reach the inner lane which allows a car to then circle back over the bridge - if you are aware of the lane changes. Tricky at the best of times. This needs serious re-consideration. Parking at Mandurah Quays is a real issue for management and locals now with brewery patrons routinely parking on adjacent verges and vacant land, and increasing numbers of nearby residents apparently selling up. Sticks Blvd, leading to the marina and Brewery, is a much more substantial access road than Leighton Pl will ever be without major reconstruction. A substantial entertainment precinct requires good and safe access, (see Busselton), not a small no-through residential road as the main access point. This proposal has, potentially, much larger visitor numbers than Mandurah Quays with or without a brewery. <u>Brewery restrictions</u>: If the brewery inclusion wins the day: As the brewery seems to be a focal and controversial point in this proposal, the major drawcard, who is going to pay for the disruption to the local amenities?? It is a commercial, profit-making enterprise, here to make money and the parking necessary should not be on rate-payers. Substantial rent needs to be levied. It is acknowledged the other commercial outlets will also need to share the costs, but the brewery appears to be the larger enterprise. Licensing hours. This small corner of Mandurah is close to quiet residential areas, accessed by a narrow no-through road. Other nearby breweries I checked close between 9.00 or 10.00pm. A 10.00 pm closing in this location would lead to considerable residential disruption as the longer the opening/drinking hours, the more anti-social behaviour has to be dealt with. At Boundary Island Brewery, in Mandurah Quays, early in the morning (especially weekends) there are always cars parked overnight in the carpark due, presumably, to the owners/drivers being too intoxicated to drive home. These are NOT your friendly local neighbourhood pubs! The Shelter Brewery in Busselton advertises their opening hours as 10am-10pm, 7 days a week. It is NOT near residential areas. It is serviced by major roads. Boundry Island Brewery has varying opening/closing hours depending on day of week but the latest closing appears to be 10.00pm. It is close to residential housing and residents are feeling the consequences. A brewery brings in a completely different clientele, largely adult groups, not families with kids, and will want to open later than eg mini-golf or a chocolate factory. As the community knows, extended drinking hours bring anti-social behaviour and security issues. If this or any brewery is given the go-ahead in this redevelopment, opening hours need to be carefully prescribed and enforced. (limited to 11.30am - 9.00pm?) Or operate only within restaurant hours. A full report should be obtained from the police, and other emergency services on the likely impact to traffic and local residential areas and their ability to do their jobs without hindrance before this brewery gets the "green light". In its current form, I object to the Western Foreshore Leisure Precinct proposal on the following points: it appears not to have suitable access to support it without major reconstruction of adjacent streets and intersections - with or without a brewery. reduces the open green spaces to accommodate parking. Where is the environmental compensation? it appears to have insufficient parking spaces, and some of those are off the narrow Leighton Pl. especially if a brewery is included. Operating hours of any entertainment and licensed premises should be strictly curtailed to reduce noise and traffic impacting on local streets and residents. I would hope re-consideration is given to any plan taking into account the above points. I think there is work yet to be done.

17/06/24	I am in complete agreement with the proposal to put a feature brewery/restaurant and other associated facilities on the site of the existing King Carnival. The King Carnival is an eyesore that needs replacing. Even if the existing lessee was given a long-term lease, I doubt if he has the resources to redevelop the site to something palatable. The Western foreshore and residents of Halls Head have waited a long time for a facility of this type. (we were all hoping the Sutton Farm development would proceed) Whilst it is not known officially who the feature brewery/restaurant is, what is known is the success of a similar brewery/restaurant on the Busselton foreshore. From the correspondence that I have received, the Port Mandurah Ratepayers Association has several objections. I believe their comments, regarding access to the site and traffic, need some consideration. However, I don't believe the impact, they are touting, is as bad as they make it out to be. The new Mandurah bridge with the additional lanes will most likely reduce the use of the Town Bridge. The majority of traffic bottlenecks on Mary Street occur in the morning, so would not be affected by a brewery/restaurant development. (My house's balcony overlooks the Mary Street roundabout). With regards to their question "No alcohol in the Park", the site in my view is sufficiently distant from the skate park and playground to be of no consequence. It should be noted that the Pipers Inn would be closer to the skate park and playground than the proposed development. It is my opinion that the Port Mandurah Ratepayers Association's position is caused by a "not in my backyard mentality", and is typical of organisations in this state that seem to maintain objections to anything new and exciting, rather than advance the state.
18/06/24	Regarding the Western Foreshore redevelopment, in my opinion a mini golf course will take the space away from the public and how many cars will be damaged and windscreens will be broken. We do not need an ugly fence to stop golf balls. A indoor mini go...
20/06/24	Both my wife and I, residents in Halls Head, fully support the council's progressive attitude to the continued development of facilities and attractions in our city. Our only concern with the proposed development is the need to upgrade the Mary Street roundabout and associated roads. In particular the entrance to the mini mall and Leighton Place are already a site of many near misses as folk come off the roundabout. Based on my empiric observations. (Admittedly a small sample) Space is tight so it's going to need some clever layout design to manage traffic at peak demand. I wish you well with that as I suspect that will be difficult and expensive to solve. Good luck and full support for the future.
20/06/2024	Relating to the proposed Licenced restaurant and microbrewery - I strongly object to the proposed licenced restaurant and microbrewery remaining in the plan and being allowed to proceed to construction and operation. I feel any licenced facility but particularly a microbrewery is entirely out of keeping for a precinct ultimately designed for families and recreation. I would be uncomfortable taking my 5 yr. old to any playground so close to a licenced brewery, where irresponsible patrons could easily accost young children in the area. I also believe irresponsible parents would be likely to leave their children unsupervised so they could "go have a drink", leading to safety issues for all involved. If a patron wishes to enjoy a lazy glass of something, there are already plenty of licensed places to visit in our wonderful city. To borrow a phrase from a younger person I know.. "if you can't find a place to enjoy a drink in Mandurah already, you're the problem". I would be willing to accept a cafe operating without a liquor licence (in any form) in that portion of the precinct. That compromise would allow a tenant to make money without introducing inappropriate alcohol-related bad behaviour into a family precinct. Relating to the proposed future tenancy by Shelter brewing Co - I feel the removal of the existing King Carnival site to allow a lease being granted to Shelter Brewing Co is a terrible blight on council/city of Mandurah and it's preservation of the area's history. The council's actions towards King Carnival, by the deliberate refusal of granting leases of over 6 months, is a terrible abuse of power. I am appalled that the city feels treating a ratepayer in this way is appropriate, after all it may be King Carnival today but if you accept this behaviour today then it could be any other ratepayer tomorrow. I am disgusted at council for deliberately denying King Carnival the opportunity to seek approvals and funding for upgrades to make the park a world class facility once again. The deliberate obfuscation of duty by council to protect a heritage venue, particularly the historic Ferris wheel, is against the wishes of the community at large and shows the contempt that Mayor Rhys Williams in particular has for the ratepayers and our community views. I feel so strongly about Mayor William's actions regarding King Carnival that I will not be voting for him or any councillor who supports the precinct plan in its current form and I will continue to actively encourage others in the community to refrain from voting for him either. King Carnival should be granted the opportunity to submit a proposal that sees them manage the proposed mini golf facility and keep any historic rides that can be safely upgraded to modern standards. This option will allow my son to ride on the same Ferris wheel his grandmother did in her childhood days, an experience that can not be replicated anywhere else in the city of Mandurah or surrounds. Our history matters and if ratepayers like myself must contribute to running the Museum, Halls Cottage and other historic venues, then we should be ensuring historical recreation facilities are granted the same level of respect and preservation. Please ensure my feedback is included in any/all of the submissions for the precinct plan and that I am notified by email of future updates related to this precinct plan.
18/06/2024	Seeking info on number of licenced premises in Mandurah.

24/06/24	I would like to express a big picture idea (which isn't impossible) in the foreseeable future for our local team and the Western foreshore joint collaboration with the new brewery that intends to open up in place of Kings Carnival. I believe this would be such a positive move to make for all parties involved and would strengthen the relationships in our community from the hospitality, sporting & recreational space. I understand a lot of backlash coming from the soon to be opening well renowned brewery from the community, but I know it will be a great asset for Mandurah. To ease the pressure, I feel it would be in great interest to build a partnership and be the new home for our very own rugby league club here in Mandurah (like most NRL clubs in QLD & NSW), with our field situated right on the western foreshore which is a fantastic way to activate the area. Our club has been located out the back of Dawesville sharing the AFL grounds for the past 5 years and have built up a strong family connection without direct line of sight to the public. I feel if we had our own identity in the heart of Mandurah and in plain sight for our community, we'd attract so much more attention in a positive way for our town! Obviously we'd have to speak with the brewery about their partnership but we'd need approval for the field out the front, which I honestly don't see why it would be an issue? I work closely with Indigenous elders such as George Walley & Elsie Ugle and have built mutual respect between our cultures, I work extensively within our community for headspace Mandurah & have the support from Lisa Munday in which she presented our boys with our limited edition Women in league jerseys & gave our boys a pre game speech before going out and defeating the Kalamunda Bulldogs in our very first home game of the season. Our team is tied for 1st place and eyeing the grand final for the 2024 season. This is huge not only for the sport but our community! As NRL is forever growing in WA and talks of Perth becoming the 18th team to join the actual NRL competition, we're looking at a completely new audience for our state in terms of players & fans. There is many suburbs around Perth already with Premiership teams competing and getting selected for the state team to compete with eastern states. Perth has talent and if we want to keep producing talent, we have to build it from the grass roots and keep breathing life into our club & community! Imagine if/when Mandurah Storm becomes the number one club here in Perth - the pathways this will open up for our youths future! Help us all unite, embrace the culture and really see how much of an impact this would have for our amazing town, Mandurah. Please take time to consider everything.
24/06/24	IN RELATION TO THE PROPOSED MAJOR LEASE CONTRACT WILL THE COM DISCLOSE PUBLICLY WHAT THE ANNUAL ROI RATEPAYER, COM REVENUES WILL RECEIVE FROM THE CONTRACT CORPORATION? ALSO DISCLOSE HOW ANNUAL INCREASES WILL BE DETERMINED? AS THE COM HAS PROPOSED MILLIONS OF RATEPAYER FUNDS TO REDEVELOP THE WESTERN FORESHORE AREA FOR NEW ROADS, NEW EXTENDED PARKING, INCLUDING RELATED INFRASTRUCTURE THAT WILL LARGELY BENEFIT THE OPERATIONS OF THE MAJOR LEASE CONTRACTOR IS THERE ANY PROPOSAL IN THE LEASE CONTRACT FOR THE MAJOR CORPORATE BENEFICIARY TO ENGAGE IN MUTUAL OBLIGATION TO CONTRIBUTE TO THE NEW ROADS, NEW EXTENDED PARKING AND RELATED INFRASTRUCTURE? IF YES, HOW MUCH IN TOTAL AND IN FUTURE REGARDING THE LIKELY NECESSARY MAINTENANCE? THE ABOVE QUESTIONS ARE QUITE RELEVANT, VALID FOR ALL RATEPAYERS TO BE INFORMED PUBLICLY VIA THE MANDURAH TIMES ASAP WEEKS PRIOR TO THE COM FINAL DECISION ON THE CORPORATE LEASE CONTRACT PROPOSAL. THE LATTER WILL MEAN COM COMPLIANCE WITH ITS TRANSPARENCY, ACCOUNTABILITY POLICY FOR RATEPAYERS TO BE FULLY INFORMED CONCERNING SUCH A SUBSTANTIAL AREA REDEVELOPMENT REPORTED IN THE This message was sent from outside of City of Mandurah. Please do not click links or open attachments unless you recognise the source of this email and know the content is safe. Version: 1, Version Date: 22/07/2024 Document Set ID: 6478660 MANDURAH TIMES AS COSTING \$23 MILLION. ie AN EXAMPLE OF GOVERNMENT SOCIALISING PROPERTY DEVELOPMENT COSTS AND PRIVATISING COMPANY, CORPORATE INCOME, PROFITS. "Most government is by the rich for the rich. Government comprises a large part of the organized injustice in any society, ancient or modern." (Adam Smith) "Whenever you possibly can, do good to those who need it." (Proverbs 3:7) LOOKING FORWARD TO YOUR PRECISE, CREDIBLE RESPONSE ASAP.
20/06/24	Will the directors of Left Coast Leisure Group be providing bank or personal guarantees? Why not present value? What outgoings will the subleases be paying. Where is the draft lease to be perused by ratepayers. Where are you obtaining the comparable rents from. How are you going to comply with 3.59 (3) (c) of the act? Why have market rent reviews every five years and not every alternative year with CPI every other year? The lease terms seem to be overly generous in respect of the sublessee and terms and rent are too complicated. Which solicitor is preparing the lease (subleasees or the City). Will they pay stamp duty (the sublessee) on the lease?
3/07/2024	I am a Mandurah resident of 22 years and have loved living here. I declare I have no vested interests in the project and just wish to continue my happy and peaceful retirement. I have studied the plans for our beautiful Western foreshore and cannot believe what is being proposed. I wish to make the following points based on a bit of common sense. First, to build a huge brewery/restaurant so close to our sacred war memorial is, to my mind and all residents that I have spoken with, totally inappropriate and disrespectful. The trees that will have to be removed to build this monstrosity in this day and age where climate change is a high priority, is absolutely unbelievable. The city already has numerous licensed premises in close proximity to this proposed brewery/restaurant, many of which are struggling to be profitable. I personally can't understand why the owners of this proposed 650 seat brewery /restaurant would see it as a profitable venture when currently, across the country, similar premises are having to close. I think a modest café would be beneficial to the "family vibe" of the area. I think the one entry/one exit design of the road could easily produce traffic congestion at the adjacent roundabout. I trust the above comments will be taken on board by the planners

7/07/2024	My wife and I have been permanent residents of Mandurah since the year 2000,prior to that,we had a holiday home in Murray Lakes from about 1987,so we have been a regular to Mandurah for many years and have loved the place,seeing it grow from a sleepy fishing and holiday destination to what it is today,a thriving, beautiful place to live out our lives in our retirement. We both think the council has done a marvellous job in making Mandurah even better than it was some years ago and we hope for even more improvements over the years to come. There is one thing I would like to comment on and I feel quite strongly about it.It is the planned decision to allow a micro brewery and restaurant to be given a 25 year lease on the western foreshore.We do not need another alcoholic outlet and food outlet in this location.We have an over supply of pubs,bars and breweries in Mandurah and the same goes for cafe's,restaurants and fast-food outlets.I cannot see how another drinking/food supplier adds anything to a leisure precinct that is aimed at kids and families. I am very sorry to see how the owner of the fun fair(carnival) has been treated after such a long association with Mandurah,who knows what he could have contributed to the town if he had been allowed to continue business on this site with a promise to spend millions of his own money to upgrade the rides and amusement equipment.I think at least Mr Miller should have been given the option of an alternative site for his business to continue or a much longer lease.Any upgrade to the fair would compliment the leisure park and not degrade it like a micro brewery would.The council has,or will,close down one business in favour of another and let's face it,we need a strong tourist industry and we need them to come with their children,not just to eat and drink but to find other things to do to entertain themselves.Mandurah is a unique place and we need to continue to bring visitors in,let's make it more unique with a real fun park similar to those in Queensland or elsewhere, complete with a fun fair,PLEASE,no more drinking/food places,we have more than enough, as demonstrated by how many have closed over the last year or two. Please re-think,as, if it turns out to be a failure,you know who will get the blame,don't you?
7/07/2024	I am a resident in Wannanup who happens to be the daughter of [redacted] and sister to [redacted] who are directors of known architectural company in Perth [redacted]. [redacted] actually was involved in one of the first iconic buildings in Mandurah The Redmanna and the Port Bouvard island development as well as The Cut golf course. [redacted] has designed Oceanique apartments, Mandurah Ocean Marina apartments and many other private residential properties in Mandurah. Myself and my family are so excited for this potential in Mandurah central to benefit with additional tourism opportunities. Having had lived in many cities nationally myself, I would be greatly impressed if Mandurah could combine qualities found especially from Queensland. Please consider this proposal and refer to the image attached:(*note I have collaborated photos of buildings in Mandurah to demonstrate the potential design, this is concept only. If you are interested in the idea, I am sure I can arrange an architect to draw a design to scale for your consideration.)A luxury hotel with a rooftop pool for guest use only, however a rooftop bar with retractable glass ceiling accessibility to the public, as like the hotel in Brisbane Southbank - The Emporium Southbank is continually lively and profitable for many businesses. Restaurants, shops, sunday markets, ice creameries, art galleries and ferries. It also has a water play area for younger children with lifeguards on watch and a man made beach for all travellers, available all year round making it a thriving area. I feel that Mandurah can benefit immensely with drawing in the public to this precinct. In addition, as a mother of young children I naturally have spoken with many parents who agree that travelling to Port Kennedy, Rockingham and Fremantle is too far to take the kids for birthday events to Strike ten pin bowling, lazer tag indoor mini golf and video game arcades. It would be fabulous to have incorporated into the development facilities for family fun days. I personally believe that the youth should have opportunities closer to home. This in tune would bring the public to the area and explore the restaurants and shops etc. I have seen the current proposal for a brewery and by looking at the attached image, I feel It's lacking the attraction of utilising the north sunshine seating area overlooking the water. Also the waters edge should have floating jetties accessible for all the boats to dock up onto as like The boundary in Erskine and Dolphin Quays. I believe strongly that Mandurah can be the number 1 place to visit in Perth ! It's just growing better and better and I love living here in paradise watching it beautifully blossom. Thankyou for renewing Smart Street and the surrounding round swimming area foreshore and the skate park bringing families and friends together and creating memories in our home town. I am excited to hear what your thoughts are.
7/07/2024	I am a resident of Mandurah and rate-payer (for 38 years) living in Halls Head on Finistere Island Retreat. I am now very concerned having read in detail issues regarding the Western Foreshore Plan – most importantly regarding traffic issues/jams, loss of beautiful trees and grassed areas around the skate park etc. All the parking areas will take away the rights of families to enjoy time at the park with children, dogs, shady trees etc. Currently it is difficult every morning and evening getting out of our street onto Mary Street. Development of a Brewery etc. etc. will only cause bottle-necks of a higher magnitude. Initially I did register my support online, but I am not able to retract it having taken time to re-think the issue. Your website does not allow retraction/change of mind. Hence by virtue of this message I would like my earlier comments and support (on-line) REMOVED from your tally of supporters. My Husband and I FIRMLY DO NOT support this proposal.

9/07/2024	Proposed Use Western Foreshore - Existing King Carnival Site - We the undersigned wish to register our strong objection to the proposed redevelopment of the King Carnival Site as a brewery/liquor outlet. We believe that the location of this proposed retail liquor outlet is absolutely inappropriate, and Crown land designated for Recreation should not be utilised for this type of use. Our objections are based on the following: 1 The land, as we understand, is Crown Land vested for the purpose of Recreation. Therefore, a use of the type currently in existence would be infinitely more compatible to that of a Brewery/Liquor outlet. 2 The proposed development is located immediately North of the newly developed children's. playground and a skatepark which also attracts young people. It is therefore irresponsible of the Council to entertain the development of a liquor outlet adjacent to these recreational facilities for young people. 3 Mandurah City centre has many licenced restaurants and liquor outlets and if a developer considers that it is viable to establish another in the CBD, then they should seek out zoned freehold land on which to compete with the other similar businesses. 4 The Mayor is quoted as saying that <i>"the location was one of the most significant in the city"</i>~ We agree that it is a valuable site, but it deserves better than to be utilised for the purpose proposed. 5 We are of the opinion that King Carnival is in need of modernisation to bring it to a standard befitting of the location and the City's status, but that use of the land is entirely consistent with the vesting of the land. An updated version would provide an excellent amenity consistent with Mandurah's reputation as a top tourist destination. 6 The Council provides many facilities for its residents and visitors at a cost to the ratepayers in general and are provided for the 'general benefit' of the community. It is therefore appropriate that the Council consider that the lease rental to be derived from this asset should not be the only compelling factor in its considerations. Recent press articles indicate that negotiations with the preferred tenderer are still ongoing, but once completed, the decision will be final. The Council's communication with its ratepayers on this issue can hardly be described as 'open and transparent' and it appears that once negotiations are finalised it will be a fait accompli. We therefore implore Council to reconsider its options for the use of this parcel of Crown Land and dismiss the proposal to develop a brewery/liquor outlet in <i>favour</i> of the continuation of a use consistent with the 'fun park' but in a form that is modernised and contemporary in its design, appearance and operation. Submission -Waterways Waterfront Master Plan. We, as long term residents of Mandurah, wish to make this submission to Council in regard to the proposals outlined in the Waterways Waterfront Master Plan. Firstly, we are staggered at the statement in the Master Plan article that reads as follows "*Please note that this consultation process is not about the Western Foreshore commercial space. The commercial development area is a different project and consultation will commence at a later date. Notification will be given via media and other communications once consultation on this project is open." How can the public be asked to make comments on the proposals for the area under consideration, but exclude an area on the Western Foreshore that will materially affect the planning of the remainder of the plan, certainly the Western Foreshore area? The King Carnival site is a key component in the Western Foreshore area and therefore the planning of this site should work hand in glove with the planning of the remainder of the area. That said, we have previously placed before you as CEO and the Councillors, the views that my wife and I hold in relationship to the King Carnival site and those comments remain the same and we ask that they be taken as part of this submission. As direct comments relating to the Waterways Waterfront Master Plan, we offer the following:- 1. Mandjar Bay a) The proposals presented are generally supported but we question what "short term berthing" means in relationship to the new jetty structures in the Bay. We believe that it should mean that vessels can berth for periods of hours, not overnight or days on end. b) The Boardwalk around Stingray Point and into Mandjar Bay area is supported. c) The Plan makes no comment or proposal in relation to vehicle parking and there is no doubt that the developments stemming from this Plan will create more vehicular traffic. 2. Western Foreshore a) There is a notation adjacent to the Northwestern corner of the traffic bridge plan saying "Over water commercial opportunities." This broad statement is not supported in the absence of any description of the area involved, exact location or type of commercial opportunities. b) The proposal to instal rock groynes along the Western Foreshore is supported as it is important to retain the existing foreshore alignment for the future. The installation of a limestone retaining wall along the beachfront should only be considered if the limestone groynes are not successful in retaining the existing shoreline. A natural beachfront backed with lawn is more attractive and accessible to all users. c) The proposal to construct a Boardwalk along the foreshore is not supported as we believe a meandering concrete path is much more serviceable and can be accessed on or off wherever people wish. Other examples of elevated boardwalks that we have seen gather litter under them and if not maintained properly become dangerous to pedestrians. If inundation is a concern, then the path should be placed further back from the waterline. d) We believe that the area adjacent to the shoreline and shown green on the plan, presumably tawnd areas, should be retained and where possible extended to provide picnic and recreation areas for families. e) A reconfigured swimming pontoon area is supported. f) Our thoughts on the 'Development Site' have been previously forwarded to Council and should be considered along with this submission. <i>Copy Attached</i>. g) The proposed 'Modular Jetty' is supported, however this should not be allowed to grow into proportions that impinge on the boating access along the waterway h) We also believe that there should be a similar modular boating jetty installed on the North side of the canal entrance, ie out from Sutton Grove. This area of the bay is reasonably shallow and is protected from major boating through traffic. It lends itself to slow boat movements and would allow access to Sutton Grove from the waterway itself. i) The remainder of the Western Foreshore reserve should remain as a large open lawned area and be made available for itinerant visiting attractions, general open space and occasional recreational activities requiring larger open areas. j) The plan makes no comment on vehicle parking and undoubtedly the plans for the Western Foreshore area will generate far more vehicular traffic than at present. In conclusion, we do not believe it appropriate for the Council to make a decision on the Waterways Waterfront Master Plan without the inclusion of the King Carnival site, as the decision in relation to that site could severely impact on the remaining areas in the Plan. We request that Council members consider these comments seriously when this matter comes before them.
12/07/2024	Firstly, one thing that is noticeable in Mandurah is that there's plenty of fun family activities for those with young children and we have many drinking sites already. There isn't a lot for teenagers (not everyone skates), young people or general recreational venues for multiple ages. I believe looking at well utilised and established entertainment venues such as (example) Carousel, upper level, might be a good model to work towards. There is Holey Moley, bowls, a small bar, Timezone, and small eateries . This seems to be an all inclusive option and works well. It would seem a terrible waste of an opportunity to provide an inclusive entertainment precinct if only a brewery was the main attraction, as rumour has it. Thank you for this opportunity to share my thoughts, which on discussion with many people, seems to be what people would like to see.

11/07/2024	Water splash playground like geraldton and other regional areas. Floating water park. Permanent shelters for night market stalls. Mono rail around foreshore. Huge outdoor cinema with bean bags etc Concert music shell
11/07/2024	I wish to add that as a grandmother of a 9yr old boy with Autisim I wish to ask that there are some safe areas for him and those like him are given protected ares. ie. Many living with Autism have a fear of crowds so some space should be considered. Problems arise due to social interactions and fear. They can become so distressed they have to run and escape their surroundings. My daughter has been bringing her son to Mandurah since a baby. They have enjoyed Bliw up Kayaks on the protected water, very little crowding at these times. My concern is that with the new planned entertainment, will this include a safe place for him? I am supportive if all that is planned and just want to know that yiu have truly given planning and consideration to all with Special Needs.
12/07/2024	We don't believe we need another pub or brewery in this area. Casual dining, quick coffees, easy parking, sheltered areas for both summer & winter use. BBQ & picnic tables & TOILETS. Nice path for walking & wheelchair friendly. Thanks for the opportunity.
12/07/2024	As a rate payer a member of our community who has been very involved the last few years I the community is wondering your thinking in the new plans? We have a few issues already on the foreshore which mainly stems from alcohol and substance abuse. We also have issues with board teenagers in our community. We also have businesses that already offer a huge variety of alcohol and tasty food. So why as a wonderful town aren't we offering something else something for everyone? Let's face it who doesn't like a bit of competition with friends and family if fun things like mini golf ,bowling, roller skating and arcade games. Why should we all have to travel places to do these fun things when we pay a lot in our rates. Why not create something amazing that can be used all year round that is family friendly and a great day out for the whole family? If you look at the holey moley franchise and how great that is and it is always busy. Please check the Facebook post and feedback from the whole community I think this would be a way better idea than yet another drinking place. But I also want to say the new jetty's and things sound like an awesome idea for families too. I also loved the outdoor movies that happened a while ago but definitely need more toilets in that area and the skate park ones get disgusting which is a shame. Maybe looking into improving that not sure how but would be great even if we could possibly get some self cleaning toilets they have a few in Kalgoorlie and they work well. Thank you for taking the time to read this I hope it is taken into consideration.
15/07/2024	We object to the proposed Mandurah Western Foreshore Brewery concept and believe it would be much better suited on or near the Eastern Foreshore, where the existing parking, public transport, road system, Jetties and commercial zoning would support the viability of the venture. This would in turn, provide a boost to and feed off of existing commercial ventures. There is an abundance of vacant land available that needs to be infilled before expanding the CBD, of which some Lots will support the zoning or COM have already shown (for this development) a willingness to change if necessary. The western foreshore has long been zoned and managed as a recreational area for family friendly activities, and has become the focus of annual or monthly events such as sporting, cultural/ enthusiast show cases, Xmas and Anzac events. The area also has important Aboriginal, Historical and environmental values that need to be protected and managed. The infrastructure required to support the Western Foreshore development the City of Mandurah (COM) are proposing would put pressure on an already fragile river and foreshore, local traffic congestion, anti social behavior and we fear the cost of addressing these issues would far outweigh any benefits of the proposed development. If the news reports regarding the peppercorn lease are accurate, the rate payers will ultimately be paying for the venture. Moreover, how does the COM expect to encourage further commercial investment/ ventures to the City Centre, when one proponent can be granted prime river front area at minimal rent, without the zoning and infrastructure obligations that other businesses have to pay. Preferential treatment of particular commercial interests is a sign of bad governance. The proposed business types ie Brewery, chocolate factory and amusement park are proving unsustainable in the current economic climate, with a number of (breweries, chocolate factories and amusement parks) having to close their doors: have the COM factored in a contingency plan in the event of business failure, or are the ratepayers expected to foot the bill for the repurpose and refit as well. In short, the information provided to the public thus far on this commercial proposal has not addressed the basic financial, infrastructural and compliance issues to fully inform the public of the benefits and cost to the local community. This begs the question of how diligently this business concept was considered prior to its announcement. As stated at the out set, the Brewery/Chocolate Factory/Amusement Park would be a welcome addition to the Eastern Foreshore. However, the concept is ill conceived for the Western Foreshore.

16/07/2024	I would like to put forward my thoughts on the proposed brewery development on the Western Foreshore in Halls Head. Mandurah has a stigma in the media/news for its crime and social problems, and I feel providing more and more drinking establishments in the town will only increase our problems. Youth and young adults don't need more places to obtain alcohol and drugs in order to curb their boredom. Keep the drinking establishments to the town centre, and keep the western foreshore for family entertainment. Please don't bring another drinking establishment to that area of town. I find it quite hypocritical to put a drinking establishment next door to a childrens playground. Family daycare centres have to fight tooth and nail to get their businesses up and running if they are within close proximity of a drinking establishment, yet the council has decided in their wisdom to put a brewery next to a children's playground. Paedophile heaven! Hall Park has always been an area for families, and holds many events there for all the public to enjoy. I imagine that the public would lose some of this green area for parking and the development of the brewery, so many people of all ages will miss out. Not forgetting that these very people are those who are tax and rate payers. If we walk a dog on the green area by the War Memorial, we can incur an on the spot fine. Do you not think drunken larrikins falling out of a brewery on a weekend would not cause more vandalism to the sacred site than a dog? The rubbish, vandalism, public urination it goes on. I understand we need to develop the site, but why not continue in the vein that is already there. The fun fair is iconic to Mandurah as is the ferris wheel, but yes, it needs updating. We need places to entertain our middle youth and young adults. Some suggestions are: Keep the mini golf Replace the ferris wheel with one similar to the size in Fremantle. Have closed in capsules to sit in, so it can be used in all weathers. Have a recording that people can switch on/off as required that gives them the history of Mandurah and the story of our indigenous people of the area. Put in a bowling alley Have a games area extra large chess game, other interactive games where they can use their imagination and burn off boredom and frustration without it costing an arm and a leg A museum area dedication to the history and development of the Peel region And yes ... a café/restaurant where parents can relax whilst their children enjoy themselves, or for all ages to enjoy a lunch. Surely there are better ways to develop this land than a brewery.
16/07/2024	Whatever plans are in place for the Western Foreshore, I trust that sufficient thought will be put into "suitable" toilets! I am not happy about more liquor outlets but will trust the rest of the redevelopment will be an asset to the city. I took three great grand children to the Winter Maze on the eastern foreshore (which was well received by the children aged 6 to 12), BUT the new, 4 only, toilets were a disgrace and totally inadequate even early in the mid morning, blocked with overflowing paper! The fact the Council put on a free family event was commendable but obviously no-one thought about the numbers of children who would attend.
18/07/2024	I am emailing to ask if my feedback regarding the installation of a Jetty Hoist for the disabled and elderly has been included for the Western Foreshore Leisure Precinct Plan. Please see my email below that I sent to Council on June 11th, 2024. My name is [REDACTED], I am soon to be 85, and have lived 48 years in Mandurah, was a Community Development Officer for 13 years and a Councillor for 3 years, and am a life member of Mandurah Netball Association. I have brought to Council's attention for the past 4 years the need for access for the disabled and elderly into boats (eg. family members boats). In the 4 years of being in contact with Mandurah City Council staff who have been kind and co-operative but so far to no avail. Information shown is the only access by boat for disabled or elderly would be a hoist. I met with Fiona and Bonny 3 weeks ago and received encouraging information regarding a hoist which will take a lot of management but good management will see the access hoist possible, taking into consideration insurance costs and probability of vandalism. Mandurah's waterways are beautiful and it is very disappointing for the disabled and elderly person's not to be able to enjoy them with family on their family's boats. This is a request for the community. I trust you will take this request for the community seriously and I look forward to your decision that we will all no matter age or disability be able to enjoy Mandurah's beautiful waterways with our family's.

19/07/2024	It is fantastic that the foreshore is getting a face lift, however the last thing Mandurah needs is another brewery/liquor outlet, the reason being: a. There are enough of them in the Mandurah area. b. It would impact on the current businesses.c. Something more family orientated like fun park or water park with what is already planned. A liquor outlet is not a good choice.
19/07/2024	After studying the Indicative Proposed commercial Site Plan and having conversations with many concerned Mandurah Residents I am presenting this petition on their behalf. For many, trying to navigate their way into the Mandurah Matters website or survey was a challenge! Please take time to read the Issues that people are concerned about: 1. The vision was for the Western Foreshore to always remain a Family Friendly venue. This area including King Carnival is the iconic part of Mandurah and people really want to see it remain but upgraded offering a Family Friendly cafe/Ice Cream Parlour and Amusements for children and families. Looking at the plan on offer we question why an established mini golf complex situated in a semi shaded area should be demolished along with established trees and shrubbery then another one built in an unshaded area. Playing mini golf in full sun on hot summer days does not seem like a wise idea. There seems to be very little else such as an amusement arcade or other family activities included in the proposed plan. 2.The construction of a 650 Restaurant/Brewery on the commercial site next to our beautiful War Memorial is totally inappropriate . Business hours planned are very long, open 14 hours daily. This is a very bad proposal for the Western Foreshore. This should always remain a passive area. 3. Mandurah already has many licensed eating venues along the Eastern Foreshore. Several are struggling to survive. National news last week was stating Craft Breweries were closing down all over Australia. Does Mandurah Council want to risk a 25 year lease on such an unsuitable proposition? Please - Look after our local businesses in these difficult economic times. Your first priority is to your residents of Mandurah. 4. As this is a family friendly area NO CHILD needs a huge licensed building for them to have a happy, active experience on the Western Foreshore. The Open Space as it is now can be used in so many ways. The big grassed area is ideal for POP-UP Events There is no need to make many changes. Please DO Not remove all these boundary trees for car parking. Owners of any construction on the commercial site should be responsible for their own parking within the site and not expect the council to bulldoze trees to add parking spaces. 5. This is a residential area. The access road to residences, Halls cottage and the Precinct is very close to a busy roundabout and is NOT suitable for a large amounts of traffic movement. It is disturbing to hear in conversations that canal residents are considering to boycott the Christmas light displays. This could be a major blow to what is a Mandurah Tourist attraction. Ratepayers are in disbelief as to what is happening to Stage 2 on the Eastern Foreshore. So much of what people enjoyed about it has been obliterated. Money has been wasted as infrastructure is built then removed. People are not convinced there has been great improvements shown after Stage 1. We sincerely ask council to take time when moving ahead with the plans for the Western Foreshore. It is a lovely spot as it is. Please Listen to the Ratepayers. Keep something iconic in Mandurah. We feel that the Mandurah we have all enjoyed for so long is disappearing very quickly. We won a Tourism Award. WHY would you make all these changes is the question being asked? We live in Mandurah and do not need to copy any Town or District. Let us keep our own Identity and enjoy what we have. Yes the council should plan wisely to Upgrade but do not destroy this area. On a positive note it is good to see the shoreline footpath is to be upgraded. This really should be a priority. Hopefully this can be done sooner rather than later. Parts of it desperately needs repair. One last question - What is Pickleball?
20/07/2024	I would like to place a formal objection to the City of Mandurah’s proposal to substantially expand the commercial activities in Hall Park through the excision of nearshore Class A Crown Land in Hall Park. Since my childhood I have loved the Mandurah lifestyle, I was a local GP immediately prior to my becoming the Member of the House of Representatives for the Dawesville Electorate, in which Hall Park is one of the most significant community reserves. In my twelve years representing the electorate I actively participated with the City of Mandurah in many exciting community projects and in my role as Deputy Premier and Minister for Tourism have always encouraged the significant part that the City has played in attracting tourism as well as fighting for the new Town Bridge. I have studied the City’s Master Plan and evaluated the “Western Foreshore Leisure Precinct” design including the cited plans for upgrades to car parking, the War Memorial, shared paths, lighting, and landscaping improvements, recreation and event activation and public jetty installation. Few would disagree that King Carnival may have become out-dated and some discussion of its future is overdue. However, the plans for a 650-seat Multi-storey Brewery/Restaurant are not compatible with the excellent family-friendly facilities that have been developed since the new Bridge was completed. There is clearly no evidence in the provided documentation that this proposal has understood that the new bridge roundabout and the access to Hall Park is not coping now and will become a major traffic headache should this proposal proceed. The requirement of well over 200 additional car parking bays can only exacerbate this congestion and decimate the greenspace of the park. The focus of the City has been to “revitalise” the CBD and significant expenditure has contributed to the style of development that is appropriate for the Eastern Foreshore, it seems incongruous to consider such a development on the Western Foreshore. My children and grandchildren are users of the activity-focussed Western Foreshore and its safe swimming area, and this should be the focus of the majority of the land released with the expiry of the King Carnival lease. My years in Parliament taught me to listen very carefully to the community and I hope that in this situation the City will listen to those who have made Mandurah and Halls Head their home. It is these people who overwhelmingly reject plans for this “Major Land Transaction and Disposal” that will forever deny free public access to the best park within the City Precinct [redacted]

20/07/2024	I do not agree with the plan to have a brewery on a site that is supposed to be for families to enjoy as a fun area. Why have alcohol sales in an area designated for families. Why not include something like a skating rink or a climbing centre. There are already several breweries in our community and yes they are very popular. They can be popular in an area where there are not going to be many children trying to enjoy themselves. Please ensure that our city becomes known as being forward thinking and concerns itself with families first. Family fun does not mean taking your children to an area where you are likely to see someone who has overindulged and making a nuisance of themselves in front of young children. Please add my name to the list of those who disagree with a brewery in a family designated area.
19/07/2024	Emphasis needs to be on non-alcoholic venues where family and elders can enjoy and participate, there are more than enough establishments offering alcohol and drinking venues. Focus needs to be on the natural beauty of the area and preserving the existing open space for future generations.
19/07/2024	My family use the area in Mandurah in between the Anzac Park and the bridge frequently. My husband roller blades and I ride my electric bike around the area. We also have a small dog that we exercise in the large grassed areas there. I would like to see the grassed areas retained for circuses and happenings. I would like to see the commercial area designed for family use and not for the sale of alcohol. I do have a safety concern with the proposed consruction of jetts, the current of the river is strong there.
21/07/2024	Public anger over this plan including the engagement of the Shelter Brewery is overwhelming. Councillors would be wise to dump it. Listen to your ratepayers, not the pushers.
21/07/2024	Whilst I have already expressed some of my views, via Mandurah Matters, I find that using that resource limits the ability to express your views adequately and limits the responder to trying to answer the questions presented only and not take a holistic approach to the entire matter at hand. In my opinion, it also preys on the fact that many people will not take the time to actually go and use that forum or to send an email, potential creating a biased and non-representative view from responses that do not adequately represent the views of the council, but allows the council to tick the relevant boxes and state that they consulted with the community. In a nutshell, it is my belief that there was not adequate due process in the decision making that led to the creation of the criteria for what could be proposed. This has resulted in submissions, whilst potentially satisfying the criteria, does not meet the needs of the community and visitors adequately, in my opinion. We are potentially allowing a class 'A' reserve to become a place where adults can meet whilst their kids play with little or no involvement from their parents/and or other adult family members and this will be considered to be family interaction. There is a great deal of scientific research, such as Thomas, Lui, Umberson, ,2017, that supports the benefits of strong family bonds. The long term negative impacts of this will that this could become the norm of how future generations, thinks family relationships could be and the children of today, who become the adults of tomorrow, will perpetuate this as family interaction, leading to less social cohesion in family units, increased negative social, physical, intellectual and emotional impacts adding increased costs to the community in anti-social behaviour, increased health costs all for the sake of some economic benefits now. As the Council is also a member of the community, I believe we can and should do better for not only now but for future generations as well. We could make something we can be very proud which will have positive impacts for generations and have long term socio-economic benefits or we can sacrifice long term benefits for short term economic gains and long term social, physical and economic costs. The choice is in your hands.
21/07/2024	Western foreshore leisure precinct commercial site business plan vote no
21/07/2024	I'd like to take the opportunity to email you directly about the development proposal mentioned above. I have lived in Mandurah for the majority of my life since arriving there as a toddler in late 1978. So I've seen the growth and many changes over the decades. I love my beautiful hometown of Mandurah but I now live in Waroona. Mandurah is still a HUGE part of my life. I still frequent Mandurah often for work and the majority of my family still reside in Mandurah. When I grew up in Mandurah, as teenagers we had so much to do. We had all of the following; Mandurah Skate Arena Ten Pin Bowling The Castle Fun Park The King Carnival The Western Rosella Bird Park, and the Mandurah Drive-In. So now the King Carnival is the last of those iconic places remaining! Why not give them a 20 year lease to upgrade and stay a part of Mandurah's history? Maybe you could restore the wishing well there too. How good would that be for Mandurah's history? I think the long-term locals would love that. It saddens me that Mandurah has nothing like this left for our youth I know I'm just a minority but I hope my letter is listened to. Many thanks. Kind regards, [redacted]
22/07/2024	Dear Sirs or Ms regarding the above I cannot understand why you have to destroy the area that is already there. The grassed area is suitable for families to enjoy with their children. So why rip it up and make it smaller. I would like to think that business of any kind has a finger in the cookie jar.

22/07/2024	PROPOSED BREWERYI wish to formally oppose the establishment of a brewery on the Western foreshore of the Mandurah Estuary for the following reasons. While the brewery may attract more day visitors to Mandurah it will be to the detriment of the established businesses in the Mandurah town site. These visitors patronising the brewery will more than likely spend all or most of their visit within the confines of this establishment and the adjacent Chocolate Factory and in fact take business from the established businesses within the town site. Mandurah already has more than enough of liqueur outlets including an existing brewery and I may mention the nightclub in the Smart Street Mall which in itself contributes to the unpleasant atmosphere of the Mall, the unruly actions of the intoxicated patrons that fight and urinate in this area create an unpleasant surround for the small businesses within this area. There is a strong possibility that the brewery will due to location attract many of these less than desirable cliental. It is an established fact that liqueur is a contributing factor to domestic violence which has escalated in recent times, plus we are all well aware of the road deaths and injuries caused by drink drivers. By voting to approve the establishment of this brewery which you say will attract more visitors to Mandurah, is to put more intoxicate drivers on the road to destinations outside of the Mandurah area. I strongly object to the brewery being given a \$1 per annum lease fee for two years. This is a commercial enterprise and should not be given any concession or advantage over any other established business in Mandurah or surrounding areas. Also of interest is the fact that a number of established breweries have recently been placed in the hands of Administrators. Now we come to “Kings Carnival”. We are talking about an icon which has graced the Western Foreshore for decades providing clean entertainment for children of all ages; you don’t see arguments, fighting and obscene language. What you see is laughter, joy and the faces of happy parents witnessing the pleasures the carnival provides for their children. I ask you; where else in Western Australia would you find a fun carnival in the heart of the city? I could agree that the carnival requires an upgrade and that may be a condition within the terms of a lease renewal.“PLEASE KEEP THE CARNIVAL”Lastly, it is with due respect that I would remind our elected councillors that they are elected by the rate payers of the City of Mandurah and their responsibilities lay in providing a service primarily to these people and not to those that are just visiting. I suggest we keep the Carnival, keep the parkland which could be upgraded to an exhibition area to attract business, machinery, club, motor shows etc. I trust these comments will receive consideration into the future use of the Western Estuary Foreshore. [redacted]
22/07/2024	My strongest advice is to leave this very sacred site as it is. We can never get it back once gone. It is our only HYDE PARK in the centre of out City. I EMPHASISE A REFERENDUM IS REQUIRED TO ENDURE EVERY RATEPAYER has a voice. The Mandurah Matters is too difficult for the majority and in my case it says I can't use my e-mail address because it has been used. This reserve an A CLASS RESERVE now and should remain so. Next we will have high rise like the Gold Coast as money will determine its use such as what's happening now. It costs nothing to defer this matter so why try to bulldoze it thru. Someone is I fir a win here and it's not our ratepayers whose public open space is being taken away. You cannot get it back. Pretty plans are a sales pitch not a answer to fix something that's far from broken but enjoyed by many who come to pay their respects to those who lost their lives in many wars and our skatepark to whom families come in safety without fear of a alcoholic situation being adjacent- where their are 5 in that area already. High rise is permitted in Mandurah Terrace so with the increase in people living in the CBD we need to ensure the traffic flows. It is already from 3pm on sholl Street a build up od 800 metres of traffic heading to the lights on Pinjarra Road. Sort these things out now and put money and energies into these items which is more important than building on the Western Foreshore. Answer this please : If this isn't being bulldozed thru why can't we have a referendum. This is Councils chance to save our Western Foreshore ..lose this and our major town asset is gone.Regards[redacted]

23/07/2024

The Western Foreshore Restaurant/brewery Development I would like to add my thoughts regarding the proposal for the proposed development on the western foreshore. IE Restaurant and Brewery. I would submit the following points. During the AGM of the Port Mandurah Ratepayers Assoc earlier this month, the Mandurah Council's CEO stated that to- date, NO traffic management assessment had yet been undertaken for this proposal. It assessment to be carried out at a later date once the proposal has been approved. This comment highlights a major flaw in the planning process of this proposal, and goes in the face of any normal commercial decision making processes that should be employed. How can a proposal of any kind be considered until after all the areas the said proposal will effect, and through researched completed. An obvious part of this is traffic management, conflict with other users in the area, along with parking before any preference is given to any of the proposals. Yet the Council has progressed in deciding which proposal is to be given the go ahead without this information. This makes any Council's decisions highly flawed. On this basis alone, I would have to oppose this proposal. Additionally Council has not been open and transparent to the Ratepayers of Mandurah on what other proposals were submitted for this development and what were the brief for those guidelines. Why not? I note the Council has asked for input from Ratepayers about the Restaurant /Brewery proposal, ie Improvements to the proposal, but are not asking if Ratepayers approval of actual development. This suggests something else is at play in this matter. Again, another Red Flag to this proposal as we are not given the full picture. I noted in the July 20th Mandurah Times, an article reporting the findings of research commissioned by the Mandurah Council by the Painted Dog Research , reported the attractions that bring visitors to the Mandurah area were " Mandurah's natural attraction of beaches, dolphins, the estuary, national parks, family friendly options, range of things to do and places to go. I would suggest that having a brewery/ restaurant added to the Western Foreshore does not fit with what was found in this research. In fact, I would suggest Councils proposal flies in the face of the very research they , themselves undertook. .Also, in the same edition of the Mandurah Times, was a story by Ben O'Shea reporting on the problems of Overtourism in cities across the world. It focused on Barcelona and Japan and the social issues this causes. It concerns me that Mandurah Council's push for continued increase of tourism will result in similar issues occurring here , destroying the very environment that makes people want to live here. It is all well and good having high numbers of day trippers, but we, the Ratepayers must be considered as we live here . Surely our quality of life should be considered. Do we want another Gold Coast type environment in Mandurah. I for one don't want that. I came here to live due to the life style that was present at that time. My family settled here because of that lifestyle. If I wanted a Gold Coast type of life, I would have gone and lived in the Gold Coast.The proposal of the Restaurant/Brewery will require a larger parcel of land to be utilised than what is used now. Therefore this needs to be taken from Class A reserve. This action, if it goes ahead, will set a precedent, which will then allow the entire reserve to be taken up for Commercial purposes. We see this happening in Kings Park with overnight stay accommodation led by the Labor State Government. If this occurs, a precedence is made, which will used to allow further development on this reserve. If we give 1 commercial endeavour access to an A Class Reserves, any future venture can claim discrimination if not given the same excess. Mandurah has more than sufficient alcohol outlets of different styles throughout the city. Given the levels of Domestic Violence and Anti Social behaviour, proven as a result of alcohol and drugs, I don't believe we need another . There is ample areas on the Mandurah Marina , Dolphin Quay's development to accommodate this type of development .It has been suggested that this development's required vehicle parking requirements will be reduced, in that parking for staff will be reduced as staff will have excess to Public Transport. If this facility is operating 7 days a week, open to 10pm each night, staff will be finishing work at 11-12pm. Currently no busses run on a regular basis at this time in Mandurah, and I don't believe it would be economic for a service to run at that time. So again, I believe this is another major flaw in the proposal. Having owner a successful Business owner for many years in Mandurah, and having to have to develop plans to expand that business, one learns that certain processes need to be undertaken. This Proposal by Council shows major flaws in its development, thereby preventing the Public from having full comprehension of the project Mandurah does not need another brewery/restaurant outside the already designated commercial zones . There is ample area for this proposal in the Dolphin Quay, Mandurah Marina l development, and the current commercial areas.The Council hasn't been open and transparent about what other proposals were put forward to allow the Ratepayers a fair and reasonable opportunity to have their say. After all, Council are there to represent the Ratepayers. The Council has not carried out sufficient investigations into Traffic management plans, noise level surveys or methods of noise mitigation for the local residences who brought, and invested in the current environment. Council often pushes the economic value of increased tourism, but there are alternative areas for further employment other than continual increases of Tourism. There is much more Council can do to improve employment in non-tourism ventures. This proposal's terms of lease indicate the venue will have a reduced lease cost for many years before it reaches normal lease values. If this venue draws as many tourists in as the Council has indicated, then it would be profitable early in its operation. In which case, it should and must pay full lease cost immediately to recoup the cost to the Ratepayers of Mandurah. Therefore, I must indicate that I, and my wife and family combined, do not support this proposal for the above reasons. Dated 21st July 2024 [redacted]

23/07/2024	Good Morning Mayor My family and I are Halls Head residents, in the Stage 1 Port Mandurah location. My family I have lived here for 10 years, and we decided to move here for the excellent opportunity of living by the water, out of the city, with access to parks and playgrounds with a family friendly environment. We enjoy being a short distance to the city, just far enough to avoid, on most days, the noise of bars and clubs but mostly we enjoy being able to use Hall Park for family activities, including taking our grand children to the park to enjoy the wonderful playground, the little beach that is safe for our grandchildren to splash and enjoy during the summer months. I am writing to you to express my deep concerns about the proposed changes to Hall Park. The park has been a vital green space for our community, offering a place for recreation, relaxation, and connection with nature. Most of us agree that something needs to change at Hall Park in relation to Kings Carnival but we don't believe the expansive plan including a 650 seat brewery is the solution. The planned changes to the Western Foreshore including the upgrades to car parking, the War Memorial, shared paths, lighting, and landscaping improvements, recreation and event activation and public jetty installation seem disingenuous to what the community has enjoyed as a free public space for families to use. While I appreciate the council's efforts to improve our public spaces, I believe these changes may not be in the best interest of the community for the following reasons: Loss of Natural Habitat: The park serves as a habitat for local wildlife species. The proposed changes could significantly disrupt this ecosystem, including the installation of public jetties into the water way which is already a busy and dangerous part of our water ways. The requirement to dredge for installation and maintenance over the years will also have a negative effect on our precious marine life. Increased Traffic and Noise: The introduction of new facilities will lead to increased traffic and noise, which would detract from the peaceful environment that the park currently provides and the current road will not cope with the increased traffic, putting pressure on all roads leading to the park. This includes Mary Street which is a bottle neck most days. Community Sentiment: Many residents have expressed that they value the park's current state and are opposed to drastic alterations that could change its character. The park is more than just a space; it is a community asset that contributes to the well-being of all residents. We all agree the park needs an upgrade on the current footprint of Kings Carnival but to lose 40% of the park to car parking, the same park which is used annually by many charities to raise money, and to reduce the public open space seems grossly over the top. I hope that the council will reconsider the planned changes and work towards solutions that preserve the essence of Hall Park and the true community spirit of that park.Regards [redacted]
23/07/2024	I believe that the Ratepayers of Mandurah should be offered to have a 'Referendum' conducted regarding the Brewery plans on the Mandurah Foreshore- The City of Mandurah should not have the final say regarding this project - it must be the Ratepayers of Mandurah - please submit these comments regarding this important matter before any decision is made by the Council - to have a Brewery built near the Mandurah War Memorial is out of context - we need a peaceful park and grounds available for families - not another brewery - submitted by Kaye Dix - resident of Mandurah for 57 years -[redacted] - submissions to be considered before 26 th July 2024- thank you -[redacted]
23/07/2024	I am writing to say I'm totally opposed to the development for the Micro Brewery to go ahead. In my opinion we have enough breweries, pubs and eating houses in the area for adults to go and enjoy themselves. What we need is more activities for children and teens. We have a lovely grassed area which will be turned into a massive car park. Also the traffic situation coming in and out of Mary Street will be horrendous. Years ago we had ten pin bowling and skating but all of that was far too early for the population to support those venues. Now we have such large population of teens with nowhere to go so they need other activities like the above. Please re consider the Brewery application and focus on our younger population. Kinds regards [redacted]
23/07/2024	I am totally against. Why do we need another brewery and not even one related to our town. It is a recreation area, anytime particularly summer families are enjoy the beach area. There is inadequate parking as it is, come the brewery there will be less. The area is a quiet place for older people to go with easy access to amenities, why not just a coffee stop?? Again there are plenty of alcohol stops in Mandurah and surely it could be located elsewhere! I feel the whole area is forgetting the families, older generation needs, for come by flights young ones. What happens to the building once it is no longer popular!! Also more jetties and boats polluting our inlet. No no no to the development.
23/07/2024	Hi Rhys, disappointed Mandurah will be just the same as everywhere else with breweries and chocolate factories, when we could have been a bit different and had a brand new and improved fantastic family fun factory instead...probably too late now.. But something to think about in the future. Regards [redacted]
24/07/2024	I would like to voice my concerns about the proposed brewery development. Mandurah has a problem with alcohol and drugs and I do not believe this development is going to benefit our community.?I am concerned about the safety and environmental aspects of this development in a restricted area where parking and access will be a problem. If this is a 600 plus capacity venue where will people access the venue., We already have delays at the roundabout from the northern bridge development which has added at least 15 minutes to my commute time. I cannot imagine how building a brewery is going to add to Mandurachs tourist experience and it will certainly taint the local economy. Regards [redacted]

24/07/2024	I am a Teacher, rate payer and have strong connections to Mandurah since I was a young child, when Mandurah had lots of fresh fish and healthy water ways. Now in my 40s I really am concerned about the push of alcohol related venues in the area and lack of environmental care in constructions. So many trees have been taken out for brdife extension. All oritected tuarts trees they say, very sad .We don't need alcohol to have a good time and it's sending the wrong message to our youth. We don't need extra places that sell alcohol. The Kings carnival is iconic to Mandurah. We visited the put put golf recently. It was fun and clean activity to do. The destruction if all grass area on the other side of estuary concerns me due to amount if round up used to kill the grass to be replaced. The run off from such into our water ways. Also the lack of toilets now put in to service people. Not having separate male and female toilets and about 4 is less than perfect with all the events Mandurah holds.I don't like the idea of a brewery, enough drunk people around and on boats near a play area . Asking for trouble . Mandurah needs to be a relaxed place to visit. I wish it would just stay simple we don't need fancy shops we need family parks, play areas and places to fish. We need fish in the water. What about install an environment conservation educational centre at the site. Similar to Bunbury's dolphin discovery centre. We are not wanting Mandurah to be commercially taken over . It's all about the money it seems. Not the environment or looking after our future leaders. A pub is a pub call it what you will it's still providing society with more problems. Regards.[redacted]
23/07/2024	My residence is located on [redacted], directly opposite King Carnival. I have both very personal and very broad reasons for submitting my comments and I hope that council takes them seriously. When we purchased our 'forever home' in 2009, we were made aware of the Mandurah Foreshore Focus 2020 plans and therefore have always been aware that an upgrade to the Western Foreshore would occur at some point in the future. The work done on the Eastern Foreshore, the Koolaanga Waabiny Adventure Playground, Mandurah Skatepark and the Mandurah Bridge have been a fantastic improvement to our world class landscape and natural assets. However, I do have grave concerns about the new proposed Western Foreshore Commercial Site Business Plan and I list some of these below: Loss of A class crown reserve - the proposed number of parking bays would result in the destruction of mature native trees and open grassed areas. I work from home so I have the pleasure of overlooking Hall Park for my entire working day and I would know better than anyone on Council, just how many people use this open park area. Dog walkers, picnicking families, children learning to ride bikes, disc golf (frisbee) players, kite flyers, remote control car users and many others use this park daily. I could count 100 people in any given hour on any given weekday. On the weekends there are many more. To lose this immensely valuable parkland to make way for car parking would be a crying shame. Once that park is gone, it's gone forever. The Mandurah Foreshore Focus 2020 plan was to retain all the open parkland. This new proposal does not outline clearly how much of the park will be turned into parking or how many of these irreplaceable trees will be lost. We are already losing trees from this park annually as they die, and this aspect of clearing trees and parkland has appeared to be kept secret from the proposal. I'm extremely disappointed that the public hasn't been made aware of how much the council intends to "pave paradise to put up a parking lot". In these times we should be doing everything we can to preserve all public open space so close to the city. We ourselves purchased our home well above market value at the time, largely because of the A class reserve with grass and trees in Hall Park and the open, relaxed feeling this brings. No residents in this area want to view car parks and parked vehicles. The long existing engagement of Hall Park for events has managed to be effective without paving our beautiful, grassed areas. Loss of Amenity - this proposed development would not improve the local area but rather would result in loss of amenity. Hall Cottage and the War Memorial would lose appeal and historical aspect and should both be treated with more respect than to build a multi-story brewery on their doorsteps. In addition, the residents of Port Mandurah, whom pay the highest council rates of all Mandurah residents, did not spend top dollar on their beautiful homes to live in an area which will see inebriated people wandering the streets at night. Competition - I fear for the demise of other local, reputable, established businesses in the proximity of the proposed brewery. Mandurah has more than enough options with The Pen, Brewvino, Murphy's Irish Pub, Brighton, Bridge Garden Bar and Bar Therapy. They are all in close proximity to one another and with ample parking nearby. There can be no justification in taking patronage away from these establishments which is what would happen with a large brewery on the Western Foreshore. Noise - as it is, during the warmer weather, we are unable to sleep at night with our house windows open due to the noise coming from Bar Therapy, Bridge Garden Bar, the Brighton and Murphy's. We accept this. It's not pleasant to live with the voices and loud music, particularly at the weekends but we live with it. Having the same noise coming from a Brewery on the Western Foreshore will be extremely unpleasant for all the residents in the Port Mandurah Stage 1 development. Even the visiting circuses create a very high level of noise but it's only for a short duration, so it is tolerable. Traffic - during events such as MACA, Crab Fest, Ironman, Food Trucks etc, residents in the three streets running off Leighton Place can find it extremely difficult to turn into Leighton Place. Our household of 6 people can sometimes turn from Amity Cove into Leighton Place up to 20 times in a day, in aggregate. Having the predicted annual additional visitors to the brewery will make this a very unpleasant task of just getting out of our street. The intersection at Leighton Place, Mary Street and Old Bridge Shopping Centre is already difficult and dangerous with its offset turnings off Mary Street. This area would require an upgrade to make it safe and to help it tolerate the high traffic increases. In summary, I support a mini golf, kayak rental and cafe but I do not support a Brewery in place of King Carnival. If King Carnival's lease were renewed and the owner upgraded the current business, it would go hand in hand with the other 'family friendly' daytime outdoor activities such as kayak hire and mini golf, to compliment the playground and skate park to engage local and visiting families and improve on the current facilities. There has never been any plan in the past to build a pub in this location and it should not be permitted now. I have the utmost faith in our appointed councilors to listen to the people and oppose this development in its current form. Yours sincerely J[redacted]
24/07/2024	Just leave it like it is. It's nice to have open space on both sides of the Estuary. We don't need any buildings.

23/07/2024	I believe that the western foreshore redevelopment shouldn't happen as it is a 1. alcohol free family zone 2. one of the last open spaces for family activity in Mandurah 3. I clashes with the Alcohol Acord that the shire is part of 4. Redevelopment of this site could pose a threat to the marine environment if a chemical spill was to happen and leach into the waterway as toxic chemicals are used in brewery equipment.
24/07/2024	I prefer to leave the Western Foreshore site as it is. King's Carnival owner's have promised to upgrade their area which I agree with. We definitely do not want anymore Liquor area's in Mandurah or a chocolate factory etc. Businesses in Mandurah already suffer during the winter months and some even have to close down. The Western Foreshore is a beautiful open space very tranquil especially with our beautiful War Memorial there. It's an ideal place for picnics and family get togethers and the occasional large events. Leave it as the tranquil setting it is.
10/6/2024 and 25/07/2024	I wish to oppose the new proposed use of Hall Park or is it the Estuary too? NO ALCOHOL is written on a board on the oval. so that means NO ALCOHOL ANYWHERE. NO ADULTS drinking alcohol - NO ALCOHOL. The Park has now a Junior Skate Park and a lovely huge Junior playground and FRISBEE throwing area for kids and adults. We do not need any more items covering our park.It will not be a park any more. If you are to remove the KING Carnival then I suggest you make a beautiful large mini golf like the one at Wembley or at Collier Park. WE DO NOT NEED ANY MORE PLAYGROUNDS FOR ADULTS OR CHILDREN. ENOUGH IS ENOUGH. City of Mandurah please show some commonsense and choose another plot of land for your ideas. Noise emanates from the Eastern Foreshore already up to 10.30 p.m at night. The Area of Halls Head (should be a quiet area) Not full of more toys(Alcohol) for adults and children(more playgrounds). Parking is a nightmare now -what are you doing? The Estuary will require much dredging to add a jetty too. Who is paying for all this- not Residents of Mandurah. NO ALCOHOL TO BE ANYWHERE ON HALL PARK PLEASE . I strongly object to the redevelopment of the Mandurah Foreshore. It seems you wish to remove the foreshore altogether with extra parking, and extra facilities extra for who? children-no, adults - yes. If you wish to remove this fabulous facility- why? Because i you cannot think of another block of land to bulldoze? This area is already too busy with the children's playground and skate park constructed for children. children are riding around the park all the time. People play the ball in the basket game too. 1. Has the Council or the proponent completed a Road Traffic Study to ascertain the capability of Leighton Street to cope with the additional traffic the development you propose will generate? What is the cost to upgrade the infrastructure? Are the ratepayers paying for this? 2. What impact will the proposed development have on the tranquility of the War Memorial/Park as a place of reflection? 3. Current storm damage occurs on an annual time frame along the western Foreshore. Does the proponent/City of Mandurah design allow for the correct reduced level of the development without excluding contactivity of public through the foreshore along the western foreshore? 4. Trading hours and Noise Control Monitoring where and when? so that the amenity of the existing residences are not impacted.5. Vehicle parking; There is ALREADY INSUFFICIENT PARKING TO CURRENTLY SATISFY THE NUMBER OF PATRONS who attend events at the Park , or will it not be a park anymore??? The consideration of additional parking will restrict the land available for continuous community uses for Hall Park. 6. If boat mooring access to the Proposed Brewery is placed more dredging of the estuary will be required affecting the marine environment especially the dolphins we love to see. 7. Will you employ more Persons , Rangers to scrutinise the area for all the 24/7? no one can be seen there now? Where are the rangers? Not available are they? 8. Is the commercial development of the Western Foreshore conducive to Sound Town Planning Principles. Will this detract from the current amenity that is unique to Mandurah and enjoyed by Local and Visiting families and community groups. 9. What about Noise control - none now- none later I guess.? Are you requiring us lovely people to move house so you can have more noise. Already noise emanates from the eastern foreshore to the western part of Mandurah without any control, Rangers ., where are they, what are they employed to do. 10. What has happened to the Eastern Foreshore? I do not know but it looks like it is being destroyed too. I do believe this will be a disaster zone, costing us ratepayers a lot of money which we cannot afford. I expect the rates will go sky high if you wish to build this nonsense. Please do not allow drunken adults to remove a childrens' park.
25/07/2024	I'm m a rate payer in Mandurah & I think the western foreshore needs a facelift. The Kings Carnival is an eyesore. I think a Ferris wheel should stay - as a reminder of the past - the one in Freo is a big draw card & some nice play equipment around it for families - move on Mandurah
12/07/2024	As a resident of Port Mandurah Canals, I am writing to express my support for the Western Foreshore Leisure Precinct development. As a resident who values the economic growth and well-being of our community, I am confident that the Western Foreshore Leisure Precinct will be an asset to the community and enjoyed by generations of Mandurah families for years to come. I strongly support this well-designed and family-friendly project and encourage the City of Mandurah members to approve it. Thank you for considering my support.

25/07/2024	I am[redacted] a longtime resident of [REDACTED] and a member of the Ratepayers Assoc. Most of my neighbours paid a high price for their homes in order to be close to an attractive, vibrant City in their retirement whilst at the same time being surrounded by nature away from traffic and its pollution – Hall Park has been serving as an ideal temporary location for visiting Circuses, all kinds of sporting events and exhibitions without destruction of its grassland and mature trees – Whilst it is vitally <u>important to attract visitors to the Eastern Foreshore</u>, where many businesses are struggling <u>“the sad sight of close shops”</u>, you are certainly not helping them by encouraging visitors and locals to spend their money at the Western Foreshore by commercialising it – <u>What attracts visitors to Mandurah are its waterways and relaxed atmosphere</u>. You will not entice them with breweries nor chocolate factories, of which there are already plenty elsewhere. – We certainly do not wish for any inebriated folks wandering down Leighton Pl late at night, nor of a booze bus being regularly stationed near the roundabout to Mary Street. – At such a critical time of climate change causing ecocrisis all over the world parks close to cities are absolutely essential for recreation, meeting up with family and children away from all commercial pressure. <u>The Western Foreshore, as it is, serves as Mandurah’s lungs, just like King’s Park does for Perth, has to remain untouched.</u> People who paid millions for their homes, will not hesitate to go to Court, if they have cause to fear that the quality of their lives might get diminished.
25/07/2024	I am writing to express my concerns regarding the planned development of the Western Foreshore. I am concerned about the lack of transparency in proving that the selected development solution will indeed be beneficial for our local economy. The community has not been provided with sufficient evidence or detailed projections demonstrating the positive impact this development will have on our small businesses and overall economic health. Furthermore, I wish to address the matter of lease payments the developer is subject to. It appears that these terms may provide an unfair advantage compared to the substantial rents that small local businesses are required to pay. This disparity raises questions about equity and fairness in our community's economic landscape. I kindly request that the selection process of a developer should be disclosed for public scrutiny and the lease terms and rates are undergone an independent review. It is crucial for the community to have a clear understanding and a voice in the decision-making process to ensure that the development of the Western Foreshore aligns with the best interests of all stakeholders. Thank you for your attention to this important matter.

25/07/2024	As a resident of [REDACTED], having made a substantial investment in the area, we would like to write to you in consideration of our concerns regarding the Western Foreshore Development Proposal. We understand that development and change is always inevitable, however, being an immediate resident adjacent to the precinct, as we hope you would understand, we have a vested interest in how this Development will affect our properties and our daily lives. Whilst we accept and agree the Northern aspect of the Western Foreshore requires this level of sustainable development, we do not believe there has been adequate consideration applied to the Traffic Management Plan and Parking of the space as a whole. The development as per the City's Development Plan, states an estimated 750,000 visitors per year. Whilst this will create a fantastic tourism opportunity for the City of Mandurah, not to mention the tenants of the proposed commercial sites, there is no credible traffic management plan included in the Business Plan to accommodate this increase in consumers. To cite there will be a "Potential intersection upgrade" to the entry of the Precinct via Leighton Place is a myopic approach, in our opinion. There will need to be a more viable access point to accommodate the increase in patrons to this area. It is also noted that there is the provision for 66 parking bays directly adjacent to the residents of Leighton Place. These bays will create additional traffic concerns over what we are currently managing. When the City engages events in Hall Park, the area is grossly inadequate to accommodate the number of patrons and their vehicles and already has a massive impact on the residents along this street. The entry from Mary Street into the Hall Park Precinct as it is today, is terribly inadequate, with numerous accidents and in times of high traffic, creating long traffic jamming. During major events in Hall Park, the local residents find it difficult to gain entry into and out of their residences. On the proposed plan, you are utilising Leighton Place as the only access route to the precinct, which as we have seen in events such as New Years Eve or Anzac Day, the area cannot be vacated for several hours. We suggest an additional main entry and exit to the Precinct to alleviate this congestion. One suggestion to the City in facilitating a more suitable route which will result in traffic flow, is to create an entry point off the Mary Street roundabout into the Precinct, adjacent to the skate park (see Figure 1). Leave Leighton Place as "Local Traffic Only" with an emergency exit or "overflow" access via Leighton Place to be utilised in high traffic events such as New Years Eve, Anzac Day, Australia Day for example. Another option for additional parking would be to increase the number of bays on the South - West side of the bridge (current parking opposite IGA). There is an option for further bays to be housed in this area and do not immediately affect the residents surrounding this space as their frontages are South facing. Adding an additional 750,000 visitors to these commercial sites for the benefit of the proposed tenants and the City of Mandurah, should not impact the existing residents of Leighton Place. I believe more planning is required to alleviate the traffic on Leighton Place by directing the route and parking, to be adjacent to the proposed developments themselves, seeing as they are Commercial and not residential and will be the beneficiaries of such development. By doing so will have no negative impact on these Commercial sites, however, will create increased benefit for ease of access to these three proposed tenancies. We would like to see the Planning include a Risk Management Plan for the area as we are concerned there hasn't been any thought given by the Planners to how traffic and patrons will exit the Precinct should there be a major emergency. Overall, we agree with the concept of the Proposed Development as it is published, as we are hoping one positive outcome of this new development may remove the anti[1]social aspect of the area of which we have been experiencing for some time. As a direct resident of [REDACTED] we are consistently witnessing anti-social behaviour from, vandalism of the park, to clandestine meetings in the dark and 'hooning' throughout the park, carpark and along Leighton Place. A development of this calibre, with the mix of proposed business from the Plan in this space, will hopefully be conducive to attracting families and other visitors to Mandurah especially in the summer months when tourism and local/visiting residents are at its peak. After having met with Peter Blomfield, who was very accommodating with his time, to discuss our concerns with respect to the parking and traffic management, we are of the understanding that there will be further planning in this area. We would like on record, that we have raised due concern and will be closely reviewing and voicing our opinion, on further planning as it evolves. Having been heavily involved with the prior development of the Western Foreshore where we (Sandra) was a member of the Waterfront Committee in 2018, would like to be included in and follow up on, such matters that have been raised above.
25/07/2024	In my 15 years as a resident of Mandurah, and having been familiar with the region since my childhood, I have observed the substantial evolution and expansion of the area. I assert that there exist significant opportunities for further development, particularly in the creation of additional water canals for residential properties and the construction of high-rise apartments along the western beaches of the Peel-Harvey Estuary. Envisioning a transformation of Mandurah into a scaled-down version of the "Gold Coast," I identify an opportunity to enhance the area's nocturnal and recreational offerings, catering not only to residents but also to tourists. During my walks along the eastern foreshore, I have contemplated the potential replacement of the King Carnival recreation area with a casino hotel. Anticipating that these developments would attract new residents, retirees, and tourists, I foresee substantial benefits for local businesses and an enhanced tourism profile for Mandurah. I am confident that these envisioned transformations would significantly invigorate Mandurah, rendering it a vibrant and flourishing locale, and positioning it for heightened recognition as a premier tourism destination in Western Australia.

26/07/2024	Thank you for inviting community members to provide feedback on the proposed development. The Western Foreshore is a magnificent location and deserves to have a venue(s) for all demographics. The Kings Carnival method of children's entertainment is a relic from the past and unsuitable for this location. The one suggestion that maybe an option is installing a <i>'Mandurah Eye'</i> as an alternative which other cities worldwide have found popular. The introduction of the Brewery would be a positive addition to this area for our long hot summers; however, we also have bitterly cold winters. I am keen to hear what has been discussed in relation to venues that cater to the winter months. I appreciate family considerations, however, there are many residents without children and family members faraway. There are occasions when people enjoy time away from their children in a warm sophisticated environment which Mandurah doesn't offer. I propose consideration be given to introducing a Wine Lounge/ Supper Club(i.e., piano/jazz lounge) venue for adults only in the forward planning of this area. The introduction of a venue of this nature, would appeal to community members, corporate visitors, and tourists, who relish discussions in a sophisticated environment without the distraction of children. I believe this would be a welcome addition to the offerings in Mandurah. I can personally endorse the success of such a concept as I was instrumental in establishing a Supper Club in Perth which was positively supported by the community. Should you require any further details on this concept, please don't hesitate to contact me on [redacted]. Congratulations on the excellent work that has currently been achieved in our beautiful region.
26/07/2024	I would like to give the Council my thoughts on the proposed development of the Western Foreshore. I certainly do not want another Brewery, it is supposed to be a family orientated area. If you would seriously consider something like Dolphin Quays. A fish and chip outlet, ice creams, a burger outlet (not McDonalds, Hungry Jacks), and a cafe, and they all have a reputation for quality food, not like some other outlets in Mandurah, and Busselton's Shelter Brewery. I feel once the brewery is in there, the quality of meals will not matter, as all they will care about, is the dollars they make from alcohol sales, and remove themselves from the cause of any anti social behaviour, that may occur. Mandurah desperately needs a Market, similar to the Fremantle Markets, and space for an outdoor theatre. A dog agility area would be nice, but, I don't think this will happen. It will be interesting to learn if this Council do listen to their Community, and shelve the Brewery proposal.
26/07/2024	Re Objection to Western Foreshore Redevelopment My husband & I have been ratepayers of Mandurah since 1986 and permanent residents since 2014. We chose Mandurah for its unique lifestyle and water activities, trees & green space. Coming from a rural area this was important to us. We have loved being here but in the last few years we feel the iconic feel of Mandurah is fast disappearing and becoming just another city like all the others. Which brings me to our objections to this latest development on the Western Foreshore. There are fantastic family facilities consisting of skate park, adventure playground and enclosed pool with small shady beach, very popular and most of all safe. How can this remain with the proposed commercial development, in particular Brewery & 650 seat restaurant, totally inappropriate I would have thought. 750,000 extra people a year (quoted by the mayor) to this small area sounds horrendous. If those that were so taken by the Busselton Brewery want it badly, build it facing out to the ocean! Where are all the workers to staff these businesses going to come from, there are many cafes and restaurants now in Mandurah struggling to stay open are wondering the same thing, worrying they will lose staff to the new project. It also doesn't fit with the locality of the War Memorial; I would have thought that was obvious to anyone that has any respect for those that have given their lives. Traffic Don't know really where to start, the extra traffic that is suggested will cause chaos at certain times, coming off the bridge round the roundabout & turning right immediately into a small street, which is also opposite the Bridge shopping centre. Turning back out into Mary St will be a huge problem as people who attend Anzac Day and other events will know. With the extra traffic comes parking, the plan calls for 40% of the grassed area of the park to be tom up for car parking, less trees, less grass and more danger to children and we are not even thinking of the residents here! Why do we have to have most of the park built on apart from a small area which will be known as "the village green", we are not a village, we are a city so we need more open space not less. There are many more residents who feel strongly against this proposal but have found it difficult to navigate the council survey site & to have their feelings heard. There are also some who work for council or occupy buildings owned by council that are too concerned to give an opinion. Many of the population see the plan and think it looks great but don't give any thought to the broader issues. Inevitably there will be a noise issue, you can have all the sound suppression you like in a building, that doesn't help in the summer when doors & windows are thrown open. Breweries everywhere are closing because no-one like the beer, we already have breweries around us, why do we need more! We ask you to please reconsider this plan, we are not against a simple cafe or putt putt golf, just keep it simple for families to enjoy.

26/07/2024	As a resident of [REDACTED] having made a substantial investment in the area, we would like to write to you in consideration of our concerns regarding the Western Foreshore Development Proposal. We understand that development and change is always inevitable, however, being an immediate resident adjacent to the precinct, as we hope you would understand, we have a vested interest in how this Development will affect our properties and our daily lives. Whilst we accept and agree the Northern aspect of the Western Foreshore requires this level of sustainable development, we do not believe there has been adequate consideration applied to the Traffic Management Plan and Parking of the space as a whole. The development as per the City's Development Plan, states an estimated 750,000 visitors per year. Whilst this will create a fantastic tourism opportunity for the City of Mandurah, not to mention the tenants of the proposed commercial sites, there is no credible traffic management plan included in the Business Plan to accommodate this increase in consumers. To cite there will be a "Potential intersection upgrade" to the entry of the Precinct via Leighton Place is a "short sighted" approach, incur opinion. There will need to be a more viable access point to accommodate the increase in patrons to this area. It is also noted that there is the provision for 66 parking bays directly adjacent to the residents of Leighton Place. These bays will create additional traffic concerns over what we are currently managing. When the City engages events in Hall Park, the area is grossly inadequate to accommodate the number of patrons and their vehicles and already has a massive impact on the residents along this street. The entry from Mary Street into the Hall Park Precinct as it is today, is terribly inadequate, with numerous accidents and in times of high traffic, creating long traffic jamming. During major events in Hall Park, the local residents find it difficult to gain entry into and out of their residences. On the proposed plan, you are utilising Leighton Place as the only access route to the precinct, which as we have seen in events such as New Years Eve or Anzac Day, the area cannot be vacated for several hours. We suggest an additional main entry and exit to the Precinct to alleviate this congestion. One suggestion to the City in facilitating a more suitable route which will result in traffic FLOW, is to create an entry point off the Mary Street roundabout into the Precinct, adjacent to the skate park. Leave Leighton Place as "Local Traffic Only" with an emergency exit or "overflow" access via Leighton Place to be utilised in high traffic events such as New Years Eve, Anzac Day, Australia Day for example. We would like to see the Planning include a Risk Management Plan for the area as we are concerned there hasn't been any thought been given by the Planners to how traffic and patrons will exit the Precinct should there be a major emergency. Adding an additional 750,000 visitors to these commercial sites for the benefit of the proposed tenants and the City of Mandurah, should not impact the existing residents of Leighton Place. I believe more planning is required to alleviate the traffic on Leighton Place by directing the route and parking, to be adjacent to the proposed developments themselves, seeing as they are Commercial and not residential and will be the beneficiaries of such development. By doing so will have no negative impact on these Commercial sites, however, will create increased benefit for ease of access to these three proposed tenancies. Overall, we agree with the concept of the Proposed Development as it is published, as we are hoping one positive outcome of this new development may remove the anti[1]social aspect of the area of which we have been experiencing for some time. As a direct resident of Leighton Place, we are consistently witnessing anti-social behaviour from, vandalism of the park, to clandestine meetings in the dark and 'hooning' throughout the park, carpark and along Leighton Place. A development of this calibre, with the mix of proposed business from the Plan in this space, will hopefully be conducive to attracting families and other visitors to Mandurah especially in the summer months when tourism and local/visiting residents are at its peak
25/07/2024	As for the Western foreshore the last thing Mandurah needs is another place to drink alcohol- the brewery. This is an area that has been designated for children for many years probably longer than what the mayor has been alive. And now it is also a place to remember our diggers. I believe there is enough problems with alcohol in the peel region rather than adding another we're parents can drink alcohol with their children there. Come on Mandurah shire do something useful for the kids in this area rather than seeing the dollar signs of a brewery. Yours, A frustrated rate payer for the last 22 years,

21/05/2024	I would like to give you my reasons concerning why I am opposing the future plans to have Shelter Brewery on the Western Foreshore replacing King Carnival. Firstly I am a Member of Lions International and have been for 43 years. Having moved from Harvey in 2002 I realized there was need for a Lions Club in the Southern Corridor of Mandurah. With numerous letter drops and meetings the Lions Club of Falcon was chartered in 2008 with 34 Charter Members. Our current membership is 38 members. We were sponsored by the Mandurah Lions Club. After chartering, we found it very tough going to fund our Administration (not public monies) Account. I personally spoke to David Miller, explained our position which was well received. My request was how to raise Funds for our Administration Account by not wearing our Lions uniforms. With members out of uniform, we upheld our Lions guidelines, as the public were not donating to a Lions Club, where all monies from the public, is returned to the Community or Lions Foundations. Since 2010 Falcon Lions have been selling Glow Sticks on the Easton foreshore for King Carnival at the Christmas Pageant and New Years Eve events. Donated revenue received from David Miller and King Carnival has kept our Administration Account in a sound position, without which I honestly believe our Club would not have survived. Lions s International dues are now \$190 (yearly) per member, with our membership mostly in the Senior age group. This is a large amount to pay, as volunteers supporting the Southern Corridor of Mandurah by helping a variety of groups, charities and people less fortunate than our selves. I am sure as a Local Government Organization, you are aware of the cost of running a business in this hard economic climate. I feel it will be a great mistake to allow Shelter Brewery permission to build on this wonderful piece of land and take away such a magnificent icon that serves our younger generation, family groups and Tourists. The Ferris wheel is an icon and has operated in Mandurah since 1961 and now from its current location since 1992. This is my personal and honest opinion. You must all agree, to lose such an Iconic attraction to the City would be a grave mistake and maybe the Lions Club of Falcon could be on a downhill slide , along with other groups King Carnival has supported. I would hope that a portion of my rates is not going to support a Busselton Family increase their wealth, by allowing them to build a new Brewery in Mandurah ? Can I ask how many Breweries do we Need ?
26/05/2024	To whom it may concern, I was just reading another news article regarding the redevelopment of the Western Foreshore currently where King Carnival is. I don't understand why Mandurah needs another pub! Yes I am a drinker but really? A few months ago we as a group of family and friends went to Mandurah for an evening out. What to do after dinner??? No bowling, no timezone, no rollerskating, pool hall too dodgy, no movie worth seeing only left King Carnival or going home. Pretty disappointing for 'City'. This email probably won't make any difference because the deal with the big brewery has been done regardless. Please don't close the Carnival, maybe work with them and the Brewery for a combined outcome? Just a thought.
28/05/2024	I am writing to express my profound disappointment upon learning that King Carnival is slated for demolition to make way for another pub—a development I believe our community neither needs nor supports. It appears that the council has overlooked significant public sentiment on this matter. A brief review of social media comments would illustrate a broad community consensus against this decision. The loss of King Carnival represents not just the loss of a beloved local landmark, but also a misalignment of council actions with the community’s desires. I urge the council to reconsider this decision, taking into account the clear voice of Mandurah’s residents. It is crucial that developments in our city reflect the wants and needs of its people.
30/05/2024	With respect to all stakeholders and decision makers for their consideration. Rosanne and Colin Cross have lived, at the above address in Mandurah, for 24 years. Previously they lived and worked in schools, in Balga and Mirrabooka, for over 30 years. There they formed the Balga Action Group. This group, together with Residents, the Stirling City Council, Local Police, Concerned Companies and Politicians in Opposition, were successful in forcing the Government of the Day, Homeswest and its Developer; to pull down ALL 3 STORY FLATS in Balga. (It continues as the community representative body) These flats were the base source of all crime, drugs and anti social behaviour in the suburb. They are NOT teetotalers. They ARE committed Christians. They CARE about people. They have spent their lives, working and coaching in Schools, Clubs, Youth Groups, Communities, Veteran Groups and with their Neighbours. They wish to commend the Mandurah City Council, on most of a proposal, to development the Western Foreshore. They strongly oppose a brewery. WHAT MANDURAH DOES NOT NEED IS MORE GROG SHOPS. Mandurah has more than its share of anti-social behaviour. This includes Domestic Violence, (particularly against Women) Racial and Youth Crime, Rape, Murder, Street Fighting and Breaking and Entering. It is especially at the cost to our youth, citizens families and visitors. (We are told that for 50 years these groups have shared clean, healthy fun and interactive social activities in this area.) By all means, further develop these facilities and provide more carnival activities for visitors, our youth and their families. Let your imagination run wild. Involve your young staff. Let them tell you of games and activities younger people like to do in early evenings. Perhaps Mr. Templeman can help you. He was a teacher before the Minister of Sport. Coming through our SAS, before entering Politics (like our Balga neighbour who helped us out) we are confident our Mr. Hastie could come up with a few activities. Activities that could burn out the excess energy in our youth. If not then, a ten pin bowling and/or a ice skating rink, toddlers play pool, netball hoop, soccer and AFL goals, cricket net, snooker or table games.) Remember that there is a beautiful sacred War Memorial near by. (The Council is responsible for it being there, after overriding the Veterans preferred more secure site on the Eastern Foreshore.) PLEASE REMEMBER, EVEN OUR COMMUNITY LEADERS, ARE BEGINNING TO CALL OUT ALCOHOL, AS THE MAIN SOURCE OF VIOLENCE IN SOCIETY.
25/06/2024	I wish to put forward my support for the proposed new Western foreshore development

26/06/2024	Mandurah Maters, No to the Brewery as this does not compliment what we already have, no to the chocolate factory as this has been tried out at Barragup and failed and does not compliment the Lolly shop on the Eastern Foreshore. (as you said it needs to compliment what we already have) not take away from it. Keep it simple bring back the Kayak shack and coffee/tea shack with shade structure seating and more BBQs like out at Falcon, closer to the water behind the park area. Falcon have got it so right out there, why can't it be replicated on the Western Foreshore. Keep this area for families and locals to enjoy. Move the jetty further away from the swimming area. Put in a amphitheatre for entertainment and events. You could have a food culture festival like they have in Darwin, where local produce is show cased from the Peel region. Is the disability kayak launch in the right place as this area can get quite busy and rough when boats are going in and out. I would have thought that the opposite side down from the Museum would be a safer place to launch from.
29/06/2024	I wish to put my submission into the City of Mandurah regarding the construction of changes on the Western Foreshore. My concerns are the construction of a distillery which to me is a waste of prime property overlooking our estuary. It should be something for the use of our younger kids & young adults. There are enough alcoholic premises in Mandurah & there could be a Water Park for young ones & a bowling alley for older children & adults. This sort of entertainment will cause no disruption to our marine life & keep our estuary clear from too may boats which is a concern for our dolphins. Hopefully suggestions will be considered before a final decision is made.
30/06/2024	Dear Councillors, As my husband and I live in Leighton Rd E it is of great concern that any Development on the Western foreshore be in strict consideration of increased Traffic over the bridge. The traffic using this exit up until 9.30am can be already a very frustrating wait and can see this worsening with such development to go ahead. We understand the Carnival badly needs a total overhaul but to remain as entertainment for families. Not in favour of a Brewery as yet another venue for A certain age group which usually brings unsavoury behaviour around the residents In the area. A cafe and any activity structure for families would be ideal. People like ourselves, rate payers of 30 years moved to Mandurah because we loved it as it is. To enlarge it would be to destroy its originality. We are people who always are in agreement to improvement, but would hope Councils decisions always consider those who chose to live here, volunteer here and care for the town, and select our councillors AND pay the rates. Even more Importantly the future of the environment and our magnificent waterways which are and have always been a very big attraction to MANDURAH not boutique Pubs. Please consider carefully your decisions to make MANDURAH a happy place To live and visit.

I dontblike the microbrewery, but support the rest. That side is for the kids & the war memorial, please don't put alcohol on that side. I think you'll find this is the opinion of most of the mandurah community who are opposing the plans.

As I see it, the proposal has the potential to attract a broad spectrum of visitors to Mandurah, while providing more choices and attractions to those living here in Mandurah. My only concern is that adequate parking facilities be provided to cater for the expected volume of locals and visitors.

Page 1

Q1

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include Yes, I believe the plan doesn't over develop the area. I like the development looks natural in appearance. It would be easy to develop more, thus get greater revenue. That would ruin the Mandurah feel.. Well Done✓

Q2 Yes

Do you support the Western Foreshore Leisure Precinct and Commercial Site Business Plan?

Q3

Can we have your name?

[REDACTED]

Q1

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include Yes, I wholeheartedly support the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course, Café, and Chocolate Factory on the Western Foreshore. This exciting project will undoubtedly enhance the south side of the Mandurah foreshore, creating a vibrant hub of attractions that will draw both locals and tourists. By offering a diverse range of activities and experiences, the development will boost the local economy, provide new job opportunities, and make the area a must-visit destination for families and visitors of all ages.

Page 1

Q1

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include NO BREWERY !

the area should be kept family friendly

The carnival should be upgraded to a “Santa Monica pier” style funfair , which would attract tourists from all over.

The boardwalk could be extended over the water and a larger Ferris wheel incorporated which would keep the area looking iconic

And entertainment such as a bowling ally and rollarink should be built, the mini golf and chocolate factory are a good idea.

Even have a bar restaurant included but do not make it the main attraction , just a place you can grab a beer and a bite to eat while spending the day at the funfair!

It really could be a mini Gold Coast and increase tourism to the area

There is nothing for teenagers to do in Mandurah, this is the perfect opportunity to provide an environment for them to meet and have fun

If a brewery was built it would also be to the detriment of all the other pubs on the eastern foreshore

It’s a terrible idea for the whole community and should not go ahead

I run a small business with a large customer base, and most are of the same opinion,

NO BREWERY!!

Q1

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include Yes- what a great addition to our city. A stopover for visitors to the city. The western foreshore needs a makeover, the current situation looks like it's closed off for construction that hasn't happened, it looks terrible! New jobs, new energy, keeping our city moving forward.

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include Yes! In full support. It's exactly what Mandurah needs. I believe change is important in all cities. If we keep things the same, then we never grow. Changing the way it's always been done shows a city is willing to adapt and change to people's needs. This city has grown so much over the years and this growth in development is vital for future generations. We can't think of what has been done in the past and keep it the same, we need to adapt and change for the generations ahead. What's ahead is creating this change for our young people and families. A new place, to explore and go and create connections together. I couldn't be in more support! Well done City of Mandurah for taking steps to improve the city ❤️

Q1

Do you support the plan for the proposed development of a Restaurant & Microbrewery, 18 Hole Mini Golf Course & Café and Chocolate Factory on the Western Foreshore

Include Yes minus the brewery. I would prefer a destination restaurant with rooftop dining overlooking the water and utilizing local produce. A distinctive architectural feature should be incorporated to replace the iconic Ferris Wheel, like a 30 m lookout similar to Bunbury’s Marlston Hill with feature lights.

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The only part I like is the possibility of grabbing a coffee, the rest is a terrible idea. We don't need more licensed areas especially near the big beautiful new play area, skate park and our amazing waterways. I have seen first hand what happens after recently staying in Bunbury and attending their skate park in the evening after a festival shut not too far away. There were drunks young and old using the equipment swearing around my child doing drugs in the public toilets (I have footage) it's just not the place to build a brewery!

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By not building a brewery near our war memorial and king carnival, upgrade the king carnival and add a cafe, maybe even a bowling alley. Mandurah is lacking things for young adults to do indoors.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not at all. We already have enough places to eat and drink, those places will suffer if we open another

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I have been to the Busselton shelters brewery, we won't go back, it's over priced. We will continue to support small business. The only business the new place would get is out of towners ..

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The mini golf. Do we really need a chocolate outlet at that location and a mico-brewery. Cafe and restaurant for sure,, but moire focus on activities that encourage family participation.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

It should be catering more for families playing together and being active together not sitting on a foreshore drinking alcohol.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Caters for a particular section of the community, but not a broad spectrum and not connected to nature at all, except the customers will be sitting looking at the water

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

There are parts of the community that will love it, but I have seen nothing that will address the negative impacts that this proposal will bring,

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

For this business plan to work, there would have to be major upgrades to the road and car park. One small car park and one tiny road in and out of the area, isn't going to cut it.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Better car parking and road

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Mandurah doesn't need another pub/brewery. There already to many and most of them are half empty 90% of the time.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

No to a micro brewery/pub already have enough of those. A fun area for families like a cafes/chocolate factory/mini golf would be attractive also leave a large part as a grass oval for shows and other people events

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It is a step forward to bring new attractions to an underutilised area in what is a growing city.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Brings new businesses and opportunities to the area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

As it being marketed as family friendly and family focused, I think it will be very attractive to the community.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

May 29, 2024 07:56:07 am

IP Address:

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I strongly object to Business Plan. Mandurah does NOT need another alcohol outlet situated in central Mandurah. Alcohol is a major factor in anti-social behaviour. There is a serious lack of suitable parking in the area which will result in congested street parking / illegal parking and disruption to residents in the immediate area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Abandon the whole concept.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It fails to achieve this objective. Visionary community leaders ensure there is areas of open pace for residents and tourists to Mandurah enjoy outdoor activities. An excellent example is King's Park in Perth. There is a serious lack of vision by the Mandurah City Council and leadership to preserve open spaces that can be used for community events and outdoor activities.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe it is a backward step and detrimental to Mandurah in a number of respects. Namely increased anti-social behaviour, increased traffic and congestion, lack of sufficient parking which would result in congestion on the streets in the immediate vicinity, a significant reduction in open space for a diverse range of family activities. The proposed mini golf course consumes a significant area devoted to only one activity. The whole Proposal is devoid of visionary thinking and is simply focused on generating \$\$\$\$ for the leased alcohol and associated outlets.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

No brewery and let kings carnival do their upgrades as part of a long lease

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

This is a family recreation area, we do not want a busy alcohol venue here

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not at all

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Chocolate factory is boring, brewery is not appropriate for this space, kings carnival idea was for international style mini golf and you knocked their proposal back

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

[REDACTED]

Respondent No: 8

Responded At: May 29, 2024 17:22:37 pm

Last Seen: May 29, 2024 08:57:31 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I'm all for the mini golf and cafe. A chocolate factory doesn't really seem like it belongs in that space at all. I'm absolutely against the brewery and 650 capacity restaurant.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The City of Mandurah thinking less about the big dollars a brewery will bring in and more about what Mandurah actually NEEDS.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think you're listening to the Mandurah Community if that's what you're coming up with. Most people are concerned about their safety and security, about the increased cost of living, about having something to keep their kids busy and out of trouble, about the level of drug use, and about the anti-social behaviour that's everywhere at the moment. You're certainly not listening to the long-term Mandurah residents who KNOW how much more there was to do in Mandurah in the 80's and 90's for kids than there is now. Mandurah doesn't feel like it's for those of us that have grown up here anymore.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Anyone that loves to get drunk and can't see how excessive drinking leads to anti-social behaviour will love the brewery, that's been evident all over social media.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Respondent No: 9

Responded At: May 29, 2024 18:35:31 pm

Last Seen: May 29, 2024 10:25:32 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

How many craft brewery venues have gone bust of late? I drink regularly at numerous venues around Mandurah. The people I talk to, and catch up regularly with all agree that paying twice retail for some very average home brew is not good business. Most professional, regular drinkers don't drink craft beer. A lot of the established venues in Mandurah are already seeing less business due to the policies of our current government. Set to fail.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

A proper water front venue providing great service, food options, and live music would really be welcome.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Can't see it doing much at all. May attract some interest initially, but that's about it.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Can't see too many locals going there. Will attract an element of tourist traffic, but after that novelty wears off, locals, who are extremely territorial will continue to frequent their usual establishment.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Everything, it is time to do these upgrades.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Anything that allows people to access and observe the estuary connects the community to our natural assets.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive, it will develop the foreshore into a community asset similar to the waterfront in communities like Geelong, Townsville, Byron Bay, Glenelg.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Respondent No: 11

Login: [REDACTED]

Email: [REDACTED]

Responded At: May 29, 2024 22:25:06 pm

Last Seen: May 29, 2024 13:46:28 pm

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Honestly? Not much. Think the council is being greedy and trying to look after their friends instead of local families. And trying to say oh well add a mini golf course! to make us think this is a family focused plan is stupid, when the real plan is to add a restaurant, micro brewery and chocolate factory which are highly likely to become over priced and locals will visit once and that's it.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Focus on making King Carnival the centre of the redevelopment. The draw card destination everything else is built around. Make the Eastern side of the the foreshore the commercial side (restaurants/pubs/shopping and the Western side the activities side. Build your microbrewery on the empty blocks that have been there as long as I can remember on the Eastern side.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

You don't care bout the people you on it say you do. You only care bout \$\$ and leasing the land to a brewery that's likely also lining the councillors pockets on the side is a side effect of this. This city could be thriving. We could focus on capitalising on our #1 tourism town title. Or we can build another fad brewery. While we at it, let's focus on making this town walkable and more public transport friendly (light trains/trams) I have family coming from Europe next year. They are used to walking or catching public transport everywhere. Told them here, you're gonna either need an Uber everywhere or take my car. Cause there is no where worth walking too .. the Eastern foreshore is nice, it's pretty. But it's dull. We have a few pubs, the boardwalk and that's bout it. Most nights, the city centres dead. Besides drunks and addicts And on the topic of nature ? We have a foreshore, some water ... not that much nature left anywhere else though. It's almost all one big suburb now. Just houses. Worried my future grandkids will never see a kangaroo in the wild. Or a bandicoot. Or any other animal besides a few birds, rats, cats and dogs. There's not gonna be any nature left between here to Perth ...

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The mini golf course is great. Makes sense, a family friendly activity next to the skatepark and adventure play park. The rest of the plan can go. We don't need another restaurant taking up prime waterfront location, we don't need the microbrewery. The chocolate factory is just pretentious. It'll end up being overpriced and really who's going there every weekend? It's not something I'd go out of my way to visit. Keep the Carnival and finally support it to grow. It's iconic and should continue to be so. Keep that side for family friendly activities. Make it a destination for people to come here on the weekends/school holidays and then they can spend their money in the rest of the Mandurah businesses. Make the Eastern side of the foreshore the commercial side, with microbrewery's and restaurants/pubs, as it is, and make the Western side the activities side. Use the large grass area for car shows, outdoor movies, markets etc. Add bowling or go carting and some water slides to the carnival and keep the Ferris Wheel. Or make it bigger. When it's lit up it looks great. The thing is, adventure parks, ice rinks, bowling, adventure world, all things I leave Mandurah and go out of my way to take the kids too. A brewery I don't. I don't drive to Busso just to visit Shelter. I was in Busso to see family and took a look at Shelter. It was good. Am I going to Busso again just to visit Shelter though ? No. Am I going to Bibra Lake again because it has Adventure World and Ice Skating ? Yes. Freo to go to FOMO? Yes. Have I gone out of my way to visit Holey Moley in Perth with mates? Yes. And I spent money in a local restaurant after. Can Kings Carnival become a go to place to hold kids parties in Mandurah? Yes. Find somewhere else for a brewery. I love a good beer. I love Boundary Island. I love Kings Road. I love Roar. I love loads of breweries. But find somewhere else for this proposed one. Keep the carnival. Improve it, and continue to make it an icon of Mandurah. A postcard worthy destination.

Q6. Are you a resident of the City of Mandurah

Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

For a fun park awesome.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Take away the need for another pub

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not attractive at all

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It appears to have carefully considered not only the public facility but also the suitability of the lessee/operator and their impact on the community.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It has very broad interest and appeal and should be considered as an enhancement of the new facilities already completed in that precinct.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Anything maintained by reputable lawful operators is a major improvement on the Kings Carnival mess. The Council must consider carefully the impact of the operators on the city holistically.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Increasing the attractiveness to tourists and visitors. At present there is only the new family friendly park, unfortunately King's Carnival is not what current visitors look for, as it stands it lets Mandurah down as it is run down and is dated.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Increased facilities for extended hours dining experiences, this site has some of the best views over towards Mandurah and would provide excellent places for cafes/restaurants to take advantage of the views.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It takes into account its natural beauty and would enhance the area

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It can do nothing but increase its attractiveness compared to the eyesore that currently is in place

Q6. Are you a resident of the City of Mandurah? Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The mix of new activations proposed with the mini golf, hospitality venue, cafe and chocolate factory all complementing and enhancing the existing facilities creating precinct that has something for everyone.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This proposal is well aligned to the community's vision for Mandurah providing activities for everyone.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The new elements are what is currently missing from the Western Foreshore and will complement the existing spaces perfectly.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

That this will bring more exciting developments happening and venue into the city of Mandurah

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

By bringing my businesses into the area creating my jobs for locals, my places to socialise, my places to see and do

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very, I see this all as a big positive Ps, live in Singleton and see ourselves my Mandurah residents, than Rockingham, we don't go into Rockingham, but venture to mandurah daily

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like any commercialisation of this beautiful public space. I think removing the carnival is a fair idea as it is rundown. I am extremely against a brewery and alcohol sales in the area. As a family we have used the western foreshore as opposed to the eastern foreshore for family picnics and to get our children away from retail and on occasion unruly behaviour by intoxicated people.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove the retail aspect of the development beautify the area and allow food vans in one area only

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think this is our last open area the department of park and skate park is enough.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

To residents this means nothing this is our park. I feel this is an attempt to further commercialise every open space the city has. This foreshore is perfect as it is.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

ALigns well to COuncil objectives, job creation, highest best use of iconic land etc.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

More detail about proposed sub-leases for mini-golf and chocolate factory. Whom are the operators of those sub-businesses?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Offers a more vibrant and modern tourist attractor that current Kind Carnival site. Will become an iconic local F&B destination on waterfront. Interface for water based visitors with public jetties and moorings and bathymetry of waterway here a bit unclear and potentially a limiting factor.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Hard to comments because sub-leasing arrangements and business particulars are unknown. Unclear if these will be cohesive for a consistent visitor experience or disjointed and of variable quality.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The min golf sounds great, I hope they make the holes interesting similar the the botanical golf up in Wanneroo. A cafe and a restaurant covers a good range of eating options. I have also noted the increase in parking, hopefully there will be enough as it is already busy on the weekends.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

More parking option, everyone will want to park down near the playground. Is there a plan to have an opening into the grassed leisure area from the business precinct for overflow or event parking? Better walking/path access from the northern parking area to the water.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This plan looks to encompass a good range of options. There is more going on here than I expected and in a good way. I do think that there is currently not enough public toilets and I don't see the addition of any on the plan.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

A selection of food options is definitely needed on this side of the foreshore, I can see it being used during breakfast times to capture the morning sun. Personally I am looking forward to the mini golf. I do hope that the disc golf in the leisure area is kept and I advocate for it to be advertised as people I have mentioned it to don't know about it.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The proposed mini golf facilities.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The proponent. Shelter is the essence of the word, bland. Their offering brings nothing unique, exciting, or enticing.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't. Just another cookie-cutter big brewery. This isn't economic diversity, just further flooding to an already struggling hospitality industry.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The mini golf will be nice, everything else is a wasted and squandered opportunity.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

You are developing public open space. And taking away trees and grass for another Alcohol venue. We have enough problems within our community now with drugs and alcohol please don't encourage anymore. You need a traffic management plan for the area as well, the road only just works when there is a function at the venue over a few hours.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This business plan does not. How about fixing Mandurah Terrace first. Council keeps spending Money on the Eastern foreshore, it will never look good unless the vacant blocks are developed. Maybe council should compulsory Acquire some of the land on Mandurah Terrace and get that developed.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The area is far more attractive without buildings how about memorial gardens with walking and educational paths?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I think it would be far better use of the land and bring investment to the city

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Ye so do think it aligns.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

So attractive to the community. We don't have enough of this type of thing on the water in Mandurah and it is one of the stunning assets of this city. Let's make it outstanding. We live in Halls Head and would love something like that walking distance to our home. Kings Carnival needs to go it is outdated and a blight on the waterfront. Not a tourist attraction at all it's a money gauging run down waste of space.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I have been a Resident of Mandurah for 49 Years and Removing another Mandurah Icon and replacing it with a Brewery is bad Business for the Mandurah Foreshore.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove the Brewery off the Plan

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I am "The Community" and believe Mandurah IS a Thriving city already. Dont turn it into a overdeveloped city that will surly do more harm than good to other Local Business's

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I Think the idea of a Chocolate Factory and Mini golf are excellent Ideas. Along with the skate park and a Revamped Mandurah Icon (King Carnival), the western foreshore will be a great place for parents to take their Children and have a safe Family Fun day. It should be declared an Alcohol Free Zone.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the mix of facilities and activities offered. It will freshen up a neglected area and offer positive experiences for locals as well as visitors.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the project will activate an already developed area which will not significantly impact the environment. It will offer new jobs during construction and when finished and offer a new attraction to visitors to Mandurah. So yes I think it aligns well to the vision.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think people who are reacting negatively to this proposal are mislead by the term 'brewery' when it really will be a family friendly pub and restaurant. Having recently spent a weekend at the new Hilton in Busselton, their foreshore development including Shelter is amazing - compact, diverse and includes activities for all ages and types of visitors, which will be great if replicated in Mandurah. A new and improved mini golf will be great for younger locals as well as visitors. It would be great to see a new (attractive) Ferris wheel on the site, as in Freo, to replace the dilapidated one at King Carnival.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Incorporating TAFE opportunities.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Considering the local community over the prospect of tourism interests. This area is a safe haven for youth and families. Considering adding a licenced 7 day a week venue is inviting antisocial behaviour to a zone that should be focused on providing recreation for families. The brewery would be better suited to a location like the Halls Head yacht club, in close proximity for the assigned land for a resort.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The plan is disconnected from its people and 100% connected to money. The people do not want a licensed venue on the family friendly side of the foreshore.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will be attractive to not only families but the 18-30 year olds which will bring anti social behaviours to the western foreshore which is currently a sanctuary for youth and parents with young children. There will be an increase of foot traffic of people commuting to and from the eastern foreshore to frequent the brewery, mixing young impressional youth and vulnerable children with intoxicated passers by between the hours of 10am and 10pm. I can only imagine the types of behaviours after hours, using childrens play equipment inappropriately, perhaps to snort drugs off or hook up. Imagine Sunday morning taking your children to the park to have them cry out 'mummy I found a balloon' (used condom) a left over of the previous nights antics. Imagine your child waiting for a turn on the swing because an intoxicated person is reliving their childhood. Imagine a drunken person thinking climbing the outside of the nest tower is a good idea and falling in front of 100+ children. Imagine drunken guys engaging with skate boarders because they used to be good at skating. Imagine the paranoid drunk who thinks they heard a young boy say something to him as he passed by on his way to murphys. It doesnt matter how family friendly the venue is, it has no control of what intoxicated patrons do when they leave.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Having read this in detail, there are things to like: The process seems reasonable. Presumably the Council can only consider the applications put forward to them, and can't conjure up ice skating rinks, bowling alleys if commercial businesses don't see them as sustainable on the site. The amount of investment from the 'proponent' is impressive as well - even if all other criteria was met by the other businesses in the EOI, the actual investment being made makes it likely to be a more professional long-term prospect than the others. The criteria looks well thought-out, and the commercial reality is that some sort of food/drink solution was really the only way to guarantee sustainability in that space. the proposal suggest many hundreds of jobs and supporting jobs which Mandurah needs, and I think that has to be balanced with those people who just want it left as a grassy field.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think it is successful in aligning with that vision on the basis that there has to be a commercial offering there. You could imagine a world where we had an Indigenous Education Centre there for example, which might more closely align with the vision, but presumably, that's not a commercial possibility. So, if Council is going to balance the aspects of accessibility, activity, utility and community value, it is going to have to make some concession to a commercial venture, if only to increase footfall.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The reality is this project is likely to be a stunning and impressive success. On any given Sunday, there will be families who make their way down the foreshore area in the morning and could stay all day. They have a coffee and a breakfast at the cafe, before taking their kids to the skatepark and the adventure playground. They meet up with friends for some pickleball, or to kick a footie around in what looks to be a huge area of natural grass still. Then there's a round of minigolf to play with friends who come and moor up on their boat, while the kids simultaneously watch the dolphins through the trees. Lunch is at the restaurant, where yes, the parents might have a beer or wine, before enjoying a family concert or event under the bridge in the afternoon. That sounds like a pretty decent day out for a family in Mandurah, perhaps even more attractive for those who live here than those who would have to travel here.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It will become a distinct and key landmark for families, residents and visitors to socialise, by combining outside entertainment, food and activities right on the foreshore. It will gentrify the area and create ongoing employment for the region.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Creates surges of employment as well as ongoing employment. Gentrifies an area. It will blend the beautiful waterways with outdoor entertainment spaces and modernise the area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Highly attractive, will allow for a myriad of use cases for all groups within the community.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Family friendly area that is accessible for all. The current western foreshore provides very little for families and doesn't best utilize the prime location. King carnival is an eye sore and doesn't provide an experience that Mandurah would be proud of. It's great to finally see development of this area.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Fantastic proposal that delivers for families in Mandurah.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Extremely attractive for family groups and a great use of the space with multiple options for all residents.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Inclusion of family friendly activities Development of under bridge performance space

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Eliminate consideration of any business that includes production, sale and consumption of alcohol as its primary business. Restaurants might sell alcohol, integrated with other activities that do not promote a drinking culture. Please keep the western Foreshore safe for families by not encouraging alcohol consumption and possible related anti social behaviours. Give consideration to people sleeping rough and where they might be safely relocated to when existing spaces are occupied by commercial activities

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It aligns well given the information provided other than the plans for a microbrewery. Mandurah already has enough of these and the eastern Foreshore needs to remain family friendly. Mandurah can create financially viable and tourism attracting businesses without a microbrewery

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive without the microbrewery. My observation is that our community does NOT want a microbrewery and I agree with that. Some of the other ideas might be provided by Kings Carnival who have already expressed a desire to upgrade their facilities. This is an exciting time for Mandurah. The City has an opportunity to listen to the wishes of its people

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The proposed commercial use would be a game changer for the Western Foreshore. Also the process described is transparent and it's clear that a lot of thinking and due diligence has gone into selecting the preferred Proponent. e.g. consideration to retain as many trees as possible on the mini golf course. Huge investment, and the creation of hundreds of direct and indirect jobs through construction and operation as well a new amenities for Mandurah residents and visitors is also a huge positive to support a Major Land Transaction.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

To improve access to the proposed Western Foreshore, has consideration been given to a low cost or no cost water taxi that could run frequently between the proposed public jetty and the northern precinct of Mandjar Bay adjacent to the MANPAC? This could prove an attraction in its own right and close the loop for quicker access between the Eastern and Western foreshores for residents and tourists alike. As well as reducing potential traffic along Mary Street and parking requirements on the Western Foreshore, the water taxi service could be provided at no cost or low cost if subsidised by rent, rates and taxes generated from the new commercial venture. To work, I believe the water taxi service would have to be free or very low cost. I think this addition would enhance the overall Business Plan and offering.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The Western Foreshore remains very under-utilised. The proposal described in the Business Plan would significantly increase the use and amenity of the western foreshore. It would a significant drawcard to the city centre for Mandurah residents, visitors and tourists alike. The proposals of Microbrewery, restaurant, cafe, mini golf and chocolate factory has something for absolutely everyone. I think the Business Plan aligns to the vision perfectly.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

As stated above, the different elements that make up the business plan would a significant drawcard to the city / western foreshore for Mandurah residents, visitors and tourists alike. The proposals of Microbrewery, restaurant, cafe, mini golf and chocolate factory has something for absolutely everyone. I think the Business Plan aligns to the vision perfectly.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Dislike plan

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keep kings carnival and give them a long lease so they can then spend capital to improve the facilities.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't. caters to young drinkers and does not encourage family activities. I am fully against another liquor outlet in Mandurah. It will only create more unruly behaviour and discourage families from the area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Won't be. Remove the microbrewery and restaurant from the plan and keep it a family friendly area.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

No due to the removal of the tree's in the area

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Adding a more Family based activities, eg maybe keep the Ferris wheel and add a bowling ally, with less drinking involved

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not alot

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I feel it only connects to a certain demographic of people in Mandurah, and could do with more family activities eg bowling ally

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like anything about it. It's all about the dollars for tourism, that's the bottom line. I don't think enough thought has gone outside of this for the local Community & as a ratepayer, I would like to know what other business plans were submitted. What happens if the Business Plan fails?

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Get rid of the Microbrewery and the chocolate factory (I don't see this as being long term sustainable). Are the average Joe blow families going to be able to afford to go here? What happens to the land if the business fails? M

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Definitely as far as I can see, it's not connecting to nature as I see it. Leave it be, it's being destroyed right before our eyes.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I am definitely against the Microbrewery. I believe with all the current focus on Domestic Violence, this would be a timely valuable stance for the COM & all those involved to be against this proposal. Be proud & stand up & be the first to turn around how we can be the first to make changes & take the alcohol out of the element. How good would that be to be recognised for this, rather than having more alcohol causing/adding to issues we already have? I'm still with the King's Carnival or something similar. We are crying out for something for families (especially teenagers) activities. Not forgetting our tree canopies & flora/fauna that may already be habitating within this area. How many cafe' do we need & is the chocolate factory going to be long term sustainable? I believe rate payers WILL NOT be funding this at all, but something as a ratepayer, I would like in written confirmation sent to me. I don't think this business plan will be viable long term. Too many places closing down. We need viable long term activities for families and especially our local Community. I know as a local, I would be pretty damn happy/proud to be known as part of Mandurah that recognised we needed to change the way by stop accepting business plans that include alcohol. I know, because I've been part of it over the decades & I'm still fighting for all women. Thank you.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I do not support the business plan

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I do not believe the Brewery is a good family friendly option

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does not align to that vision when it is based around a Brewery being the main attraction

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Remove the Brewery and the rest of the plan will be attractive to families

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

25 year lease is a reasonable period to expect for a business like this investing in the development. Reputable operator with experience in Busselton which is also a foreshore location. They know what they are doing and are respectful of community and other businesses.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

diverse range of opportunities, activities etc being offered to the public. Enhancing the foreshore for the community.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

extremely attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Their needs to be a major family activities area, like bowling, laser tag etc

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No pubs or alcohol businesses. It's a rec and family area, plenty of pubs on the eastern side.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Poorly, we don't need a brewery or more licensed premises next to playgrounds.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

All poor choices, alcohol and chocolate really? Mini golf aligns with what should be there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Everything except the building of the micro-brewery. There has been a significant number of micro-breweries that have ceased operations over the last 12 months and this should be a major factor in not building this establishment.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By removing the micro-brewery and replacing with a business that is conducive with the family environment. there is enough venues for alcohol sales in Mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This business plan regarding the micro-brewery only satisfies a small local population who mostly reside on the canals.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Due to the micro-brewery the area will have a significant increase in unruly behavior.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Mini golf, chocolate factory, and cafe

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Deletion of the micro brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It partially aligns to this, although another brewery such as Shelter Brewery is not required nor does it showcase our wonderful city..

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Approve of everything except another micro brewery. for these reasons Effect on current breweries we have in the Peel region discretionary spending is down 5.4% due to cost of living. Our hospital currently has long waits and not enough beds for the population at present. Another micro brewery could potentially increase the number of alcohol related health issues in an area where hospital resources are already stretched.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Very disappointed in the whole plan. Quite frankly, Mandurah doesn't need another alcohol venue, especially in an area dedicated to families and children. And chocolate is not what I want when I'm taking the family to do outdoor activities, nor potentially drunk people. I've visited Mandurah all my life and bring my family regularly, and the foreshore was unique boasting affordable activities for all ages - and the first ferris wheel I know of anywhere in Australia (which many cities are investing in, not pulling down). I believe the Western Foreshore Leisure Precinct Plan will exclude, rather than include, use for families.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Provide a long term lease and assistance to the current business to offer a unique affordable, safe, family experience.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I find it exclusive and counter to the aims of the community and tourism - encouraging the consumption of alcohol, chocolate and coffee in a family orientated area and removing the current rich variety of affordable activities in exchange for one, mini golf.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I am a father of two children and it doesn't attract me at all. The skate park, playground and jetty are fantastic and one of the reasons I visit Mandurah regularly as a tourist, but I don't need a beer or coffee, nor my kids having chocolate while enjoying healthy outdoor activities. And I don't want potentially drunk people around my kids. It is currently a safe space so please keep it this way.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like most things, but I don't like the proposed microbrewery.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't go ahead with the microbrewery. We don't need any more places that serve alcohol.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I want Mandurah to be a thriving city but who gets the benefit of this? It will be the operators of the proposed premises. I can't see any benefit to the rate payers who pay rates and we will end up paying for the upkeep of the surrounding areas ie rubbish left by visitors, upkeep of parking areas etc. The City of Mandurah spends too much on the CBD and neglects a lot of areas outside the CBD. Who's bright idea was it to spend huge money building a swimming pool on the Eastern side of the estuary? What a waste of rate payers money. The money that is spent by tourists goes to the businesses around the CBD but the rate payers are the main contributors to all this work.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will most aspects will be attractive, but the microbrewery will result in adults just sitting in there drinking alcohol and then either driving home with their family or driving their boat home under the influence of alcohol. We all remember what happened previously when people lost their lives in the estuary as a result of alcohol. There needs to be more for families to enjoy together so the rest of the proposal could be attractive. STOP THE MICROBREWERY!!!!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Leave the current site with Fun Fair as it is. Maybe make use of land where old castle in Halls Head for Brewery instead.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It is my belief after being a part of Mandurah for most of my 73 years that there is enough restaurants and breweries etc in place already. What about our youth? We used to have a Drive In, Open Theatre, Ten Pin Bowling Alley and the Castle that had pools and mini golf for our local youth to enjoy with family or friends.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not at all. There is already Little Stillers in Mandurah, a Chocolate Factory at Barragup. Central Mandurah is saturated with restaurants and cafes already. Keep the Fun Park and its iconic Ferris Wheel where it is. Give our youth something to get them off their computers and out doing fun stuff. Look after the business' we have already. Things are tough and a lot of places are closing down. Why put more in?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The vision for activity and leisure facilities!

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Focus on family entertainment and facilities. Non alcoholic area. Keep one place free for clean healthy fun.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't. The Business Plan is pushing the brewery for their own agenda. Not in line with what the locals want.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

the mini golf and chocolate factory or similar definitely a cafe are a fantastic option also think need vendors selling ice cream and fast foods for families.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like the business plan as it requires a change to the land zoning that supports a commercial operation that is adequately represented throughout the city. It does not cater to the recreational needs that this area currently supports, namely for children. Discussion over the last months have shown that community support is against any transition to a new commercial use for this area, but would rather a revamping/improvement of the current use, and remain focused on the children/family entertainment direction. Very poor and wrong decision by MCC that has not taken notice of ratepayers opinions on the specifics for land use of this area, namely to keep King Carnival as the primary community/tourist attraction.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Shelve it, and rethink what Mandurah does NOT have if the carnival is closed. Already plenty of alcohol premises, adequate and varied restaurants, mini golf only replaces the current one and a chocolate factory that could be placed anywhere. Mandurah has the last Carnival, in its current format, in WA, and you want to remove it rather than improve. This current devised plan does not adequately cater for children in the manner that the present land use does.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think it aligns at all. It definitely removes a heritage aspect as King Carnival is synonymous with the Mandurah City, the foreshore and as a orientated towards children.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I would not go there, although the cafe would be appropriate.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The childrens/family aspects of the plan as proposed by LCLG are the only part of the plan that I agree with. As you appear to have agreed to the proposal without adequate consultation with the public, it was clear to locals that you have been offered a plan that will provide the council members with some lucrative benefits but not necessarily to the benefit of local and visiting families. It seems from the latest article in the Times that the proposal will go ahead regardless of the feedback and what the rate payers of Mandurah want. Hence the public demonstration after the initial announcement. Your poor attempt to acknowledge the 'angst' twice in the article is worthless mayor. The area in question has always been, and should always remain, a recreational area aimed to facilitate family picnics, gatherings, park and water activities and having fun. Having a micro brewery as part of the plan goes against the idealic family theme of what this area should be about and should remain. The eastern foreshore is designated an alcohol free area but now the council has proposed to allow the development of yet another alcoholic outlet in Mandurah in the middle of what has always been a family area. The proposal will open the door to more rapid commercialisation and development that will rob families of their non alcoholic, non commercial playground. For example, giving parents the option to go into micro breweries to 'enjoy themselves' while their children are told to go and have fun opens the floodgates to all sorts of horrible consequences. What a terrible proposal! Do any members of the council have young children? What makes you think 750,000 extra visitors and \$30m pa are what families want while in living in Mandurah? And why do you think many older folk came down here to retire? To seek living in a mini overpopulated 'gold coast' madhouse? I don't think so. The crab fest and other similar music/fashion functions are enough thanks.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove the brewery and put in a more family oriented asset such as a water playground on the shore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The plan is breaking away from what the Mandurah community wants, and will open the gates to turn Mandurah into a mini madhouse 'Gold Coast'.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The plan will be much more acceptable to locals if the brewery is removed and replaced with, for example, land based water park.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It will be a detriment to a thriving community not a bonus. This area is a Class A reserve & should be left as such, in forty years people will look back & say how clever were our forefathers to set this land aside for all residents & visitors. Like King's Park Perth or Central Park NY USA.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

We have a commercial area on the eastern foreshore & there is vacant land there available for activities such as what's in the proposal. I would like answers & clarity on the following Please. 1 Who prepared the lease? There is in place a 2 year rent free period why? This is not a sound commercial decision! 2 Standard commercial land to lease agreements are 20 years, what is the reasoning behind a 25 year term? 3 Instalments for year 8 & onwards needs explanation on this. 4 The lease amounts are extremely generous, first 3 years rent return to CoM totals \$4.30/m2, year 7 is still only \$29.32m2. 5 Who is responsible for the valuation? When was it done & is a copy available? 6 What dates are in place for upgrades & refurbishments to the premises? 7 What restrictions will be in place for the sublessee not to be able to change the Permitted Purpose? 8 Will modifications to opening hours have allowance for community input? 9 The total commercial area represents an approx. 20% increase, that is not "A Marginal Increase" 10 As staff parking could require up to 60 bays where would that be located, & why is that not included as part of the leased area & charged accordingly? 11 How can it be justified placing a pub amongst a memorial for our Fallen Dead, Village Green, a children's play space & skate park? 12 What is in place for the Jetty Plan regards dredging of the Estuary adjacent to its placement? 13 What will be the finished datum height of the area to mitigate flooding? 14 The 136 parking bays & the access to them should be clearly delineated in the proposal! 15 How many m2 will be reclaimed from Hall Park to enable Leighton Pl. parking?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

There is not a lot to like about the proposal. Any plan that intends to destroy the heritage of Mandurah to make the town look like a night club precinct is not the right way for the town. The Ferris wheel and fun fair are iconic to Mandurah. I have photos in my families collection of the early funfair near the peninsula hotel in the early 40's. I agree the fun fair and Ferris wheel are tied but the plan should either tender out to new operators or existing operator should need to meet a certain standard. No licensed venue!!! Family friendly activities only.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keep the fun fair and Ferris wheel and no licensed venue, jetty's or major developments in this area. If we build on this area Mandurah will no longer have a small coastal town feel. Stand on the Eastern Foreshore and look across at the Western foreshore!!!! This is what Mandurah is about,

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't. 750,000 additional tourist will make the town unliveable for residences. Mandurah needs to keep the small coast feel as that is what the locals love, it's why most people move here. It should resist being a thriving city!!

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Attractive to tourists and visitors, yes. To residents, we already have plenty of these facilities

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Major traffic and parking re-design to consider residents of the area. No factories

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Does not connect the people to nature. A thriving city must protect its open space as parks and gardens on our limited city foreshore. City must have a long term view of open space and NOT continue to build on waterways. Not everyone uses a brewery or other factory on Crown Land near a childrens playground and picnic area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Be unattractive because the Crown Land is slowly being reduced by commercial infrastructure. Gardens, picnic area and Mini-golf with beach front is much more attractive to the community at large. Another liquor outlet in a park can only encourage anti-social behavior in this precinct.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

well presented proposal, it will cause other businesses to close and building a jetty in that site will be hard , it is on a sand bar which will be hard to maintain?

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Shift jetties closer to the bridge in deeper water. an access off the roundabout instead of Mary Street?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not sure it does as most of Mandurah is concerned about protecting our natural estuary and if there is 750000 people per year, which is 2050 per day using this site nature will suffer.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The plan is sensible but I think the location may not be able to handle the predicted use

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Family friendly activities and cafe

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Integrating the water in some way. Activities could have included use of the water eg hire of SUPs or kayaks. Where is everyone going to park? The green space in the ovals needs to stay and not become a carpark.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

If it does bring the foot traffic then it aligns to the vision. Not sure how it connects with nature since it's not using the water or parks.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be very attractive but needs to be kept in scale and not take over all parking spaces as those who currently use playground and skate park still need access. Would hate to see ovals reduced or all parking taken up by brewery customers.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Food and beverage offering is much needed on Western Foreshore side. It looks family friendly just like all restaurants and microbreweries are across WA. A larger mini-golf offering is welcomed.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It aligns, through jobs and expanding the commercial offering. This proposal provides more options for people and with an increase in population, the community will need more options.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be attractive. It is a high quality proposal.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I think Mandurah is in need of a large, family friendly dining establishment. We have beautiful waterways and very few places to dine on the water. Other than The Pen and a few coffee shops (which most close by 2 or 4pm!). A micro brewery would be amazing!

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think it aligns perfectly.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive. I think as long as there is strict enforcement of controlling unruly behaviour if it occurs, it will be a positive space and attractive attribute to our Mandurah community. My family and I can not wait to see this development take place and support all vendors involved.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Large venue and attractions to better tourism

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By making the area more attractive to everyone maybe some adrenaline business (bungy jump over water etc)

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Yes and no our waterways are what makes mandurah what it is. Boat tours or fishing charters to be able to operate from area would be nice A lot more jetty's with boat parking

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive but a few more business wouldn't go astray

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like how the business plan will modernise a very run down location in our community. It is a key area for tourism!

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I don't think there is enough boat parking for peak periods (say 40 boats in summer or Australia Day). People will park and enjoy time at the area, it will soon fill up and create safety issues like double parking and people jumping between boats. More boat parking out the front of the Licenced restaurant and microbrewery would help IMO.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think its a good blend of activities and space for relaxing or feature events.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will be very attractive to people, I do how ever feel it is similar to what is already there activities wise.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I do not like the brewery concept. Keeping the Fun fare, which my family has enjoyed since 1970 I think is essential. I like most of the plans and think it will be a draw card for Mandurah.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Cancel the Brewery idea, we have enough licensed businesses in Mandurah. Keeping the Fun fare is essential for the community. An icon that has always been an essential part of the western foreshore. Updating this would bring many more families to Mandurah.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The children's/Family plans are excellent. however, combining drinking so close to this is a recipe for disaster. Drunk drivers and alcohol affected persons near the families is a bad idea.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The plans are excellent and will attract many however why do we have to always include licensed premises. Catering to the minority when we have numerous licensed venues within walking distance to the western foreshore already in town seems selfish. Families don't always need alcohol to spend an enjoyable day out. Although BYO is sometimes popular if picnicking. This does not constitute drinking just for the sake though. More a social drink to which I enjoy. I am not against Breweries, just in this area. Traffic will be horrendous just for the brewery never mind the children's activities.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Love that there is a range of options for all community members. Plenty of grassed areas still, walkways, food areas and plenty of water access. It is a welcome change to what is currently there.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the city has done a great job in considering all community members. The nature aspect has been covered, it will be a thriving precinct for our people to connect in.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive for the community. You can access the area via foot, car and water. I think this will also attract tourists to the area.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It'll be a family friendly vibrant site in a prime location that's under utilised at the moment. It'll be so nice to be able to sit and have a drink with friends or a meal with family taking in the beautiful view

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

making better use of a prime location with a proven venue that's hugely popular in Busselton. Also encourage outdoor activity with mini golf.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be hugely popular and draw locals to it - and if the locals love it, then visitors will love it too

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like it.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Can it

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does not. I cannot comprehend how anyone would think a micro brewery alongside children's play area is in any way shape or form appropriate. Are there not enough places in Mandurah already where those inclined to over imbibe can go.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The ruination of the area

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. No foresight to parking. Traffic. Noise issues. We live on the other side of the bridge for a quiet life. Not for the night life to come to us

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

There is a clear issue with replacing park land with car parking. No plans in place how to deal with the increased traffic flow or noise pollution. The proposed jetties will require dredging. Who pays for this?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not at all. Keep the thriving city on the city. Stop extending the city into areas where people live that chose to live outside of the city but within easy reach. Noise. Traffic. People. This is not what we want on the halls head side of the bridge

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

For the local residents this will be a disaster. Traffic problems. Parking problems. Noise issues. We already are impacted by noise from the bars on the foreshore and on event weekends in the park traffic is crazy. We feel locked in our homes as trying to get to the shops or into the city is a disaster and the traffic is a huge factor. The current roads will not cope with this change. Weekdays after 7.45am can take up to 15 mins to get down Mary street to the bridge. How do you plan to deal with the extra car traffic?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

In theory it's an OK plan.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The rent return doesn't seem to be appropriate. Seems to be very low. The effect on the current facilities in Hall Park will be enormous in a negative manner. The current playground and skate park, which is used quite extensively throughout the year, will be negatively impacted by people who think their antics are funny after leaving the Brewery and using the equipment in an inappropriate manner. A venue that does not serve alcohol and has less of a footprint on the park would be a much better solution. The access to the current businesses in the Mary St shops will be much more difficult and dangerous with the extra traffic. It's currently hazardous and all this extra traffic will make it impossible to access these shops, reducing the viability of our current businesses that are mostly run by local Mandurah people. The new proposed businesses are not local people leaving their profits in our town. Was there no applications of a reasonable level from local Mandurah businesses?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The plan will bring more people to town but I'm not sure our current businesses will survive as well as this new one. There are many local people with food and drink businesses who are struggling now. And employees are very hard to get - another business is not going to make any of this easier for them. This business plan is not aligning to connecting people to nature as we have to lose too much of our natural resources to gain the businesses. I also have concerns for the new jetties putting more stress on our waterways. Will the council be responsible for further degradation to the river and canal waterways/walls due to more traffic. The current park paths are all being undermined by tides and water surges (especially from boat traffic) and people not taking due care of our waterways. The Henry Sutton park walkways are all collapsing and undermined and they haven't been fixed yet. This particular park was very neglected in 2023/24 summer with the CoM taking till April to remedy the situation. Our current parks and waterways are not being looked after well enough now, we don't need more areas to maintain. Who will be paying for the upkeep of the new jetties?

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The current community seems to be against the brewery idea but the current business needs a major upgrade to be in line with what is suitable. Most people are sad to see the Ferris-wheel go. The area needs to be left as an entertainment area with no alcohol sales.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Attracting more families to town

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No brewery. We have enough of those. Make bigger & better play areas, bowling greens, teenage & adult fitness parks. We need activities for the youth beside a couple of skate bowls

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It is getting there but still a long way to go

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Mini golf, chocolate factory yes. Whilst we do need food on that side I'm unsure if it will affect the food outlets on eastern sides. No to brewery as we have enough watering holes. More youth activities required for the older youth. Bowling alley?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The chocolate factory, entertainment space and mini golf are the best elements.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Redevelop and invigorate the Kings Carnival, even if this means replacing this iconic feature of Mandurah with another carnival style business. There's no other all year round carnival I'm aware of and I feel this could be a great draw card for Mandurah again, if done right and marketed right. Activities like bumper cars, maybe a skate rink and rides for teens and families alike to enjoy are elements I'd like to see in this plan.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It misses the mark in my view.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Drop the microbrewery. I just don't feel Mandurah needs another drinking establishment full stop! There are already breweries in the area and plenty of pubs.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The mini golf and the marketplace, the rest is just more shops in an environmental sensitive area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Lose the micro-brewery and shops, leave the Eastern foreshore as the retail area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

No, a water theme park or family orientated open space will attract far more people than just another pub.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Lose the shops, the earthworks alone in such an environmentally sensitive area, would be damaging and costly. Do we need more shops? Make it a more visually appealing place, with the skate park flowing into the playground, flowing into a water park with jetty for kayaks and swimming, flowing into mini golf and a pop-up marketplace, with mobile food stalls. this would serve both holiday makers and local business makers far more than just a lease on another brewery or permeant shops

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Not a lot

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keeping the old Fair and no alcohol, brewery's, more playground attractions, water activities for family and children, keeping the old fair, Mandurah had lost to many historic buildings and attractions already, have a good look around and very little is left, Mandurah has list so much already, the shire should be ashamed of what they have list all due to greed and money! No old Prn, no castle park, no bowling alley, no dolphin pool, no skate rink, no wishing well, to many buildings are gone, the poor Halls Cottage is lost amongst houses, only those that have lived here long enough no what this city has lost! We have no history left, keep what little we have, for future generations.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Somewhat with family and kids attractions

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

No to brewery, keep it family and children friendly, we don't need another alcohol venue in this zone

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It is old and tired and needs it

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keep the beach swimming area as families use this as it is much more friendly than the Eastern side. No cars, no noise just lawn going into a nice protected sand beach. It is well used and families love it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It is nice to upgrade but we should not lose too much picnic and beach area to yet another drinking hole. The beauty of this space is that it is a beautiful retreat from noisy restaurants and loud yobbos. Please no plastic menus, cardboard serving plates etc Write it in to their lease so that nothing blows into our precious canal. I am fed up with restaurant rubbish ending up in the water

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

You will always fill a brewery in Mandurah. I guess we will lose the huge open expanse for car parking which seems a shame as you will never get it back. Keep as much green as possible!

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

No I don't think the business plan is appropriate for a recreational area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

A Micro Brewery is not appropriate for a family recreational area. A bigger tourist attraction like a Sea World would be more appropriate for our area and have greater tourist attraction.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't align. The City has already sufficient pubs and restaurants. What the City does need is more family recreation facilities. Certainly not a Brewery.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The Microbrewery is not warranted in a recreational facility.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing about the Shelter Brewing proposal is of value to the Mandurah Life style or heritage of Mandurah. It is simply a commercial grab to further put longtime local businesses out of business.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

We don't need another brewery/ distillery/ alcohol outlet in Mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Who are the people telling you this. Not local residential rate payers

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

You have already closed down existing businesses that provided activity in the area there is no need for licensed venues in a family area

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The area does need a face-lift so it is better utilised.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

See 5 below.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The plan shown in the Mandurah Mail June 15 does not represent the needs of the local people.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Considering 4 above the plan has the following faults: The swimming pontoon area should include change rooms and toilets. The mini-golf should not encroach on the waterside area, that should be kept free for users. Mandurah does not need yet another licensed venue. Micro breweries around Australia are folding due to lack of patrons and costs blowouts. To say it would be similar to the The Shelter in Busselton is bad news, the locals there do not like the big noisy barn with poor service and food. The existing licensed venues in Mandurah struggle to remain open in the off season, this will just make it worse.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like any family friendly recreational or sporting components of the Business Plan, but in regard to food & beverage plans, I think sometimes less is more. In particular, I STRONGLY DISAGREE with the need for a MicroBrewery by Shelter Brewing if it's anything like the blight on Busselton.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

As per above, I think a Brewery smackd on the Western Foreshore next to what is supposed to be a family friendly area is a TERRIBLE idea. I think the Business Plan could be improved by shifting the focus more towards family friendly sport and recreation offerings accompanied by low key food & beverage, but not the likes of what Shelter Brewing have done in Busselton!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the Business Plan aligns too much towards an alcohol offering, rather than the vision of a family friendly sporting and recreational area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think a Microbrewery located in this area will be a TOTAL BLIGHT on Mandurah, as it is in Busselton and NOT ATTRACTIVE to the community at all.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

A brilliant concept that will bring much needed activation to the area.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

A strong alignment, everyone is catered for and I'm particularly pleased to see the job creation this will deliver.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive and a huge improvement on current offering. This is a significant opportunity for Mandurah and I fully support.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Big projects like this require major land transactions to take place. Without a big vision nothing important will be delivered in Mandurah.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The business plan clearly identifies areas of the Western foreshore that will better connect people to nature as well as providing accessibility. This alongside the economic impacts from the new development in terms of more employment and better facilities for Mandurah are all huge benefits for the area.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe the area will be extremely attractive for the local community and visitors alike. The mixed use areas with both paid and free activities as well as access to the natural environment means that the area will be accessible for all.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It will provide a much needed entertainment precinct which will attract many people

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It will attract more tourists and provide a new area in Mandurah for locals to enjoy

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the family focus on wholesome activities like mini golf gaming and upgrades.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I don't believe we need anymore breweries or alcohol focus on the foreshore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Very happy to see the foreshore being utilised, the water sports, the beautiful location and finally some things for families to do that ISNT a pub or restaurant. As adults that don't drink, we are excited to have somewhere to go in Mandurah and not have to travel out of town (especially in winter).

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

We need this as a community. Aside from the cinema, and the playgrounds there is nothing to do that isn't a pub/restaurant. We desperately need family focused, healthy things to do. Roller skating, arcade, bowling, mini golf, places to eat that are spaces not full of drunk patrons, safe, inclusive areas for the non drinkers, teenagers and families with young kids.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

A major capital development commitment which will provide work during construction and operation and increase the entertainment and leisure options in the city.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Hopefully it contributes to the "thriving" aspiration of the vision because right now outside of summer the city is pretty dead.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will be very attractive and much more so than the current facilities.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Introduction of new activities and spaces for families and youth

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove the reliance on alcohol go make the plan financially viable.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think thriving, connected communities are hampered by the negative impacts of alcohol - we know it increases the rates of domestic violence, boating accidents, inadequate supervision of children, and there are already plenty of alcohol focussed venues in Mandurah, I think it would be much better to create a genuinely family friendly venue with more to do than drink.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

In general all of the feedback I've seen and my personal belief is that it looks great, except for the brewery element.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Starting with a loaded question is not problematic and shows agendas do exist. I do not like this plan at all or its intention or purpose. There is nothing I like about it. This questionnaire is manipulative and it's designed to get approved for that plan whether residents and ratepayers want it or not. This is not community engagement at all. FAIL

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Putting it in the bin. Net you can stop trying to profit and gain by destroying the essence and charm of Mandurah FFS. Then stop pretending that another or any brewery is a tourist attraction. The giants are a tourist attraction. the dolphins are a tourist attraction. This is a brewery and breweries are found everywhere. This is nothing more than a commercial venture where the owners and investors profit. Not us as residents, we lose. By having to deal with the consequences of alcohol consumption plus the rubbish and noise in even more places and spaces. This plan to dispose of crown land should never have been even suggested. Why was it suggested and who by? Who touted that crown land can just be disposed of and rezoned? Who in the council stands to benefit from this deal? Who in the council knows and has connections to the people who put in this proposal? Crown land is done for a reason and that reason wasn't about securing it for greedy little business deals and career aspirations of an unnamed few, it is meant to be able to be accessed for all. Residents should firstly be asked if they want this land use changed. That should have been done first along consultation with the community not these endless online questionnaires full of leading manipulative questions that will mean the council does this anyway and can pretend it's done enough community consultation. There should have been no plans, no business meetings, no backroom deals or intensive lobbying or any scoping out of how the public might response and shutting down conversations by residents and ratepayer should have been allowed. Who started this process and why? That needs to be shared with us as residents and ratepayers.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Is rezoning Crown Land and whacking another ugly brewery on the only foreshore left – connecting people and nature? NO. It may be called a leisure precinct, I believe this particular aspect of the plan poses risks and conflicts of interest. The Children's playground, as any playground are designed to be safe, family-friendly environments where children can play and parents and carers and others can relax. Introducing an alcoholic facility into this space creates issues, including:

1. Safety Concerns: The presence of alcohol increases the risk of inappropriate behaviour, including aggression, fights, abusive language, smoking, drugs and accidents, which can compromise the safety of children and teens.
2. Family Environment: Families and others may feel uncomfortable bringing their children to a playground adjacent to an establishment that serves alcohol, potentially leading to reduced usage of the playground.
3. Contradictory Messages: Positioning a playground next to an alcoholic facility sends a contradictory messages about healthy lifestyles, enjoying nature and community values, especially to impressionable young minds of children and teens.
4. Noise and Disturbance: Alcoholic venues attract large crowds, are open long hours and are noisy, which would disrupt the peaceful atmosphere typically associated with children's play and the surrounding residential area.
5. Potential for Conflict: The different user groups – families with young children and patrons of the alcoholic facility – may have conflicting needs and expectations, leading to tensions and reduced enjoyment for all.
6. Destruction of Connection to Nature: The Western Foreshore is a unique natural area that has always provided residents and visitors with a peaceful escape and a range of changeable uses from food trucks, circuses, athletic events. Adding an alcoholic facility would mean the discontinuation of these as well as and importantly disrupting this natural ambiance, detracting from the area's beauty and tranquillity and reason why people love mandurah. It's natural beauty and access to the water for all.
7. Impact on Local Residents: Local residents may be adversely affected by increased noise, traffic, and potential disturbances associated with the alcoholic facility. This could reduce the value of their homes, but more importantly the quality of life for those living nearby and lead to community dissatisfaction.
8. Whose voice is most important? Will residents wishes be ignored for greed? This plan is not a suitable use for crown land. There are alternative solutions that would provide some development without compromising the safety and well-being of children, the natural environment, and the quality of life for local residents. For example, at the very least removing the brewery from the plans and ensuring this space is able to be utilised in similar various ways as it is now. Do better at asking questions of the community that allow for actual opinions and thoughts and hold these with the community to increase access and inclusion to all stakeholders.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It is not attractive to me as a community member. We have more than enough breweries. It's a dogs breakfast of a plan designed to attempt to be of interest to as broad a group as possible by adding in a bunch of other things. The brewery is not needed or wanted. It is located close to residential homes on quiet streets. It is also located next to the well done children's playground and waterfront. Mixing alcohol in an area that attracts larges amounts of children and families is problematic. Alcohol on this scale is not family or child friendly or safe. The park area is multipurpose and provides for a range of activities and events that are of interest to many people not just bogans and greedy developers and council.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the addition of a brewery, chocolate shop and mini golf offering - tailors to families.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This proposed business plan aligns strongly to this vision with mini golf and alfresco dining relating to the vision of nature and dining opportunities from the brewery and choc shop relating to the vision of connectedness with people. A sure surplus of jobs will become available delivering a range of possibilities.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

This will be very attractive to the community and will attract a surplus of visitors to the area especially in school holiday and long weekend periods.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The western foreshore is generally underutilised with little to attract many people to enjoy the space. The introduction of new facilities would expand the reasons for visiting the western foreshore. The mix of facilities suits my needs and would make the city more attractive to visitors, spreading the facilities over a much broader area. The opportunity to provide employment opportunities is also appealing.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

My view is that the Plan is in line with the vision. Having recently visited Busselton, I was surprised at the range of additional facilities that are being provided and only see this Plan doing likewise.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

My view is that the various aspects of the plan will be extremely attractive to the majority of the community. There are different parts of the plan that will be attractive to a whole range of age groups. It will also add to the already excellent play areas more recently completed, making the whole area more inclusive.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The proposed use is appropriate and sympathetic to the current use and compliments the infrastructure and investment in the foreshore plan by providing commercial amenity.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Parking and access to the site will be critical to the overall success of the precinct, better road access and more parking would improve the business case

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It aligns very well with this vision.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Highly attractive

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It builds on existing offerings in Mandurah, adding to the attraction to visit and stay in Mandurah.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Ensure there is adequate free parking

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This development will give more reasons for people to visit Mandurah which inturn will create more income for the region and more jobs.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

All the offerings provide an avenue of choice for people, something for everyone to enjoy. Indoor and outdoor activities and opportunities to take home a piece of that enjoyment.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Do not like the idea of a Commercial developement. if need be Take away King carnival and revert back to greenspace. We do not need to lose green space anywhere in Mandurah. Mandurah Tce has plenty of room for developement, keep commercial over near the centre of town it also helps other businesses.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

dont have commercial in an A class reserve we will never get the opprtunity again to have this beautiful green space at all.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The commercial area does not align with enviromental concept of the City.Encourage developement on Mandurah Terrace not in our parks.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not at all having another alchohol venue in Mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It would definitely generate interest for further business development in the Peel Region

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The business plan will provide enough for everyone to enjoy. And hopefully contribute sufficient energy to the City, environment and create a ripple effect for tourism from visitors to the Peel region.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be attractive to most sectors of the community especially stakeholders who want to hold community and corporate events as there will be enough activities for all age groups to participate in.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Upgrading of the mini Golf, nothing else. Possible coffee shop

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Do not go ahead with it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This is unfortunately the wrong area to be creating this vision, the road traffic at the IGa complex, roundabout and leighton road access is already dangerous with near collisions, with more parking and people coming to this area will be too much and there is the very likleyhood of major accidents. The consumption of alchohol to a supposedley alchohlo free area is contradictive to family friendly. It is going to be a haven for not so friendly.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not very attractive at all. The memorial will become un noticeable and irrelevant to anyone. The wildlife along there will be destroyed by too many people.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It is a diverse plan. Providing pleasure for families of tourists and residence of Mandurah

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Completely

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

There is very little to like about the proposed Western Foreshore Leisure Precinct Plan. What is liked is the fact that CoM is paying attention to the beautiful, uncluttered site and it's location on the town's doorstep. Hall Park is an A class feature of Mandurah with established tourist attractions and public access to the waterfront.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The Western Foreshore Leisure Precinct Plan could be improved by reducing the focus on commercialising the site. Instead, provide better public utilisation of this unique foreshore by providing more riverfront shade structures, more BBQ facilities and better boat access. There is no urgent need for yet another brewery/liquor outlet, cafe, chocolate factory etc.anywhere near this family friendly, open park precinct. These types of commercial enterprise currently exist in Mandurah and some are already struggling to remain viable.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This plan/interpretation of the community's instruction seems to be a very narrow focus on providing even more commercial retail outlets for the benefit of a few, at the expense of the majority of existing residents and ratepayers. Reducing the Hall Park area to a noisy clutter of carparks, cafe, chocolate factory, restaurant and yet another brewery is hardly imaginative. These types of outlets already exist in considerable numbers within the town precinct and further competition will hardly improve the viability of these established businesses. A better interpretation would be to preserve Hall Park as an A Class reserve and provide a better range of FREE public amenities. More BBQ's, more waterside shade areas and perhaps better boat access.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The Western Foreshore will become considerably less attractive than it currently is. Not everyone visiting or residing in Mandurah wishes to relax and enjoy the beautiful park in the immediate precinct of a river view stealing, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc. These commercial ventures don't need to be replicated, but if they are, have them located in a less pristine area, allow visitors to Hall Park, the families, children and friends to enjoy a riverfront experience without the pressure to purchase.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Everything - I think it will be amazing for the Mandurah Foreshore.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the Mini golf will definately be a huge hit with young families, young adults and the older generation also.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive - just look at how Busselton has welcomed Shelter Brewing and Par 3 with open arms.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Gets rid of the drug hub at Kings Carnival. Perfect location for new family entertainment area.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It's perfect

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It's perfect

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like it, because there has been no community input. The council decided on its own.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Delete the brewery and improve king carnival

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It might connect to a younger demographic.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very limited, due to the vicinity to the brewery

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By leaving the place as is. Money will be saved and local resident will be less, traffic will not become congested and noise levels will be less.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This can be achieved by concentrating on the tourism facilities on the Eastern Foreshore.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It is be less attractive to our community, but only add cost to ratepayers.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It would make great use of the land and allow more people of various ages you use it.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Very much do giving people, family and friends more places to connect and add more character to a thriving city.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive and will give mandurah more life and young adults coming .

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing - too big a foot print.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keep the "green" areas & reduce the amount of commercial area. We don't need another liquor outlet in Mandurah, especially next to kids play areas.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not well aligned. We need to keep an "A" class reserve as a true reserve for future generations.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

For the locals living near this "proposed" facility it will increase traffic & noise considerably. We have enough dining & bars on the Eastern Foreshore. Lets keep the Western Foreshore for "families" & green open space.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I do not believe this site should be for a commercial business that is not primarily focused on family active recreation. There are plenty of waterfront businesses offering wine, beer, food for 18+. This is an A Class Recreation Reserve and should be retained with that purpose. Yes, it is prime land. Any business would love to set up there but I do not believe this is the right decision. The brewery sounds great. Any other commercial site I'd welcome it. Not the Western Foreshore or any other A Class Recreation Reserve.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Another appropriate site. No green space removed for parking. Find another site for parking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the City have made great progress in this direction. Putting a brewery on prime recreation public space I think is a big mistake. I was not aware of the EOI, not did I see any of the submissions. I'd like to know more about the early stages and I think the community should've been involved in the EOI scope.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It is irrelevant. It is not the right location. Any business would thrive in that location. It is possibly the best real estate in Mandurah and it is vested in our community and should be focused on active recreation and filling gaps in service provision/activities particularly for youth.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It caters for residents, visitors and tourists. It's also a catering for families.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the business plan aligns with clearly addresses that vision

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will be very attractive to the community offering a venue that caters for a variety of different scenarios and possibilities. It provides a different dining and recreation experience than what is already on offer in the area.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Good selection of businesses to attract people to the area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Would have been better to see more than one entity involved in the WF development, much like the marina I don't think having only one stakeholder for such a large and important asset will be in our long term best interest.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Agreed the meets the goal.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

If there's sufficient parking and the products are well executed then very likely.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I am not in favour of this project at all. We are taking an existing passive family recreation area, and proposing a brewery , and putting it alongside a war memorial . You propose at us ratepayers expense, to create a further 202 parking bays, thus creating a major traffic issue, with a corner of Leighton road, and Mary St, which is already a traffic nightmare. I also feel we are well catered for with licensed premises in the Mandurah city precinct

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The project , as proposed, is not in the best interests of the community, and therefore needs to be completely scrapped and re visited

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The important word in this vision, is nature, and a brewery in this location does not fit

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The Mini Golf, and Cafe, and water sports are acceptable alongside the Children's playground area, and skate park, which aligns with the existing family friendly area as exists, with out putting excess pressure on local ecology, and waterways

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I have serious concerns about the whole of the Commercial Site Business Plan as it is opening up the Western Foreshore recreation area as a 'Commercial' precinct. The land upon which the proposal is located is Crown Reserve Class A and therefore commercial operations as proposed should not be considered. The Council and the developer are reported to be 'excited' about the proposed development as it will be the 'hub' of commercial activity on the Western Foreshore'. That is a fair indication that this proposal is only the thin edge of the wedge and eventually there will be more commercial activities in the area. This proposal will require a change of classification to the Reserve class and we **STRONGLY OPPOSE ANY CHANGE FROM THE CURRENT CLASS A**. If the council wishes to promote commercial investment and development in the City, it should look to encouraging that development in the existing city centre where zoning will accommodate such development. If the commercial development proposed for the Western Foreshore achieves the popularity that the Council is encouraging, there will be serious traffic management issues on the Leighton Road/Mary Street area and on the roundabout to the Old Coast Road. The only part of the Commercial Business Plan that should remain is the Mini Golf, as this is the type of activity that should be encouraged for the site. '

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Dismiss the current proposal for a Micro Brewery and Chocolate Factory. If this means that development of the Western Foreshore area falls through, the so be it, but it should not be development at any cost.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does nothing to balance the need to retain open spaces and areas for ALL ages in the community and visitors. The 'Vision' surely is not reliant on the development of the Western Foreshore as proposed for the city to thrive. In our view, the proposed plan detracts from the view of a City that provides a balanced approach to recreational spaces and commercial activity. Let Council consider the forethought of our forefathers when the land for Kings Park was set aside in Perth, and what an asset that is for all Western Australians and visitors to Perth.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

We believe that the mini-golf will complement the existing children's playground and the skate park and the proposal for an amphitheater under the bridge would be attractive to the public in general.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

None

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't locate it on this site

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

None for the local residents

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

None for the local residents

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Not much, I believe the council has backed the wrong project and it will have an adverse effect on the area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Focus more on health and fun for families instead of feast and gluttony. There is no need for another pub along the Foreshore, there are plenty already on the other side.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the council overestimates the value of the current business plan. It does NOT align with this vision and will have an adverse effect for the community currently enjoying the western Foreshore AND it will impact all the businesses on the other side of the Foreshore, keeping customers away. The current business plan will not create a thriving city, it will not connect people to nature and only delivers possibilities for a couple of savvy business people, all credit too them for fooling you!

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

All those things are already available on the other side of the Foreshore. Instead double down on health and fun for families on the western side of the Foreshore and implement a ferry between both sides to improve the connectivity.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I feel that there is need for change but not the proposed change.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The focus of the project is wrong for Mandurah. We need to move away from a large brewery to a more balanced proposal. We already have many food and drink venues - this proposal should be brining people to mandurah to build up what we already have by having something unique.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not focused enough on providing a unique experience for residents and tourists.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The microbrewery is the sticking point. It will be such a missed opportunity if this is the main business.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Yes. We need family friendly hospitality facilities. Very few are and we need to outside the region to them. Eg Kingroad Brewery

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The current tenants do not have the funds to invest for a 20 year vision.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Mini golf certainly would be a great idea combined with other activities. But I do not like the idea of a Brewery next to a War Memorial.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

More activities and less food based elements

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

not answered

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think Mandurah Central and the surrounding suburbs has enough breweries, hotels, pubs, bars etc without adding yet another one to the area. I also feel it is DEFINITELY NOT appropriate to have a brewery right next door to our War Memorial. A War Memorial is a sacred place to remember those who paid the ultimate sacrifice to protect our country and those whose lives were forever altered. It is NOT a place for pissed brewery patrons to abuse. This plan contains too many food oriented elements and not enough activities. The eastern foreshore already has the cafe restaurant strip and also the Marina. We have had so many restaurants/cafes go broke due to over supply over the years (I have lived here for 39 years), but there are not enough actual activities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Mini golf food and drink is always good just needs to be done well. Decent food choices and big mini golf with lights at night and creative landscaping.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Just need's to fit into the landscape and it looking pretty not ugly. Maybe selling juices not just alcohol to please non drinkers too. Good food choices a bit different.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think to be able yo eat and drink over that side is good as long as caters for all needs. Mini golf can be great for adults too if done well. It's the rest of the landscaping needs to look magical.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Mini golf can be amazing if a decent size and landscaping creative and great lighting. Food and drink is needed. Keep as much traffic away from Halls Head though as you can use the train and walk from the otherside encouraged.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I support a market area and public space for the western side but not a commercial development the appeal of the area is that is under development add a free waterpark playground for families to the existing play area

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove the brewery from being near a war memorial and leave the protected trees for future generations. ANZAC day parking and school sports will suffer from an additional brewery. This does not exhibit community inclusion

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I believe this business plan spits in the face of community spirit. The amount of community interaction and I interest in this issue shows the level of discontent the general community has for over commercialisation. Honestly if I was in a better financial position I would campaign directly against this proposal and run for public office

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Drop the brewery and focus on an inclusive community space for all not another swanky pub to Moore the boat at

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

If it is children, youth and families for their pleasure will be good but not for restaurants and brewery

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Remove restaurant and brewery and have smaller take away with more variety

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

If you want to add nature restaurants and brewery are not the way to go, it would be more of a money making venture not for families

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Would be better to have more grassed and shade areas and get rid of the commercial side of it

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

More tourist attractions bring in more money for the local economy and more jobs.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

How much land will be built upon? Is it going to ruin the look of our beautiful shore line and have a negative impact on wildlife? I need more information.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think there's a nature connection in the plan, but it will definitely help the city's economy and create jobs for its people.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Quite attractive, but more of a tourist attraction.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The plan sounds amazing and I feel it would make the western foreshore an area of mandurah that would be used by families

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

For mandurah to be a thriving city it needs both western and eastern foreshores to be thriving which currently is not the case , this plan will make the western foreshore become relevant

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

This area will be extremely attractive for both young and older people of mandurah and surrounding areas

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It caters for a vast array of people that can Italian this space.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Plan looks great

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

100% Mandurah needs to become a thriving city, this business plan is a great way to utalise this space and cater for families and younger adults and teens implementing chocolate factory and mini golf ect

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very popular and I think you will get people from outside visiting Mandurah

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. Do NOT need another brewery or drinking business in Mandurah.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Take the brewery away.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Again, you aren't listening to three community, we don't want another brewery.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It won't be, we don't want another drinking establishment in Mandurah. It'll be over priced, unaffordable for local families to enjoy, soooo only caters to the tourist dollar. But Mandurah council don't care, deal is already done.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It's good to have somewhere to eat and drink on that side but it needs a kids play / splash area that is free. Otherwise it's useless and will be too expensive

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

It needs a free activity for families. Families are struggling financially hugely at the moment. It will cost a fortune to go and eat and play golf there. We will never go with our kids. How about putting a splash park which we desperately need in this area that is free. Or even a really good play area like at Kings rd brewery. It would attract more custom and would be amazing for the families in mandurah. There is no pub with a really great free fenced in play area in mandurah. We have to drive miles for one.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think it does align with this vision. As it stands we have several brewery's with no free kids activities and they don't bring much activity to the area

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will have tourists there but the locals will not use it. It will be too expensive I really cannot stress this enough. A chocolate factory is also pretty boring for kids if you have been once. So it won't attract repeat custom for locals

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Shelter Brewing is a great idea. I heard there may also be a mini golf- great idea for families!

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Great

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Fantastic

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I do not like the Business Plan as it should stay as a park and recreation area

Q2. Is there anything about the Business Plan that No
you think could be improved?

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The community wants to be connected to people and nature NOT another Brewery. Keep the park as it is.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will not be attractive with the park being almost taken away with a large car park being built. The noise and traffic problem will be more than we have now.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Do not like at all.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By removing it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does not. It makes people spend more money and removes green space.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I like the idea of Mini-golf and other family activities ie. volley ball, but having a brewery, licensed restaurant would not attract me to the area.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. The foreshore does not need another booze venue.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Actually taking public opinion seriously. The last time Mandurah was asked something, council ignored it anyway and did what they wanted

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Give more support to the local small businesses that Mandurah already has.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

For the first few months - but the first winter in Mandurah- jobs will be lost and venues will be empty. Like they already are

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It's disgusting. We do not need another Brewery, Hotel, or Pub in Mandurah

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't put a Brewery in a kid friendly Zone. We should have Child friendly businesses. IE. Water Park, Bowling Alley, skating Rink, Interactive Sea, Water, Marine Center. Hire pavilions for kids parties. No Brewery.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't. We have enough Alcoholics, Drug Addicts and homeless already here. Attract people by the good not the bad. We are already called Methandra.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not at all. Let's sit on our butts and drink while the kids go and play. Great baby sitter. We'll drive home after with a few drinks under our belts with the kids in the car. Smart thinking.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like that there's family based activities being put into place but I do not like a licensed premise on the western foreshore. We have a big enough problem in Mandurah with alcohol and drugs and should not be encouraging this more. I would love to see the western foreshore have more young people (13-17 yr olds) activities as there is not much for this demographic in Mandurah if they don't like water activities. I have 2 kids in this age group and quite often have to go away from Mandurah to do activities with their friends. It depends what the major land transaction is as to whether I would support it or not - the shire needs to be more transparent with the public.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't have another brewery on the foreshore as we have enough breweries and bars in mandurah. It should be more family/teenager based. I don't think that parents chilling having a drink while their kids are out playing unsupervised is a great thing, most parents would rather sit and drink/socialise than play with or supervise their own kids and this is where a lot of problems start. Improve the amusement park that is there or put in a ten pin bowling, Timezone or lazer tag place which would give families/teens something else to do. Mini golf is good but not in winter we hen it's cold and wet - unless it's an indoor one something like the 3d glow indoor mini golf.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think a brewery aligns with this plan but some of the other options do.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not that attractive, maybe look outside the box as all the above attractions are in many other places around or not too far away from Perth so let's looks at different options if we want to attract others to Mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Only like the parts about the family activities. Mandurh lacks places for family activities

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No pubs ,bar or taverns . No alcohol permitted places. To encourage families to interact with each other need to remove alcohol and intoxicated persons from those areas. Otherwise be pointless being family based. No on like being abused by drunks wlie enjoying family time

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It trying . But need a lot more work. The fact trying to sell this as a family toreist site is a joke when it just saying let's have more pubs and ravens for the piss heads. That all mandurh needs more drunks walking the streets at night

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Be only attractive to people that like to drink. Not to families or people that want to spend time with them . Microbrewery is a joke this is not family oriented. This is I want to win votes oriented

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. Not family friendly, will be dead in winter like the poor eastern foreshore shops. Added competition for the existing venues.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Create a space for the young children and adolescents of Mandurah. They have nothing indoors for winter or hot weather in summer. Roller blading, bowling, mini golf etc something like carousel or Karrinyup shops. The foreshore is for entertainment, we have enough venues that never book out for food/drink.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

None. How does a brewery connect with nature?! And next to a skate park and children's playground is unacceptable

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

San churros is across the foreshore, mini golf is only one activity item on the list which isn't for everyone. We have all of this already, it's time for Mandurah to have something new and for the younger generation

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Shelter brewery, place to hang out, family friendly

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Yes, it will improve Mandurahs image, make it more family friendly and will make it a top.day trip destination

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

10 out of 10

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The site is a major central location and needs upgrading and utilising better. Creating vibrancy that builds community and attracts tourism. Whilst mini golf and a chocolate factory and some kind of place to eat and drink is concepts I like, they are not original or creating a vibrant point of difference

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I don't believe a brewery is the best type of family friendly offering. Mandurah has many bars already on the eastern foreshore, marina and surrounds. I think the Western foreshore has been and should continue to have a family friendly point of difference. Perhaps an alternative could be a food hall/hawker hut type precinct. This would be a point of difference in the city whilst keeping the atmosphere of the Western Foreshore more family friendly. Include this with the mini golf and the activities in the leisure plan and you would have a real family friendly point of difference. I am not opposed to alcohol being sold but think it could be one of the vendors not a major focus for this particular area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the leisure plan is excellent in connecting to people however I do not think the business plan is delivering the connection to its best potential

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think I have seen and heard all of this before in Margaret river and swan valley. Whilst I am sure it will be used so would be more original and different to existing areas of Mandurah site. I don't think this site should be taking business from the existing eastern foreshore and marina destinations but should be different and attract a different section of the community. To this end I think it fails

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Getting rid of the current eye-sore, and making it attractive and family friendly, somewhere you want to be and take guests to

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Family friendly, somewhere you want to spend time, which is maintained and looked after

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It sounds amazing!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The amphitheatre, open space for families

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Not to be a Commercial Business Plan...more a family oriented space

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The Plan isolates the area and caters more to Tourist ideology than Mandurah Community ideology.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not very attractive. It is the same old, same old "attractions" that are everywhere already. A "family picnic area" is needed where family can come for the day use the water for fun. Trees for shade. Free BBQ facilities. A cafe for those who choose to not "picnic". Family Day outings don't require a Micro Brewery.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

There is almost nothing to like about this business plan. .The construction of a brewery/restaurant next to our War Memorial no matter what size is most inappropriate. The reserve should remain as it is with some upgrades. This area was always meant to be for families and children.. We already have an established mini golf with shady trees. Why destroy what is there to build one in the full sun?

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

This plan should not go ahead. The money the council would have to pay to create parking and destroying established trees could be spent on so many more needy areas in Mandurah. The Western Foreshore is a delightful passive area now for families and gatherings. It is already ideal for Pop up Events.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This plan has not considered the surrounding residential area . A large commercial business operating 14 hours a day should never be considered for this reserve This area is connected to nature. We do not need any more licenced restaurants we need safe , affordable places for families and friends to gather. The access road is acceptable for the present needs. Being so near a busy roundabout it is definitely NOT suitable for a large amount of traffic flow.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not at all.A modest family cafe/ ice cream parlour is needed but must fit in with the environment not a huge establishment. No licenced premises is needed near children's playground . A chocolate factory would be a waste of space . There was one in Mandurah Terrace a few years ago and didn't last months. Please listen to the Ratepayers and re think this project. Mandurah is losing our own iconic character. Certainly improve and upgrade but this plan does not belong on Western foreshore.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Area should be kept as a A Class Reserve.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Increase the open green space and scale down all buildings preferably no buildings.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I believe all alcohol serving venues should be kept on Eastern Foreshore and Western Foreshore to be TOTALLY for FAMILIES wishing to utilize open green space.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Get rid of all buildings and plant more trees and more exercise areas for children.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. Mandurah has plenty of restaurants and breweries already. What a waste of a great location that it will only appeal to the drinking public.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No licenced premise on the western foreshore. Keep it family orientated and kid friendly. Also bring a plan that actually offers something new to the area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This plan does not align with that vision at all. So far disconnected from the people and families of mandurah.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not at all. Mandurah already has all these attractions. Already mini golf there as well as at Abingdon miniature village. Plenty of restaurants in mandurah. Already brewery at boundary island, thorny devil and three rivers. Already chocolate factory at barragup. This proposal brings nothing new or innovative to mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Mini golf -

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By not having another brewery in Mandurah - we need it to be family orientated - for all ages - more gathering places for families to take their kids to interact with and enjoy, tin pin bowling, pop up rides, Ferris wheel, bbqs, water attractions

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Mini golf - yes - we need more family orientated gathering places for people to go Micro Brewery - NO

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

get rid of the micro brewery and it might be more appealing - we need more family attractions - a place families can attend that caters for all ages, Mandurah is a place ppl come to visit for a holiday so more ideas like bowling, mini golf, rides attractions that will increase ppl wanting to come to Mandurah

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

the skate park and the playground have been excellent developments. The land occupied by King's Carnival could be much better used. King's is old, tired and expensive. My family have lived in Mandurah since 1985, and have visited King's rarely. By contrast, during Crabfest, my family and friends enjoyed all the attractions - including the fairground - over that weekend. The Council has been excellent in developing facilities and attractions in Mandurah - well done!

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

that foreshore can be much better used by the community. the space currently occupied by Carnival is under-used

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe that it will be very attractive. Having a regular visitor to Shelter in Busselton, there has been a marked improvement for the Busselton Jetty precinct. In particular, it has been a quality venue and I have attended high-end events there. It has not been (In Busselton) a site at which only to consume alcohol. Good ideas too to have a chocolate factory, mini-golf and cafe. Strong support from my family !

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Locals and visitors alike will have a range of options to enjoy, including a restaurant and microbrewery, mini-golf facility, and a chocolate factory. This diverse mix of hospitality offerings caters to everyone. Currently, there's a gap in the city centre where adults can unwind while children have a play area, making this development particularly appealing!

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I believe this Business Plan will enhance our community's enjoyment of our unique environment and waterways! It will become a must-visit destination for tourists exploring Mandurah.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe it will be a bustling hub of activity! A spot where families celebrate birthdays and special occasions, where residents bring visitors to experience the charm of Mandurah, and where our community gathers to enjoy events.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

While some development would be welcome, it needs to fit appropriately with the war memorial, skate park and playground
We ratepayers have spent a lot of money for the development of the existing facilities on the western foreshore.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No Brewery Keep the area as a 'playground' type space

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

A thriving city, yes, but not a brewery, micro or not on this site.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I like the concept of an entertainment area along the western foreshore, not a brewery!!!! The skate park and playground attract children and youths, not drinkers. This is not the place for large numbers of alcohol consumers.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Not much

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Much smaller developments focused on local community focused on families that live in the area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not at all. It is far to big and focused on profits of some instead of a service to the local community.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

All developments other than the brewery (which is far too big) are ok. Smaller restaurants and coffee shops to service the local families would be better. parking and traffic with the proposed development will be a nightmare and Hall park will be only a car park.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing, the park should be left as a grassed park for the Mandurah people. There is already a licenced Tavern next to the park

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Leave it as a park, your proposal is vandalism.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not True. It is not for the MANDURAH PEOPLE, it is for the visitors. how can you refer to a tavern and concrete and then call it. CONNECTING TO ITS PEOPLE AND NATURE YOU PEOPLE HAVE LOST THE PLOT

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

THE RATEPAYERS ARE FED UP WITH LIVING IN A CONSTRUCTION SITE AND SEEING THEIR RATES WASTED BY A GROUP OF OVERPAID SOCIAL ENGINEERS.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No sale of this Class A reserve should occur. This amazing piece of land should remain as a community asset.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Too commercially oriented to provide a connected community.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not attractive to me and many others.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I love it all! I think it is very family friendly and will fit very well in that location. It doesn't encroach too much on the green space and doesn't stop access to the foreshore area.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Yes. The mini golf is perfect and I can see people attending the various services at the memorial coming together at the brewery afterwards. The beach is still free and accessible to everyone.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive. Great mix of low cost family-friendly activities. Also love the jobs that this place will bring to Mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

ABSOLUTE WASTE OF MONEY AND A DISGRACE THAT THE CITY OF MANDURAH WOULD EVEN CONSIDER SUCH A REMOVAL OF A PARK AND REPLACE WITH THIS REDICULOUS PROPOSAL.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

BY DUMPING THIS STUPID PLAN AND LEAVE THE ENVIRONMENTALLY FRIENDLY GREEN GRASS AND TREES SO FAMILY HAVE A NICE PLACE TO TAKE THEIR CHILDREN. NOT A BREWERY FOR YOBBOS TO CAUSE PROBLEMS, AS WE HAVE CONTINUED TO EXPERIENCED WITH THE SMART STREET MALL

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

SAYING THE COMMUNITY HAS SAID, IS A STRETCH OF THE TRUTH. MOST RATE PAYERS HAVE VOICED THEIR OPINION AGAINST THIS WASTE OF MONEY AND THE VANDALISM YOU INTEND TO INFLICT ON THIS SITE.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

THE COMMUNITY DOES NOT WANT THIS SO, IT WILL NOT BE ATTRACTIVE TO THE RATE PAYERS OF MANDURAH, IT WILL ONLY BE AN ATTRACTION FOR UNSOCIABLE BEHAVIOUR, WE DONT WANT ANOTHER ONE LIKE SMART STREET MALL OCCURRENCE .THERE IS ALREADY A TAVERN ADJACENT TO THE PARK AND NO NEED FOR ANOTHER ONE ON THIS FORESHORE.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The aerial photos of Mandurah are lovely and the concept maps are pleasantly shaded.

Q2. Is there anything about the Business Plan that Yes
you think could be improved?

Q3. How do you think the Business Plan could be improved?

The Business Plan as published is a fundamentally flawed document which cannot be validly regarded as a business plan. It glosses over a number of fundamental factors and incorporates too many motherhood statements to be a useful guide as to the compliance of the proposal with the criteria it needs to adhere to. The most significant of these are listed below: The proposed rent represents less than 3%pa of the unimproved value of the land (\$7m based on commercial land for sale adjacent to the Eastern Foreshore) The NPV analysis does not provide the discount rate and therefore is impossible to verify. However it does not appear to include the cash out flows attributed to works in support of the commercial tenancy. Based on a base valuation of \$7m for the land the NPV published represents a return to the City of 0.8% per annum over 25 years dropping to 0.6% over 50 years and 0.5% over 65 years. This represents a fantastic deal for the Lessee. Only \$850,000 has been attributed to Lessee related works where it is clear the intersection upgrades and jetty will be largely driven by or benefit Lessee patronage. This figure should be at least double and factored into the NPV calculations as noted above. The paltry return is made worse by the indication the revenue would be applied to future improvements in the precinct which would largely be to the benefit of the Lessee. The 21.5% increase in commercial land area is described as "marginal". This is disingenuous at best and deliberately misleading at worse. The increase is significant and it should be described as such. The expected visitor numbers of 750,000 per year would see the parking provided completely full for 9 hours a day during summer assuming an average stay of 1 hr. This also represents nearly 400 additional vehicle movements per hour through a dysfunctional intersection or one every 10 seconds. The presumption of using alternative and public transport by patrons is made without any evidence. The citing of discredited planning concessions in WA's planning framework is unhelpful in this context. The claims of 292 jobs created is made without any substantiating evidence. It is unclear what the relationship is to Full Time Equivalent employment. The quality of these jobs is not clearly outlined. The claimed job creation during construction phase is also made without substantiation. There is no basis for assuming these will be local and the only reference is a vague statement about proponent "commitment" to using local businesses and unspecified local content provisions. The claim of the proposal supporting a "Diversified Economy" is preposterous when it is a proposal to introduce yet another food and beverage business to an already over serviced part of Mandurah's economy, thereby exacerbating the lack of economic diversity. The claims of contribution to economic activity can only be described as heroic. A contribution of \$114m per year is not plausible with out supporting information. The claim of medium to long term positive impact on current like service providers is again made without any evidence or substantiation. A 600 seat food and beverage operation will add a measurable percentage of capacity to an already over capacity sector. There has already been a major hospitality development cancelled because of this proposal. The proposed operation will also compete for a limited pool of suitable service and kitchen staff. The limitations on trading hours are illusory given the qualifications attached to them. The "Social and Community Value" element of the proposal are primarily focused on matters not relevant to the substantive Mandurah community. One is simply a reiteration of a legislative requirement. Far more likely is the venue will contribute to negative social impacts associated with large drinking oriented businesses. There will also be significant impact on local community amenity due to street parking by patrons if patronage numbers are achieved along with increased likelihood of anti social behaviour from patrons returning to vehicles. The Business Plan as published simply makes too many unsubstantiated claims about supposed benefits of the transaction. It also fails to meaningfully address the significant downside risks of the proposal, instead offering vague, unspecified assurances or completely fanciful suppositions. The biggest of these is the failure to address the real, measurable and calculable impacts on the local road system and parking loads. If there has been a traffic study undertaken as claimed, then this should be published so it can be assessed for validity. The plan states only minor road modifications will be required, but does not outline what these may be. If minor then they should be scheduled early in the proposed timeline, not 6 to 7 years later as indicated.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The particular proposal to which tis business plan addresses does not align with community expectations for the City. The proposal is configured for the needs of visitors primarily as outlined in the plan. It will likely harm long term established food and beverage operators, introduce a traffic tangle for which no solution has been adequately outlined. The scale of the proposed venue is beyond that which can be serviced by even the increased parking, making access for locals even more difficult.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Most elements of this plan could be considered as enhancements for this area, except for the large restaurant/microbrewery which is simply too large for the location in terms of transport access, too impactful on current local operators and the available pool of service staff and introduces too much risk of anti-social behaviour in an already well patronised family precinct.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I think the proposed commercial development will complement the existing public infrastructure in the area, including the skate park, playground and other leisure spaces. The addition of a restaurant/brewery/cafe will create more dining options on the western foreshore side for people enjoying these spaces with their families and friends. Cafe is a great option if you don't want to sit for a full meal. The mini golf course will be a great addition for existing residents & families, plus will offer tourists and day-trippers more options to enjoy the Mandurah experience. Inclusion and celebration of Aboriginal culture into the designs is an important element, as is the possible partnership with TAFE to help students and young people to build their skills. The jobs created by this development is important.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

To a great extent through elements such as the inclusion of Aboriginal culture, the continued access for all to waterways, the creation of jobs during construction and operation, and creating more options and hospitality/leisure choices for both locals and visitors.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think many people will be keen to try the new offerings created by this development. The development will be next to wide open spaces and a playground, so there are many options for all in this area

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Leave the area as a class a reserve. Example - Attadale!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does not! What community was consulted on this? What company did this survey

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not attractive at all!

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Unsure how to answer this.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Take into consideration the detrimental effects on existing hospitality businesses, car parking and traffic control issues, how this will affect our beautiful war memorial. Is it appropriate to have a brewery so close to the war memorial?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It is just a huge commercial plan not connected to nature and not family friendly. It won't be people friendly when the additional traffic is queued up to get access to the bridge.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be attractive to some elements of the community but not necessarily the ones we want to attract.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Mandurah needs to be a destination type place. So people will come down from Perth for a day trip or an overnigher for the weekend. To attend events or to see attractions in the area. Whatever is put in this space needs to support that.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The space needs to be put together in such a way that different businesses and components that make up the space will work together to support events or crowds of people attending. Must also be family friendly which is a priority with the playground and skatepark being on this side of the foreshore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not sure another micro brewery is the answer but if it is then it needs to be a family space and as above ties in with the other businesses in the proposal.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

There's nothing new or exciting in the mix of businesses to attract families. So they way its going to be done will be very important. Make it different to everywhere else.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Leasing the land would be the best option. I'm just concerned with what you are proposing goes on it

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Keeping a licenced venue away from that side of the foreshore, we have plenty of eateries and licenced venues on the other side, we really don't need another, the ones we do have are already struggling to stay afloat. Keep this side full of fun activities for families instead (alcohol free zone) and please don't forget the War Memorial or Halls Head Cottage. Even if Kings Carnival was upgraded, it's already there and well known locally

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't think this aligns with what the community has expressed, apart from mini golf. The community go to this side of the foreshore with their families as it is a fun side without having to deal with intoxicated people. Please keep it that way, alcohol doesn't mix with kids playgrounds, skate parks or the water activities. Keep this side kid friendly please

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I don't feel this is attractive to the Mandurah community, this feels like it is aimed for tourists who don't really know the history of Mandurah, a microbrewery/chocolate factory is not what Mandurah is known for, we already have brewery's scattered around the Peel region and a cafe/restaurant, we have plenty of those on the other side of the foreshore, keep the booze on that side and keep this side for the families who want to have fun activities without alcohol involved.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It's an A class reserve and should be treated with tge respect it deserves. No breweries. Coffee shops...recreation...ice creamery...chocolates...art shop...dolphin education centre. Mini golf abd fun park is okay.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

An nature education centre is more fitting to be adjacent to our Anzac memorial and children's playground. I do not agree with a brewery...its totally unnecessary as there are plenty of liquor premises selling alcohol in tge region.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does not...too much car parking taking up open spaces which should be used for recreation...education fun for families....a dolphin education centre or cafes is more fitting. Kayak hire. It is inappropriate for a brewery to be between our ANZAC memorial abd children's playground. You don't need a brewery to have a successful thriving city.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

A brewery is not within keeping of the area...between a children's playground and ANZAC memorial seriously i have dpoken to many who do not agree with this concept Mini golf, chocolate factory, Cafe restaurant, is okay but the amount of parking you have set aside is horrific. The beautiful family area needs to be maintained. It's A class reserve. Use it for a dolphin education centre. Be brave not greedy. Who is getting the kickbacks for tge brewery concept? .its inappropriate not business.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

NOTHING. Keep it as a A class reserve

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Bring the area back to a low key Family park atmosphere. Small cafe is all that is needed. A short walk across the bridge will take you to all the commercial sites which should be supported

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This plan does not connect to the Cities People, nor does it connect to nature.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Plan is good except for the Micro Brewery and huge restaurant.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Revitalizes an important and centrally located area that is currently not catering to the majority in the community.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The plan will lead to greater use of the site by residents and will attract others to visit.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive as it has aspects that will appeal to a wide demographic of the community.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the proposed mini golf, and restaurant.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I don't think the microbrewery element of the venue is needed. We can see similar examples of this in WA where the microbrewery ends up shutting down and being decorative. A licenced restaurant is all that's needed. It also doesn't appear to have considered the need for space and sound impacts of live music. It is reasonable to predict, if the current proposed venue as is goes ahead, that they will have live music at the venue. Local musicians and venues are already too often negatively impacted by noise restrictions due to poor planning and design of venues to reduce the impacts of sound carrying across open space to residential areas. This could be improved. I also think the proposed amount if new parking areas is excessive. In the 2018 proposal fir development the city sited that one if the intentions, of development of the western foreshore, was to encourage foot traffic around from the eastern foreshore. By adding significant parking the likelihood of of this increased foot traffic is reduced. It also reduces green recreational space and would require removal of trees that beautify the area currently. I am concerned that the proposed market / event space would remain mostly inactive through out the year. I think this could be improved by providing low cost or subsidised artist studio spaces, combined with retail space to showcase and sell works of local artists. This would provide connection to community along with development and economic opportunities for the artists. It would also provide a year long usage purpose for the space, preventing it from falling inactive, and attract visitors as something else to do and see in that commercial space.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't see this vision currently delivering new possibilities to everyone. It's focused on providing for visitors from outside of mandurah. Although some jobs will be created, and locals might utilise the venues and attractions, its not anything they don't already have access to.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It would increase attraction in the short term for the local community. But it doesn't provide significant additional long term community attraction. It's aimed more at tourism.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By abandoning it

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not in a he slightest . It's more destruction to f open space to hand money to developersv

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Not attractive . Parents don't need pubs to take the children to and chocolate factories are pretty kitsch .

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the mini golf and cafe. I don't like the brewery part of the business plan.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Anything other than alcohol. A new and improved fun park, Ice skating or ten pin bowling. All the things that Mandurah is missing.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

None of it is suitable for really young kids. At least kids/teens would be able to use mini golf but we need more in Mandurah to keep them entertained and crime down.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Partly attractive. Our community doesn't want more drunk people in a family friendly area.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Licensed Restaurant and Microbrewery Cafe & Mini Golf Chocolate Factory Jetty's All abilities paddle launch facility
Recreational fishing commercial: on-water business Swimming All the above brining a community and families together,
something for youth and young adults and seniors in our community. high quality architectural design.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Markets on the weekends helping small local business, for an example Kyilla Community Farmers' Market in North Perth.
They open 8-11:30 on a Saturday morning. Increased public transport.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think the vision is there, there are lots of opportunities around to see how other towns design beautiful locations with great atmosphere and good food that keep people going back. Important to keep the wow factor with high quality architectural design. it would be good to see the designs of the building before they start.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think all of these businesses connect to different people in the community and when you add in the skate park and water activities I can see it being a vibrant place to spend time. I think it's also very important to get the design right and have that wow factor.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. Should remain an A class reserve.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

remove the Carnival and retain the area as an A class reserve. Absolutely no alcohol outlets on the Western Foreshore. Retain the open space for family's.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Zero. This removes nature and introduces a commercial facility that is more suited to the Eastern Foreshore/city. The proposed mini golf area is absolutely not suited to this A class reserve that should be open for all the community to enjoy. The proposed Brewery is way too large for this area and again not suitable for an A class reserve that must be retained for the community.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Absolutely not attractive to the local community. The development of the area as an A class reserve with community appeal is needed. Not another Brewery. The mini golf is huge waste of an A class reserve. Why allow a few commercial interests take precedence over the community?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Scrap the substantial commercial buildings and large commercial contracts proposal. You have be adaptable today. Adapt infrastructure to mobile small businesses who can bring uniqueness, variety and adaptation to the space. Eg: Build shelters where food trucks, mobile microbrewery, or any mobile setup can dock. Immerse these in the surroundings. Tell stories of our history down winding paths, create pockets of space for musicians, ceremonies, artists, storytellers, and allow the vast mobile network of arts, cuisine, music, culture, to be showcased. The adventure and skate park are great, but beyond is an opportunity to... plant elaborate native gardens with storylines, artworks, create intrigue and discovery, winding paths to take you on a journey, sounds and geotagged apps to guide you. Pop-up stores for FnB, displays, or artworks. Stages for small ceremonies, private gatherings. Conversation pits, with open fire bbqs, storytellers, micro concerts. Open air long table dinners, lanterns, solar lighting through trees and pathways. (Think of the hoards attending Kings Park light shows.) Make it adaptable to all seasons, all cuisines, cultures, tastes, power, light and sound needs with a calendar of themes and grassroots events.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Poorly. I see a replicated commercial model with a thin vaneer of local culture. Nothing outstandingly unique or ground breaking.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Minimal and diminishing attraction. Across the pond you will see a mirror of the proposal. Microbreweries, icecream and chocolate shops and cafes. and "funzones". Yawn! This an appalling cut and paste concept that is embarrassing as a local to behold. The Western Foreshore has the potential to be a unique one-of-a-kind attraction to everyone. Or go ahead and build another brewery, restaurant, cafe strip like everywhere else because you know it turns a dollar. And smear a little local seasoning on it to satisfy your mandate. Courageous stuff (sic)!

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like that there may be a cafe and mini golf. As a local resident that has kids who use the western foreshore very regularly, grabbing a coffee over that side while the kids are entertained is a positive thing.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I do not believe that any venue offering alcohol fits in with what that side of the foreshore represents. We have the skate park, playground and a war memorial. Placing a pub / brewery in between those doesn't make sense at all. We use the western foreshore to avoid the restaurants and pubs. The plan needs to be family friendly. A brewery is not that.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The business plan is focused on visitors and tourists not mandurah residents, the people who use these spaces every day. We don't want a brewery. We need an area that brings people together, that is enjoyable and is for everyone. I don't want to bring my boys to the skate park and go for a walk to just have to walk past drunk loud people at a brewery next to a war memorial. It's not right

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Mini golf, cafe all Great things. I also think a water splash park would be fantastic ! Bunbury has a great one. Mandurah needs something like that. A restaurant and brewery is not needed on the western foreshore. We have so many already on the eastern side. I don't think it will be attractive to the people who live in mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like that it will be a multi-use site and will attract more families to come to the area, either to live or for a holiday/day trip

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think it provides more options for residents when it comes to places to go out with their families and will attract more people around Perth to come for the day

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it would be very attractive because I know it would make me want to go there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It will make the area more entertaining, more usable for families, and more attractive to tourists.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It aligns 100%. It's a great initiative.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Extremely attractive and much better than an antiquated, run-down fair ground.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Dont like the plan. Dont need another brewery or chocolate shop

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Retain king carnival, get rid of the brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

A brewery is not connecting people. There will also not be enough parking, a problem the city already has. Also having the same problem at boundary island brewery and no one cares about that. Will just cause more traffic congestion.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think it will only be attractive to people who like going to beweries, not families who want to picnic and have a swim and play on playground.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Jobs created would support a major land transaction - but just not on Mandurah's Western Foreshore

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Too little Family orientated zone on the water left for public use - it would become a transit zone. The business aspect doesn't fit within the boundary of a War Memorial and a Kids skate Park/Playground. Businesses are given precedence over public use.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Thriving doesn't mean commercial. Thriving doesn't mean trying to fill in every last piece of Mandurah's open spaces left. Being connected to Nature doesn't mean filling in the estuary with another huge dock - or multiple carparks, so that people can conveniently go to a Bar.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Essentially the three elements already exist in Mandurah right now. So is it offering anything new to the face of Mandurah's Tourism Potential - No it isn't!

Q6. Are you a resident of the City of Mandurah? Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Last Seen: Jul 21, 2024 00:00:42 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The brewery is ok but the cost of going to eat and drink there will be the issue.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Traffic flow doesn't look like it's been considered. To much car parking it needs to be reduced which so the public's can walk and use public transport. Bigger area for the open space needs to be kept. It will look to commercial area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It's been made to commercial lessen the areas and car parking.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

As long as it only takes up the existing site of the king carnival. The open space should be kept as much as possible for other events. Parking and traffic control will be a big disruption. The cars coming from old halls head western side already get blocked up due to the traffic coming from the south side that won't stick in the R hand lane.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Last Seen: Jul 21, 2024 09:09:24 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. I don't agree with the plan to have additional commercial premises on that land.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By keeping the existing King's Carnival but with substantial upgrades

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

No I do not. Having additional commercial premises puts the natural environment at risk. The amount of extra rubbish this will create will affect the area, both land and water ways.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Having a brewery creates a higher risk of alcohol fueled violence and inappropriate behaviour around children. It also creates an economic divide with not all people and their families being able to access the pay for service facilities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Definitely not a brewery or any hotel type business.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Put in a provisional place for teenagers.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I think this is a waste. The eastern foreshore traders are struggling as it is!

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I don't think there's a need for a restaurant or brewery needed there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It gives more activities in a boring part of Mandurah. I hate the area around the western foreshore - it's old shops and one terrible pub

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

100%. It's modern and fresh and we need it

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very much so. All those people making noise on social media are just doing it because it's something to moan about.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It's very good

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Totally

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very much best new development mandurah has had in years

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

There is nothing that I like about this business plan!

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No more places that involve alcohol in Mandurah! Majority of the foreshore has pubs restaurants that all serve alcohol. We need something for families with children and something for the teens.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't align whatsoever!

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Will only be attractive to the upper class of Mandurah most people won't be able to afford to go.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

There is nothing at all i like about this plan.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

I really think it is highly inappropriate to have a brewery between the War Memorial and the childrens playground. Alcohol is supposedly banned on Western foreshore and now they are proposing to have a brewery. It does not make sense at all.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Not at all. It is no way to connect people with nature especially since many trees will obviously have to be removed and a large area taken up with parking. I believe this land was originally given to council for recreational purposes.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe the mini golf, chocolate factory and cafe and maybe water activities will be very attractive to the community. Parking and traffic issues with 650 seat restaurant/brewery will be a nightmare! traffic issues in that area even with proposed changes will nor alleviate the issue. Local residents must be extremely unhappy.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like that there will be a number of benefits to the Mandurah Community, such as an increased number of jobs, increased revenue for local government to put back into the community, improved facilities and amenities.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Yes

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like everything about the Business plan, apart from a Licensed Restaurant and especially a Micro Brewery. Why can't we have one area in Mandurah that isn't revolved around alcohol. I am a drinker and do enjoy going out to restaurants, but this side of the foreshore should be allocated to children and their families without alcohol involved. Plus we have enough restaurants within the area of Mandurah, all trying to make a living.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By not having a Micro Brewery and I don't think it needs a licensed restaurant either.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This business plan does not connect to nature at all, its just a huge construction and a money making adventure. It should be connected with families and nature and enjoying the environment. I don't see that vision at all.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It may be attractive to some, but I hear a lot of what the people are saying and I feel that a good amount of the community will not be happy with this proposal from the council. Even regarding the subsidized rates that this company will be receiving. The small family run businesses in the area do not get any subsidizing. Just lets help out the big corporate people and and make it harder for the little guys. But then again, we shall see if this goes ahead. If it does, then the council is not listening to its people. Again!!!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Creating something for everyone. Would be nice not to copy Busselton.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Let make something unique to Mandurah made a permanent solute to the Giants

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It does but we need more for tweens.. teenagers and younger kids are taken care of but 9 - 12 year olds are not.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

If done right it could be very attractive just need to ensure it has the ability to hold live events and unique events.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

25 year lease to enable business to thrive

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

No Brewery to be built. This will affect all other drinking venues in the city district and also the Brewery on Mandurah Quay. Business struggle enough in winter and adding another large venue the smaller places will struggle

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Doesn't provide to everyone

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Once people have been couple of times to the chocolate factory they won't need to come again. I think you will have a problem with drunk people being around all the other family friendly activities plus the kids park. What makes this plan different to places like Busselton, swan Valley and Freo. I don't think families will choose to drive to Mandurah for a Brewery

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

waterpark for families

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

It should be entertainment for kids. If kids are entertained, parents are willing to spend money.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

If it involves families then it aligns to the vision

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

not attractive. Put waterparks.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Will really support local jobs, provide a new activity which allows choice for residents and visitors. A real destination that complements the locality and brings much needed jobs to Mandurah. Very forward thinking.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It aligns well, we need investment to thrive but it needs to be by a reputable company with longevity. Bussleton is a prime example of how success can look

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very! And will help give visitors more local experiences to stay longer in our town

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Leave it as is and Help the Family that you kicking out.As I can't see how putting another micro Brewery there I helping the local community. I will have to drive past two to get to it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Buy putting another brewery I fail to see how that is going connect with the people that live here or help nature. What happens to the buildings if they fail as that seems to be the trend at the moment. Bit I am wasting my time commenting on this as you have made up your mind.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I am still trying to find someone who are un happy with what is there and has been there for a very long time.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The strategic transformation of Mandurah's foreshore to activate available waterfront areas

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I aligns well

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think, ultimately, this will be very popular. City of Mandurah need to consider details such as road access, parking, etc. However given the thoroughness with which the competitive tender process was concluded and the options assessed I am assured this is the best outcome for this site.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the idea to extend the use of the area. But, I do not agree with the idea of building another micro brewery. There are already a lot of alcoholic outlets on the eastern area, why build another? Alcohol and alcohol related diseases are becoming the top killer of today's society. Here are known causes of excessive alcohol consumption; Car accidents caused by excess alcohol consumption, Domestic fights causing death, Increased liver disease caused by alcohol, Increased occupancy of hospital beds due to alcoholic consumption, Families going without as they cannot afford money for daily food, medical services, proper shelter for families, clothing for children, and proper education. Taking up police time with drunks when they could be dealing with other matters.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The council not to let money talk in order to improve that area. Make the area a totally alcohol free area, so families which do not drink can go there and have a happy time. Today it is fast becoming a time when people do not want to drink. They are seeking alternative ways to increase the awareness of non alcoholic drinks. Why do you have to consume alcohol to have a good time? Whenever I go out I always ask if they have non alcoholic drinks. I even take a bottle to the restaurant, and have not been refused to drink it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

We can have all those things without adding alcohol. People need to be educated about what alcohol causes, like cigarettes. Why not put warnings on bottles, like they did for cigarettes?

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will be more attractive if it was turned into an amusement park for families without the presence of alcohol. Alcohol is a drug of addiction that eventually kills people. I'm a nurse and see these people regularly, who are taking up time and resources which could be put to better use in finding cures for e.g. cancer, m.n.d. alzheimer's disease to name a few. I'd like to know if this company donates regularly to any of these organisations for research?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't like the plan if it is for the brewery and Restaurant. However if Council needs to do a Major Land Transaction to give a long term lease to the Carnival then I would agree.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't build the Brewery.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't. I

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I don't believe that we need this on the Western Foreshore as it can't be said to be children friendly. All the above are readily available in Mandurah and surrounds and would be more than happy with more customers.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I dont

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Do not go ahead with it

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I don't believe mandurah needs another restaurant or brewery to connect people and it certainly won't help nature having more car parks.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The mini golf is attractive to families and could be extended to include the likes of axe throwing, ten pin bowling, side show games.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It needs to be postponed in the current economy. Kept as a class A reserve for all to enjoy. Give the existing tenants longer leases so they can improve or upgrade. Keep it Local

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Safeguard a 25 year lease in the event of bankruptcy , keep iconic landmarks that Mandurah is known for.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't, it only caters for a few select groups - those with money and those who are of age to enter licensed premises, We need free attractions or low cost that will entice all groups to want to visit the western foreshore, tourists & locals. all seasons of the year

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Attractive only to the people that can afford to be patrons of those businesses and do not reside or do majority of work or shop regularly in Mandurah , what percentage of the proposed businesses owners are classed as local?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The leisure focused elements.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Please do take into consideration the view from the Eastern foreshore looking across to the Western - there is great potential to ruin the skyline completely with a dated set of constructions e.g. Sebel It is assumed the whole area will be fully designed with complete collaboration of the indigenous peoples of this area - with an additional respect for the ocean element it borders on. Nothing really in the concepts and design stages suggests this work is in complete collaboration and so it is assumed the original owners of the land will only be brought in in the way they usually are (in my limited understanding late and more as a token gesture). The intersection back out onto Mary street will need serious work. This is already a nightmare on a good day. Not entirely sure that the parking for a kayak launching facility has been thought through - cars with kayak trailers have limited parking in many of the areas in mandurah - so why put a launching facility in a commercial area where there are likely to families, visitors etc parking with no consideration for the other type of ocean front user. Seems not the best place. Cannot see any indication of thinking of a mini information site. If you are trying to attract visitors and then lead them into additional things at the city there is no natural progression for this in the design.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The assumption that commercialising the space to make Mandurah 'thriving' is a flawed starting point. I don't think its really required to commercialise the Western foreshore. I can see that it would generate additional foot traffic further around the foreshore area. Nothing I have read suggests why it has to be commercialised to make a 'thriving city' though and why you would need to purchase the land for commercial purposes. I might have missed it but I think the Leisure focus was a better approach with supporting small food options to purchase, rather than trying to make it a destination point for more food and drinks.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Nothing implies this is for the community - mostly it looks to be designed to be a destination point for visitors inline with what is presumed to be the tourist angle. It will be somewhere I will bring visitors, not likely to be somewhere I would attend on a regular basis.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I favour the overall plan in regards to the Commercial development however, would like noted that the development also needs to be favourable to the existing businesses that surround or are adjacent to the area.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

The rent to the potential investors on-going does not seem adequate and would not be favourable for other Hospitality venues in the area. Hospitality is becoming more difficult with the rising costs of labour and product so I believe the City should be mindful of how this impacts other business in the City centre.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I believe the mix of business from the Plan in this space, is conducive to attracting visitors to Mandurah. Especially in the summer months, when tourism and local residents are at its peak looking for places to frequent. The waterway in this space is currently under-utilised, and this plan will assist in facilitating access by water and improving on the aestheticism of the Western Foreshore.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I believe this will become very attractive to the community hence my concern for accommodating the number of visitors to the Precinct. I will be closely reviewing further plans of the area as they become available and would like to be considered in further consultation of planning in this Precinct if this could be possible. I was a member of the City's Waterfront Committee in 2018 being a local resident and local Hospitality Business owner so have an invested interest in what the future holds for this area.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I really like the idea of updating, and bringing more vibrancy to the space, and therefore support the MLT.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

By providing a range of options for everyone, working with the landscape and the waterways. I particularly like the family focus of the plan, we are often at the skatepark and to have more options for coffee, food etc close by will be excellent. We often just attend as our family, but I can see us more likely to meet friend groups with kids in this space with there being more options.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I think the array of elements are what's great about the plan. They will cater to everyone within the community, from simply being in a space that feels vibrant and connected, to providing more options to purchase food and enjoy paid entertainment options (ie mini golf (upgraded)) with family and friends.

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like it and support as it is time for the Kings Carnival to go.

Q2. Is there anything about the Business Plan that you think could be improved? No

Q3. How do you think the Business Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

100% - it is an excellent plan and it is very inclusive for all ages

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The area will become extremely attractive to the community once completed, having seen and attended the Busselton microbrewery and mini golf I can only be excited for these amazing businesses to expand to a new community and bring a new refreshed vibe to Mandurah. Having grown up in Mandurah for 20 years (now living in Dunsborough), I am so excited for this to be developed as the I feel Mandurah has been quite stagnant in the last 15 years since I left. We often visit family and I feel like there has been no major developments like this and towns like Busselton have grown with the times and is now a thriving environment for families.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The Business Plan is very comprehensive, and represents a high level of feasibility.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Increased recognition of the natural site and assurances that the commercial development will not impinge on the community's connection to the Estuary for the purposes of free leisure enjoyment.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

To a satisfactory degree. It would have been preferable if a local trader has been able to submit such a comprehensive plan, as it would have allowed a greater connection to local business and environment, however I understand that you have to select the best proponent for the job!

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

It is not in the interests of local residents

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Cancel the business commercial plans

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

NO

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

NONE. Where will it stop?

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing. It removes a public asset for a select venture. It removes public open space whai belongs to the community. The community needs public open space for all people to enjoy and use. And importantly for the environment and wildlife.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Don't complete land transactions. Keep the space for pop up venues not a permanent structure or brewery site. Nothing permanent should be built in this area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This removes a key aspect of that to connect people and nature. And removes the possibility for everyone to enjoy public open space.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

For a short few years it will be popular then it will become forgotten about or not used. Keep the space for pop up events and spaces. Not permanent structures or buildings.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I like the idea to have a place for families. The mini Golf is a start.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

A tenpin bowling and roller rink so people dont have to rockingham or cockburn. Kids and families and young and old adults love the idea of roller skating, and bowling. why not that as well as a restaurant/microbrewry

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

I really dont think the majority of mandurah people would actually believe having a microbrewery is our best choice.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

These places cost locals alot of money to take a family too. If they had more fun activities and not just about food and alcohol but activities for families to do together .

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing, I do not feel we need another Brewery/Pub in the area. I feel the area should be left as a recreational area and maybe a cafe/eatery area suitable for adults and children alike

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

as i said above

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't - it will just bring another element of undesirable people

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

take out the microbrewery - it is not needed - keep some of the more family friendly attractions

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Tourist accommodation, Event areas, Collective cadres, gift shops, local artisans displays.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Fishing area, teach children how to fish, somewhere where local artisans can sell there craft, boating lessons, cooking classes for all ages, tree lights like kings park etc.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Yea love anything nature and Mandurah history, outdoor movie space, games giant chess game, board game area, cards. Get the kids of social media etc

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

Cooking school, trampolines, Something different that makes Mandurah stand out from all the other areas like a ship to play in and learn, dolphin display and knowledge, fish and chips and cray boat excursions, the Ferris's Wheel has always been a land mark so updated and get a wheel like in England, zip line, cart or carriage to get across the water etc.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I don't. I object whole-heartedly to this proposal

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

By providing proper consultation with the community as to what should happen on the current site. To state that Council offered a survey and that the residents responded and then are presented with just one option that is overly large, not thoroughly investigated or costed and one that goes against everything that the Western foreshore should be.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

This is an abomination. The pub culture needs to stay in the Eastern foreshore. Under the guise of "family friendly" this is just a sham. We have a lovely skatepark, respectful war memorial and we are seriously considering putting in another pub ?? This is just insane.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

There is no need for a restaurant and brewery on this side of the foreshore. The gateway to the most affluent area within the Mandurah Canals is looking to be ruined but having a boozy, pub culture introduced. We don't need it. It will actually diminish the beautiful canal system. We have Murphys, Monkey Bar, the Bridge, the Brighton, Bar Therapy, Little Stiller. Why on earth do we need another pub and microbrewery?? This is just insane. There is no traffic management. It is crown land and just is not suitable to preserve our 'Relaxed by Nature' culture.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Responded At: Jul 26, 2024 09:55:29 am

Last Seen: Jul 26, 2024 01:37:40 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Not much. The foreshore has been part of Mandurah for a very long time. Given there is not much left of the original left Given the weird goings on across the foreshore and various roads across the council areas I think all that needs doing is a refresh of what exists. Of course council has already decided. I am only here to voice my objection. The only thing I think that has worked in all the millions dollars of wasted rates is the skate park. Do something like that to refresh the carnival.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Tidy up Kings carnival.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

All families need a brewery. I assume given the council appetite for removing trees, all trees on the site will be removed.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

It will probably attract those that can afford it.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Respondent No: 232

Login: [REDACTED]

Responded At: Jul 26, 2024 11:34:40 am

Last Seen: Jul 26, 2024 03:18:57 am

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

I object to the proposal that 8000 m2 of class A reserve is being converted to a commercial precinct, plus the proposal, request at ratepayers cost to create an extra 202 car park bays, which will take away a further minimum of 6000m2 of greenspace. There are sufficient alcohol outlets in mandurah central , without adding a 650 sear brewery, plus the anti social behaviour this will bring to the Western foreshore

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Re think the whole proposal, and look at making the area an attractive landscaped family area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

The City is doing well enough as is , with the commercial area being on the Eastern foreshore, and marina area. We require the city to be a family friendly place with green open spaces, which the western foreshore can provide , planned correctly

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/ microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

not attractive at all

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Responded At: Jul 26, 2024 16:18:03 pm

Last Seen: Jul 25, 2024 22:13:47 pm

IP Address: [REDACTED]

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

The intent to revitalise the King Carnival site.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Traffic congestion is an issue now already, and this development will exacerbate this massively. The development plan does not appear to address this issue.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

not answered

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

I fear it will be a negative impact to the local residents - especially due to the traffic issues.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Nothing

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Do not have a brewery in a park reserve

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

Business and pleasure don't mix. Can't we afford to retain a A-Class reserve? Retail is the most common commercial land there is. There is plenty of land available for develop a brewery on the Eastern Foreshore can't Shelter compete on the same playing field as every of business?

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

A retail business is a park is the worst plan put forward the Mandurah has ever had. Put the money towards community building projects, alcohol can not be part of an A-Class reserve. No-one is travelling for this offering.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the Business Plan that would support a Major Land Transaction?

Entertainment and dining precinct.

Q2. Is there anything about the Business Plan that you think could be improved? Yes

Q3. How do you think the Business Plan could be improved?

Using the concept of a co-op of local investors to provide activities and dining options. Retain alcohol free (and smoking free) family concept of the foreshore. Use of the land to provide an environment, cultural and heritage precinct/hub for the purpose of showcasing these to visitors and locals with emphasis on environmental education and research.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think this Business Plan aligns to this vision?

It doesn't.

Q5. Considering the different elements that make up this business plan (eg. Mini-golf, licensed restaurant/microbrewery, chocolate factory and café), how attractive do you think this area will be to the community?

The inclusion of a large licensed venue and brewery will reduce the attraction to the community. If the venue is unlicensed it does not preclude BYO at the restaurant. The inclusion of a licensed venue within close proximity of a playground, war memorial and family focussed space is inappropriate. Leasing the area to a non-local group will reduce the benefit to the local community, including the use of ratepayer funds to provide infrastructure to commercial entities.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Responded At: May 29, 2024 13:07:10 pm

Last Seen: May 29, 2024 04:59:10 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of an amphitheatre, and spaces to have large events. I dont mind the brewery as long as they have a proper area for children and offer more than just over priced beer. I think mini golf is great, more family activities is needed

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would like to see commissioned a Mandurah eye, or ferris wheel as the views are sublime. I think an outdoor skating rink with good lighting could also be used all year round for many activities.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think so, its hard to keep everyone happy but commercial viability mixed with free accessible activities plus the ferris wheel that shows off the wow factor of mandurah (not the rickety old wheel there now) King carnival had its chance time to go.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it would be great. I wish it was a year away.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing at all. No need for another pub there is enough on the otherside. Just a scrappy mini golf that isn't appealing too many

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Something more than a mini golf for kids there needs to be more for kids of all ages. We all by pass mandurah because there is nothing for kids to do

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not at all

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Good utilisation of available space whilst creating venues which would cater for a wide range of existing, local demographics, as well as tourists.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Will need better public car parking availability. Mary St intersection may require signalisation / intersection upgrades.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It aligns much better than the current use of the foreshore does! It caters for a wide range of users, both local and visitors and would also encourage people from Perth Metro to come and visit to utilise the area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It should be very attractive to families, however as always it will need to be well managed and maintained to discourage the expected anti-social behaviour which is also currently visible on the eastern side of the water.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great use of wasted space. King Carnival is grossly outdated and dilapidated offering nothing but an eye sore. The proposed plans give families better dining locations to view the foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Unsure as to parking plans and entry/egress, however with a large venue with potential for high traffic area of pedestrians and vehicles, hopefully consideration is made to multiple entry/exit points other than Leighton Place.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Perfectly. I visited King Carnival with my 2 year old child recently and was severely disappointed and dissatisfied. Growing up in Mandurah my whole life, I do not ever recall King Carnival thriving or bringing tourism/visitors to Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Highly, providing parking is not an issue for them (large parking bays for families with prams)

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I believe that having more open space and jetty facilities will be terrific.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I believe that the current water canal that separates the western foreshore with the Memorial on one side and the northern side of the western foreshore deserves a pedestrian overpass to join the two. I know that some of our water tourism services like Mandurah Cruises and Pirate Ship makes use of this. So a reasonably high footbridge would be great and needed.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think we can do better. When I first moved to Mandurah the Mandja Bay markets was thriving in most part to having a mix of art/craft type stalls as well as various cheaper food options like food trucks etc. However, in a matter of a few years this market has dwindled in vibrancy and attendance. Due in a great part to the abolishment of the cheaper food options. I was led to believe that this was based on local eateries complaining about their business being taken away. I'm at a loss to understand who in their right mind thought that this was the case. People who attend markets are not always looking for sit down or takeaway meals. Also buying food and sitting on the grass, especially in Summer&Spring, is a much nicer option. I know that local eateries do offer takeaways. What is not recognised is that foot traffic and people posting on social media, these days, is what makes other people standup and recognise Mandurah. When it is bustling with other people, ergo Mandurah Crabfest. Simply sitting at a cafe or local eatery is not going to cut it.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The western foreshore I believe will always be the second cousin to the eastern foreshore. My thinking on this forebodes most peoples idea that these are already recognised as TWO separate areas instead of considering it as Mandja Bay Area consideration and redevelopment. To have a single licensed restaurant in this area also seems silly. With the current economic climate and cost of living crisis to entertain a restaurant as opposed to having cheaper and simpler food truck or cafe alternatives seems ridiculous. I mean who is going to be able to afford going to a licensed restaurant. It's not family friendly.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't think it focuses enough on family friendly activities. Whilst I have absolutely no objection to a restaurant that serves alcohol, I firmly believe there should be more focus on leisure activities for teenagers, such as a water slide

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More focus on amenities for families, especially those with teenagers and much less focus on alcohol. Not saying it shouldn't be served, but a brewery? I can just see people relieving themselves on the war memorial.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

How does this plan in anyway connect to nature? Needs to focus more on family friendly. Whilst it focuses on social aspects involving food and alcohol, there needs to be more focus on activities that incorporate physical, emotional and intellectual aspects

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be great for those that consider parenting happens when you aren't really interacting with your children in a meaningful way. As a community we can and should do better.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The under bridge venue is all. Please please not just another pub with loud music pumping out.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove the alcohol. Is this the best that council could come up with. Another pub. More drunks.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't. I have seen the results of ever more pubs and less open space in the seaside town i used to live in (Bridlington UK) Now a complete dump full of unemployed, drugs and violence. Fremantle is going the same way. Don't copy it. If you want to revive Mandurah take a look at your town centre first.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Less than it is now. That space is perfect for attracting events, which in turn attract people and you are about to concrete it over.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All of the proposed plans are excellent. The Shelter in Busso does not attract drunks it attracts families local and otherwise. An eating venue important with all the activities in this area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Paying respect to the local Indigenous community with Indigenous themes even going so far as Indigenous food truck and stalls.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It caters for all ages, local and tourists alike. Local indigenous themes would be extra special.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely attractive to families as it caters for all ages. We're hoping the small vocal minority against the removal of King Carnival has no effect. King Carnival has always been sleazy and expensive they have been lucky to stay so long.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Redevelopment of that area will expand the mandurah foreshore area and create new spaces and opportunities for families, residents and visitors to enjoy. It improves Mandurahs reach and allows for all areas to be utilised.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Maybe the inclusion of a playground entered around the brewery/restaurant to encourage family usage.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I believe it improves mandurahs reach and will allow for people to enjoy a space which until now has been underused.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it could become a new central hub for Mandurah drawing families from all around. It crates opportunities that don't currently exist.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The commercial spaces are a much needed investment on the western side. I feel this is massively underutilised. I like the idea for an events space and amphitheatre also.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

While I understand the need for improved accessibility via the water. I have fears that the proposed plans vision for more jetties and elevated walkways could damage the "relaxed picnic" vibe and swimming spots which are highlights of the western foreshore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I feel as though additions as mentioned in Q1 combined with the first class playgrounds, skate park and swimming facilities aligns to this vision perfectly. Removing any of the beach/swimming access would dramatically tilt this in the opposite direction however

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Hugely attractive. Which needs some thoughts around parking and accessibility. With a drawcard such as Shelter Brewing a possibility, it may be more of an attraction than the eastern side.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Besides finally getting rid of that eyesore that is run down Kings Carnival, I'm very excited to see the possibility of Shelter Brewing or another coming in and having a scenic frontage on the waterfront. The War Memorial is beautiful and it deserves a quality neighbour.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon?

No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's been a dead end part of town for too long. This will connect the entire precinct into what it is worthy of being.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Mini Golf, Cafe, Chocolate, the skate park a short distance away. I don't see a problem. My kids are nearing teens and it would be a space they can still enjoy. I'm a bit sad I have to click no to question number 5 resident status. From Secret Harbour we always head to Mandurah and not Rockingham foreshore. It's got all my favourites already with Murphy's and The Pen for lunch out. This will just give us more options.

Q6. Are you a resident of the City of Mandurah

No

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I would like to see a theme park remain in that area. Mandurah was/is renown for kings carnival. Taking it away and putting yet another standard microbrewery there is just attracting the wrong kinds of people. There needs to be more focus on activities for the teenagers, young adults and even families wanting a night or day out. With the bowling alley closing and other fun activities Mandurah is seriously lacking for entertainment. You have the cinemas and that's about it, maybe the skate park but who uses that 10% of the population. Rockingham has more to offer for their younger generations. I think Mandurah needs to stand out and attract families to the area not promote drinking.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Add something entertaining there, either renovate kings carnival or set up a theme styled entertainment like Melbourne has "the Archie Brothers" (google it). It can be for the younger generation and the older generation.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think Mandurah Council is considering the teenagers, young adults or families. So you have put in a playground, there's a few around which people can choose from but what else is there to do? Especially when it rains? What can the younger generation actually do in Mandurah? You've managed to take away all of the historical sights and replace it with everyday city things. Mandurah isn't as unique as it once was.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not many people play pickleball so that seems pointless adding that in. Mandurah doesn't need a microbrewery. Mini golf is a great idea but what other entertainment is there? How about an ice skating rink or ten pin bowling or even better the Archie brothers entertainment that has everything from bumper cars, laser tag, games, bowling, and a cafe and bar for the evenings. Some even have a holey Moley golf

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

If this project is done well and maintained it has the potential to elevate Mandurah to its potential as a beautiful city and invigorate the local community. I fully support this proposal.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Include boardwalks / shops etc over the water similar to Hillarys Marina.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We think this project has the potential to do just that.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. Also attracting valuable tourism.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Would be fine if there wasnt an alcoholic precinct where children play

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keeo the Western Foreshore for children and families. No alcohol

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Have more thingss to actually do, 10 pin bowling, amusements, etc.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

With the brewery not as much, put the brewery somewhere else

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The iconic ferris wheel at King Carnival

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Working with King Carnival to have a large area with all items included. The brewery is not really needed or at least get a Western Australian vendor? Have the cafe, golf, chocolate and keep some of King Carnival for the bigger kids. We are so keen to remove heritage and iconic areas of mandurah that should be kept.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes and no. We need to keep parts of our heritage whilst also moving forward.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Yes

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Brewery and dining area as well as the boardwalks and jetties

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The full extent

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very. It will ensure the western foreshore is a family friendly space. Breweries are family friendly.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

All of it

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Incredibly

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything, let's go!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan will help better utilise the whole foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. The plan offers a broad range of activities and activates a very underutilised and run down area. This will be a great improvement.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Market square where a weekend market/swap meet can be conducted.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Jettys for boat users should be restricted, the area should be free of watercraft and designed for water activities for families and children.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It does not align, it is more about business \$\$ and tourists than listening to not only the community but the ratepayers who fund the Mandurah Councils vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

A brewery and chocolate factory is not wanted or warranted, there are enough drinking venues in Mandurah. Area should be for families, and kept free from commercial developments, and designed for the community that contributes to the funding of Mandurah, and not to line the pockets of big business that do not even reside in Mandurah. Attracting tourists benefit businesses, and do little for the residents of Mandurah, except cause parking headaches.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Progressive and required.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Fantastic waterfront development. Always popular in Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. Much more so than the current offering which is expensive and not value for money. Also not up to the standard that I expect from a family outing. Feel like I have been conned out of my money rather than enjoying a day out with my children.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that the King Carnival will be gone. I understand that it is a Mandurah icon but it a blot on the landscape. I am not fussed about the brewery however, I think the concept of all that is proposed will go well together. If the community are serious about keeping part of the carnival, how about having a Mandurah Eye (see the London eye)

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the whole concept is amazing and will bring people to the city

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As long as it's affordable for everyone, I think the plans are amazing

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini golf and more toilets, plus a Cafe

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By removing the brewery and keeping Kings Carnival. Our teenage kids need to not be forgotten about

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

They don't, Kings Carnival is a kids friendly place for kids birthdays and dates without the needs of adult supervision. Kings Carnival is a massive part of Mandurah and keeping a thriving city

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It won't be as long as it sells alcohol. We have a kids skate park, a kids playground and the local war memorial. The last thing it needs is a brewery

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I really have an issue using the land for another drinking hole/restaurant and chocolate factory. I don't think the City of Mandurah should be promoting drinking. Which is what you are doing by going ahead with these plans where there is a brewery in the plans. Keep the carnival. Allow them with a decent lease not just a couple of years. Something substantial. So they can do improvements. I do not support these plans.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon?

Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave out the brewery and keep Kings Carnival. Give them a descent lease so they can spend what is required for improvements.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

So adding another alcohol based business is really helping Mandurah and it's citizens thrive. I think not!! Mandurah has plenty of places where alcohol can be purchased already. You say you want a thriving City, well supporting families with areas where kids can play, families can meet, out in the fresh air enjoying our beautiful waterways is more conducive to a thriving City than a new drinking hole is. Supporting our heritage like the Kings Carnival instead of removing our last bits of history. Adding a brewery is not an example of advancement.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Money is tight for a lot of people in this economic down turn, just putting food on the table is a struggle for a lot of families. How do you know these new businesses will be viable. It would be a shame to go ahead with these plans only to have empty premises due to economic down turns. Many shops/restaurants are closing down and are staying closed. Really you are just adding to peoples financial stress.

Q6. Are you a resident of the City of Mandurah

Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that you guys are offering a tonne of money to a new proposed site, but what about King Carnival? Wheres there big chunk of money? Wheres their long lease to justify being able to spend money on the place? Everyones quick to jump on them about the place being run down? There longest lease was 6 years, less than a third of what you guys are offering to the new tenants... Please enlighten me on how thats fair?

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Give King Carnival an actual long term lease and let them re-work the Carnival, they have proposed plans and not a single one of those was published?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

With all the other brewies in the peel region? Why completely spit in the face of King Carnival and drag them along by their toes with 12 month leases for the last 8 years?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

So remove one mini golf that gets hit by the weather, gets absolutely destroyed by the broken footpath along the Estruay because the water from the flows into the carnival and the salt water destroys everything. Wheres the rebuild on the path thats been broken for 10 years? wheres the higher bank to stop their golf course getting hit? They already have the golf course, why not let them upgrade it? WHY BECAUSE THEY NEVER GOT A LEASE LONG ENOUGH TO JUSTIFY IT

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: May 29, 2024 11:11:46 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think anything for young families with small children, sounds good. A microbrewery sounds totally unnecessary. Not fair on the establish businesses in the near by area, and they struggle as it is in the cooler months of the year. What are you as a council, trying to achieve with mandurah having this microbrewery?? Come down to mandurah and do our famous pub crawl... . Mandurah forshore has enough problems of drunkenness. There is certainly more than enough Pub's/ Restaurants in Mandurah. What's lacking in Mandurah is entertainment/ activities for young families to do. Give King's Carnival a longer lease, at least 15 years, so they can spend money on it. If that ferris wheel is no longer there, you have lost a big part of mandurah history, and what makes mandurah. That ferris wheel is very iconic to mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep King's Carnival, be fair and give them a longer lease, 15 years plus, so they can invest money into it. No Microbrewery at all !!! Alcohol on top of children activities, recipe for disaster. More accidents on our bridge.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Your plans having a microbrewery near children activities, is totally insane. There is way to many pubs/ restaurants as it is. How about just keeping that area alcohol free. Have it just for families to have good clean fun, without the horror that alcohol certainly can bring to the community.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It sounds attractive, though the microbrewery amongst all that, sounds very unattractive, Like I said, sounds like a recipe for disaster. If it was area for rock concerts/ musical festivals...Wow it's got a brewery, I can have lunch and pop along and get on the piss, great.....☺ . A brewery near children activities, mum is busy with the kids, while dad next door, is having one to many. He gets in the car with mum and all the kids and on the bridge they have accident ☹. Mandurah Council, after a while, and it may take a while...though eventually you will have blood on your hands. Alcohol and Children do not mix.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

do not like it, keep the carnival in the same place its been apart of the mandurah business district more than any other fun place in mandurah and continues to support all the local charities, holds fun events year around

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

a boat ramp

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

do not knock down the trees on that site, you have told the current land owners they are protected tree's if you break that protected part you should be held liable

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

at the moment it looks terrible, you have given the current lease owners less and less time of their current lease and you have also left the foreshore in a negative state to make people further hate the current land owners

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It is a sound plan, it has a tourist appeal whilst still offering a regular attraction for locals

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Is there a way to blend old with new?? I have lived in Mandurah since 2003, Kings Carnival in their current form are outdated... they have been outdated and unmaintained since I moved here... HOWEVER the Kings Carnival ferris wheel IS iconic to Mandurah and does form part of the nostalgia of Mandurah and the 'idea' of a regular 'sideshow alley' is actually REALLY REALLY COOL!! Is there a way to blend the 2 business proposals together?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It connects to the future but forgets the past

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think its great... but there is no reason it can't or shouldn't incorporate a version of King's Carnival

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like it at all. We need to keep the area open to the public one for family growth. Also to show respect to fallen soldiers are not having a pub in place.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Pretty the foreshow up and extend the lease on King carnival

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

People need a place where they can throw a ball or kick a football with their children or just to have a picnic. We're having a noise of a pub music. There's enough boat parking and pubs on the eastern side.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

You talk about families families don't take children to last venues unless it's only for lunch so what happens to the rest of the time leave it alone you stuffed up Easter for sure and there's no room left at all

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything, we really need a refresh

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I didn't see it in the plan, but a playground would be amazing

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very much, way better than what's present now

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Have a Fun park for the kids and families, like whats already there

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not very attractive at all

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

New opportunities for jobs, creation of town square, variety of business/attractions, brewery, bringing a little class to Mandurah

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Large floating jetties for boats to moor, a satellite kiosk for the Visitor's Centre

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It does this well - Mandurah has to move forward and future-proof

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very!

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

More entertainment for the WF. We lack a little in Halls Head. New venues will be great.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The whole plan caters for most.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Should pull in the families. It'll be a great area to get visitors from all walks of life.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Moving the city forward in a positive way

Q2. Is there anything about the Western Foreshore No

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Will help the community thrive with tourism dollars

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely. Look at Busselton any given weekend

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini Golf

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Forget the BREWERY WE DO NOT NEED ONE IT encourages drunkenness, violence, bad behaviour. Parking in that area terrible already, leaving the area impossible at times takes ages. traffic flow ridiculous

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Doesn't with a brewery attached

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

won't be with brewery there as the reasons already mentioned families do not go where there is drunk behaviour, violence etc

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That its inclusive

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it will be a great place for locals to connect and tourists to visit, brining more revenue to the area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing leave it as it is.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We don't need another place to drink . This is an area where there are a lot of children.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not at all. Just need to re vamp kings carnival

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think it would be great for the town generating local jobs

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it is perfect for tourism. The king's carnival has had its day it's time to move on

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it would be great for families to have a restaurant where they can actually go to in Mandurah

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that the services are being renewed -- and access to water activities activated beyond those who own a boat...

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Find a way to retain and support one of the few remaining historically significant (to multiple levels of current generation) attractions left in the Peel region. Murray has its dams and forests, we have.... what - pubs?! Yes you have pump tracks but that's mostly young people. Pubs and distilleries, for older folks -- the carnival is where all ages come together for good, clean fun. In this age of DV and childhood device addictions, surely this kind of uncommon entertainment should be encouraged? Find a way...

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I believe it goes against the needs and desires of the people. My parents in their 80s and my kids in their late teens, and myself in my 40s unanimously agree, that even if the carnival were to be lost the Plan as it reads here does not create something memorable to any of us.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Frankly, the microbrewery/minigolf/cafe/chocolate thing is done to death and exist already throughout greater Perth - including "tourist" regions - and frankly, on any given weekend, do an average trade.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Improved accessibility both via waterways and pathways. Attractiveness to visitors of all ages

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Possibility of a water park, ideal location being directly into estuary, huge tourist pull bringing in more visitors and \$\$\$

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Enhancing the natural area would be taken into consideration.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely ans there is already a fantastic family friendly park there, increasing facilities around this park will only increase usage.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the way it's being updated and modernised

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think the idea of a man made beach/pool area would be amazing, like Brisbanes famous South Bank. This would bring in great tourism and would be a first for Perth! It's fantastic for families to hang out and enjoy the views of mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it's a start ! Just maybe think outside the box and do things bigger and better

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It's going to be amazing for the community of mandurah I just hope of this is very inclusive of local businesses giving them the first opportunity to invest and grow

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The Brewery; cafe, mini golf

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A foot bridge to stingray point, 4 hour public jetty's on the western foreshore

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The public jetty and all access path only

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By having king carnival upgraded, adding a bowling alley and a cafe, us mums love to grab coffee and food when the kids are playing and often send our partners off to a cafe... no brewery or alcohol around the kids

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Some elements need changing, alcohol isn't the answer. We have our war memorial and skate park there, we don't need alcohol around our kids, not to mention there is already a major homeless problem, this money injection could be spent in that area!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think some of the ideas are good. Under the bridge, improved paths. We would love to see king carnival upgraded and add the water inflatables back, a bowling alley is much needed.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not alot, the council has again failed to consult ratepayers.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Include an update Ferris wheel into the project, similar to the Freo Eye. Remove the jetties, this should be a boat free area. A brewery next to a war memorial is unwarranted, there is ample licensed venues in Mandurah.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The community doesn't want more licensed venues, the vision is for tourist dollars, and big business, the whole area should be developed without any commercial interests.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Residents do not want another licensed venue, nor a chocolate factory, open spaces, community areas yes, and upgraded foreshore area. Mandurah council seem to think it is ok for ratepayers to help line the pockets of big business, that are not even locally owned, attracting more tourists only supports businesses, ratepayers should not have to subsidise this, our rates are high enough with the wastage that Mandurah Council continues to exhibit.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that it is an opportunity to link both sides of the estuary, and that it will provide facilities close to the water, which is lacking in Mandurah compared to most countries tourist provisions.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Rather than just one brewery bar and Cafe, a range of taverna style outlets and kiosks. Also, rather than floating pontoons encircling a space on the water, an actual enclosed lido style swimming area with improved safety and facilities, even if an admission charge is required.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah is a diverse community and so any development will bring some contention. Respondents normally mean connecting with their own part of the community with their own interests. Overall, the plan achieves its aims, but expanding the development ideas will bring others in.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very, in fact there is a danger of making it too family focused. It would be a shame to lose the off lead dog area, although that could stand being reduced. It would be good to have a small place looking out at the war memorial that can be used by veterans etc for a coffee or whatever.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't.. it needs to be more kid friendly and more activity's for family.. our local mp carry on about family friendly so put your money wear your mouth is. We as a people voted you all in on mostly famliy value's... Another Pub/ Restaurant isn't the answer and a far cry for what you were promoting in election campaigns.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Updating it with FAMILY ACTIVITIES... think more of our locals and actually something for our tourists...not just another plain Jane pub that is looking the other way into the Mandurah foresure

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Lol Really!! ☹ zero connection to people and nature...is that a trick question ... there is nothing about people and nature in a pub or restaurant which we have plenty of.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Mini golf which we alraedy have), chocolate factory (which we already have in mandurah)..maybe another Cafe.. definitely not a pub or restaurant .. how about go carts..pool rooms... you know famliy stuff as far as I'm concerned you are just promoting alchol by sticking in the stuff already there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't support the plan, given the rise in family and Domestic violence that's affecting our children and community 'why would a government org support another alcohol venue build a retreat for the pandemic of alcohol and meth issues and keep your community safe.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't align with ethical practices and Mandurah has so many social economical problems that need addressing, rather than adding substances into our society

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Children should not be exposed to alcohol in any manner

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love the mini golf and the chocolate factory

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

no more drinking places - we have enough alcohol and cafes in Mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

no idea

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

the water activities maybe definitely the mini golf will be a big draw card we have lots of cafes in Mandurah Chocolate factory is a nice idea but we have so many people living on the poverty line no one will buy expensive chocolate

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Development needs to be family friendly and available 7 days a week

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No brewery plans. This is contradictory to a family friendly atmosphere

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Family friendly does not mean a brewery that will attract party type atmosphere fueled by alcohol

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families will not use the brewery

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not feel that putting an alcohol premises near a childrens playground and skatepark is a wise decision. Having intoxicated individuals of any age is not a safe environment for children, young people and families to be around. The possibility of having intoxicated people or people that have consumed alcohol playing mini golf, pickleball and interacting with families and children within the chocolate factory or cafe doesn't seem safe or inviting to me.

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I feel Mandurah already has many alcohol establishments where family can connect and having another one is not needed. I think the space would be better developed with a more family oreintated experience without alcohol being a draw card to intice people to frequent the area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

No I don't think it does align to this vision. Very few of the proposed ventures are nature based expect for the mini golf if nature is incorporated into the experience. Sitting drinking alcohol and taking in the view of the estuary is not connecting to nature. I think this area has a lot more opportunities and potential for people especially families to provide connection and to experience nature that extends far beyond another pub and cafe venue even if they are 'family friendly'.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The Mandurah 'Eastern' Foreshore has many cafes, pubs and alcohol establishments that have gone out of business or changed owners many times due to poor patronage. Local people and businesses being pushed out by big corporations - using the same model and clonning what every other tourist town has. How will another pub and cafe on the other side of the estuary change this? What happens when the brewery, chocolate factory and cafe don't get patronage and are no longer viable. I think more consideration into the needs of the community should be sought. Mandurah is no longer the quiet retirement town now it has many new and young families living here as well as tourists visiting, many with young children throughout the year. An interactive nature play and water playground where families can visit and experience without monetry outlay I feel would be more advantageous and used more. This area already has a skatepark and small play area with new installations why not extend this into the other area using nature and incorporating Mandurahs history and the things unique to Mandurah eg Relocate a 'Giant' to this area and then incorporate an experience into this. I do not think this development will make Mandurah stand out. The development is an opportunity to make 'Mandurah' stand out, this vision doesn't achieve this as it is not any different to visiting Bussellton or any other tourist area that has the same thing.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It sounds like it is going to be far more Family Friendly than it is currently and a wonderful destination to bring visitors to show off our beautiful city. As a parent of young children I would never take them to King Carnival. It is far too old and dangerous in my opinion. As a family who frequently holiday in the Busselton/Margaret River region, the many many breweries on offer down there are wonderful venues that keep the whole family happy. I can not think of a venue in the mandurah area where children are catered to in a pub/brewery style environment. The negativity surrounding a "brewery" and the discussions that suggest "increased alcohol consumption" are from people who clearly have never been to Shelter Brewery for a meal. This whole Precinct Plan will be wonderful for families in Mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

100%!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Incredibly attractive! A huge improvement to the current offerings for families in the area!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Upgrade new family friendly facilities, a place to enjoy food with friends all year round. This plan would also give young people a chance to enter the hospitality workforce with new jobs created and potentially accredited chef training positions.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes, I believe this will enhance Mandurah's location and bring tourism to the area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I believe it will cater to many different types of people and be enjoyed by people of all ages bringing the community together.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it'll offer newer facilities and something for the kids to do

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

An indoor arcade type facility would offer more for all ages e.g., bowling, arcade games, laser tag, rollerskating etc. or in addition to mini golf, an outdoor waterplay park such as at Elizabeth Quay would be great. We travel to Perth a lot to engage in these types of activities that are not offered anywhere in Mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the target audience for the proposal is limited especially regarding teenagers

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Hopefully very. There isn't a lot to do in Mandurah besides eat and drink

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Respondent No: 74

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It's a progressive idea that takes into account all of City's requirements. It is tastefully designed and has a fresh modern approach

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Having been a former Scarborough resident, an amphitheatre is the way forward. It celebrates our natural beauty and creates a space for vibrancy and activations.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This ticks a lot of boxes, particularly during colder months - the current setup does not have the capacity to draw crowds during winter.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Accessibility to and enjoyment of the waterway for all - not exclusivity.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Honouring, protecting and welcoming existing bird and sea life (swans, pelicans, dolphins, osprey, shags, gulls etc.) Consider providing something different rather than 'rinsing and repeating' what's already been developed elsewhere in Busselton, Dunsborough, Freo and Perth. What makes Mandurah unique? The winding estuary and canals, the resident sea and bird life (crabs, dolphins, birds, Indigenous people, the first/early 'salty dogs' or fishing people and good ol' fish and chips) - it all needs to be celebrated and protected. Consider an obvservatory/viewing platform where they can be welcomed and observed yet out of harm's way. Also consider quality food and dining - not just a brewery. How about a champagne/wine/tapas bar?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

More nature is required rather than a brewery and mini golf, although they're okay. More celebration of the true natural beauty is required as well as ensuring the War Memorial is protected given that the area will have increased traffic. Perhaps more security?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive although it would be great to differentiate Mandurah from the other tourist towns by honouring Mandurah's local attractions/residents - sea/birdlife, fishing, War Memorial etc.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing that I have seen yet!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

This area should be set aside as a public open space, we presently have the war memorial & a kids play area. You have made the decision to not renew the carnival lease! Why don't you grass the area plant trees & leave a final discussion on the area for a couple of years or so. Then let the community decide what it wants, not let a couple of officers or overpaid consultancies to decide this area for us the ratepayers & the public!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Absolutely nothing! If you have been told the above, I would like to know numbers of ratepayers have that have said that! How do you explain the quote that "this proposal connect its people & nature, delivering possibility for everyone"? It's a nonsense.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

We have major traffic issues in the immediate vicinity with even the smallest event is held in this area. You are planning on bringing an alcohol outlet & other retail into what is a family area, please think very seriously about this & try to listen to residence input. This is not a happy clappy exercise. If you cut out the brewery restaurant/cafe & factory, it may end up being attractive to families. Don't forget you people have christened this the "Foreshore Leisure Plan" please keep that in mind!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More teen water activities for summer

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Adding the city activities to Halls Head area is brilliant. Also the microbrewery would be well utilised by locals and tourists.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Massively attractive, Old Halls Head needs this variety.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Big emphasis on family involvement, however I don't believe we need another Brewery, particularly in that location. There is a golden opportunity to promote that area as an alcohol free zone, and promote the idea that you don't need alcohol to have fun.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No Brewery, no alcohol. Adventure/Theme Park along the lines of Gold Coast Parks. Ten Pin Bowling Alley.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Too much emphasis on Licensed Premises.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Children already get too much exposure to alcohol. This should be an alcohol free area.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family friendly space, brewery to eat out at near the park so can take the kids out to enjoy the park whilst also grabbing some food. The idea of the Cafe too sounds great

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I feel like if you kept/ upgraded the Ferris wheel it'll look great and many people would enjoy it. Also believe you should add more nature play areas throughout.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mostly hits the brief of what people wanted.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it'll bring a lot of families down, though I feel mini golf is so over used. Maybe a small nature maze or something else for kids to do would be great. Having a the brewery will look very visually pleasing but will definitely attract people to come down especially being near the water front and also near the playground.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think it will be a tremendous use of what I believe is currently under utilised space. The King Carnival is practically derelict and run in to the ground and is a terrible blight on our city. It's expensive and vastly over rated.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan does align to the vision providing open space a venue for families and an experience for visitors.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be super attractive to families as it gives something for everyone.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of making the Western foreshore more usable & attractive for residents & visitors as I don't believe it is close to being used to its full potential, it's a lovely area but does not have a lot there at present to attract a wide range of people. My personal opinion regarding Kings Carnival is that its presence & long term run down state actually dissuades people from using that area. Redesigning the area will bring the opportunity to consider the wider population and improve access. The new playground and site park are a great start, an area which allow all abilities to access the water and with improved pathways & lighting would be great too. I see a lot of negative comments currently about the proposal of a brewery as part of improving the area, these seem to focus mainly on the idea that if a venue serves alcohol it is purely for people to become intoxicated and antisocial, I think that is not only narrow minded but offensive to the very many people who may enjoy a drink with friends or family without that occurrence ever happening. My experiences of visiting the Shelter brewery in Busselton many times could not be more different from those negative suggestions. I have experienced a welcoming accessible venue, providing a great space for all ages to enjoy time together, good food & a drink if they wish. I have seen all ages there, friends and family groups, children playing on the green area in front of the building. In the mornings I have seen lots of people stopping for a coffee or a quick take away breakfast, walking groups, people on bicycles using the space provided by the brewery. I believe it has attracted more people to enjoy that area throughout the day than would have been there before and it's definitely not purely about the consumption of alcohol at all. I'm pleased to read that any future development on this site will be culturally sensitive and incorporate diverse voices, the presence of the war memorial and maintaining the green space behind are also extremely important. The area is naturally beautiful with large trees and its proximity to the water lends itself to being potentially a wonderful space for all ages to enjoy.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The importance of parking, excellent lighting and accessible pathways also need to be highlighted more. I believe safety is a concern for all, these elements provide the community with more reassurance and encourage the use of the area throughout the day & evening.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it is a great improvement on what is there at present, there is always resistance to change for many reasons but this plan seems to offer opportunities to appeal to many sections of the community.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think very much so.... there are lots of loud voices at present with a very negative view point towards change, however I believe there are many more people locally who are in favour of this proposal and will welcome the opportunity it brings to enhance what is a lovely area.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Under bridge space and water events

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Same as other places . Don't think we need anymore breweries ,restaurants or another chocolate specialty We need places for teens to play - golf, bowling , arcades - An area still open to hang out , food vans - more casual space

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not sure it does - it's the same layout like rockingham Busselton etc etc it's not actually for the locals

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Same as eastern foreshore just be split across the bridge

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Maybe mini golf, definitely not the brewery

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Give Kings Carnival a decent contract with conditions to upgrade the site and entertainment. Build infrastructure for youth, kids and families.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't unless you want to promote alcohol as the number one thing to do. There is already a lot of pubs, restaurants and cafes on the eastern foreshore

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families and microbrewery and licensed restaurant don't necessarily go together

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The variety of businesses proposed, modern up to date look, the use of both land & water, removing the current run down kings carnival

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would suggest an option for a business to provide water taxi's to link the eastern & western foreshore along with the marina

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan connects both young & old & includes the majority of people's wishes to have a vibrant community

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This will be an amazing addition, as a parent with young children, it will cater for all ages

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Excellent idea for an area which hasn't met its potential

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Excellent plan which ensures the future of Mandurah to be a very competitive on a global scale

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The ideas being put forward for the new development leaves the existing site looking very very drab

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The removal of kings park and having quality brewery put in place.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A wake park would be awesome.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

i believe it will create a stronger community.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I believe the venue with different outlets is a good idea, I like the chocolate factory idea, everyone likes chocolate.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Other attractions that are here for a limited time like the London Eye to add an extra activity to do for maybe a one year period then changes.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As has been noted the area is underused, I think this plan will encourage more use of the area for residents and visitors to Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It should be very appealing lots for them to do along with the existing elements which are well used.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that it includes a broad vision of what's possible in a prime public location, but also that it seems to respect and acknowledge the natural environment. It is clearly a family-focused space, and I like the way that there is plenty in the plan for kids and families.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it closely aligns with that vision. It's a great mixture of use cases on what is clearly prime land, and the plan protects as much of that usage as possible. In other cities I have lived in, the land would just have been sold off for apartments, so the community should be grateful that the Council is taking a more sensible, measured, and realistic approach to what could be there.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. There seem to be a vocal few who think the whole area will turn into some drunk-addled booze pen, but they can't have been to other brewery/family restaurants recently. King Road, Eagle Bay Brewing in Dunsborough, Boston Brewing in Denmark, Boundary Island are full of different groups at different times of the day, including many many families. A modern business just wouldn't condone drunken behaviour at an expensive, under scrutiny venue - it's just not commercially viable, so I hope the Council dismiss those views as ill-informed, emotionally or ideologically driven, and generally without any merit. The public space seems very well balanced to get activity and activations, and given the acknowledgement that parking and road access will need looking at as well, I think the community will be proud of the area once it is done.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of a brewery as I believe and I hope this one has a huge feeee awesome playground for the kids. As most brewery's do. They are family oriented and sell coffee tea milkshakes not just grog. Be awesome. Just keep a working Ferris wheel as that is iconic to Mandurah. Not the run down fair that's there now that is a huge embarrassment and families can not afford it. As we took our grand kids there about 8 weeks ago and 2 kids cost us in excess of \$200 with no food. As it's all candy floss and nothing nice at all.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep a Ferris wheel as it's iconic. And make a beauty

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Anything to let families eat together play together create memories I believe a new site will do this.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Market square and kayak launch space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep King Carnival. There are plenty of breweries, distilleries and wineries in Mandurah and around the region. I do not believe that another brewery is needed here. It makes much more sense to keep a business that is actually for family entertainment and not another drinking venue. There is nothing else like the carnival anywhere around.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it misses the mark completely. Removing King Carnival is a mistake. To replace a family entertainment venue that has games, rides etc. with a drinking venue makes things for adults to do, not for families with children. In addition there are plenty of cafes already on the other side of the foreshore, some that presently close at 2 and 3 pm even on weekends. To bring in a large capacity eating/drinking establishment to the vicinity can only be detrimental to those existing businesses.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be less attractive. It seems much more appropriate to me to take my child to the carnival to go on the rides then to sit at a table in the brewery while the adults drink beer. King Carnival should be kept.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That something is being done but a BREWERY? Another pub??? Do something for families and older members. Nothing to do in WINTER. It's all focused around summer months. Roller skating ice skating bowling ten on all relatively cheaper for family fun.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

You're taking out the one place on the foreshore where families, dog owners, non dog owners and public at general go walking picnic and watch the dolphins if you build and take it all away as proposed there are no areas to do simple affordable things on the foreshore. Why is money to develop always the answer? Don't spoil the space by filling it unnecessarily.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think it does. So another pub a brewery is given a long lease why are long leases even available? It keeps ppl the time to be lazy. Keep ppl accountable on short leases. We need family things to be able to be AFFORDABLE simple things like roller skating ice skating rinks ten pin bowling etc yet nobody goes to carnival but would attend these places as you can go all year round. Mini golf and a brewery and taking away the parks is NOT the way.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not very attractive or if you want only PEOPLE WITH MONEY FAMILIES WITH MONEY then that's all you'll get. Back to family Basics is necessity in this day and age. Families can have family fun roller ice skating together bowling together. Why can't we have that there or elsewhere in Mandurah and KEEP IT GARDENS AND GRASSED. It's the only place free to go see dolphins and picnic and not a beach area. Grassed picnic areas are beautiful there with the dog park etc. It's going to only be available to WHO YOU CATER TO. Is that what you plan? Not for the pensioners, with grandchildren, not to the FAMILIES that LIVE HERE. tourism is already catered to well catered for but not the things for people who live here year round. I'm a Victorian lived here in Mandurah for nearly 8yrs I look objectively at this place. It's for elite. Not the middle class wanting to do family fun. Winter or too hot day activities - where what is there to do then??? If you had an indoor air conditioned centre for roller ice skating ten pin bowling and the like, families CAN afford and will frequent them. Teens will have somewhere other than streets to go to. The jobs it will give out to teens and single parents the jobs seriously it creates a lot of jobs.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The desire to appeal to all ages To best utilise the waterways

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Eliminate any possibility of alcohol consumption in a family friendly environment. Please note there is one venue that primarily sells alcohol on the eastern Foreshore and this caters well for visitors and locals alike. Please keep the leisure Centre just for leisure pursuits, free of alcohol

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah has been successful with projects similar to this with the redevelopment of eastern Foreshore It is possible to continue this with the new plan

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Exceptionally

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like it

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Be more family orientated keep the carnival let them do their upgrade plans. Chocolate factory is boring and don't want or need a brewery on that side

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Alcoholics

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Brewery and chocolate factory are a big NO for this area, these are not family activities the international mini golf king carnival put forward was way more family orientated

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Increasing multiple activities usage of open space. The proposed commercial activities such as Brewery and mini golf should be abandoned as they are in conflict with the concept of a "Leisure Precinct"

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Increase the open space area as part of a new vision for Mandurah - family and tourist friendly. Prevent any reduction of the existing area and ban encroachment of open space by commercial activities like the proposed Brewery concept and the building of new car parks

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It is in conflict with the vision..Eliminate the proposed commercial developments of a Brewery, mini golf and reducing the amount of open space due to proposed new car parks.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

We do NOT need a new alcohol outlet such as the proposed brewery. We do NOT need a mini golf course that devotes so much area to one limited activity.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Good idea to extend the entertainment areas but no brewery in that same place

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Cancelling the brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

90%

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I am absolutely against the brewery idea definitely not in this area

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Lots of family friendly activities

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan aligns to the vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I will definitely spend lots of time on the Western Foreshore with my family. I am happy that this new space will provide a very exciting future for Mandurah families.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

jetty and walkways

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

find a different facility to accommodate teenager through to young adults other than alcohol vendors

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

unless you drink or socialize at alcoholic venues not much

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

it will wane very quickly due to the fact of competition of the eastern foreshore

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Its a considerate plan allowing for a wide range of activity. The market square sounds good. Increasing trees and vegetation to reinvigorate the space is a wonderful idea.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Reconsidering the 600 people capacity licensed venue. Planning the parking nodes to retain as many of the mature trees on the sites allocated as possible. Adding pops of interest throughout such as photo opportunities, mini hedge maze. Using pergola picnic areas close to trees so that climbing plants can thrive and cover the pergolas.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan serves this well. The community is however divided over the licensed venue and for good reason, there are safety concerns for the existing youth patrons of the site. There could be opportunity to invite other retail such as a skate board shop, healthy options like sushi and smoothies which align with the purpose of the site.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be attractive to families. However the licensed venue will be attractive to 18+ crowd as well. The chocolate factory seems a bit of a fad that interest will die off with locals pretty quickly. The mini golf is great.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like any of it I think Mandurah has enough drinking area's

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No Brewery we have enough I feel that it should include more family things eg bowling ally and keep all the trees

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't, I feel that Mandurah council like to drink alot and spend alot of money on the foreshore instead of the whole of Mandurah

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Only if you drink or feel it's ok to drink and drive with your kids in the car

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It activates the area and gives people a reason to go there

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It has a variety of elements to suit everyone and the space also retains a lot of green space.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Absolutely, I can't wait to take my family there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Will bring people to Mandurah. New area to enjoy for all families.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Aligns well, new establishment in a prime location.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive to families and tourists.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Makes the area more accessible to everyone - carnival run down, closed off and takes up valuable foreshore space. I like the ideas of waterfront cafes, bar and public jetties.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Needs plenty of trees, grassed areas and shade structures so the area is usable in summer. Select trees that will provide lots of shade, ie plane trees, not spindly melaleuca trees Not too much concrete please (aside from pathways). Eastern foreshore's new large concreted area has decreased attractiveness and usability in prime spot that was previously always busy with people enjoying the grass and shade.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Can't tell from plans how this plan connects people to nature. Hopefully there will be lots of shady trees, grass and landscaping for people to enjoy nature.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Sounds good. Hoping small boats will be able to tie up to jetties to use facilities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Out with the old and in with the new. Looks great and heading in the right direction. We need to keep people wanting to come to Mandurah

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

A brewery is not just for drinking it's a place we all can enjoy with our friends and families. Food laughs and a great view

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Awesome catering for all

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Yes, need to add a splash park, like the one at Bunbury to create a fun and safe water activity for families and can easily use the estuary to supply the water and solar panels to provide electricity throughout the day to the pumps.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

As mentioned in question 1

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Need to have more investment. Mandurah is not attractive/attracting the right investments. Many need to think bigger and push for bigger projects.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Yes very but as mentioned in question 1 & 3, we need a splash park within that space between the micro brewery and kids play ground.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini Golf and playground

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By not allowing a Brewery to be opened as there are already alot of pubs and restaurants on the foreshore

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't believe a Brewery will benefit the foreshore area as it will disadvantage existing hospitality venues and potentially lose the smaller restaurants on the foreshore due to lack of business

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families will appreciate the recreational elements but I do not believe another licensed venue will attract families

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The FAMILY-friendly activities, such as the mini golf and cafe, the chocolate production and retail, and the new jetty.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No licensed venues. Until the already established issues surrounding the foreshore, both Eastern and Western, are addressed and resolved (the anti-social behaviour, violence, harassment, etc), no more licensed venues should be opened up in the area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

If the goal is to be connected to nature, why take land away from a Class A reserve to put in buildings and car parks? If the goal is to connect to the people, why not listen to them when they say no licensed venues, especially near a place that is dedicated to those who lost their lives for us? If it's unclear, I don't think the Plan aligns with the vision regarding the licensed venue. It only aligns with the plan through the family activities.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be attractive to families until the anti-social behaviour from the inebriated due to the microbrewery reaches a point where it is unsafe for them to venture out to that area, especially once it gets later in the day and around dinner time. Or until the hype dies down and people realise how much it will cost them to frequent the area.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Water park activities that's what our showcase is the "water" Amphitheater be good more Pump track for kids Leave the open space for events

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Water park

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not a brewery next to the war memorial seriously Asking for trouble How many pubs clubs alcohol venues do we need Selling out all the other businesses in the marina seriously Make it child inclusive the western foreshore that's it adults have many spots to get rat arsed

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Having a brewery is not family friendly will attract violence and public nuisances

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing. As a ratepayer, again I don't see much here for our teenagers. Also, an ongoing increase in rates continues to go on improving the foreshores of Mandurah whilst other areas are being totally left behind! A good example of this is Dawesville. A new Rec Centre & that's it! The housing /population is growing very quickly down there & COM would be collecting enormous rates from this with nothing to give back to the Community there.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More for teenagers. Leave the area as it is. Stop cramping our beautiful waterways. Give the Carnival the opportunity to invest in what he wants to do. Talk of nature, but what about the wildlife? Are the ratepayers continuing to pay for the upgrade & maintenance of this? Another swimming area?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As commented above. Too many loopholes here. I want to see more for our older children, keep them off the streets keeps them out of trouble. Otherwise I'd prefer my rates to pay for extra Rangers and security to deal with the current issues I'm being realistic, you can't keep sweeping the obvious under the carpet at the cost of tourism.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Under bridge events space ok. Everything else no as stated above. We need more in other suburbs/areas for locals given they pay rates & get nothing in return. Definately no micro brewery!!! I am really opposed to this given we have plenty of these & more importantly, given the high rate of DV, we should be really looking at taking this element totally out of the plan. We need to start setting better examples to our future generations & more alcohol facilities is not the answer. I'm not sure the chocolate factory would be sustainable long term. My concern would be if this business went ahead, how would it effect other businesses & if it wasn't sustainable, what happens then. We need to ensure our tree canopies are KEPT & no flora or fauna is damaged as this is disappearing right before our eyes.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great mix of facilities to complete the foreshore area. It will be nice to see the area updated. I find the current funfair has had its time and the owners have not invested in it during the last decade I've lived here. With the new public realm facilities from The Pen round past the Council Offices and up to the new Bridge being modern and welcoming and accessible, it seems the right time to update the space surrounding the war memorial. The proposed plans are accessible, add additional family facilities, and will attract more visitors to regenerate the local economy.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Please include junction improvements at the same time as doing the main redevelopment.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This aligns nicely with the vision. The foreshore is the new city centre and Mandurah Council is doing a great job of creating an environment where tourism can thrive.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. It complements a great range of existing family facilities which suit all budgets.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great family facility

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

An pedestrian overpass bridge from western foreshore to eastern side near the Pen.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We are the number 1 tourism city let's keep improving

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be wa best attraction

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love all the different elements. There is so much to do for all ages and yet it still retains the waterside access, trees and large green space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It aligns perfectly. It retains water and beach access, it is largely free and fun activity for families. At the same time it also presents next level leisure in the microbrewery and mini golf, which will bring jobs and economic benefits to Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. I'll definitely be spending a lot of time with my young family on the Western Foreshore.

Q6. Are you a resident of the City of Mandurah? Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Beach Volleyball Courts! or multi-use nets so you can do tennis and pickleball if you want to activate the space more. But beach volleyball has been missed so much since it was removed from this space years ago. Volleyball has been around far longer and has been fighting much harder for access to spaces. and is also increasing in the school spaces as a sport, particularly in the accessible and at-risk adolescent groups ...

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I still would like to see some green space

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Unsure, it looks like there will still be the same amount of flora, some native small gardens that are small bird and insect attracting if not already in there would be nice. I could've missed this.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think the chocolate factory seems a bit much, couldn't the space the brewery use be a combined space? If there was beach volleyball right next to the brewery you couldn't activate that space better if you tried. Especially with an adjustable net (a net that is kept up more for one-off users, and access to adjust for sport club users?) Contact the below email for more info!!! or see Rockingham's proposal. 3 nets would be amazing, the local club is currently cramped in 2 indoor courts 1 day a week its not enough in the summer! and imagine the regional athletes that could come out of having access to them...

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I am extremely happy with all the activity based foreshore however, I definitely feel that to have the family inclusive area should not be tarnished with a Brewery of any kind. I would like to see the water and other family based activities in the area retaining a large amount of open area with beautiful lawns, gardens and BBQ areas. Those things are all based on family outings and activities. A brewery is just the opposite and should not be included.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By not having a Brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't if there is a brewery and drunks taking up family space.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Absolutely if the brewery was not included. I could see myself and my family including great grandchildren using the area. With the brewery there that would not be the case.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Is okay but it needs Volleyball courts. They used to exist in the same area in the past, and they are greatly missed. There is no beach volleyball competitive courts anywhere near Mandurah, as at least 3 courts are needed for it. Mandurah has a high amount of volleyball players for all other codes of the game, including coordinators and coaches, however, to compete in beach volleyball we need to go to West Perth. Sports are highly beneficial for a younger and vibrant city as Mandurah.

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Is okay but it needs beach Volleyball courts. They used to exist in the same area in the past, and they are greatly missed. There is no beach volleyball competitive courts anywhere near Mandurah, as at least 3 courts are needed for it. Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love all the elements. It seems very family friendly. Like Boundary Island Brewery has done, it will a bit of class to our city.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think we need water play areas for the toddler age group like the beautiful waterway and rocks gated area in Labrador on Gold Coast or the fun water park in Bunbury. The estuary pool doesn't suit a lot of young children. It could be built near the toddler playground on Western Foreshore. I can send photos if you would like. Also... maybe a new flash hotel to bring weekend visitors.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah is doing a great job to balance nature with commercial enterprise. Some shopping precincts are not welcoming or have the shops to create interest eg Smart St Mall, Pinjarra Rd near Mandurah Terrace.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be well used. I'd like King Carnival to be leased another site as it is a Mandurah icon in its own way.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Provides more dining/entertainment options and rejuvenates that part of the foreshore whilst creating investment and job opportunities.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan delivers on providing more entertainment and hospitality opportunities for locals and visitors to enjoy the beautiful environment Mandurah has to offer.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very inviting and caters for all ages

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love the variety in the spaces allowing for diverse groups within the community.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I feel like the Mandurah foreshore area thrives in summer - we have wanted water slides or a splash zone/splash park for a long time. This would be a great addition. Another idea is a dedicated space for people to have wedding ceremonies. We are severely lacking in that area- with most people opting for under the big fig tree at stingray point (which is ferociously windy and always covered in bird poop) or Yindana Park in meadow springs. Otherwise most locals travel north or south as there is a lack of spaces dedicated to ceremonies. A space with green grass and a deck/stage would suffice and could be used for open mic nights or any stage style event really!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Somewhat.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very much so! I think to further improve on the plan you should start gently pushing out places like the real estate and welcome more cafes / eateries/ boutique clothing and gifts - so that they are all in one line and easy to wander and access at night.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Improve what's there already kid need somewhere to go not a micro brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not much. there are already two pubs either side of this so an extra pubs will probably affect their businesses

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Get rid of micro brewery

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

New jetties facilities

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By not introducing a large scale brewery in this location that will attract another 750000 people into an already congested and traffic inflicted Mandurah region that will cause chaos on small roundabouts and over the bridges especially on long weekends. yes a new brewery probably not a bad idea but certainly not in this area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah has changes significantly from a lovely casual relaxed city 20 years to a congested nightmare without the road facilities to cope. Mandurah Road most mornings all the way down to Dawesville now has more traffic than Scarborough beach road in Osborne Park and driving through areas of Perth quieter and nicer than what has occurred in this city. Last thing we need is to add to this situation. For the first time in 20 years of living here we are seriously considering moving out of the area. Mandurah has lost its feel and the city seems hell bent on attracting more and more people and tourists to the area without consideration to locals and the impact on our lives here

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

To tourists maybe. Not considering the impact of another 750000 people visiting this area without the facilities to manage traffic and park cars etc right in the heart of Mandurah. Mandurah city still cannot get its roads right. It does something like Peel street with years of road blockages and then 1 year later after whatever was done there I cant work out and it has finished , then rips it up and we have to go through another round of road works and same process again and this is a total waste of taxpayers money and whoever responsible for this should be made accountable for the stuff ups to Mandurah road works and bungles. The new Brewery will make a growing problem in this area worse and clog already terrible roads even more. If we want a new brewery thats fine but put it somewhere else where it wont impact locals , traffic and only when we can cope with this additional 750000 people a year and not before

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

We don't need another drinking spot. We currently like the western foreshore the way it is.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Stop encouraging drinking and start put in more family friendly things like maybe theme parks or outdoor cinemas. Things that families can do together. Stop catering to the Minority.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

For those wanting to drink and add to the current state of drunk antisocial behaviour... great.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Remove the brewery, replace with other family activities based things and it maybe worth considering. At the moment it looks like your just trying to sadly compete with Perth foreshore and the eastern states. Sort out the homeless on the streets and at our intersections. I'm sure this money could be better spent addressing these issues rather than trying to make things pretty!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All great proposals. Family recreation area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the precinct alcohol free.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This aligns well with the vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Having a brewery will take away the open space that is a big part of the area. Keep it open and small buildings for cafe etc. keep the park dog friendly.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not very much as it is not designed for families or young people as a whole.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Forget about the brewery. As adults we need to consider children and lead by example. We don't need to have alcohol at everything area or every event. Focus completely on families and young people.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Can have a thriving city connected to people and nature and delivering possibility to everyone without have a brewery. It's not that hard.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

How does the brewery align with families ... they have children and teenagers as part of their family.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Coffee shop

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Small brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't, we use the grass area all the time and that will go to make way for cars.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It won't, only tourists who have got money. We can not afford \$15 for a pint now, coffee \$6. It is not fair nothing is ever for free and that place was.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Brings change to unutilised area. Good for the attraction of tourists.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Fully

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it's going to be improved.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Let the owners of Kings Carnival to develop it more.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan would add more excitement for children and families.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Stick with the Kings Carnival and add to it but not a Brewery. For one thing their beer is horrible, and we already have enough.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that the area is going to be "cleaned up" and not so neglected looking.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would like to see better parking set up, maybe angled parking one way in, one way out. I would like the footpaths made better and perhaps a bbq set up in the memorial park/grassed area by the water.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think we have to get the balance right. Yes, we are a tourism town, but we are also a community of residents too.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I like the sound of all of this, but what I don't agree with is it is at the expense of Kings Carnival. To me Kings Carnival is unique and iconic to our town. History shows we tend to get rid of these type of places (Atlantis, Dizzy Lamb Park, Castle Water Park, Pioneer World, Elizabethan Village, El Cabalo Blanco etc) Once they are gone, they are gone forever. Some things really are about the memories being created. My children have wonderful memories of Kings Carnival and even having birthday parties there. I too have lovely memories of taking my elderly parents there. There is certainly a place for Kings Carnival, but maybe instead of getting rid of it completely, could it be incorporated in to the new plan. Keep that iconic Ferris Wheel please. I love the direction the development of the Western Foreshore, it is wonderful what you have done, just please try and keep our uniqueness and history.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that there are still lots of green spaces for recreation. I like that the idea of the commercial mini golf and chocolate cafe to take the kids.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think that people using the space will want to feel safe at all times of the day, ensure good sight lines, and lighting. I think having somewhere you can hire kayaks is missing, and Kayaks 4 you was a really nice service in that location years ago, linking in with using the water and safe entry into the water.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns quite well. Its just a balance between the different uses in the space, the solemnity of the war memorial, and the activation on the southern end for children at the playground space, and commercial space that will draw people into it. Also a balance in attracting tourism, and then also having a place that locals want to go to.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be quite attractive to families. there is a mix of activities. I think lighting needs to be really good and also possibly a continuation of CCTV over the site. There is a mix of free and paid activities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The cafe and the chocolate factory - will liven this area up a bit and make it more family friendly, at the moment it is a bit unsafe and dodgy particularly at night - Kings Carnival has been an eyesore for years.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns well, includes something for everyone - I am only a little concerned about traffic flow and whether the bridge can cope with the amount of traffic that will be going through town and Halls Head.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive - it has something for everyone

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I'd like to see something like the Darwin waterfront precinct. Beach volley ball, shallow protected beach to swim, grass, cafes and food trucks. They have a wave pool which is paid. Perhaps Kings Carnival can be given first opportunity to run something there as they are a local business. Keep some rides and the Ferris wheel. <https://www.waterfront.nt.gov.au/>
<https://www.townsville.qld.gov.au/facilities-and-recreation/parks-beaches-and-community-venues/the-strand-and-beaches>
Or something like the Townsville Strand. A free water front playground for children. We don't need ANOTHER bar/pub/brewary. There is nothing for people in Mandurah to do in winter.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No big brewary. Keep it local. Stop planning things that need to be re done in 5, 10 years. Plan for the next 20 to 50 years.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not a fan. You're not catering to families. You're catering to more people drinking and causing social issues.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Look at Darwin, look at Townsville. You make MILLIONS off us rate payers. We should get to have something spectacular !! And there should be no conflicts of interest with the Mayor or anyone in council being friends with anyone involved. The brewery is a terrible idea. There's already boating deaths, drownings, anti social behaviour. Can't there be just one thing for families that aren't based around alcohol? The parking will also need to be resolved. Underground. Multi level carpark that doesn't affect the roundabout and turning into the area

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The council is giving us the option to voice our opinion. Hopefully they take it on board.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Theme park / waterpark to bring more people to Mandurah. We have plenty of pubs/breweries already in Mandurah - with little waterpark or theme park activities to attract tourism & people from the Perth area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Another brewery does not.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Yes better than kings carnival but it can be better.

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: Jun 07, 2024 08:27:19 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Inclusive areas

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No alcohol premises

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't, the local Mandurah community is struggling with the cost of living. Housing shortage homelessness. So having this development is going to make the gap between the haves and the have nots wider.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be unaffordable for most families to enjoy. The alcohol aspect worries me with the increase of crime

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Looks great I particularly like the fact that the proposal adopts a range of activities and places to go ... a cafe, chocolate factory & mini-golf - in addition to the brewery is a fab idea. Market square and paddle board launch is also great

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A stage, somewhere that live music / concerts could be held

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

100%

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely attractive

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it is family centred

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Entirely Family friendly - no/low alcohol. Family oriented eating areas. NO BREWERY or the like

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan offers a lot of possibility for people of all walks of life.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Apart from the microbrewery I think the rest of the plan will be very attractive to families

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Too much buildings need morefor families

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More things for children on land and on foreshore water area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not really to much buildings not enough natural bush left

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Needs children area eg children's beach, more place to play and sit ad enjoy own food

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: Jun 07, 2024 11:13:20 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love the end space but port Mandurah residents will shoot down proposals like they have in the past.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More activities for youth. Timezone/ bowling ect. Youth of Mandurah have nothing. Why do you think they "hang out" at the forum? Give them somewhere to go.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't understand how we reject fast food outlets next to schools (happy we do!) but willingly put alcohol venues next to skateparks / family parks and have it involved with a social family activity. Double standards.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I don't like give fact that the mini golf have a microbrewery attached. Youth can't attend without an adult. Pickleball is an interesting choice.. no point in doing an event space when be port Mandurah residents shoot down any events that are proposed for this area.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

New public jetties for public access on this site An all-abilities Kayak launch area A market square and a major event space
Microbrewery Chocolate Factory More jobs

Q2. Is there anything about the Western Foreshore Yes
Precinct Plan which you think could be
improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

E-scooter hire and bike hire

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature,
delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It aligns

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area,
improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf,
cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Highly affective - I love the new plan. Yallingup Maze has a wonderful mini golf which attracts many families Microbreweries
if family friendly will bring lots of tourists

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The investment in the area and improvement to the King Carnival site.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Less commercial space, in particular food and drink vendors. One is good, two is ok, but 4 food and drink vendors is too much. There is too much encroachment on the natural landscape and peace of the location. You risk making what is Currently an accessible place for families somewhere they don't wish to go because it is too busy and commercialised- not everybody has money to spend at these venues.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It seems the focus of this plan is more on tourists than the people of Mandurah. Yes it will provide activities (that cost money), but I feel it is taking away the connection with nature.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it is trying to do too much. It is nice for families to have options, but they need to be free or low cost. Currently I can take my kids to the skate park and playground and not have to spend any money. With all of these new vendors this will place pressure on parents to spend money (through kids seeing them and asking).

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like to idea of having food and drinks venue on the western foreshore, but a brewery is not my idea of 'family' entertainment. A more suitable idea would have been to offer King Carnival a long lease, so they would have the incentive to build a food and drinks venue adjacent to King Carnival. And at the same time, improve the facilities at King Carnival.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Delete the brewery idea.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The skate park, and the playground are brilliant. But there needs to be food close by.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Most things will be attractive, the brewery is an obstacle.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think the area needed better facilities. I don't agree with the Brewery Complex a Dome style cafe serving some alcohol would have been better. We have been to the Busselton Brewery and have seen kids wandering about crying in the playground with parents just thinking they can have a good time drinking in the pub and seem to forget about supervising the kids. We tried to help a little boy as he needed the toilet but that in itself is a minefield of implications these days. My wife got a Cafe assistant to both help this child with no parent in sight. That is why I don't like the proposed Brewery. The need for eateries in that area are without doubt a necessity. The mini golf is great and the small cafe shop is also a good idea. The boat jetties are also a good thought as the adjoining beach area is in a terrible state of disrepair due to water erosion.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

As noted above, NO Brewery but a good Cafe Restaurant facility like Dome and Tods Cafes provide. They have more food and less alcohol promotion. I do think the only road access into this precinct does need some rethinking as the projected increased traffic at the Mary Street to Leighton Place intersection is a worry. Maybe closing off the carpark access to the IGA Shopping area and having another access point might work. Just a thought.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

A very good plan for Mandurah as we own three properties in Mandurah and see the changes improving the liveability in Mandurah hugely.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive and provide a better use of the land currently used by King Carnival. We use the beaches, the parks to walk our dog as do others and wander through the War Memorial Park. I always went and had food and coffee at the old Kayak Canoe hire business (Now Gone) so to be getting a Cafe and chocolate Factory outlet will be a huge drawcard for day trippers and locals. Being able to bring your boat to a jetty like the Eastern Foreshore will be a terrific facility. I currently bring my kayak up onto sand beach so I can use the toilet facility at the Skate Park and have lunch at the bench seating.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing other than mini golf which already exists at Kings Carnival

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Definitely no brewery. Kings Carnival revamp and public open spaces left. Why do we have to fill every square inch of land?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan is what the Mayor and his councillors want. It is only to bring in more tourist dollars. You dont listen to ratepayers. Another brewery is NOT wanted in this location. Traffic will be a nightmare with the current road structure. Kings Carnival is an icon and should be refurbished and maintained. How can a brewery so close to a childrens playground and war memorial be part of a "thriving city"?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

A bloody nightmare getting in and out. Once again for tourists. Mayor wants a Gold Coast/Byron Bay type city. We moved to Mandurah for a laidback lifestyle which has all but disappeared.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Love this proposal about time. Kings Carnival is an eye saw and we have only ever been there once.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The proposal has something for everyone and a great place to meet friends and family.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This space will be fantastic for family gatherings both in summer and in winter.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All aspects of it. Can't wait to get rid of Kings Carnival. Kings carnival is an absolute eye soar. The proposed Brewery, chocolate factory, and games makes it's a great place for families. Mandurah is changing with more families coming. Those that want to keep that safety disaster waiting to happen (kings Carnival) probably never visited kind's carnival and don't like change. I'm all for a revamp of the western foreshore for Mandurah as it's such an up and coming city.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah is a family destination. Yes, all aspects will bring families to Mandurah who will help Local businesses thrive.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It's great and covers all aspects. Love it!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the mini golf and the chocolate factory and I like the brewery

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Also have a permanent ice rink, more family friendly options

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan is great but can we also get a bowling alley, ice rink, time zone and holy moly. I realise they won't probably be on such prime realestate as the western foreshore but just somewhere in Mandurah, maybe Lakelands? It's mind blowing that Mandurah is the second biggest city in the state but has so little entertainment options for older kids and teenagers, especially indoor activities they can use during winter

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it's a great plan but as mentioned in my previous answer there is still not enough for kids to do in Mandurah especially during the winter months

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Replacing the current ageing fun park with something new and modern.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Careful consideration to parking, noise and traffic - especially at the IGA roundabout and Leighton Place. There is already not enough parking when there is an event at Halls Park and I hope this can be rectified. Noise is already an issue for nearby residents from the Hotels in town - especially Bar Therapy, I assume this has also been reviewed ? It is already very hard to get in and out of the IGA parking area as well as Leighton Place. I have seen many near misses as drivers become frustrated at the time it takes to enter Mary St. Hopefully there is a solution for this?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I basically agree with the plans, but concerned at what impact it will have to nearby local residents.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive.

Q6. Are you a resident of the City of Mandurah? Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't...just another drinking whole, not for kids

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the Ferris wheel at least

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

We do not need another brewery at all, chocolate factory we have had one, ten pin bowling would be great. Why do we need more drinking places? I am a drinker myself, but we most certainly have enough drinking places. I have grandchildren and they don't need that near by there play ground. And I most certainly hope that at least the icon of Mandurah is going to be at least kept over there, the wheel. Or is it another thing we get rid of that represents Mandurah, like the fun Park

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All things proposed, any changes made are all improvements.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan looks like it will deliver its promises

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive, with a variety of things proposed, it will be able to cover a wider range of peoples interests, hence more people/families visiting the western foreshore

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the clean family idea of markets and mini golf but I DO NOT LIKE THE IDEA OF ALCHOL BAR . We do not need a brewery or bar to have clean family fun .

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Make it Family friendly maybe a water park for smaller kids that can't swim safely in the channel. Make it a GROG free zone with respect to families and teach our kids we don't need to drink to have fun . Respect the war memorial.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

All it says to me is you need to drink beer to have fun with your family .

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families can't afford to eat out . They can hardly afford rent . This should be a safe place for all . Places for kids to do things and play . Not learn we must drink to have fun .

Q6. Are you a resident of the City of Mandurah Yes

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like it at all.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Less commercial businesses. No purchasing of alcohol. Would like to see it family orientated where parents , adults, elders and children can all participate and enjoy activities together. Don't want to see children left unattended while the adults are in a drinking venue. Outdoor concerts. Music Would be great to see some water activities. Something that all ages can share together and make as memorable visits to Mandurah and at a low affordable cost so everyone can enjoy the area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't. At the moment It appears the vision is what is the best option for the highest revenue .

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This type of space sounds too costly for a lot of families. Keep the eastern foreshore for the adults/ families - with the many restaurants , breweries and night life entertainment venues. Save the western foreshore for the families with children. Western foreshore for free , or affordable venues and entertainment.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think it's a great proposal.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it's enabling more people to enjoy the city centre with the extra space.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive, the eastern foreshore gets so crowded when the city is busy, by extending the eastern foreshore around to the western foreshore will provide a lot more space for families to enjoy the space.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love the family aspect. Encouraging family tourism

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Parking and a food outlet .

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We have to encourage people to come to Mandurah and experience our wonderful foreshore and tourist Shopping precinct/Restaurants. As a holiday destination so close to Perth it is outstanding. Making it more family friendly is essential and the plans go a long way in achieving this.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The micro-Brewery near the family precinct is unnecessary. Drinking and children's activities is not a safe environment.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Play area

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Don't need another brewery. Need more family friendly activities. Nature based, information about the local dolphins , Noongar history etc

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

40 percent

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All good except the alcohol bit. Too many breweries which lead to antisocial behaviour

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like being respectful of the War Memorial Space, whilst still allowing for recreation and commercial - love the chocolate factory idea. The graphics on the concept plan are excellent. On water recreation is good - accessibility launch great.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Ensure spaces for dog walking is still available - for the commercial precinct to allow dogs in outdoor area Instead of pontoon for swimmers, youth and families would more likely use an estuary pool on the Western Side as it is closer to where they hang out, perhaps having it mirror the estuary pool on the other side would be aesthetically pleasing. Interpretive signage along walkways making sure cultural, historic and environmental aspects are highlighted. Put a manual hoist near the accessible kayak launch jetty for all abilities to get onto water craft/other recreation.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Definitely thriving, but need to still be thoughtful to the past Mandurah - including Aboriginal and European history and the actual residents - not just tourists. Be mindful of the fact that Kings Carnival (even though I don't really like the Kings Carnival personally I actually find it a bit creepy) was an important part of many people's childhoods, so put a plaque up or re-use the ferris wheel in design or something would be great - have it in the beer garden as art/put some solar lights on it with the new business sign? Don't just wipe it out completely if elements can be re-used (which I think is what is happening with the mini-golf?). It is iconic - but that is up to the business that takes over the space. So I guess if I am being fair, I think the City has created a plan which aligns with the vision, I just hope the delivery of it is ultimately respectful to nature and our culture.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I still have no idea what pickle ball is - but all of the things mentioned definitely are in line with the option to have family friendly fun - so ultimately I think it is definitely going to be even more attractive than it is now. I personally think (if my dogs are allowed) I will likely spend more time on the Western than the Eastern Foreshore in future.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the fact that there will be a mini golf facility and we will not lose it, as this is the main attraction of the current park. Having a food and drink area with good dining facility will be great to complement the Eastern foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's a fresh approach and will deliver on connecting the Western to the Eastern foreshore with kayaks and dining facility. This will extend the great work of the skate Park to refresh the rest and not spoil the beautiful views of the river. Provide more enjoyment to a larger group of residents ets of the water and area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Fantastic use of the space and it will provide a diverse set of facilities for all ages and abilities

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the whole plan, I think that it will be great for Mandurah, especially for residents living in Halls Head/Erskine/Falcon as we wont need to drive cycle or walk as far to have access to cafe's and a bar

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan does align to this vision and makes use of a great piece of land along the foreshore that otherwise is not currently being utilised to its full capacity

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be great for all ages of families with young kids and also teenagers - i think it is a great mix of offerings which has been proven to already work really well in Busselton

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like some of the plan

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By making sure it does not interfere with homes and and apartment and hotel living

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the Mandurah City Planners do a good job but a couple of things are not good!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Some of these plans are excellent but some detrimental to the living and peace of some apartments in the area and at The Point Complex

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Making the foreshore another great versatile state.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I don't think we need another brewery, we have a Boundary Island Brewery & the Oceanic area where people can drive their boats to etc. Back in Christchurch, NZ where we are from they opened up a place called Riverside after the Earthquakes. It was central city & its a versatile space. They host pop up food options, permanent food options with seating inside & outside. Fresh veggies, meat & fish options to purchase also. They also have a restaurant upstairs & versatile spaces for cooking classes & venue hire. It gives up the option to support many small businesses, venue space for weddings, corporate events etc all with a view of our amazing estuary. I don't believe we need a dedicated space for a chocolate factory that Mandurah families would visit regularly. It is more of a one time a year type of visit. I think we need more youth based options for nights like laser tag, bowling, etc. I have never been to Kings Carnival however the Ferris wheel always had material hanging off it & it never looked like an appealing place to go. I also dont have teenagers & maybe the council should look at surveying teenagers & what type of spaces they are wanting. We have an amazing selection of playgrounds for younger children but I think some places to keep youths entertained at night would be beneficial to the community. I think mini golf would be great be again it cant be used in winter with a lot more rainy/windier days so will it be a sustainable attractive thing year round?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think if there was more food focused places on the foreshore it would be more attractive. Parents wanting coffees or getting lunch while kids play etc. I don't think it delivers possibility for all ages.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As much as we want to attract tourists, we have to think about our current residents & their needs. I don't believe another micro brewery would be the answer. I do think a versatile space that can be used summer/winter would be the most beneficial to ensure the survival of the businesses. And maybe a point of difference to other nearby towns who also have micro-brewery's. I think the on-water recreation area will be great & attractive to many families.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the public access and recreational areas kept as public open space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I do not believe any service industry should be allowed to operate in what is Crown zoned as public open reserve. Fun parks and recreational services lend to the Public open space Zoning and should be kept that way. We have enough commercial spaces on the Eastern foreshore and plenty of empty shops in the Smart street mall for a micro brewery. I also have concerns anti social behaviours will spill over to the Western Foreshore if more alcoholic services are allowed on this Recreational reserve.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. Yes we do, the one thing that is limited to is Public open space for people to be connected to nature delivering possibility for family recreational enjoyment by the waters edge. If they want services like pubs and coffee shops its a short walk to the Eastern foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I believe the service industry businesses will create less room, more anti social behaviour and restricted views for the public to enjoy the space. Once again this should be kept exactly what it is zoned under the Crown, Recreational open space which provide the public the freedom to enjoy.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

This plan has something for all demographics, I find it is a good activation of a tired space

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Think that it will increase tourism, and at the same time show casing the natural environment. Activating spaces that Mandurah are so well known for.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Immensely attractive. There is something for all age demographics, and contributes to a good day out with the family with so much to do

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

What a brilliant well thought out plan! I particularly like and applaud the city for its focus on creating all-abilities facilities ensuring that everyone in the community can participate and enjoy the space. The market square and major event space will provide lots of opportunities for employment as well as opportunities for community gatherings. The plan's emphasis on improving pathways and providing new public jetties enhances accessibility and usability of the area will be a win for residents and visitors.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon?

No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan is perfectly aligned to the vision. It delivers possibility for everyone through its emphasis on community connectivity, inclusivity, environmental sustainability, and diverse recreational opportunities.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be awesome and a huge improvement! As a Mum of two teenagers, I am acutely aware that we need to cater for all ages and this plan does exactly that. I can't wait to see it come to life and be enjoyed by future generations of Mandurah families for decades to come.

Q6. Are you a resident of the City of Mandurah

Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that there are areas for all community members. Glad to be getting rid of the rundown carnival that is not making the most of their location and is a hazard.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns very well. This plan will definitely get the area thriving with so many options for all community members and tourist. I'm looking forward to seeing it develop and exploring the area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. So many options for families to enjoy. Still lots of free areas to enjoy. Lots of events that can be planned in the areas for all community members.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it's a mix of activities and venues where you can get a coffee or a drink and something to eat

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

100% aligns to that

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Finding welcoming restaurants that cater for kids that adults also like is a challenge. This plan ticks the box for that, as well as outdoor activities and who doesn't love a choc factory?!

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All of the proposed developments are great!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

There is room for more development in that space... More restaurants and a wine bar might be good additions. Also a large licensed venue for live music would be good.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Quiet well. As stated previously, there is space for more development, and City of Mandurah should take into consideration the speed at which Mandurah is growing, and how the demographics of the city are changing from being dominated by older residents to younger people and young families.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As the father of 2 children (9 and 10) I can say it will be very attractive!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The family friendly approach. Along with jetties.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the Ferris Wheel it is part of Mandurah and should be treated as a heritage listed landmark.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

If it attracts tourist then it will achieve this goal.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Depends on who the brewery attracts.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The skatepark, adventure playground and the all abilities kayak launching area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I don't feel that another venue selling alcohol is necessary, especially right next door to an area where we want families, especially children to enjoy the space. There are plenty of businesses across the river that sell alcohol, we need areas that are alcohol free for our children and especially our youth to enjoy. Making the area more enjoyable with more games and food venues is better but not the alcohol. The area must not lose any of its mature trees or grassed areas as these are some of its most prized attractions. So many people gather in this park already and there is not another area like it close to the centre of Mandurah. For those families who like to enjoy an open space without the troubles alcohol brings to an area, this is the only place there are plenty of venues who provide alcohol now. We do not need another one right next to an area designated to community gatherings.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very poorly!! We'll lose a meeting place that is vibrant and well used to all community members where we can enjoy so much nature. The proposed venue is not at all in keeping with connecting people and nature. Too much of our natural environment is at stake to this proposed plan.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Mildly. Alcohol and children DO NOT mix. We see so many problems extending from alcohol, we need more areas where our families can enjoy time without it. We should be providing a plan that has the under bridge events, water accessibility, games areas and nature experiences in a safe and secure environment for all.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family friendly unlike other restaurants and pubs I. Mandurah. More space for kids and close to playground for tweens

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Great for tourism. Not as great for local community. Expensive choc shop and brewery isn't as inclusive as a bowling centre

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's on the foreshore with plenty of green

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I feel the proposal will be a great develop to used by the local community and Mandurah residents and more import to bring further tourists which will in turn help support small businesses in the community.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The existing development with skate park and adventure playground for kids and the proposed development will make even more family friendly.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely family friendly and all located in the one place. I think the Council is very forward thinking with regard to development and would love to see the Carnival Theme Park was never used and a waste of a prime location. The new proposal caters for the whole family.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like very much of it.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Do not allow the microbrewery or any business or premises that is associated with the manufacturer or delivery or retail of alcoholic beverages. There is no need to have it and this is no place to have such an establishment as this is a family precinct and alcohol provision should be no part of it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I do not think the plan aligns to that vision in that the proposal of a micro Brewery in the precinct denotes the type of visitor that you will get to that area. I believe that area needs to be focused on families and that is parents, relatives, friends and children and the presence of a brewery and/or a retail outlet for alcoholic drinks does not fit with that

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I do not think the current plan for the western foreshore is as attractive for families as it could be or as it is already (and that is with or without King's Carnival.). A large building consuming a large footprint of the area of the available Western foreshore is, I believe, not a good use of the area as far as families go. "Families" means people are various ages who are connected to each other, enjoying their company and their environment and their interaction with the environment. So you need the basic facilities to attract families to come to a clean, open uncluttered, natural environment on the foreshore. I don't believe the western foreshore plan needs to incorporate Any dwellings other than facilities supporting family gatherings and cover for certain weather conditions. The eastern foreshore precinct does now, and will in the future, provide all the entertainment, food and alcoholic beverage requirements for anyone visiting this Mandurah area. I do not see any need to duplicate an alcoholic beverage manufacturing or retail premises on the western foreshore. there is absolutely nothing wrong with the provision of basic facilities to encourage families to enjoy this area. It is progressive and relevant to our era.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It would clean up the area and make it a more user friendly environment. Wheelchair access is paramount in our family.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As long as the plan stays on task, the vision is sound.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Most plans sound attractive in theory. At this stage the idea is impressive. Hopefully it would bring in tourists and locals alike to utilise the area better. Have planned events that also incorporate both foreshores.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Love the idea of a micro brewery but also keeping family activities included

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I'd like to know how you will monitor the growing anti social behaviour in Mandurah and ensure patrons comfort and safety. It's often very confronting on the Eastern Foreshore. This element will follow.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The all abilities kayak option is fabulous. Our waterways are stunning and to include access for more people is fantastic.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely attractive. Activities based more around young adults is positive. I love everything about the proposal

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The brewery

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would like to see more children's activities. Some water slides, some more shade near the water,

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

By adding in accessibility to kayaks

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think if the brewery is kid friendly like King Road then it will be great. I would love to see a skating rink and a go kart place added to Mandurah. Maybe a brewery/winery tour

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

A welcome space .. upgraded and fresh, not tired old and broken

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep asking the community for their ideas But what about a bowling alley for families

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah calls itself a tourist town .. but other than cafes and restraints there is nothing for families .. bring family friendly Venus to Mandurah such as bowling alley, skate ring.. what is here for our kids

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Much more inviting than it currently is .. currently it's almost seedy like

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Variety and diversity

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Include seems to be a very more areas for disabilities , access and inclusion. Carnival and game options should be available also

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Seems to be a very focused and achievable vision

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

While these are all attractive activities, Carnival and fun fair options should be included, that has been a part of Mandurahs history for a very long time it would be a shame to wipe that part of history.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The rejuvenation of the area is welcomed. The boost to tourism in the area that is likely to flow on from this new plan for the are welcomed. Entertainment space, Pickleball and mini golf are welcomed etc...

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

To include more for teenagers, something like a a 10 pin bowling centre, rollerskating or ice skating rink. I'd like to see more in the plan where teenagers can gather together for fun and enjoyment in a supervised environment all year round.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

More drinking establishments in Mandurah I don't feel are needed. Get rid of the microbrewery!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I'm not sure the balance is right here. This plan all seems focused on adults and tourists, mini golf is the only casual use family activity. Not sure what the pickleball element will entail as far as families go.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Skate Park and child's playground. Would like to see the space for families to enjoy the open spaces, families are a big part of the holiday makers that come to Mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove the micro-brewery and shops, there are plenty of that on the Eastern foreshore. I don't like the idea of a pub next to a playground and skate park, you just asking for trouble. Why can't we have family friendly outdoors activities, like a water playground and the marketplace square is a good idea. Have it an open eye appealing space. it's the first thing you see from the eastern foreshore make it pleasant, not another bunch of buildings.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

partly, I think that adding more shops, IE licensed restaurant-microbrewery and chocolate factory is just ugly and unnecessary, considering that there are already a good variety on the Eastern foreshore. Keep them separated. Make the Western side for Families and children.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

How many families will go to another licensed venue, another pub, another restaurant, another shop. It's a shame that we are going to lose a Mandurah icon in Kings carnival. Please do not make it into another shopping sprawl.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not a thing you are taking away public open space. We need another brewery like a hole in the head. Kings Carnival is a family attraction which brings families to the area. Your plan will cause traffic congestion around the said area. Kings operators should be given a substantial lease .

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think that the shire is catering to major businesses that an interest in the proposed development.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not to me they won't be as to the residents of larger Mandurah it will be to difficult for parking.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great to finally update the now out of date King Carnival and make better use of this stunning foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

In the plan it appears to be a lot of activities getting added into the space which may end up being congested when it's all completed. A restaurant or similar on the King Carnival site would have been great but all the extra activities being added may be overdone. The biggest issue with all the various activities will be congestion from parking and traffic. A big portion of the current "park/green space" will be lost. The traffic coming in and out from Leighton place is going to be a huge point of congestion. Already traffic accidents happen on the turn into that area regularly. A second round about may be needed but then it seems very close to the road existing round about at the base of the bridge.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes it delivers, " for everyone" so much so that it may end up being "too busy" for the space. Again as mentioned above the traffic in and out of ont cope.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The plan is not viable for this area, it would bring too much traffic, reduce the park area for more car parks, I disagree with the plan!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the City of Mandurah is not taking into consideration the immense traffic volumes for one small road off Mary Street. The round about is congested at numerous times in the day, more traffic would be a nightmare!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Totally disagree with the plans

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Updated venues replacing the very dirty not maintained king carnival.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Creating an area for all family members where people could go and spend a day. Play ground, skate, basketball, restaurants, golf, water activities

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think there are enough licenced restaurants around that we don't need another one built. The recreational areas are good to attract families but not letting the carnival stay and upgrade is a mistake.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Let the carnival stay and upgrade. Speak to the owner, he has the money... the carnival has been here for a long time but if the brewery or whatever it is, moves in and don't get the business you assume it will, then it will just be another dead area...

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think you can decorate in a nature way but putting in a brewery doesn't align

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families will only be attracted because it is something new. If the carnival upgraded, families would be more attracted.

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like the plan at all. The last thing this area needs is the Commercialisation of a park area nominally for the residents of Mandurah to use as recreation and this park should not be turned into an area that cannot sustain heavy traffic, hords of people and the deforestation of the area

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't, quite the opposite, this proposal destroys the concept of a happy, thriving community. There is no need for a Brewery in the heart of Mandurah, the park needs to be upgraded to meet the needs of a community relaxing with their families and utilising the park for what it was intended, a playground for the young and old.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This plan will attract the wrong element of people and destroy the ambience of the area with hords of people and motor vehicles upsetting the current atmosphere of the area

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like the ideas for the western foreshore plan at all. I believe Mandurah has lost enough of its history and kings carnival should remain as it has for many years in Mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave it alone. Let kings carnival do the improvements and give them a longer lease. It's history of mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the youth of Mandurah has lost alot in regard to entertainment. We as kids living in Mandurah had more places to go and things to do than what Mandurah offers kids today Losing Kings carnival only adds to the list . Progress is not always a positive. Leave the natural landscape of the foreshore as it is. Mandurah has already changed so much and not always for the better

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Mandurah has its own natural attraction with its waterway and grassed foreshore ect. We don't need congestion and over development. In my opinion Busselton has been ruined by over cramming its beachfront with brewery ect Mandurah needs to leave what little it has left of its history and protect kings carnival!!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I have enough info.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More carpark space and alcohol ban on the western foreshore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It does not. There is already plenty of venues selling alcohol and food on the foreshore. The western foreshore should concentrate on recreation and safety.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not as attractive as the Eastern forsshore

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The open spaces for people to connect. Hopefully there will be sufficient jetties available to allow vessels to be docked and people to engage with the recreational activities from their boat. There are limited mini-golf areas around to engage at. I miss having the chocolate factory that was located at Bargarup.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove the micro-brewery from the plan. If absolutely needed, have a licensed restaurant. Its pretty sad that the only way people believe a business could be profitable in the long term is through the provision to alcohol. There is no differentiation between the eastern and western foreshore. is it acceptable that we see established businesses closed as there may not be the demand for yet another restaurant. The western foreshore seems to change every year or so...

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan seems to align to the old image Mandurah has, along with a lot of WA that everything needs to be done with alcohol involved. The other aspects do align with the vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

There are enough alcohol places. There is no need for the micro-brewery at that location. Depending on the people that attend this venue, That will not attract my family to the entire area including the excellent skate/recreational area already established. The other venues are a great idea and would be welcomed in the area. The eastern and northern foreshore area is full of licensed venues.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It's going to massively tidy up the western foreshore area and give more people a chance to utilise the area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As long as there is still decent access to the water around the area being developed and the pathways are improved to allow people access along the water line. Also keeping as much of the current grassed park space as possible is important

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

100% attractive once it's finished. It's already a decent area but the area where the king carnival is needs a long overdue makeover.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Playground, chocolate factory, cafe, market space

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove microbrewery - this needs to be a space for kids of all ages. Remove mini golf as is so outdated. How about including a wave park and rock climbing wall, outdoor cinema. There needs to be more activities kids 8 years and over. Get some imagination City of Mandurah.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very poor! Is this the best that your planning and community consultation can come up with.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The licensed brewery is the problem here. Do we really need another brewery!!! There is plenty of licensed venues around Mandurah already. Mini golf is outdated.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea but do we need another brewery the area has so much potential and is currently a no alcohol area I like the idea of the golf course and chocolate factory but there is plenty of alcohol places on the eastern foreshore a more family styled area is more in line with the with what makes Mandurah special and it wouldn't make the area out of reach of families financially I believe the current occupiers should go as it is under utilised and not cost effective I just don't think a brewery would be a good resource for the area

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

With more focus on families and family activities

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As above families make Mandurah so something cost effective would be a great use of a fantastic area

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As above

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it has something for everyone: families, young adults, adults, and will make an excellent precinct when added to the existing skate park, playground, water access and open space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It aligns very well. The proposal is a dynamic, modern offering that retains and maximises the Western Foreshore's natural features, pays respect to the waterways, as well as Mandurah's history as a favourite family holiday spot.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very! As long as it is accessible, families will flock to the precinct.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The kayak launch pad and amphitheatre

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Hireable bbq areas/ sheds like Kwinana adventure park has.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It is already quite attractive so I think it'll become a wonderful hub for families. I just worry that the homeless locals or drug addicts will ruin it, they often are wondering around yelling and drinking, making it not feel safe.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini golf which is already there but needs upgrading by current Owners/operators

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Allow current owners/operators the time to improve and modernise the current offerings while promoting the benefits of a unique offering.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan is really just getting rid of current operators which are unique and nostalgic. Why throw away the history while being unwilling to allow them to improve what's there if necessary? Another brewery and over priced food is not what is needed in an area where alcohol should not be encouraged. It's a family area and there are so many other established places just the same around town. Keep things the way they are.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Over the top and unnecessary

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The kayaking and the footpath improvements

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No microbrewery! Give the carnival a long term lease and keep mandurahs history alive. Also scrap the under bridge events space, it is unsafe with the large amounts of drug addicts that congregate there.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Apart from the footpath renovations it doesn't

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It won't be if you get rid of the carnival, that is erasing mandurahs history.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't usually go to Kings carnival anyway so I am excited for the new restaurant and mini golf.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Make it more environmentally responsible and sustainable

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

To a good extent

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very. I believe it will be very popular especially for families.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I approve of the proposed all-abilities kayak launch area, market square and a major event space, and recreational space for games like pickleball. Fantastic to attract tourists and families to the area!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I love the idea of Mini Golf, a Ferris wheel, and other family friendly activities such as a water playground, food stalls, a cafe, but NO licensed premises in this area please. I do not like the idea of a microbrewery as part of the precinct plan. Mandurah has enough licensed premises already, and I feel that another one (under the guise of it being family friendly by way of incorporating mini golf into the project) is not required or desirable in that area in particular (close to children's playground and the war memorial).

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah IS already a thriving community and I think the plan aligns with this vision in all ways EXCEPT for the proposed microbrewery as part of the upgrade.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive to certain families - those who think "quality family time" includes spending time in a licensed premises that incorporates a playground or similar area where they can place their children to be "babysat". This is a significant reason for my objection to this proposal. It is not a good family friendly plan, there's so many other ways this area could be developed to fit that criterion.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The family attractions like Mini Golf. Definitely not the Micro Brewery!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The land could be used for a bigger tourist attraction something in the way of a Sea World or Movie World. I feel a Sea World would be appropriate in relation to our water ways. It also would give great marine biology boast for our area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think a Micro Brewery is appropriate for a family recreational area. A far bigger attraction would generate a big tourist growth to Mandurah. Something like a Sea World.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

If you take out the Micro brewery it would be far more attractive. Leave the licensed venues to the the town centre.

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I prefer outdoor leisure activities than the brewery and think the whole space needs to remain family and environmentally friendly. I agree both sides of the foreshore should not have to compete.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the Ferris Wheel It's been a part of the eastern foreshores vista for so long it's gained cultural significance. Keeping it or improving it may appease those who want the carnival to stay. It's typically in poor taste to place a brewery on or near land that has cultural significance to the Noongar people.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not as connected to nature as it could be.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Families can't afford to eat out or attend paid for attractions as much as say, 5 years ago. Part of the foreshores current appeal is that the playground, skatepark and waterways provide free entertainment.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Water fountain with light show Restaurants, coffee shops, Big Wheel Picnic area Open air live show area in park

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A variety of restaurants and things to do, like big wheel and water fountain adds something different and special.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

A little

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Event space will be great. Not pickleball

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: Jun 21, 2024 01:26:57 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mandurah needs more. The area as it currently is, lies dormant and outdated, rarely used. The proposal is good. A micro brewery would be great.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Mandurah is lucky enough to be built on the water, however all places built for people to gather, sit, eat and drink together are built back from the water. The closest is Bar Therapy and The Pen, though still not right on the water. Build the microbrewery right on water edge.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

There has been alot established for family, but not alot more for older teenagers when they are of an age to be going out with friends during the day. I think Mandurah needs to start providing age appropriate places for older teenagers to go without parents/family..

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As above. Also need to consider areas for teenagers without family/parent consideration. But i like the proposal, minus the Pickle Ball, what even is that. What about a gaming zone?? Timezone, Arcade gaming facility.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini golf, cafe NOT BREWERY

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The concept of a brewery is not appropriate for the family friendly area & war memorial Traffic into this area would be utter chaos Object to chunk of park being taken parking

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Put brewery in a different area, this has been a very short sighted & badly thought out project

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Considering this going to be close to a wonderful playground area, skateboard park & swimming area, I wouldn't think families are going to find this attractive especially as the mayor is expecting 2000 visitors a day!!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Better activation of the Western foreshore for leisure activities. I think this is a great outcome for this underutilised area of Mandurah. There is also need for further economic development for Mandurah. I believe this development will add additional space for larger corporate activities that will bring additional business events into the city.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The market square and major event space should provide opportunities for extra local jobs and will facilitate extra space for community gatherings.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The plan's focus on improving pathways and providing new public moorings will enhance accessibility and usability of the area. This will be important for growing the visitor economy and will be a huge benefit to local Mandurah residents.

Q6. Are you a resident of the City of Mandurah? No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that it is being worked on.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No more licensed premises. A Cafe would suffice. Ten pin bowling or skating. Something to get young people out there.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not particularly.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Tourists likely. Residents, not so much.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Sounds inclusive and family friendly/focused

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The paths need upgrading and I'm happy to see this is happening to marry up with the rest of the foreshore upgrades. I hope to see regular events for families organised in these spaces like outdoor theatre, markets, community events.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I am happy to see all of the focus on activities to do for families. Currently aside from the local cinemas our family has to travel outside of Mandurah especially in winter for something to do together, ie roller skating, bowling, ice skating, arcades etc. I really don't think another brewery, or drinking venue is needed along the foreshore. We have too many, it promotes drunkenness and is not healthy for my kids to see. Also as a family with adults that don't drink, we really need a space that can be used to enjoy food, and have a good time with the family. A brewery in the space is not necessary. Maybe licences so if your buying a burger you can enjoy a beer, like Grilld but it must be with food and isn't solely focused on beer like a micro brewery. The proposed space is across the water from all of the bars, pubs, gin distillery, wine bars, oyster bars, Irish pubs. You can literally hear the live music from the drinking venues at the kings carnival. Keep it a space on the other side of the water for healthy alcohol free good times!!! I'd like to take my family out on a Friday night, and enjoy ourselves without being around groups of rowdy drunk patrons. They can enjoy the entire stretch from the monkey bar, the bridge bar, the gin distillery, the Brighton, the night clubs, the craft beer across from Grilld (also licensed), Murphy's, the pen, the wine bar above the cinemas, all of the licensed venues at the dolphin quay. We aren't suffering from a lack of places to drink and bring in the tourists.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it rejuvenates what has become a rundown and unattractive part of one of the best foreshores in the country.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would have liked to see a ferris wheel remain which provides views across the magnificent waterways similar to what cities like London, Singapore and Las Vegas have.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Having recently returned from a holiday in the US it is clear that people want to go to places that offer food and beverage. My concerns are that Mandurah seems to struggle to support multiple such venues as evidenced by the low numbers at The Pen and The Brighton once the Boundary Island Brewery opened. The same thing could happen to the Boundary Island Brewery once this venue commences operation. My other concern is the antisocial behaviour that seems to occur around such venues.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Having walked the waterfront and central park in New York, and the waterfront in San Francisco it was great to see the options on offer from green spaces, public pickleball and basketball courts, playgrounds, pubs, bars and restaurants which attracted families and young people alike. I think this plan will attract more families than the current facilities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea for the mini golf, eatery, and chocolate factory.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think less focus on alcohol would be beneficial. We already have lots of pubs and a brewery and distillery. Alcohol is a significant problem within the community and I don't think encouragement of alcohol next to children's playground / water play area / skatepark is beneficial. A cafe rather than brewery would be a much preferred option for the young families that this area largely suits. Brewing space would be better utilised with another activity like bowling or arcade games or laser tag - something for people to do!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think there needs to be higher quality activities for kids and young people and families in Mandurah and I think a new, high quality minigolf course will help.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very, except for concerns around inadequate supervision of children that often coincides with venues providing alcohol immediately adjacent to children's play spaces.

Q6. Are you a resident of the City of Mandurah? Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love all of it

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it will be a fantastic spot for young families, with something for everyone.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

A place to sit, eat, have a drink and meet family and friends. Has something to appeal to a wide range of ages and demographics. Will bring more visitors to our town as both sides of the estuary are utilised fully. The bridge provides a great link between the two.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Absolutely aligns to this vision. Community consultation from inception has ensured the plan meets expectations. I have been surprised that some have objected to the removal of Kings Carnival, I am definitely in favour of the proposed plan as a much more family friendly option to how this space is used.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive to families, so much to offer different ages and stages of life. Well considered plan that has resulted from continued consultation.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It looks like it will be a great area for locals and tourists.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It provides opportunity for a variety of activities, including keeping plenty of open spaces for people to use for playing games, walking their dogs etc.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive....you can eat, drink, be active, picnic etc

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Very little. To remove the iconic Family friendly King Carnival (yes it does need an upgrade), existing trees, to replace it with a 650 seat Licensed microbrewery/restaurant is totally inappropriate for this location. This area has always been promoted as a FAMILY FRIENDLY location. There are plenty of drinking venues all along the Eastern foreshore. This area should remain alcohol free. Parents should be supervising their children around water and activities not testing beer! A modest family friendly cafe/ice cream parlour is needed.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Removing the the proposal to have a gigantic Restaurant/Brewery . Upgrade and Keep the Mini Golf where it is using the existing Trees. saving lots of ratepayers money. Plans for new Mini golf looks like it is is full sun. Not a wise decision for hot summer days. Use that area for a family cafe . Forget about a chocolate Factory! The area at present is a calm simple place to take families for outside activities. Leave it alone.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Leave this area for a place for gatherings of groups and families to meet and enjoy the children's activity areas already in place. It is a good open space that can be used for events occasionally without a lot of money needing to be spent on it. Families need inexpensive venues available to them.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Apart from the inappropriate choice of the Brewery and the Chocolate factory the other improvements sound good. My concern is the access road leading into the area. It is so near the roundabout and the volume of traffic would be too great if a large establishment was built.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

What I like most is the proposal to replace the out-of-date Kings Carnival with a facility (restaurant & microbrewery)! This will add value to the area and attract many more tourists than the old fairground. The fair is out of date and out of touch with modern demands for families, couples and singles.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

100%. Tourist facilities like the microbrewery & restaurant proposed attract people to the town, where they then spread out and use other facilities and spend money. Additional, it makes the area more vibrant and interactive for families.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be THE place for locals and tourists alike to gather. I think it is brilliant!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of a variety of businesses and activities available.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Much earlier community consultation, and our chance to have input before plans were finalised. A venue with less of a focus on selling alcohol would also be a major improvement - or at least something different from Busselton's foreshore as it lacks innovation.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Microbreweries don't have much to do with nature, and I don't think consuming alcohol has much to do with positive connections or thriving, and nor is it for everyone. So I would say this central part of the plan does not align at all to this vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It sounds mostly like a family friendly area, except for the central focus on serving alcohol at the microbrewery. There are many other businesses in Mandurah that also provide this to adults, I don't think it fits well in a family precinct and I would have concerns about taking children to such a venue because of potential antisocial behaviour.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the incorporation of a microbrewery with water views and the addition of a family friendly activity such as mini golf. This would make the space an appropriate 'day out' with peak operations in school holidays.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the incorporation of the mini golf, alfresco dining, and other recreational use of the site are key elements that will allow the people of Mandurah and visitors to connect with nature. I think the plan aligns strongly.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This will be super attractive to residents of the City of Mandurah and will definitely see an increase in visitors to the area especially in holidays. There are multiple activities provided in the area.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The family orientated plan. The public jetties are a must to allow leisure craft to pull up and utilise these spaces. Love the idea of kayak launch area, how about adding in some water slides in the water based activities. We have the beautiful water, let's make the most out of it.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

We use the basketball and skateboard spaces, the kids play on the park but we can't get a coffee without heading back into Mandurah or crossing at the busy roundabout. Would a brewery be such a bad thing? Absolutely not, but it needs to have vision for a cafe area. We have this beautiful expanse of water and bringing in the jetties for boats as well would be amazing. Include some water slide into the mix and really make this a family adventure side.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

There is talk that no one is listening. We want Mandurah to vibrant and welcoming for all ages. In my opinion, kings carnival has been a Mandurah icon since I was a child, HOWEVER it is dated and run down and the mini golf is laughable. It is unkept and the carnival is sleepy, expensive and rundown. Can we keep a part of the carnival, such as the Ferris wheel, while we thrive and connect to its people, the history of what once was the king carnival could remain as a landmark.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

With these inclusions, I am excited for the western foreshore. We need to include everyone in this planning, and I think we can do this . At the end of the day, you are never going to please everyone.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Last Seen: Jun 27, 2024 02:58:19 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The western Foreshore does need a café of some sort and the public spaces and event spaces would be a great addition to what is already in the western foreshore. The western foreshore is already according to Councils signage "Family Friendly Foreshore - No Alcohol" so anything that continues to abide by this Council direction would be beneficial to families and the community

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No Alcohol on the western foreshore, the western foreshore is currently a family friendly destination and the council states a number of times throughout the western foreshore with current signage that says "Family Friendly Foreshore - No Alcohol", so the introduction of a brewery is contradictory to current council directions. Mandurah already has a brewery in Erskine, breweries are scattered all the way down the West Australian coast from Fremantle down so a brewery is nothing special to any other suburb. I believe the council has also stated that they do not want the western foreshore to compete with the eastern foreshore and I believe a brewery would do just that, we do not need more licensed venues and especially for families.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think "we" as a community are missing a unique opportunity here because people responsible for this plan have not thought outside the square they are currently in. Breweries are common right down the west coast and Mandurah already has one in Erskine, a brewery on the western foreshore will introduce alcohol to a current alcohol free area and that's according to current council direction. Mandurah has the Giants which are completely unique to Mandurah, the council could have asked themselves "What could we propose that would be unique to us", or "What could we do to attract people flying directly to Busselton airport from the eastern states". My feel here is the council has taken the easy option for a brewery instead of creating an imaginative option, a brewery in that unique location is not special for Mandurah, I don't think we as a society have to introduce more alcohol venues to be family friendly

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Do families need an alcohol venue to enjoy themselves? Already along the western foreshore everything built has been designed and built with activity, fun and family in mind, we may be missing cafe's but we don't need a venue selling alcohol. It will be interesting how many actual families (parents and multiple kids) will go to the brewery compared to just couples or groups of adults to drink. So you ask how attractive would these options be to families, the events and recreation areas would be attractive for a family to have fun and connect with each other, the brewery more for adults to drink and eat. With everything going on in the news lately with family violence and how alcohol impacts the violence at home, does the Mandurah Council really want to propose another alcohol venue amongst so many we already have?

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

At last this beautiful riverside area can offer something for everyone. So much more attractive to both visitors and locals. Restaurant/microbreweries are so popular and family friendly and I can't wait to be able attend with my children and grandees.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The upgrades to both the Eastern and Western foreshore are long overdue. Easier access is a great start. The joy on people's faces as they simply walk along the pathways so close to the water and then spot a dolphin or swan or myriad of other waterbirds within a few meters. We have the most incredible natural environment in Western Australia for us all to visit and enjoy. I just hope that extra boat traffic with the proposed moorings and jetties doesn't impact this.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive and modern. There is a good mix of free and paid attractions and better access to the river and foreshore. Carnivals and fun fares are very passé and it is time for the revamp.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

More parking opportunities. More space to create a diversity of entertainment

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A SAFE swimming area. Netted is not enough to ensure public safety. Please consider a rock pool type of facility. Use the tides to clean it out when necessary. Forster NSW has a rock pool (among many up and down the coast) It is a safe facility for babies to adults. It has space for people to do laps and a separate area with a beach for families.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Opens up a choice of areas to utilise other than the over crowded and often hard to park eastern side.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As long as all these things do not impact financially on families, it looks ok. But there does not seem to be a consideration for the teenagers? They are very limited with funds and also transport so perhaps an undercover (open sided) with on-going entertainment. Local bands, youth groups, films.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great plan, love that it is family orientated - something for everyone and will help to draw people to Mandurah. It is currently a mess and we no desire to visit it as a family.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will have broad appeal.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Excellent

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Maybe the Mandurah Council should consider supporting local businesses who have contributed to the local community for many years financially and otherwise before trying to change legislation to accommodate a business from elsewhere.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Change is one thing, lack of imagination and foresight for the environment is another.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Mandurah has never had a problem attracting tourists that is why it has won tourism awards previously (The giants increased tourism by 300%) so why does it need to lose its individuality and become a replica of other destinations.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The new development provides a good mix of hospitality, activities and amenities whilst maximizing the view and access to the waterways.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The Plan aligns well. It enhances public spaces and supports local businesses, fostering community engagement and growth. Preserving existing vegetation respects nature and meets environmental priorities, ensuring a vibrant, sustainable area for all.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The Plan combines excellent local amenities with well-appointed hospitality businesses to support these activities. The diverse existing elements and newly proposed activity-based infrastructure will make the Western Foreshore highly attractive to families. However, it's the hospitality businesses that are critical to maximising the use of existing public spaces, catering to a wide range of budgets and expectations, and appealing to both local families and tourists.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Do not like the commercial aspect. Not a good idea to give away public open space .

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think this aligns with the public open space concept. It is not going to be good for the environment by taking away green spaces for commercial application.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will not be attractive with a brewery or commercial taking up green space. Ideally it should return to green space for all.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It provides a good choice of indoor and outdoor activities for the community to enjoy. It will also provide additional reasons for tourist and people alike to visit Mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Provide more Parking

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

More local jobs, more opportunities to be involved in your local community.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive, well balanced offerings to suit families.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It will create a new focus area for locals and visitors to the Mandurah / Peel region.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Easy and safe access for pedestrians and adequate parking for vehicles.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will provide a family friendly entertainment venue for locals and travellers to enjoy and remember their visit to the City of Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will present Mandurah as a destination that is growing and keeping up with the times.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It's going to bring a fun and social hub for various ages to the foreshore. Most establishments similar are just aimed at the older age bracket only catering to food and drinking where these plans cater to a more family friendly approach all within the same location.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This will tick all the boxes to encourage an exciting, thriving hub for friends and families to gather, celebrate and socialize.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As a frequent visitor to Mandurah there is currently no existing brewery or licensed venues that caters to specifically to families. This will be a great location and addition for many visitors/tourists and I'm sure welcomed by the locals.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There is very little to like about the proposed Western Foreshore Leisure Precinct Plan. What is liked is the fact that CoM is paying attention to the beautiful uncluttered site and it's location on the town's doorstep. Hall Park is an A class feature of Mandurah with established tourist attractions and public access to the waterfront.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The Western Foreshore Leisure Precinct Plan could be improved by reducing the focus on commercialising the site. Instead, provide better public utilisation of this unique foreshore by providing more riverfront shade structures, more BBQ facilities and better boat access. There is no urgent need for yet another brewery/liquor outlet, cafe, chocolate factory etc.anywhere near this family friendly, open park precinct. These types of commercial enterprise currently exist in Mandurah and some are already struggling to remain viable.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan/interpretation of the community's instruction seems to be a very narrow focus on providing even more commercial retail outlets for the benefit of a few, at the expense of the majority of existing residents and ratepayers. Reducing the Hall Park area to a noisy clutter of carparks, cafe, chocolate factory, restaurant and yet another brewery is hardly imaginative. These types of outlets already exist in considerable numbers within the town precinct and further competition will hardly improve the viability of these established businesses. A better interpretation would be to preserve Hall Park as an A Class reserve and provide a better range of FREE public amenities. More BBQ's, more waterside shade areas and perhaps better boat access.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The Western Foreshore will become considerably less attractive than it currently is. Not everyone visiting or residing in Mandurah wishes to relax and enjoy the beautiful park in the immediate precinct of a river view stealing, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc. These commercial ventures don't need to be replicated, but if they are, have them located in a less pristine area, allow visitors to Hall Park, the families, children and friends to enjoy a riverfront experience without the pressure to purchase.

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: Jul 04, 2024 07:35:28 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not a single thing. The Leisure Precinct Plan with Brewery, 18 hole mini golf and chocolate factory will deny family access to the beautiful western foreshore. The focus of the skate park and playground is totally incompatible with a multi-storey brewery and 650 seat restaurant (whilst restaurants on the eastern foreshore are going broke!).

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Do not change vestings and there is no room for any further commercial development of Hall Park. There is no Traffic Management Plan and the bridge roundabout and shopping centre access is often grid-locked and always dangerous.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This proposal does not contribute to the thriving City but divides the commercial and the family recreational assets of Hall Park and degrades the value of the War Memorial and historic Hall Cottage. The plans provided are mis-leading at best and deceitful in the fact, for example 96 bay parking area is shown on the map with a small "blue P"; the concept jetty infrastructure is uncostered and takes no consideration of dredging and flow issues. The site of the brewery will flood and no RLs are provided in what can only be considered as a shabby and unprofessional proposal.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

A multi-storey brewery and an additional 202 parking bays (at least) plus bus parking is totally against the public open space provisions that were essential in approving the Port Mandurah canal development. Hall Park is the only large park close to the City (Class A Crown Reserve).

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything!! What Shelter Brewing has brought to Busselton Foreshore has been so amazing. The town is buzzing and people love that you can sit and see the ocean, kids can run and play and all the while enjoy good food and drinks. Busselton Par 3 is also an amazing public space for families and I am sure Mandurah will benefit hugely from this new development.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon?

No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This plan will engage the community and visitors alike. Not to mention all the new job opportunities that will arise.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Hugely attractive to families.

Q6. Are you a resident of the City of Mandurah

No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Great ideas and will attract people of all ages with everyone able to use it.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will attract people from all over WA and connect people. It would definitely make Mandurah a more thriving city

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It would have something for everyone, all ages and family groups included. It will attract family of all kinds!

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Removing the small carpark; retaining most of the open space; cafe option on that side of the foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The business outline mentions recreation options for "teenagers and young adults" but absolutely nil recreation options for adults generally. Locals and tourists comprise more than "teenagers and young adults", so there should recreation options beyond playing mini golf, or alcohol and chocolate consumption.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Absolutely fails the "everyone" element. Fails to provide sufficient recreation options for adults (including adults with or without older children, tourists/visitors). [Under-bridge events would be occasional].

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Caters reasonably well for families with young children, but not for families with older children.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not like the proposed plan there is no need for a brewery next to our war memorial and children play areas this area will become so congested with traffic jams that no one will make use of it. If council believes Mandurah needs another brewery why not put it where it will not cause so many problems like on the vacant ground near the yacht club Mary street Halls Head

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

let King Carnival modernize their site put a slip road from the Mary St roundabout to the old fire track and put more parking between the carnival and the play area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the council has done a great job in this area so far do not ruin it the only thing to add is a big water fun feature like Townsville have in Queensland on the Strand

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

not good so many people use this area now because it simple and free

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Utilisation of the space for more opportunity for others to enjoy

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I agree this is a good opportunity that aligns with that vision

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive for families and others to enjoy

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

If the brewery will finally be a venue open for food until late, then this would be a great way to revive Mandurah's night life. We need more restaurants that open longer and have kitchen open longer. I also like the idea of an amphitheatre including outdoor musicals or outdoor cinema.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

- I don't think we need to keep mini golf area. It is an outdated leisure activity. There must be something more exciting we can provide. Ideas: - a botanical garden with winding paths edged with herbs and bush tucker to give people a sensational experience - a winding path with different surfaces designed to walk on bare feet to stimulate the senses. - orchard and gardens maintained by special staff. maybe so that public can wander through (similar to Yagan Square in Perth) and pick fruit, herbs and veggies or to buy local produce here on site (fresh or preserved), maybe there could even be a venue adjacent that uses the produce including bush tucker to cook with eg. small gourmet restaurant, or makes small affordable items like chocolate or ice cream that uses native ingredients like bush tucker to make people experience Australian natives in a new way. A little nursery could also be on site that sells herbs and plants to grow your own. Another idea: A small water fun park or creation of an artificial stream system channeling estuary water into the area for people to use with blow up mattresses to float along and maybe a venue to hire those with final exit flowing back into the estuary for people to bath in there. There could be small bridges included for people to walk over, shady spots under trees include areas for picnic and barbecues, lawn bowling, crochet. There could be areas for people to use to sit and put their feet into the water or walk through a special area of it as kind of a Kneipp Hydrotherapy area or shallow water areas for small children to play in or special area for dogs to cool down and play. There could be a kayak hire, paddle board hire and other water sport to enjoy. Another idea: an arts hub similar to Edenvale in Pinjarra with many different crafts on site and workshops and regular or daily market that sell these products from jewellery, wood work, art, fabrics ... -

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I just think it is nothing new, another brewery, another chocolate factory, ... nothing is new or exciting or different to actually draw people here. If anything, we need something more quirky, different and interesting, like more small but versatile and creative and visually appealing venues to eat, that have some ambience like for example flicks or wood and stone have tried to do already. I would like to see more outdoor dining areas like these on the water front or even ocean front to have dinner and breakfast and get people excited to go out and be able to enjoy our beautiful open spaces without sitting in a cafe next to a road. A bit like cafes like e.g. white elephant cafe in Gnarabup Down South.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think the idea to combine food venues with public sport or event spaces, but would like to see some of my ideas included to make it a bit different and more innovative and I would like to have highlighted the Australian flora and would like to stimulate the senses (see my ideas explained above.)

Q6. **Are you a resident of the City of Mandurah** Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Anything that does not remove green space. I like the updated dual path, area for non motorised water sport, the removal of the very dilapidated King Carnival, market space, protection of trees.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Please do not convert green space in an A Class Recreation Reserve to parking. Make all the non motorised nodes to this space amazing. Make it accessible for people on bikes, scooters, walders, paddlers, those catching public transport. This is not the site to solve this City's parking shortage. This site should be protected for families to play. Please do not allow the swimming waterfront area to be taken over by boats. Recreation jetties should be well clear of swimming and paddling zones which should have precedence. Any commercial activity should be primarily focused on active recreation primarily for families and youth.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Dual paths, more grassed and shady picnic areas, swimming and paddling zones given priority over the waterfront. If any development on that site it should be a waterfront community recreation complex with some commercial leases that do not shift the focus from primarily active recreation. This club activities should be determined by the community and promote active recreation. I think there are aspects of this plan that are good, some not necessary and some completely off track (priority to boats and cars at the expense of lost green space or non motorised water based activities is a big no no from me).

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It already is, as it is. With more focus on active recreation for families, particularly youth, this space can be even better. The King Carnivals lease expired years ago and it was a mistake to give them renewals. Please do not think a brewery is the missing link. That space is better as grass unless it has commercial activity to fill the needs of the community from an active perspective.

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Access to the water for a variety of water users.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think the City could be more courageous in regard to the commercial aspect. Frankly, I think it sounds boring. How many more micro-breweries does the City need? Maybe something with more of a cultural aspect would make it a little more unique than hundreds of other spaces in all our coastal suburbs.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think nature gets much of a look in. Connected to the water, yes, but very little natural area remaining that would be safe for our fauna with the number of people, their dogs, water craft etc.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Relatively attractive but I don't think there's anything there that makes it stand out as a "go to" place that "must" be visited.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

1) Lots of things to do 2) Maintains access to water 3) Provides more parking

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Bridge over to Henry Sutton Grove.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

100%

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The proposed plan will provide fantastic facilities for both residents and visitors alike

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan aligns perfectly to the vision of Mandurah becoming a thriving city

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This will enable the Western Foreshore to be very attractive to families and to a blend of target audiences

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Jetties and use of open space as a leisure facility, During crabfest, that showed how underutilised that area had been. It was great to see events held there.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Don't approve that massive brewery. If Shelter recreate what they have done in Busselton with a cavernous building the size of an aircraft hangar it will destroy the beauty of our foreshore. It will also impact the hospitality businesses on the other side, many of whom struggle during the winter. And so near to the war memorial.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

You don't have to add a huge brewery to make it thrive. It looks like the Council are chasing big money at the expense of our beautiful environment. How much better to make the whole site family friendly with activities aimed at children.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Its not a microbrewery - its a huge building if its like Busselton. So leave that out. Focus on the minigolf, cafe, chocolate factory, maybe an upmaket dining area and restore an old fashioned fairground which would be a unique attraction to Mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not in favour

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Locate it on the Eastern side of the entrance.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Does nothing for local residents

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Too much loss of space for a commercial activity and the ongoing noise will be an ongoing issue.

Q6. Are you a resident of the City of Mandurah Yes

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The Plan should promote outdoor living and fun! Best example I can think of is the Venice boardwalk in Los Angeles, with an outdoor gym, a carnival with rides, plenty of water activities and very little businesses. They can all remain the Eastern Foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I believe the council is thinking in the right direction but needs to double down on making the Western Foreshore a thriving outdoor community space.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's almost there. A beer hall is definitely NOT aligning with that vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Once the drunks come out, the families will disappear. You are making a massive mistake putting in a pub on that side of the Foreshore. Double down on all the other elements, let King Carnival improve it's set up and add an outdoor exercise space. Promote health and fun over feast and gluttony.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The mini golf and chocolate factory.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It all sounds good but my main concern is the intersection of Mary Street and Leighton Place. Traffic is already a nightmare with cars playing russian roulette getting out of the shopping centre.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's connecting to nature but not really sure if it's going to be in a good way. It will provide more employment for people which is a positive thing.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I wasn't so keen on the Brewery as we have other businesses that are struggling but all the other element will be great for families.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing we don't need another alcoholic venue in Mandurah we need something for families that doesn't involve alcohol

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Not an alcoholic venue

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

No it revolves around alcohol there is so much violence and antisocial behaviour I don't want to take my kids to a place where people will be getting drunk

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

No micro brewery the rest looks great but the micro brewery a big NO the council can do so much without incorporating an alcoholic venue there is enough already around town.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Do not like proposed plan as we have plenty of pubs in the CBD, and one more is not going to benefit us as ratepayers.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Improve existing entertainment area. Add further attractions and make it accessible to all. Include further parking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I dont see this as catering to local residents, but cater to tourists who do not contribute greatly to residents wellbeing.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As I said earlier I do not agree with the concept oh beer halls and brewery on such prime land

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing. It hasn't catered for the local community. We have not been listened too. Very disappointed.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By listening to the voice of the local community. We don't need for breweries. We need good wholesome activities for a variety of ages. Something more physical would be great. We lost our indoor bowling alley so we need more activities like such.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Unfortunately it doesn't. The council just go ahead with whatever they fancy. They have no consideration for the local community.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It depends. Will they maintain the upkeep.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not much. Shame to lose King Carnival.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Get rid of the monster 'brewery'. Put in something different to existing eastern foreshore facilities, something for kids....

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't. The current plan will just move business from one side of the water to the other, to the detriment of the Eastern foreshore/city.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Microbrewery is too big and not needed - we already have three in the local area. The other attractions are ok, but an adventure/ water park would be better.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the proposed plan and would like to see more infrastructure reach out into Halls Head beach side, and down into Falcon to expand the area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan does align with the brewery, mini golf and chocolate factory. There needs to be sufficient parking as this is a problem with Boundary Brewery at the moment and the congestion through there.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive, as long as egress and access is put in place.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think it's a good idea a few things going on down there. Encourage people to walk over the bridge and park the order side too.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The restaurant needs a decent menu, not just repetition of the usual brewery fayre. Re parking and the round about in Halls Head will be harder for locals to navigate. Lots of trees need to be kept with nice canopy walk ways so families can walk around the whole area maybe with some nice arty or woodland features to marvel at. Leaving the car on the otherside of the bridge.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

If you do a nice woodland walking trail down there too it would be a connection to nature not just concrete buildings. Twinkling fairy lights in the trees for night time and night markets and food trucks amongst it. More than just a brewery site add an ambiance about its location so it's a nice walk too.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Should be good if you add some of my suggestions above. Town square sounds interesting to hold events on. We need good food as part of the brewery contract not another pizza and parmigiana place. Low end no different to travel too from out of town.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing . We don't need food or beverage we have plenty struggling on the eastern foreshore

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No pub brewery or food facilities more public open space

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't but aligns with what council want

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Nothing more expect encourage anti social behaviour

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

make it family friendly, and keep the park

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

not at all - the park needs to stay and no more traffic is viable to that area

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

the restaurant/microbrewery with mini golf, cafe and chocolate factory is too much, keep it for sports, and evetns

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The open plan for All community members , young , elderly and disability.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We are so lucky to have a vibrant and engaging council that includes constant feedback , always seeking new and exciting venues for families. To encourage people to visit Mandurah with assistance of public transport

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Highly anticipated visits from interstate , plenty of variation of activities for everyone . Concerts , family day , sporting events . Our local heritage and involvements are inclusive for all.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Inclusive activities for families with children

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Bicycle/kayak hire

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Connects families to nature through multiple opportunities to utilize the waters along the foreshore, encourages visitors and allows for active families to be out and about in a special area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very, especially compared to the current situation

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Absolutely nothing has no heritage to Mandurah we don't need another liquor venue

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Don't put another liquor venue in the plan, council need to support local businesses and invest in retaining the heritage of the area. Council have pushed local businesses out of the area along with previous attractions like the fireman's track

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

How is it connected to the city's people and nature when the proposed brewery is to be operated by non locals who already operate expensive venues elsewhere

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This foreshore is directed to the rich not the local families

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That it brings about a community feel

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I feel there needs to be more for tweens and teenagers, especially that they can utilise during winter months. ie escape rooms, bowling, time zone etc. I also would like to see a bridge for foot access and bicycles between the war memorial side and Henry Sutton grove, which would bring people access to the coastline and bring the connection to nature

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it is very much on the right lines, Mandurah is definitely thriving

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I see a lot more families visiting Mandurah, it is losing its reputation as a retirement town. Just more for the older kids will definitely make a difference. It is definitely the biggest issue amongst parents with teenagers that we have to go elsewhere to entertain them

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The under the bridge performance space, public jetty's, pathways and the smaller cafes (not necessarily a chocolate factory)

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

There definitely should not be a 650 seat brewery. Green space and tranquility should be valued. The most beautiful cities in the world have green spaces near the city to walk and reflect. The war memorial area is a beautiful quiet area to contemplate sacrifice. That will be lost with an enormous brewery close by. I would focus on revegetating the shore line and planting beautiful gardens with plants that represent the biodiversity hot spot that we live in. You may get one chance - please don't pave paradise.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't value nature and the environment.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All these things - besides the mega restaurant/microbrewery - are attractive.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It's an area that will satisfy all...awesome adult/children/family friendly space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan is in alignment. It will play a part in delivering on the vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Considering how successful Busselton is as a family precinct, it will be a huge draw card for locals and visitors.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the proposed family fun areas and activities for youth and children

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

With the issues of the area should also include more free entertainment types for older youth

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think there is enough adult restaurants and alcohol on the eastern foreshore and the western foreshore should be left with larger grassed areas with BBQs and shade areas for families to relax and swim

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Leave out the restaurant and micro brewery and have take away food outlets or vans would be more appealing

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Water access to the Western foreshore

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Reconsider the brewery, this area is alcohol free, yet a brewery does not fit the values for this area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Alcohol free area and brewery do not align

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Parking will definitely be an issue, people walk in this area and it needs to be safe for pedestrians.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing in this model is suitable for this area of Mandurah for locals or tourists

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Less intrusive buildings and architecture. More natural surroundings and less commercial focus .Also maintaining the easy accessible beach and no motorised boat access.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

None of it this plan just destroys the community values of Mandurah

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not at all this will drive families away

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

More Jetties and something new and fresh not old and rundown.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan offers more employment opportunities and it will also bring more tourism and possible business to other venues.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very popular with families.

Q6. Are you a resident of the City of Mandurah Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

it aligns in all aspects

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

highly attractive

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That is going to utilise the space more effectively

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think that it will be a great thing for Mandurah

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Hopefully it will bring in more tourists and boost the local economy

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There may be more parking.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will be thriving however Mandurah is losing its family friendly status. The city just bringing in more and more drinking establishments.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will just attract more antisocial behaviour. None of the current social issues in Mandurah are being addressed. We have massive homeless, drug, crime issues here and yet the council is wasting funds on projects like this. They are also introducing another licensed facility, we really don't need more drinking establishments which will add to already out of control anti social behaviour. As a resident, I feel like the council is more interested in making Mandurah a tourist destination than a nice, safe place to live for rate payers.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

very little, as the plan appears to accommodate adults rather than families and doesn't provide much for children and young adults. i can't see why the current Kings Carnival operator couldn't be given the opportunity to modernise and upgrade facilities to provide a complete family entertainment experience as has been provided for many years. The foreshore upgrades don't seem to align for families with a licensed alcohol venue within the area. All the extra improvements mentioned could easily be accommodated around an updated Entertainment King carnival.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

as the plan appears to accommodate adults rather than families and doesn't provide much for children and young adults. i can't see why the current Kings Carnival operator couldn't be given the opportunity to modernise and upgrade facilities to provide a complete family entertainment experience as has been provided for many years. Provide an opportunity for king Carnival operator to expand and update facilities to enable a family type experience that is not available anywhere else.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

i believe the western foreshore project will not cater further to the families in Mandurah, which is a shame when the skate park and playground and King Carnival on the western foreshore currently attracts families . There are many licensed venues in Mandurah to cater for people and i cannot see any reason why the western foreshore now needs licensed venue too.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The money to be spent by the city to expand all the western foreshore facilities seems to be paying lip service to getting the licensed venue and precludes any of the history of the entertainment history of King Carnival. The foreshore upgrades don't seem to align for families with a licensed alcohol venue within the area. All the extra improvements mentioned could easily be accommodated around an updated Entertainment King carnival without involving alcohol.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Introduction of commercial entertainment activities and options to complement the area and be a new destination. An all-abilities kayak launching facility would also be appropriate and get well used.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Providing a bike and walking link across to Stingray Point and MANPAC either via a bridge or automated ferry.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The Plan should cater for all ages and will invigorate the foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The mixture of elements will be great for families.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like that there will be improved opportunities for recreational activities and events.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan, which includes, jetties, kayak launches, pathways etc helps connect people to nature/ Mandurah's waterways. The opportunity to attract and hold major events will help Mandurah's economy thrive.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Look how busy Busselton Foreshore is! It's buzzing with excitement and activity. Imagine the possibilities for our very own Western Foreshore in Mandurah. This prime location could become something truly spectacular for our community! I believe these plans provide something for everyone - it's inclusive and accessible for all.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

All except the need for another brewery in Mandurah.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Provide more seating for families at the skate park. More barbecue facilities, not everyone can afford to dine out.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan aligns to the vision of a thriving city, but we also have a high percentage of poverty and homelessness in the city. I don't see any benefit to them in this proposal.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive, Busselton foreshore is a great example to follow. Hopefully parking is being looked at or there will be complaints from Port Mandurah residents.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Coffee shop

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No alcohol area, people should have the choice to be able to walk around safely without watching people drinking near bbq areas or playgrounds

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Some what

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Once the locals realise the difficulties there will be with driving over the bridge with the roundabout, and people not knowing how to use them, it will stop locals from going there. I do not like the idea of a microbrewery, I do not believe we need anymore alcohol areas, with the eastern side of the foreshore full of them

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

new and refreshing

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

What I would like to see, is a kid friendly restaurant or cafe. With all the great activities for kids on the western foreshore it would be good to have somewhere to take the kids for a meal, and I don't mean a fast food place. Pubs are not the place for kids and they really do not cater for kids between the ages of 5 and 13. A place that serves food besides chips and nuggets.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Almost... something for everyone

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be fantastic

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family activities ie skatepark and park, beats under the bridge

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More family activities maybe some restaurants

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

More family togetherness

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Definitely will make a great improvement

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the under bridge Ampitheatre and improved pathways, events space and chocolate factory.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think that the plan could easily incorporate Kings Carnival and create a next level family space.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plans are unfair to existing cafes, restaurants, pubs and alike businesses who are struggling to survive with high rents and low foot traffic to introduce another similar business who receives discounted rates etc to set up operations. Included would be substantial site works to make the area usable all year round and to not offer that to current businesses on the same site is unfair.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think the on-water recreation area will be the same as it is currently. Also the Pickleball may have an initial buzz but interest will soon wain. I can't see the benefit of a town square and I don't believe a new restaurant or alcoholic establishment will be of real benefit to anyone.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of having a designated area for events and also the Ampitheatre.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think it needs more free family activities, like hidden fairy gardens such as the ones in Dawesville's Wilderness Dr park.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It definitely aligns with the kayaking and jetties, but what about nature on the land?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It sounds great if you've got money to spend, but in this economic climate not many of us have the money to spend on these leisure activities. More free things would be good. What about a scavenger hunt?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The large family orientated area, that it can be something for everyone

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it will offer jobs and a tourist destination for Mandurah. Something that can be enjoyed all year round.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive. It can be a one stop destination for a full day of activities

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There is limited things to do on the Western Foreshore and there is so much potential in the area within the natural surroundings. Kings Carnival is old fashioned and an eyesore, also this does bring any new tourism just servicing a few small market. I live western foreshore side and would visit it regularly if there is a brewery and updated area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The brewery would be wonderful and a leisure facility is something I would support

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes it aligns as if we don't do it now how long do we have to wait for it to be upgraded. As a family of 4 this plan caters for all ages and it aligns to thriving bringing new people to mandurah to visit.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Yes very attractive my family really needs this space.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Possible mini golf and other family attractions

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

NO BREWERY! We don't need more blasted drinking business!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The community keeps telling you were don't want a brewery, but you don't care... So the plan does NOT align to the community vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Other than the brewery and the massive prices that will be charged, putting everything out of reach of your community, I'm sure it will look good...

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Financial benefit was the last thing on the councils selection criteria, community effect was first. There was no space for other comments at the end so I'm putting it here. I had to register and verify to answer this survey. First it asks user name IF desired then it becomes mandatory then it can't be my email, that is too much too long a process to answer a few questions, by now I can't remember why I wanted to do the survey and most others would have given up. Now you look at your 12 responses (out of how many in the city) and say mine doesn't count because I didn't answer correctly. Also then at the bottom it asks for my email again. Why no anonymous option? and it's not a really good survey. The questions are very long and wordy. The whole thing is not really accessible I can't read a whole plan document it's too much, make the easy read dot points, I read the whole page to get to the survey but I didn't see a link to the plan or excerpts from it. Anyway good luck I'm sure it will come for a coffee eventually.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Without knowing what the tenders are it is difficult to make suggestions. I didn't read anything about history of the area or indigenous culture.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan seems fine but things don't always go to plan so what are the contingencies?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I never read anything about a chocolate factory? But someone really likes pickleball, it will always be a tourist destination which means it will always be busy and not by locals

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan does not align to this vision. Make the roads more user friendly. Make Mandurah Terrace pedestrian only on the weekends. Stop taking away OUR parks

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

If the fair ground goes leave the space as it is NO brewery, NO chocolate factory and NO restaurant.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not like all the items proposed. The waters around the area are not deep enough to allow the jetties to be built, and will need to be dredged every year which will incur a cost to ratepayers. already. I do not like the removal of anymore grassed area. If The Kings Carnival is removed I would like it to go back to grassed area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan does not connect its people to nature. Its turning the area into a concrete jungle and like a most of your infrastructure you will most likely want to change it every couple years ie. eastern foreshore and Peel Street.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The park should be left and all the activities should be on the eastern foreshore. This would not attract me or my family to the area.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It will bring jobs in construction and tourism once finished great idea

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes I do, lots of people in Mandurah are resisting change tho the town is growing and new changes to accommodate

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very I think

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love that the waterways are more accessible for all abilities to use. The amphitheater so we can see shows from local talent rather than getting eaten alive by mozzies like at the meadow springs one.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

While I understand Kind Carnival is old and outdated having a brewery there where individuals can be intoxicated even more so that they are now isn't the best idea. This area is where I take my family - old to young as it's accessible, has toilet facilities and is accessible for people with disabilities both in the water and the playground.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

To a degree I have loved the additions to our town and believe we are succeeding mostly.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All but the microbrewery are a absolutely amazing plan. More things for our youth to do.. there is heaps for young kids but nothing much for the teens.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Most of the plan. It needs to be family friendly with easy access

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave out the Brewery. Mandurah does not need another one. It does need entertainment but family friendly not booze friendly!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

In most ways but more park play grounds nature walks with more small cafe's or maybe coffee/icecream vans dotted around

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The estuary activation

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I feel strongly that the war memorial is a sacred place, filled with so much meaning to so many people, and that any establishment that serves alcohol, besides the RSL, who are the guardians of the site, should be allowed. Intoxicated people will lead to disrespect and vandalism of the site. Kings Carnival is rare attraction to tourists, and local families. Admittedly, it has been mismanaged recently, however, a fresh, affordable, well managed and innovative carnival would be a genuine tourist and family attraction on the western foreshore that would keep the site accessible and activated by families and young people. The encouragement of drinking as a focal point of this space promotes recklessness and unhealthy behaviours to the young people who are using the space to be active.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Drawing young people towards a precinct that is headlined by another alcohol establishment goes against that vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Licensed cafes and restaurants, yes. A brewery in that space might be attractive, however it promotes separation of families, instead of spending time participating in activities together.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini golf, Water packs, water slides , outdoor theatre,

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More activities for families that don't involve alcohol

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't approve of the brewery replacing the king's carnival! There is enough drugs and alcohol in Mandurah and little for kids to do!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Need more family activities not pubs, clubs or breweries.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

More attractive and more activities will draw visitors to the area. Regeneration of an area which is very under utilised at the moment.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Drawing visitors to the region and giving more opportunities for families.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be a big draw card to families and make this side of the foreshore more attractive to locals and visitors. Excited to see how the amphitheatre is used and what will be put on there.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The kayak launch site sounds good

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No micro brewery. Please don't introduce another drinking spot into our already over saturated market. There isn't enough customers to go around as it is and the local small business owners will be the first to suffer. I also think that it is terribly disgusting not to give a longer lease to the King Carnival so they can spend the money on necessary upgrades. It is one of the last of its kind and set our town apart as being unique! Don't spit on our history in an attempt to be trendy and hip something that won't last.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I feel like there is a couple of things for nature but not enough. What about a bush tucker trail and landscaped bush area that can take you along the noongar seasons?

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Will there be parking enough to support or go you plans to upgrade public transport options to make this a workable option?

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It's in its name "leisure"

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Need to be a family friendly area somewhere younger kids can attend like a play centre and cafe. Having a brewery next to the war memorial is down right silly due to drunks possibly damaging the site

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Slim

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

With how the times are I'd say it's pretty far fetched to see alot of family in the precinct

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Upgrading of facilities for families, such as the mini Golf and Cafe combo, widening of shared paths and increased parking

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

We, the locals of Mandurah and surrounding suburbs have been saying for a long time we DO NOT want another brewery/pub in the local area. There are enough local pubs and breweries around Mandurah. Having an additional outdoor activity for tweens/teens in the area would be much more beneficial for the local community. Combining something like iplay/timezone/arcade style activities (not rides like King Carnival) along with the mini golf would be great. Also having a fun water park in the area would also be beneficial. A bit like Adventure world or outback splash. We don't need another local piss up joint. Keep this side purely for families and family fun! The other thing, which could potentially be more important at this point (given how steadfast and committed COM appears to be to the brewery); it is not clear in the proposal presented about opening times of the Brewery at the commencement of the second year anniversary? Will the 10pm close still be in place or will we be putting up with extended trade of 12pm or 1am? How can the COM agree, approve and afford to subsidised rent of \$1p.a. for the first 2 years of business?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Somewhat hitting the marks but you are again not listening to the local community. COM is forging ahead with a brewery/pub, which feels like a fall back easy option. The upgraded jetties, footpaths and other facilities is great, And definitely needed. Keeping the open grass spaces are also greatly needed.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The brewery is the sticky point. Everything else sounds on paper at least, like good ideas. I don't know how attractive another brewery and a chocolate factory is. They are not exclusive to or even necessarily wanted in the area. This side is designated and designed for all families. A brewery is very generic and basic, cookie cutter if you will. Thinking outside of the pub/booze boxes and look further into what the actual residents are saying on every single community page and COM advertisement for this survey!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family friendly areas including open field for pickle ball. Kayak launch...swimming area for children. Amphitheatre and meeting areas.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Maintain family and sport playing areas including large venue alcohol free to keep community and waterways safe. Respect to the ANZAC memorial. Safe access to water should be vast. A dolphin and estuary education centre or even an aboriginal culture centre. I like the current amusement park with mini golf.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Large alcohol selling venues do not define a thriving city. Mandurah has a high population of families with young children and senior citizens. I have not spoken to 1 person who wants a brewery on the foreshore. A large cafe restaurant with open doors onto a verandah is more family friendly. Sellers of local produce. Physical activities in keeping with the environment like swimming, kayaking. Inflatable pool runs for the children. Keep the open space for corn hole and pickle ball games or a 400metre running track. outdoor movie screens or a dolphin and estuary or aboriginal culture centre.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I dislike the brewery being within the family orientated area. There are enough venues within the CBD with a liquor licence. To approve this is socially damaging. It does not make sense to install one right in the middle of our beautiful estuary environment.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Shelter brewery is a great idea I hardly drink but their food is delicious. How nice it would be to sit there and look at the water

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

You Could have more music areas There is no places in Mandurah where bands can play and have a decent crowd

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

That space is wasted at the moment It will make a huge difference.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I don't have kids so I can't answer that But you have heaps of families that go there now and it's to use the water

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Fully aligned. It provides employment opportunities & revitalises this area. The venue will be great for families as it's near parks.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. We live in walking distance but we never use it as a family as our kids are teens. But would use it with mini golf and family meals. Especially if there are boat jetties we can use.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family friendly, somewhere for families to gather. Like the kayak launch point

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it looks very inclusive and accessible.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very, but maybe some more outdoor / active ways to get families moving? A basketball court or hopscotch area etc for kids

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing, we don't need another alcohol place in Mandurah, we need more for teenagers like Kings carnival, ten pin bowling, the pubs in Mandurah are already struggling.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Removing the Brewery and keeping Kings carnival

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

What people, the people you pick to talk to, go on the community groups like Growing up in Mandurah 70s and 80s and see what the Mandurah people think

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

A lot less, people love Mandurah's open space, If they want that they can stay in Perth.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Working with what is already there, whilst also adding some great new aspects

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It gives more access for people and a wider variety of activities

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Perfect - can't wait!

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not like some aspects as we want something family orientated NOT another brewery or pub to replace the Kings Carnival.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A family attraction like adventure world type park etc, Mandurah is a tourist town so something for families would be great.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not really considering that you are allowing more alcohol venues.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think that a microbrewery is NOT for families.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't think it's family oriented because of the emphasis on a brewery. There are enough breweries in Mandurah already to cater for drinkers.(I like a drink as much as the next person). I agree with the concept of renewal but the area should be concentrated on all families not just drinkers.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Do away with the brewery plan.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't align with families. Given that the State government is introducing more restrictions on alcohol statewide I believe this flies directly in the face of this initiative.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Take out the brewery bit and put in a waterpark or upgraded fun park and it will be more attractive to families. Entice more drinkers and you'll have more problems.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

open space with free entertainment,cafe and kids activities

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

KEEP IT alcohol free Alcohol is our number 1 killer in legal drugs.The short and long term effects are shocking.We have so many venues with alcohol we sure dont need another non local pub in a prime family area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

NO BREWERY and then the plan is good for all of Mandurah

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

ALL is except a pub

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The continued support towards the family reputation and services that we have enjoyed in Mandurah previously. Ensuring that there are recreational facilities and choices for residents and visitors of all ages.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Quite thoroughly, the Plan lends into the provision of happiness and community wellness. Having enhanced beautification and activities, once again, people will be drawn to visit Mandurah, which is great for our economy. But also the locals can feel that our leadership bestows a sense of pride and esteem towards its residents.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I can imagine that the foreshore will become a central focus and have an amazing attraction towards the already bustling city. This plan in my opinion encompasses many of the wishes of a broad-spectrum of the residents. To have only given thought to another brewery would have divided our community. Weaving a recreational activities centre and designated sizeable hospitality businesses into the area I believe will bring extreme kudos and growth to a connected family city...

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Jetties

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More for kids

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Everything except another alcohol outlet, bar or brewery. Don't need it

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Everything except the brewery, there is enough places for people to get frogged up and it does not belong anywhere near a war memorial. Not now, not ever

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Think you have the room to cater for new and old, ie the fun carnival with some modern day entertainment and some great eateries is a no brainer.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

As above

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Mandurah s water ways so a floatable space and boat access is a great idea.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Pretty much caters for a wide variety of families

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep it a family oriented theme perhaps a family friendly eatery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Make sure there are plenty of shady areas that are attractive for picnics

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

There is no need to have a licensed premises on the Western foreshore. Keep it family friendly. Once you introduce any liquor venues in an area like that you attract adults who have no respect for those around them and their language gets out of hand.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

i dont

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Cleaning up the walkway alongside the game park that has been in disrepair for 15 months and dangerous for pedestrians

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Nothing wrong with the existing if the city maintained it properly.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Too close to the residents alongside the park

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Plenty of potential activities. Use of under utilised space. Improvements to waterfront.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Parking and traffic will be an issue in an already congested area. More casual, free public space should be provided such as a splash pad for children, adventure playground expansion, BBQ and picnic areas increased.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

An improvement but probably not exactly what everyone wants.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Reasonably attractive but not necessarily what families of young children on tight budgets want.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the park. Limit car parking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not at all

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Keep the sporting element. No to restaurant etc

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

We love what has already been achieved with the skate park and kids playground. We love the ideas ahead also.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A separate skating section for younger and older kids. I few times my child and others witnessed have been knocked over by older children with little regard to what is happening around them.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It needs to be connected to the residents also. We live here permanently and we need to be connected all year round not just for tourists and in the warmer months. Not a lot to do for residential families in the colder months.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

For tourists and growth in Mandurah, it will be great. What is currently there, doesn't work and isn't inviting, it needs a revamp. But the plan needs to be set around residents and to support local businesses in and around the foreshore. They already struggle with rates and costings which inadvertently costs us as we see increase in prices when out and about. The plan needs to make allowances for the colder months so families have somewhere to go with the children that's warm and child friendly. Indoor mini golf, bowling etc.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The proposal has taken into consideration spaces for all age groups, particularly family friendly and will encourage people to extend their time in the city.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It was noted as "Potential" Intersection upgrade (across from the IGA shops) and I would suggest that upgrading the intersection is a must. It is very challenging to get around that area when an event is on.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I feel the proposed space will be a hub of activity that will delivers something to people from all ages and demographic - encouraging us to enjoy the lifestyle Mandurah offers. Its a great blend of physical activity spaces, family friendly play and picnic spaces and meal and drinking space. Not only for residents, but this is also likely to be a destination of choice for people living outside of Mandurah. Bringing more tourism into the city will be a boost for micro and small business owners.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This space will be extremely attractive. Our family have lived in Mandurah for 30 years and taking our children to the Western Foreshore was not on the agenda. Over the years we had frequented the carnival a few times - it felt run down and the basic fast-food choice did not really encourage us to stay long. We also were never confident to go to the carnival in the evening as there was always a safety concern. The new proposal looks inviting and will bring more families to the area which will boost the atmosphere - and ultimately improve safety and discourage anti-social activity.

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No brewery Open family space Bbq and picnic area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It does not

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not at all

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not a lot

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the carnival ad there is a lack of entertainment for family's and the youth the last thing we need if another pub

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not much

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Sounds good except the microbrewery / Restaurant

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not like it - a brewery is not a good fit with a large playground and the war memorial

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

no brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The western foreshore has long been under utilised. The skate park and playground together with the war memorial means that more people are drawn to the area. However a brewery is the wrong commercial development

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

i like development but not a brewery in this area

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Good, other then the development of a big brewery that will transfer Hall park into a large car park.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Reduce the seize of the brewery.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

We don't see the plan being aligned with the needs of the people living in the area.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All elements other than the brewery will make the western foreshore more attractive. We fail to see that a very large micro brewery will be attractive to local famailies.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing Every City needs a large open Grassed area for the people to enjoy at their leisure, avoid concrete areas

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

plant more trees around the perimeter of the grassed area Floating jetties are not a smart idea, due to the high tide velocity. Check out the eastern jetties, not used to capacity because of the difficulty with the tide speed.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This information has come from a biased questionnaire for people who do not live in Mandurah or pay the rates.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will make the drunks happy not the local ratepayers

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Under bridge events is something I haven't seen anywhere else.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think we need to make sure there is a good swimming area.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Somewhat aligns

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive to families

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Overall I think great initiatives have been put forward. I particularly look forward to what the under bridge amphitheatre my bring to us, new talent, small theatre, presentations, etc.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Covers a fare degree of variation to suit many.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All good. Not so sure we need another bar/brewery.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like the idea of further comercial tourism for the foreshore

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I don't think more the promotion of drinking alcohol in the way of a brewery is family friendly, I personally prefer to eat somewhere there isn't beer on tap any will attract more 18+ rather than families

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

If you are seeking to connect with nature then leaving the area natural and undeveloped would be a better option, or having more of a park area / open spaces Water playgrounds and fenced nature playgrounds similar to whiteman park

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will make the area a place where you will have to spend money to be able to enjoy, it will be attractive (not the brewery) but families that frequently visit that side of the foreshore for a picnic etc probably will choose elsewhere if it is over developed

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

An eatery there is a step in right direction.. and time for King Carnival to move on

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Get investment from a company like Funlab with Bowling, Mini Golf and time zone with eateries so that we have something to offer the kids and teens of Mandurah

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I do not think another brewery and a silly chocolate factory aligns with it at all

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be popular to a point however it could be so much better used and with prime real estate could better be capitalized on I think

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There's a lot to like about the proposed plan. I hope that all of the proposed activations / elements create an incredible family friendly atmosphere on the Western Foreshore.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It would be great to include an indoor venue with family friendly entertainment also. Maybe this could be considered after this plan (and maybe we would have businesses wanting to come down this way after investing and having vision in this plan) but finding great indoor activity options it is sadly lacking in Mandurah. We travel out of Mandurah almost every second weekend in colder / wetter months to do things with the kids.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think the plan will activate the Western Foreshore more, create a lot of local jobs and bring visitors to Mandurah. I don't see a huge connection to nature other than the location on which it's being built.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Although I mentioned the lack of indoor venues above, I still believe this plan will be very attractive to families - especially if the space around it is activated well too. I mean, who doesn't love chocolate?! On a recent trip to Busselton we visited Shelter for lunch and almost every table was packed with families. They activate this space with children's activities at different times of the year and I think creates a great atmosphere near the Busselton Jetty / Foreshore. Add to this a chocolate factory, cafe, mini golf and City activations and I think this will create an incredible atmosphere in a space that is under-used / utilised at the moment.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Love it all! Particularly like the under bridge event space and the fact that you've managed to keep so much of the open green space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very much so. It promotes passive recreation as well as formal event opportunities. It's accessible for all the community and still allows people to use the beach and water areas.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive. Free options as well as commercial options. As far as I can see we're not losing anything, instead this area will only offer more.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The increase of foreshore width in front of the proposed Commercial Spaces. The installation of the public jetty, though the natural water depth may be an issue. The on-water commercial use area and under bridge event space are good initiatives.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Firstly this question should be "What don't you like about the plan?", instead of the corraling "could be improved?" language intended to soften the feed back reported to elected members. The plans main shortcoming is it discusses the need for more parking and has a timeline for installation, which is well in advance of the timeline for the proposed intersection upgrade at Mary St and Leighton Pl. This is putting the cart before the horse. The improvements to the precinct not involving the commercial areas, will not add significantly to the traffic load on this intersection. It will be the commercial activities which drive most of the additional parking demand and therefore traffic. The timeline has the commercial development completed by 2026 and additional parking (202 bays) by 2026/27, however does not anticipate completion of the intersection upgrade until 2030. Given this intersection is already a poorly functioning intersection this should be a start point of the timeline, not the end point.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The precinct as currently configured already mostly aligns with the vision stated. It should be noted, there is a difference between "busy" and "thriving". There is a large risk of the commercial proposals simply adding to busy and not necessarily thriving. A micro brewery style venue would not be consistent with "thriving" as this style of venue does not provide the all year fulltime jobs the City needs. It is likely the scale of the proposed venue will impact many other venues the City has which operate marginally for much of the year. Similarly a "Chocolate" factory is an odd inclusion.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

The area is already a an effective and well used location for families to enjoy. The current public facilities are well used and the foreshore enjoyed by many whenever the weather is good. Lower impact facilities such as a cafe or similar would be an enhancement. A large microbrewery style venue is the opposite of "family friendly" and has the potential to simply become a booze barn, with the predictable associated issues. It is not clear from the materials provided where the pickleball courts are proposed. Given the City has courts already this may not be a priority.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Everything, it will provide jobs, improve amenities and promote opportunities in Mandurah

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The current use of the land is under utilized and these changes should be embraced as a progress and improving the amenities in Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

In my opinion this will be a great attraction for locals and visitors to the area

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

NOTHING IT IS A DISGRACE TO EVEN BE CONSIDERED THIS WILL BE A WASTE OF THE RATE PAYERS MONEY LIKE THE DIGGING UP ONCE AGAIN OF THE EASTERN FORESHORE AND THE SO CALLED UPGRADE OF THE SMART STREET MALL. ONE BIG WASTE OF MONEY

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

BY KEEPING THE GREEN PARK AND THE TREES AND FORGETTING THIS RIDICULOUS PLAN ALTOGETHER GRASS AND TREES ARE MORE ENVIRONMENTALLY FRIENDLY THAN BUILDINGS AND CONCRETE

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

RATE PAYERS OF MANDURAH DO NOT WANT YOU TO BE RIPPING EVERY BIT OF GREENERY UP AND REPLACING IT WITH BUILDINGS AND CONCRETE YOU HAVE DONE ENOUGH DAMAGE ON THE EASTERN SIDE OF THE ESTUARY WE ARE UNABLE TO ACCESS OUR LOVELY FORESHORE ONCE AGAIN FOR OVER A YEAR OR TWO

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

IT WILL ONLY TAKE AWAY PARKLAND THAT FAMILIES CAN ENJOY AND ENCOURAGE YOBBOES AND ANTI SOCIAL PEOPLE TO ATTEND. WE ALREADY HAVE ENOUGH DRINKING PLACES AND RESTAURANTS OWNED BY LOCALS TO CATER FOR THE WANTS OF THE MANDURAH RATE PAYERS

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing just another waste of ratepayers money,another brewery What?there are enough piss up places in Mandurah already.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No breweries.more parking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I THINK the Mayor who I voted for & had several conversations about the need to scrutinise every project & contract fir services needed looking into,he told me he was going to set up a se I erate cmmitee to look @ all expenses.Example how many times are the council going to rip up Peel Street.I could go on & on about the wasted use of manpower & Machinery by whoever is in charge of work projects,but he must be a protected species.Notice to the Mayor get of your rear & take a drive outside the main city area of Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Maybe to yuppies & alcoholics.

Q6. Are you a resident of the City of Mandurah Yes

Last Seen: Jul 16, 2024 07:33:01 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I do not agree with the current proposed later Precinct plan the owners of houses facing the park will no longer have Street privacy this area should always be kept free of all commercial development I agree with adding some Jetty space for access but no major hotel and alcohol outlets should be allowed

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It should remain as open Parkland for major sporting events if this area is built out where do people go to have open space for family outings

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think Mandurah City Council is getting carried away with how much thriving City they want to build out side of the actual City precinct

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

This all sounds wonderful but how are the local residents going to access their homes in the Halls Head area with all of this development going on spare a thought for the people who have spent their lives saving to live in a calm quiet environment to all of a sudden be built out by the above proposals

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The mini golf course.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By taking away the pub, adding a bowling alley more family invested

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesnt, infact it takes away from that vision. Mandurah already has too many liquer licences to have yet another pub/brewery within this town would simple be too much.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Apart from the micro brewery very!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think the proposed businesses and leisure activities will be great. My concern is the extra traffic it will create and the hooning of cars not abiding the safe speed limit. I do not like the proposed parking and think council has not really thought it through properly and how this will effect the safety of everyone.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The existing parking be enlarged instead of creating new ones and eating into the green space that everyone enjoys. Street parking is a major traffic hazard for local residents and does not address the safety issues. Why can't the existing parking areas be extended rather than creating new ones. The entry to Leighton road is going to become very congested and it will bank up right to the round about. This is already a major problem at peak hour. The turning vehicles off round about into either the IGA or Leighton Place is a nightmare. People speed off the roundabout then hit the breaks if someone is turning. No room to pull off to the side to turn from either direction.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The green space is what everyone loves. A beautiful big space for everyone to enjoy. Please don't eat into it for just another carpark. Why not utilize the existing carpark space and extend them. Once a park is gone it is gone forever. The open space and plenty of natural room to move around in is what we all love. You can still access more parking like they already do for when bigger events are on.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Im sure families will love it. Adults will too to be able to access alcohol while the kids play. I just don't think the road entry access will be able to cope with the extra traffic and this will certainly impact on local residents and the safety of families. Hooning is a big problem in Mandurah. They are going to love this street with the Brewery being a major draw card.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Frankly, I like it all, and agree with all the reasons that the City has given. I am familiar with the proponent's Busselton development and believe that a similar high-class development, as proposed, will enhance the attractiveness of this otherwise rundown and wasted area. The playground and skate park developments are excellent and the proposal should provide an admirable complement, attractive to all generations. Over the last 6-8 weeks, I have undertaken three walk arounds of the King Carnival and minigolf complex, on a Saturday, a Public Holiday and a school holiday: each on afternoons in fine Autumn weather. Cumulatively, there were a total of six visitors in the King Carnival proper, with none on the Ferris wheel; and twelve playing minigolf. The Carnival has outlasted its appeal, and the site is an eyesore and seems to be mainly used for storage of fairground equipment. While I acknowledge a degree of public support for the concept of retaining King Carnival, this is not translating into patronage of this rundown facility and valuable area. The proposal, if it proceeds will undoubtedly attract many people, and hence tourist and entertainment dollars and employment opportunities. I fully support it

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very well.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It is already very attractive, as evidenced by the numerous families there at any time, but particularly on weekends and holidays. This proposal will attract even more. Given the proposed nature of the development, I cannot perceive any negative impact on the present family attractiveness. By comparison with the proponent's Busselton development, which is very well run and demonstrably attractive to family groups, it is difficult to perceive any family drawbacks, if run to a similar standard

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

No brewery please.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The western foreshore should be kept as an open space. Consider things like an area to hold concerts eg myer music bowl. The brewery is not fitting. Seriously people. As if another drinking venue is required. Keep that sort of stuff within the town and marina. You've dug up the foreshore. While you're at it build the dam brewery. It's time the council considered its residents instead of continually destroying , what was once, a beautiful, pristine town. Shame.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Great for tourists I'm guessing. For everyone else it's just more pollution. The shores close to all waterways is where a lot of natural filtering occurs. You used to be able to see the beautiful sandy bottom in the town area. Now it's just a cloudy, slimy scene. Sitting down there this morning it just smelt awful. I'm sure you all realise once one starts with a "bit" of this and a "little bit" of that will soon look like the peninsula area. Just awful. We aren't that stupid guys, this is only the start of the councils destructive ways.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Family friendly and activity based

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Do away with the brewery concept

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes it aligns

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think the restaurant/microbrewery will not be family friendly and is not appropriate so close to our beautiful war memorial. Also existing hospitality businesses on the eastern foreshore will be adversely affected. It is hard enough for them as it is without yet another brewery to take customers away. Yes a cafe is definitely a good idea and even a chocolate factory incorporating a cafe. But NOT a brewery.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Having a place to eat in the Western Foreshore

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More for children and families to do: water adventure park like adventure world, water park like the BHP one at Elizabeth Quay, ice skating all year, bowling alley

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Somewhat

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be much more attractive but room for more!

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Last Seen: Jul 16, 2024 23:10:34 pm

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

We need the open spaces for the proper development of children, plus various activities to stimulate mind and body

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No more breweries or distillation plants for alcohol. There is no such thing as a family friendly place that serves alcohol !!!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

In most cases this plan seems fairly well balanced

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It was going great until the mention of the microbrewery !!! Mandurah does not need another brewery or distillery. Alcohol is a major problem in our community and this plan does nothing to help.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Last Seen: Jul 16, 2024 23:29:04 pm

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think it needs further work. I don't think another alcohol venue is considered family friendly. It will lead to anti social behaviour. I think it will devalue the area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It needs to be family friendly. For a top tourism town Mandurah significantly lacks family friendly activities. A water park, mini golf, arcades, and bowling alley would be better than a brewery. Things for actual families. People will not travel to just sit in a pub they can do that anywhere. People travel to take their children to fun activities.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think it aligns very well at the moment.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not very. A brewery is not family friendly. We do not need another alcohol venue.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Respondent No: 379

Last Seen: Jul 17, 2024 02:14:31 am

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the ideas that are being presented, very family friendly (except for the microbrewery, chocolate factory, licensed restaurant etc)

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

As long as you keep it alcohol free on this side

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

These fun family activities/improvements (apart from the microbrewery etc) will encourage families to get out and enjoy this side of the foreshore

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Apart from the restaurant microbrewery cafe chocolate factory bit, I think the rest of it would be attractive to families. The proposed microbrewery etc doesn't really fit in to the family fun scene you are trying to create. Do not need more places to drink alcohol, keep it on the other side of the foreshore. Don't get me wrong I'm not against alcohol I just don't think it fits in with kids playgrounds etc

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the idea of a renewed foreshore but not as proposed. Keep it as a family recreation site

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Do not include a large brewery /restaurant. A super large Ferris Wheel may be the answer. .

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This does not cater for the locals to a great extent. The proposal is claiming to bring in 700,000 people a year to the area. 2,000 people a day?? the area cannot handle this and will destroy existing businesses battling already.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think one visit will be the limit. Families do not want crowded commercial areas. Go back to a developed nature site families can enjoy.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

not a lot it would seem it was a plan to do away with the existing tenant and big business to take over

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

i cannot believe there are no public toilets at the war memorial end of the area there are older persons visiting this area and on ANZAC day the RSL must hire toilets this is disgraceful with all this planned development gets some public toilets at the end of the car park at the War memorial and give some service to the person who have served our country

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think pubs are what the Mandurah and the community need put in more jetty's along this area for fishing and crabbing yes put in a mini golf course, the vision is about big business not the community needs expand the carpark put in toilets you have let this area be neglected for the veterans that visit this area

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

pubs and families with the cost-of-living families don't need pubs they need free events activities put in some jetties where families can fish and enjoy the waterway in Mandurah all of the above attraction are costing families

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

As a Halls Head resident of 35 years I like the idea of having activities that can be enjoyed by all ages, like the mini golf. What about a water slide park instead of the king carnival. Would be nice to keep the iconic ferris wheel.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Please no brewery, I know this would be the best value for rental return and possibly the only activity that could make the rent you actually are requiring. The parking will be a nightmare and overwhelm the roundabout near Old Bridge IGA. In your words "The traffic modelling suggests that the Mandurah Estuary Bridge Duplication will improve the level of service on Mary Street and Leighton Road due to a reduction in northbound traffic volumes on Old Coast Road. In addition, minor road network improvements on Mary Street between Leighton Road and Pinjarra Road would result in satisfactory performance on Mary Street and Leighton Road during peak periods, taking into account the proposed land-use changes for the Western Foreshore area. The City acknowledges the challenges associated with the traffic flow in this area and will undertake further assessment of the options provided by the consultant. " So you haven't even completed the study of how the traffic will be impacted? This needs extensive further work

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Hardly, you're targeting day drinkers and alcoholics. You're wasteful with spending and what you have completed is far from worth the huge amount of ratepayers money you've squandered. Rethink the whole brewery and for the love of all that is holy, what ever you do decide to build, don't go ripping it up two years later.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will only service people with disposable income who can come and drink a \$17 pint of craft beer, eat at \$15 plate of chips and continue to push up rates at an incredible pace. Not attractive to the vast majority.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Improved facilities and open spaces for the community

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Increases opportunity to socialize and connect to nature with better venues and facilities in an area that is currently underutilized and in need of revitalization.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely attractive as it provides activities and spaces for a wide demographic.

Q6. Are you a resident of the City of Mandurah Yes

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Do not like the proposed Plan. Definitely no brewery as this side of Estuary should be for family, kiddies plus young adults. To have an alcoholic business situated next to playgrounds and War Memorial is unbelievable.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

There should be a Water Park to suit all ages, keep the mini golf, build a bigger Ferris wheel, have barbecues for family picnics even a Wave Park. These will be utilised by residents and tourists.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't, a licensed restaurant/brewery has no place being on this side of estuary. There are enough already.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not all suits the area and shouldn't be adjacent to the War Memorial.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing it is a joke and corrupt Mandurah Council just trying to make their mates wealthier. This is not a family friendly proposal.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave King Carnival there and allow it to actually be a family friendly precinct. We don't need more brewery's, alcohol etc. There is enough already.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It a self centred agenda driven plan.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will turn into a failure for families. The state is already over saturated with brewery's and chocolate factories and will become an anti social area.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

An all abilities natural play area for water activities. Enhancing Mandurah's all inclusive outside leisure facilities putting us on the map with diversity and inclusion in the Peel Bindjareb area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

A Change Places Toilet area for disabilities with a shower for disabled people to be able to enjoy water sports, kayaking etc and have the ability to change and shower before and after their leisure activity.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Yes it certainly aligns to the plan of connecting nature and people but this area needs to have the ability for all people to be included in the vision, ramps, changing places, hoists for getting in and out of water activities. This can enhance the experience and give disabled, ageing people the ability to get back on the water.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

As long as Mandurah has the infrastructure, toilets, showers, hoists, ramps, car parking facilities, I would say with all of these as well would be very attractive for families and visitors.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

scrap the proposed plan which includes Shelter brewery. It is ill thought out, promotes alcohol based entertainment as "family" orientated, when al studies show that alcholah is the single biggest factor in domestic violence, child neglect and antisocial behaviour

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It absolutely ignores what the rate paying, residents of Mandurah are wanting from that area

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

antisocial behaviour driven by alcohol consumption, The existing kings carnival is a mandurah and in fact a west australian icon, their proposal included a world class minimigolf course and the ferris wheel is iconically mandurah. We have enough licensed premises within a 2 km area to adequately service the local and tourist population. The area has only 1 road acces into, and is already a heavily bottlenecked transport nightmare. should an emergency arise first responders will find it almost impossible to acces the site. their is no public transport to adequately service the dispersal of 3 to 4 hundred patrons all leaving at once, which shelter holds on regular basis, it will totally destroy the view from Halls Park acroos to Mandurah terrace, locating a huge :micro brewery" between a skate park, childrens playground AND the war memorial is both highly unsuitable and absoltely disrespectful,

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Has a range of different things to offer all areas of the community

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

1. We should have a tradition white wooden wedding chapel there! 2. Lots of parking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Meets all targets

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will bring the western foreshore alive and help it connect to the rest of the city. Question 6: I am not a resident, but I do operate a business in Mandurah.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The only positive is that any development will be an improvement on the current outdated and sub standard commercial operations..However, the size of the proposed development is such that it is going from a currently sub standard facility to a ridiculously over provided and unwarranted use of current open space. I agree with some development, but it must be in keeping with the environment in which it is provided.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The proposed development is far too big and in my opinion a brewery is not suitable for the site. Too much open space is being lost to parking, in contrast to the eastern Foreshore where parking has been reduced in favour of commercial operations and open space. I agree some development is warranted, perhaps in the form of a restaurant/cafe, bbq areas and mini golf. I suggest a cafe similar to the Cafe Coast facility at the Bouvard Marina would be appropriate. Some additional parking is justified, but not to the extent proposed in the development proposal.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The proposal to allow a brewery, combined with a significant loss of open space is hardly fulfilling that vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

If the proposal goes ahead in its entirety, families will quickly get sick of the nightmare it will be getting into and out of the WF precinct. The Mary Street roundabout, with its hazardous entry from the south of the bridge parking, combined with the access to the shopping centre, access to Leighton Place, Mary Street and Old Coast Road is in itself sufficient reason to question the scale of the proposed development.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

This is an A Class reserve, and we don't need a brewery within what is an area for young people. Also I object to the removal of trees to make a car park. Also traffic congestion will be horrendous. Trying to get in and out of Leighton Road or the shopping centre is difficult now.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't. Mandurah is a thriving City, and we need to retain some of what made it that way. Green spaces for families to picnic. BBQs

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I would love to make a positive comment but I just can't. We have a lovely pool on the Eastern Forsehore, hardly used because for the young families that want to use it there is no parking. Parking is a massive issue now.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

FOOD VENUE: I think it's great to have a meal venue on the Western side of the Foreshore as this is definitely something that is missing when families are meeting at the playground or playing on the oval. Its a real pain to find somewhere to get food/drinks once there. MINI GOLF: Having young children of my own, I believe the mini golf will be a good family activity for tourists and locals CHOCOLATE FACTORY: I believe this will be well received by tourists and locals.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

PARKING/ACCESS: Its a great idea to create these extra tourist venues but at what cost? We already have the Eastern Foreshore precinct set up to accomodate tourists and places for locals to meet up. There is really no feasible way you are going to be able to change the way that traffic flows into this area. It's a complete disaster zone as soon as there is an event on at Hall Park. You are going to take away greenspace to put in parking to accomodate food and activity venues for people that really, in all honesty are a nice to have but not needed. CURRENT PORT MANDURAH COMMUNITY MEMBERS: Have you actually stopped to think about how the people who live off Leighton Rd are going to manage with this constant stream of traffic into an already difficult area to navigate? I live on [REDACTED] I will be directly affected by this new plan. I am happy to speak with anyone who would like to contact me. My name is [REDACTED] and I grew up in Mandurah, living on [REDACTED] and moved away when I was married to Central Queensland. I have returned to Mandurah with my young sons [REDACTED] as I convinced my husband it was one of the best places in Australia to bring up children. Our family was in a position to buy a home on the canals [REDACTED] in February this year. I could never ever have imagined how noisy this part of Mandurah is. Every night there are sirens and hoons driving over the bridge and down Pinjarra Road, the weekends are next level. The noise travels up the canal and there is no buffer from traffic, events or music from town. On Friday/Saturday night, the noise from the pubs live music on Mandurah Terrace is so loud it wakes my children. I personally have to wait for the music to stop between sets so that I can try and go to sleep. I am glad it's winter so there are less people going out. I honestly thought living here at [REDACTED] was the most prestigious and wonderful place to live in [REDACTED] but it's anything but. We liked [REDACTED] because it's quiet, my kids can ride around down the street and we can go the skate park after school easily. If this development goes ahead, we will have people up and down our street, parking out the front of house, wrecking our sprinklers and lawn. If you add a brewery into the mix, only a few hundred meters from my house, I honestly may have to sell. I will not be able to cope with the yahooing and noise that will come when the pub closes at 10pm, as we all know there is no services in Mandurah to get that many drunk people away quickly. They will be walking over the bridge and to town and it will be a scary place. My husband still lives in Queensland and flies in / out so I'm here by myself and I honestly don't think I'll feel safe living here.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This area of Mandurah is really not the right spot to 'connect' people. Its a section of land that is a no through zone, its a dead end. It's not a connection spot, there is no flow on to other venues, it's a spot where people will go to, AND GO HOME. It's not going to support any of the existing businesses that are already struggling on the Eastern Foreshore. If your aim is to connect people through fun, family activity then yes, the existing park is a great place to meet and connect. But why would you add a brewery to the plan? It just makes no sense to put a public drinking venue in a family zone in which drinking is currently prohibited??

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think the elements you have selected will be attractive to families, but there will never be enough parking to accomodate everyone, they will be parking up the streets of the nearby houses and being problematic for those people trying to access their homes. A licensed restaurant/brewery isn't what many struggling families need...they need a cafe or a takeaway venue that will be affordable. Most families accessing this area will be bringing their own food and drinks - because there is never much change from \$100 when you take a family of four out for food/drinks. A cafe would be ample - is there really a need for a drinking venue? It's only going to bring in people who are going to potentially drive families away from the area? Are you trying to go for a particular demographic of people who will be able to afford this venue? Because that doesn't seem very 'family' orientated to me either. I understand what the council is trying to do, but I just think you've got this wrong. Halls Park is iconic. Just build a nice cafe/restaurant in the place of Kings Carnival. We don't need extra jetty's and play spaces that sit there most of the year unused. As a shire, just bring in family activities for the summer time and take them away for the rest of the year. I oppose this development and dearly hope it does not go ahead in its current format. Please contact me if you'd like any clarification on my submission.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the thought of a maze but not much else

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Instead of another drinking venue how about a water playground that actually does included families and nature

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not at all how can you possibly convince any sane person that a brewery is connecting people and nature what a load of rubbish

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think this is the worst thing you could be doing for families as this should be a recreational area not an area where you have people drinking on the foreshore there's enough pubs and breweries in the area without spoiling the on3 area that should be specifically a fun area of play and adventure for families , like yes a maze , mini golf and how about water playground which would depict the beautiful area in which we live not a drinking venue which is only to raise revenue for your shire and does not have the best interest of the community in mind !

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There is an obvious lack of detail, but I support the bones of it. I think the council has done a great job on the Eastern Foreshore, and as long as that same vibe is continued along the Western Foreshore (ie, keeping trees, accessible to everyone) its going to be great. I understand the backlash around Kings Carnival, but when we are looking back in 20 years, this is a decision that has to be made... as long as it's details are well thought out.

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I'm actually just looking for a 3d plan/map of the proposal to view... [REDACTED] if you have one that I havent seen.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's fine. There will always be people resistant to change, full steam ahead.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It's going to thrive. I do have concerns about the short term viability of running licenced venues on both foreshores, when Bar Therapy can only open a few days a week atm. But long term, this is the best options for mandurah.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

No Brewery's

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No Brewery

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Close but not Brewery. Public space restaurants as the location become beautiful depending on direction of wind.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Great. The Brewery at Busselton has spoilt the foreshore area. Please good cafes, restaurants and public space.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing your taking away an iconic piece of mandurah.. I was born here and it pains me that your taking a slice of our heritage away to create a money grabbing venue shame shame shame

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Improving the carnival and making it bigger which will draw in more tourists there is plenty of space if the pub is needed get rid of the memorial and build next to the carnival. Place the memorial somewhere else

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Nothing at all the carnival is an iconic piece of mandurah I have grown up with it being there. First you get rid of the old bridge now the carnival what's next a money grabbing epicentre for people to enjoy I don't think so.....it used to be free for a day trip and enjoy the waterways now it's just business and no one will come...shame shame city of meth andurah

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Zero why would I go there just to be out of pocket hundreds of dollars with no memories to preserve

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think that majority of this proposal is disgusting. It does not benefit the community to be abolishing the carnival and getting another alcoholic restaurant. The residents don't want everything in Mandurah to be so far money oriented that you are effectively taking away one of the last special places in Mandurah to fuel your own greed. Next elections will speak louder than this shambles. Actually listening to the community doesn't mean just the ones with money!!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave space for the locals and get your greedy hands off of the king carnival. Mandurah's identity is almost wiped out. The very things that made this community special and tight knit is not becoming like every other town and stuff the locals.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not at all. Disgusting

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

A lot less now

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the continued focus on the water with jetties and kayak options becoming available.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The western foreshore is ill equipped to handle anything large population wise given the single roundabout entry, so I assume consideration could be reduced parking options to promote people walking over, maybe shuttle ferries? My biggest concern is the commercial proposal of a brewery, and it being Shelter at that. While Shelter may be successful in Busselton, I believe that is more to do with its proximity to the jetty. It's beers and food aren't generally amazing enough to make me want to find parking and make my way to there. Especially if I consider everything else currently available on the eastern foreshore. I worry that the new brewery will become a blight on the landscape, under utilised by tourist and local alike. So what instead? Can the city get a bigger draw card for the site? Is there a hybrid option where the carnival can co-exist?

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Only in the sense of building on the city's connection with the water, with access and activities. I don't think the addition of any commercial entity on the site achieves either.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

From my own perspective as an ex resident of mandurah (20yrs) and now a frequent visitor, what is being proposed would entice me to take my family to the western foreshore for outdoor activities and recreation. I would want to park in the cbd and walk over as the prospect of parking on the western foreshore would be too daunting and frustrating. I have zero interest in the proposed commercial site.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the upgrade to footpaths (these are well overdue) and small commercial business ideas like mini golf and Cafe, aswell as the jetties and paddle launch.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I don't believe the precinct is the right place for a brewery and/or alcohol. It is a place for families to gather and enjoy family time together outdoors. It contains a skate park for people to use and entertain (especially teenagers and younger children out of trouble) and it's one of the only places they can go in Mandurah. Having alcohol approved within this space will only encourage bad behaviour/violence/increase in damage around area. Not to mention, the war memorial right next door, I can just vision drunk people urinating on/around ot when gathering outdoors/waiting for friends/taxis and alike. We don't need another brewery/pub. We need more family fun activities. A track for young kids (bikes/scooters) and a water park like in Broome.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Most of it is good, but I do feel the brewery takes away from all of it.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

If there are drunk groups of people, I won't go anymore.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mini golf with food and drink kiosk accessible to those not wanting to go to the restaurant. Outdoor eating, opening hours continue into the evening.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Maintain some type of iconic architecture. The ferris wheel was iconic. It would be nice to see something visual that puts Mandurah on the map; something visually recognisable on the water front. Perhaps rip-off Bunbury's tall look out on Marlston Hill and have it lit up brightly with coloured lighting overlooking the waterfront. You could completely scrap Shelter. I am disappointed that Shelter, a brewery style restaurant, is going in. I know that the community feedback was for a licensed venue, but that doesn't mean that it needs to be built around beer at the expense of good food. The problem with breweries is that all they sell is fancy pub food. Shelter = boring, and I don't look forward to going, although we will. I would have preferred a two story building with a beautiful restaurant on the top floor, like Garum in Perth, with some roof-top dining and below could be more commercial options like shops similar to Yo-Chi for easy access to those walking by and maybe a space for retail.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The whole Western Foreshore development is great. I'm so happy that "world class" facilities are being built, primarily world-class sport facilities. The skate park is capable of hosting top tier events. It is a beautiful space for all. Keep striving for world-class facilities as they allow our future generations to learn and develop into world-class competitors.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Kids will love the activities.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I really like the plan for all inclusive activities proposed. The market square,amphitheatre sounds lovely, if entry fees aren't charged to enter. Also the upgrade of the area, with paths & grounds keeping. However, I am not a fan of the microbrewery/restaurant being part of the plan. Just keep it simple.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Instead of a Microbrewery/Restaurant, have a Cafe where older community members can enjoy the foreshore & a shop where, kids can get drinks,treats, Hot Chips etc.. while having a day out at the foreshore.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Like all new projects, vision is usually different to what reality brings. At this point for the Leisure vision, sounds wonderful, otger than the microbrewery/restaurant however, the reality may be tweaked towards the middle or end & change the alignment completely. Sceptical, I know,but history tells me not comment.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Given the financial climate, it appears that some activities will come with a cost. Unfortunately, this isn't anything new. Adding Chocolate Factories,(from my experience) are extremely expensive in comparison to usual shop prices. Add the restaurant/microbrewery to this (assuming the council is aiming this at holiday makers) makes a day out very expensive for the average family. Not to mention the local families that would like to go during school holidays.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That there is a modernistic plan to develop further and create better use of the foreshore frontage.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Create modern, thriving and healthier lifestyle activities and things to do for all ages that are not centred around the sale, consumption and promotion of alcohol.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Partly

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be attractive, but it does not need another venue that promotes the alcohol consumption (use the eastern foreshore for that), the interaction between younger kids, families and inebriated people is inevitable and should be avoided at all costs. As the father of two teenage girls (16 & 14) that wants my kids to have the independence to go down to the foreshore and its events with their friends, and not be harassed by alcohol fueled young men and women, will mean I will not allow them to go there. Unfortunately Australia does not have a culture that can manage their behaviour with alcohol on the majority, so creating a space that encourages interactions between the two is ludicrous, and not inclusive or diverse in any way, shape or form.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Carnival does need a clean up and refresh, and maybe not required at all in modern times. The new playground and skate area has been well done. Paths lining the waterfront also need repair and proofing against future high tides/erosion.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

With current levels of anti-social behaviour caused by alcohol the last thing we need is yet another outlet. Vehicle access and parking would also become a real problem with such an outlet.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Drop the brewery and it probably will.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Some will like it, some not.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like it at all.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I'm dead against this pristine area between the war memorial and a kids' playground being used for a brewery. It is so out of place. It needs to be used for recreation, so I'm all for the mini golf, chocolate factory, and cafe, but the location is not right for a 650-seat brewery. The parking and access in this proposed precinct worries me greatly, particularly the access, which has not been discussed thoroughly enough in the Leisure Precinct Plan.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

All of these facilities are fantastic, but not the brewery. Not there.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Some of this would be great. The brewery is the problem.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

M

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Mandurah needs an iconic centerpiece ... keep the Ferris wheel!!!! There has been a Ferris wheel in Mandurah since at least the 70s. Look at the water feature in the city of Bordeaux near the river, or the water pipes in Croatia for features that would utilise our waterways. There also needs to be employment and entertainment for the youth of the area, so that they are not just roaming around looking for things to do. The skate parks in the area are addressing some of these needs.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

M

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

M

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The inclusion of public spaces and non commercial spaces such as the existing development of the skate park and adventure playground.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Inclusion of native bush land walk trail loop akin to dunsborough foreshore - linking areas of development and providing shade and sound control.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Aligned well but development needs to be balanced with conservation of nature resources.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Attractive but I'm concerned about the selling off of public space to commercial premises and the increased pressure of traffic to the area. Commercial development should be limited (for example to the brewery only). Allowing green spaces to be prioritised.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Access to jetty's for the public. There isn't really anywhere to moor up on that side. Creating more access and safety for families.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it's well on its way and I hope that Mandurah residents are thinking for the future of the younger generation and how much this will help families come together and enjoy their local environment.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Fantastic! So attractive for young families and their generations before them. What an amazing place Mandurah is becoming with so many places to explore, relax, play and wind down from the 9-5. I have been hearing of many residents hesitant on the microbrewery which confuses me and a lot of people around me. I hope they don't ruin what potential a place like that could have on the western foreshore.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the fact that all ages/preferences are catered for. There is still plenty of open space left and the plan would greatly improve facilities for both residents and visitors. It should also ease pressure on the eastern Foreshore which can get very crowded in the summer

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Aligns perfectly as far as I can see

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It should offer something for everyone, families in particular, with everything close by in one precinct. As long as there are plenty of public toilets and some undercover areas for rainy days

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Not much

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I think that a "Shelter" style brewery will attract trouble in an area that is supposed to be child friendly. I would like to see something like The Maze at Margaret River.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I don't think another brewery is aligned to this plan

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Something more family friendly like The Maze in Margaret River would keep the area green & family friendly whilst providing cafe facilities

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

No massive brewery, just family entertainment

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It is what is needed

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

New pathways Under bridge events

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

No alcohol

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Well considering a very lot of people don't want a Brewery and also most want it left for a children's space The above question is wrong. It's not delivering possibilities for everyone as most don't want what you have proposed.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not attractive at all with alcohol and children in the same space

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

In all the plan looks like a good use of the open space with facilities eg. BBQs tables settings. The all abilities paddle launch facility is a good initiative as well.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Mandurah's Western Foreshore is a cherished natural space loved by locals and visitors. The proposed commercial development such as the restaurant, cafe and brewery risks altering the character of the area. The foreshore's natural beauty could be overshadowed by commercial structures, potentially detracting from its charm and appeal. Therefore, the plan can be improved by not building these permanent commercial premises.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

While most aspects of the development provide access to the park and surrounds having the commercial buildings proposed do not fit in with this vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

While most aspects of the development provide good access to the park and provide facilities with options for families, the addition of a brewery seem very un-family oriented. Serving alcohol near what is supposed to be a family-oriented zone really doesn't equate and there is the risk of inappropriate behaviour and violence fueled by the serving of alcohol. For families surrounds having the commercial buildings means that the risk

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Activation of a beautiful area on our fantastic Mandurah Waterways. Connecting the Eastern with the Western sides.
Diverse range of activities for all to enjoy.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I believe the restaurant venue needs to include a separate function area that accommodates more than 100 people for weddings etc.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Very well

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Amazing!!!!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Plans to upgrade to a family friendly area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove the proposed planning for a brewery and additional carparking.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This particular proposal does not meet the vision of connecting people and nature. To remove greens spaces, create traffic congestion and potential unsocial alcohol fuelled behaviour does not benefit the community living in and around the western foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All elements except the restaurant /microbrewery. Families have enough places to eat on the eastern foreshore.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love that it's going to activate a space that is neglected for the most part by the Mandurah community. Kings carnival no longer has the sparkle it used to and I feel that it's time we utilised the space more effectively.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns very well with this vision. More people on the foreshore means more business for local industry

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will provide something for everyone to enjoy all in a convenient locale.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That is a mix for all ages

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Make sure its able to be utilised on hot days and rainy days

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It is diverse

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Multiple family friendly outlets.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it gives something for everyone and anything that has people out in the community rather than locked away in their houses is good for everyone.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely. As long as it feels safe and populated then families will be inclined to spend time there

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

More dining/leisure options on this side of the bridge.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Indoor activities such as lane bowling

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think having facilities on the opposite side of the foreshore will enhance Mandurah's centre rather than only having these options in one area. More space on the Western foreshore to spread out.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think this will definitely attract more people to the area with lots of options on both side of our town.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing. A brewery does nothing towards the 'leisure' of residents and people who love the foreshore for its natural beauty which is being slowly eroded by concrete and bricks. in a city that already has an alcohol (and drug) problem, this is hardly a benefit.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Less concrete, more nature.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't - see above

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

All the events listed on the plan are not for the general public and only for those who can afford to pay. The park areas will no longer available for families to use, and the park is regularly used by thousands. It seems the council is intent on destroying what nature areas we have for the benefit of paid facilities. Use the money for things that really will benefit the community - safe sleeping for the homeless population that we have here as an example.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the way the space will be utilised to incorporate a number of attractions that will bring the community together and attract tourism to the area. Other things I like are: - On Water Activity area - Mini Golf - Brewery - Improvements to the Hall Park area which is totally under utilised at present. - All ability paddle launch

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think this vision is captured in the plan, with options for all ages and abilities. I especially like the all-abilities paddle launch area and the mini golf attraction.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think this space will be hugely popular. We only need to look at other areas such as Dunsborough, Busselton and Margaret River to know that these attractions are very popular with families, and will attract tourism to the area whilst providing new, exciting amenities for Mandurah residents.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

IP Address: [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Ok except for the brewery

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

We don't need more food and drink options. Better use would be roller skating or bowling ten pin for families. There is not enough for older children/youth to do in town

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not really. Nature is there already with the waterways and park. Don't need to add to that further

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not Attractive to teenagers/youth. They need activities not pubs. I find it hard to entertain older grandchildren. They like to skate and bowl. Movies already there so that is good

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Removal of the fun fair

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I am concerned about the traffic issues that will be evident around that whole area. It is challenging at the present time to try to get out on to Old Coast Road and I anticipate that this will become more difficult with increased traffic. I live close to the bridge and the inclusion of an amphitheater under the bridge will cause a massive increase in noise disturbance.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I understand the need to increase revenue - but it should not be at the cost of the environment for the people who live close by

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Its likely that this will all be attractive to families - but the presence of a brewery and factory will be problematic for locals due to increased road traffic and noise

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I'm not keen on it at all- it hasn't been thoroughly discussed with the people .

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

You could have listened to what people actually want and need in Mandurah-

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Placing Breweries and adding huge amounts of concrete parking is hardly doing this is it!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It's already attractive to families- extra pub and Breweries are not needed. There are several "chocolate factories " they are uninspiring.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

25 year plan so a business can actually Create something for future growth.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Don't let a brewery be installed on the kid friendly side. Go back to the drawing board. I love a beer as much as the next person but We are trying to improve the health for society and you want another drinking venue. Something Western Australia is missing is amusement venue on the water or pier. It will bring in more tourist and local money then a pub if done properly. Check out Santa Monica pier, Lunar park and many more around the world. If I want Brewery I can go to Mandurah Quay, swan valley and more drinking venue in Mandurah. You will regret the pub,

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't align in the values Mandurah city and what the people want and need to deliver possibilities for everyone. We need more family friendly attractions on the western forshore. Have a look a Freo did with the old myer building, they could have let a 3 story nightclub and new pubs be installed but they needed something to bring families back into other areas of Freo. They know overtime that makes more money with less trouble. The other factor to consider the drinking rate of Under 45 is dropping due to increased awareness of health or money to spend on alcohol. The drinking rates have been declining for the past 15 years

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will increase slightly at the start then drop off as it will be just another drinking venue with basic mini golf but I think your missing the chance to really make something good for people to travel to in WA. We don't have any family entertainment on the water like A Gold Coast or Lunar park. What is the difference between Busselton and Mandurah in this plan? Nothing and it won't bring families to stay overnight. The biggest problem I see that other venues will close down.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Leave it as it is but allow upgrade to Kings carnival.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It no longer aligns with the community's desires.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not attractive at all. We do not need another brewery or food venue. Allow Kings Carnival a longer lease to upgrade.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

There is something to please almost everybody, but what most appeals to me is the improved pathways and the major event space.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

As I mentioned in question 1, there is something that would appeal to most people.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Whilst I think it has the potential to improve the amenity and usability of the foreshore, it also has the potential to cause harm to both through the significant loss of precious public open space that will be required.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Even though 202 is a lot of new parking bays, from my experience it won't be nearly enough to cater for the tavern patron's cars and, by my calculations (based on 29.75m² parking bays) they'll require at least 6,500m² of public open space to be sacrificed in order to build them. I think this is unacceptable and will create a lot of public resentment, particularly within the Halls Head community.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I can understand how the plan's architects believe it will fulfil those stated desires; however, I'm deeply concerned that the community will think (as I do) that the loss of public open space that's necessary to build it is too big a price to pay.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think that some elements (particularly the mini golf) will be attractive to families but also think that the tavern has the potential to alienate families away from the mini golf.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The Kayak launch area sounds good, please have a hire buissness like you did many years ago.

Q2. Is there anything about the Western Foreshore No
Precinct Plan which you think could be
improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

yes

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

My teenagers spend all weekend at the Western foreshore and some weekdays after school. As long as the mini golf is affordable for young kids i think it will be great. A resturant sounds really clasy and my family will definetly check it out it needs to be something intersting how cissercellos has the big fish tanks.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The Sheok trees and open space

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It needs more trees and bush

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Need more trees

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The Kayak launching area. The children and family areas. The areas of open grass to allow for pop up events. Eg Circus event under a tent.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The proposed Brewery should not encroach on the War Memorial area. I don't believe that building a big alcoholic venue is family friendly.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I would think that allowing the Carnival to redevelop at the lease area would be a great result for our community families. That is children mum and dads. Let's not forget the grand parents that make up our community and have retired to Mandurah.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I not sure pickle ball with the max of 4 people per court will work and be family friendly. As there are already restaurants microbreweries mini golf and large golf courses we also have a chocolate factory in the Mandurah area that I am sure are attractive to families. So I'm opposed to these being located on the Western foreshore.

Q6. Are you a resident of the City of Mandurah [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I don't like it at all

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By not converting it into a mass of entertainment and traffic

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

No vision only caious

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I don't think it will benefit anyone

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The range of options that will suit all age groups

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Due to the history of the Ferris wheel in Mandurah, would be great to incorporate it somehow, like the esplanade park in fremantle

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will provide more business options which in turn provides jobs and economic growth, however the precinct needs to be safe for all users 24/7 not filled with homeless people and/or drug users lurking in the grounds/ darkness

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will cover the usage requirements for all ages.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The under bridge amphitheatre, the new jetties, pickleball and market square

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Remove the licensed restaurant/micro brewery.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it caters for everyone

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not as attractive as a space without alcohol. A space that families can take picnics will be much better

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

not alot. it will build up traffic and disturb locals. it will rid of the beautiful park used by locals and families not to mention wildlife.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

just add the brewery. no need to expand further.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

not very well at all.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

a small amount. there is already all of that on the other side of the foreshore. it wont be very popular as people will already be enjoying the things you offer on the other side

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Respondent No: 453

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The idea of a social space

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Consideration of current infrastructure and impact of current residence. There is no need for over a 600 place restaurant and the destruction of the beautiful parklands.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not considering impact on residents and road traffic is not for the people. Clean up the idiots that keep destroying property on the foreshore, bring on new police officers for antisocial behaviour and consider improvements to car parking for the existing facilities before slamming more people in an already cramped space.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think some families will enjoy the space and some will dislike the space. I believe development of this area is needed but the extent of the development is too big to be able to consider all aspects like the architecture has a small dog syndrome

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Has a good spread to suit all aged Will encourage more families and will increase tourism

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Maybe include the Ferris Wheel to be a nod to the areas past. Similar to what fremantle has done at there foreshore

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It will bring more people and families to the town centre all based around the water This will also attract more tourist's to the city

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive, with such a variety of attractions will enable families to enjoy all of what the city has to offer

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

That there has been some of the water views left

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By keeping it a family open space, childrens activities or water themed, keeping the carnival with upgrade conditions imposed on a binding longer lease

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

No, it is disrespectful to our veterans by having a non local brewery sited close to the memorial, the extended car park for the memorial will be used by patrons of the brewery, high rise bulidings will block out water views, there is nothing for the younger generation to utilize , you have playground, skate park both free attractions and yet age and money restrictions for what is proposed

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Due to congestion of traffic, one way streets , the Western foreshore will only attract Halls Heads residents on a regular basis, other than big named events held there eg; circus, rodeo etc, Will the city now move crabfest to the Western foreshore propped event space, there are not many food businesses on that side of bridge to benefit the "boost" of \$ for events. I have worked and shopped in Mandurah for over 30 years, and live in the Peel Region, I have family who reside in Mandurah. Why change something that was thought about in the Mandurah Vision years ago, let the future fill our open majestic spaces. Mandurah is well known already for it's scenic foreshores, both the Eastern and Western, leave them alone, the playground and skate park is ample enough in today's economic situation, where people have hardly enough money for housing. An upgraded profit driven venture is a slap in the face to ratepayers and going on the businesses closing or going bankrupt , the proposed brewery and chocolate factory will not last it's 25 year lease

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Like the focus on family

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Would love to see a water fountain area for little kids to splash in like the one in Elizabeth Quay. I use to take my 2 to the city years ago when there was one there and they had a blast. Now I have 2 little ones would love for them to experience that in Mandurah. I know we have lots of water ways but this is a safe and easy way for parents to watch their little ones cool down while having a coffee or something to eat. It would need a shade cloth I think

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think mandurah is a beautiful place and it continues to be improved. It is within the vision

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Jetty access to park

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Park only, visitors can cross the bridge and support local traders for supplies. If they want a restaurant or hotel lunch there are plenty in town

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

No need to have all parts of town busy and cluttered.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Better to have a quiet place for families where they can look across the water to the hustle and bustle

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Water, activities, BBQ areas, cafes/restuarants

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Create a lease space specifically for a new Ferris Wheel. Similar to the Tourist Wheel in Fremantle. The Ferris Wheel is part of Mandurah's identity. A newer, larger, modern one will bring more tourists, look great in photos, and create many stunning photos of the beautiful waterways when riding it.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

A new modern Ferris Wheel is quiet to run. Look great in photos, and create many stunning photos of the beautiful waterways when riding it.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It depends on the layout, colours and materials use to create the build. If thought out properly. It can work well.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing. This is an "A" class reserve for all public to enjoy, not a commercial development site.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep the "A" class as an open parkland area for families to enjoy.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesn't. Family friendly, no alcohol, parkland & open space is what is needed on the Western Foreshore. Keep commercial development on the Eastern Foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Too over developed. We don't need a "Chocolate factory" or "mini golf" in a reserve. Families need parks & kids activities that already exist in the park.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I am hoping this new plan will remove the anti-social aspect of the area as it is today. I live across from Kings Carnival and every day we witness some aspect of anti-social behaviour from vandalism of the park, to clandestine meetings in the dark and 'hooning' throughout the park, carpark and down Leighton Place.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I do not feel there has been enough foresight into the entry and exit of the Precinct. You have reported in your plan that you estimate the Precinct to attract 750,000 visitors a year. The proposed Plan in place, does not demonstrate Leighton Place will accommodate this number of visitors in and out of the precinct. Currently, when the City engages events in Hall Park, it is grossly inadequate to accommodate the number of patrons and their vehicles and has a massive impact on the residents along this street. I believe more planning is required to alleviate the traffic on Leighton Place by directing this adjacent to the proposed developments themselves seeing as they are Commercial and not residential and will have no negative impact but will increase the benefit to these Commercial sites. The entry from Mary Street into the Hall Park Precinct is currently grossly inadequate with numerous accidents and in times of high traffic, creates great traffic jamming. During these events the local residents find it difficult to gain entry into and out of their residence. Has any thought been given by the Planners to how traffic and patrons will exit the Precinct should there be a major emergency? On the plan you are utilising Leighton Place as the only access to the precinct which as we have seen in events such as New Years Eve or Anzac Day, the area can not be vacated for several hours. I suggest an additional entry and exit to the Precinct to alleviate this congestion and facilitate a risk management plan to evacuate the area which will FLOW, is to create an entry point off the Mary Street roundabout into the Precinct adjacent to the skate park. Leave Leighton Place as "Local Traffic Only" however, this street could be further utilised in high traffic events such as New Years Eve, Anzac Day, Australia Day.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I believe the mix of business from the Plan in this space, is conducive to attracting visitors to Mandurah. Especially in the summer months, when tourism and local residents are at its peak looking for places to frequent. The waterway in this space is currently under-utilised, and this plan will assist in facilitating access by water and improving on the aestheticism of the Western Foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I believe this will become very attractive to families hence my concern for accommodating the number of visitors to the Precinct. I will be closely reviewing further plans of the area as they become available and would like to be considered in further consultation of planning in this Precinct if this could be possible. I was a member of the City's Waterfront Committee in 2018 being a local resident and local Hospitality Business owner so have an invested interest in what the future holds for this area.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Change and a refresh for the City, more reasons to come visit family that live there

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Definitely aligns, the city is not very thriving

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be a fantastic addition, the foreshore area has so much potential and upgrading that side of the foreshore will create a whole new space with some really exciting components

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love what has been built so far the skate park is amazing and play ground has been a massive asset to Mandurah I 100% disagree with an alcohol being serving near a family friendly area Mandurah had enough issues with drunken and disorderly behaviour on the eastern foreshore I don't feel we need additional drinking areas on the western side

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

THB back to the drawing board the amount of community kick back should be a pretty good indicator of the community's concern of having this type of venue on the western foreshore. The city wants family friendly the community wants family friendly not another drunken hotspot for unsocial behaviour, Mandurah was build as a family holiday destination not a drinking spot might be time to bring back some of those values!! Instead of lining another brews pockets

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's the brewery and the mess that goes with it, this plan is to use up valuable land to line pockets of large Perth based businesses! I am sure a few local businesses will go in but why! Half the businesses in town are struggling we definitely don't need more! The city had an amazing opportunity to do something great in this space but are choosing to side with big business Put some thought into this build it family oriented get rid of the corporate bs a make this amazing as you can the city has done some fantastic developments in other areas of the city and this one is the most important! Don't sell out our beautiful town to the highest bidder!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It's attractive to family's but for us it's the added brewery that spoils it Sure have events where micro breweries can set up a stall ect but to have them as a permanent facility we don't need it, some of the other ideas are fantastic Under the bridge great use of space Mini golf ideal Drunken idiots not ideal!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the diversity of leisure activities that are proposed - particularly the all-abilities launch space, the continued use of village green space etc.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would like to see greater consideration for events infrastructure, particularly allowing for live music and performances. The under-bridge space is excellent, and I would like to see more plans for this, however it is quite small and is unlikely to serve an audience greater than 2000-3000 at a time. I don't know what the "Active Recreation Node" is, however I think this would be a great location for a sound shell or similar piece of infrastructure, providing a covered stage, bare-bones dressing room, lighting bars and three-phase power. This space could be used by commercial and community hires for events ranging from school Christmas concerts, to commercial music events or City-run concerts. See the sound shell in Kalgoorlie Boulder for an example of this.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it aligns to a strong degree, however I do think there is a risk that the commercial footprint will impact on use of the waterside location for free, public recreation and connection to the Estuary.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very popular, potentially attracting visitors who will come and spend several hours to a whole day in the area, enjoying the leisure activities. It is important to make sure that the parking load can manage this.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Pretty good development of an underused asset.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Pedestrian bridge from near the war memorial to Halls Head Beach.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Reasonably well, though there is a good thought that maybe it's a good idea to keep licensed premises on the eastern foreshore for ease of policing. That leaves the Class A reserve for recreation and special events only.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It should prove to be a big draw card.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

fits into the natural layout, family friendly, for the community, modern, will bring more tourism for the region

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

family owned business (not a big beer concern like CUB/Lion), so a family business for local families and visiting families with a nature playground, family activities...work opportunities for locals

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

as mentioned above, i think it will be very attractive to visiting and local families. Local families could come done every weekend, and not be bored as there's so many activities for many age groups and interests on offer

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I am against the proposal, as i don't think a 650 seat brewery is an acceptable alternative to the current King Carnival . This site should remain Class A reserve, and not converted to a commercial precinct. Currently this is a passive recreation area , and should remain such . Apart from the the proposed commercial site you are proposing another 202 car parking bays, which will result in a further loss of green space, and the extra traffic entering and exiting the site from Mary street , will be a disaster, and create a traffic black spot

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon?

Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

return the area to green space with BBQ facilities and shade trees . We certainly do not need more alcohol venues in Mandurah, as there is more than sufficient on the Eastern Foreshore, and the Marina area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

the proposal certainly is not connecting the people to nature, and i question the roll of the environment officer in the council , with regard this proposal

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Whilst what is there currently, is good, with exception that King Carnival, should go, or have a major upgrade, i don't believe the western foreshore will be more attractive to families by adding a massive 650 seat brewery to the area

Q6. Are you a resident of the City of Mandurah

Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Brewery, creation of new jobs, intergenerational play, something for everyone, extensive spaces that are free to visit that complement one another. Contemporary mini golf offer. The Precinct Plan respects the existing site elements such as the War Memorial and also establishes a new contemporary offer. Flexible spaces for events. The site complements the offer on the Eastern Foreshore. The mini golf is a nice link back to the existing purpose, so a nice way of connecting the old and the new.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

This Foreshore Leisure Plan is very aligned with the vision.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

It will be very attractive for people of all ages and background. It's very inclusive. It will be well-served by residents, workers as well as visitors from WA, interstate and international.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I object to the Western Foreshore Precinct Plan no family foresight with involving licensed alcohol businesses. Also the road system today eg Old Coast Rd, Mary St roundabout near IGA Halls Head and adjoining roads are KHAOTIC with traffic and with no future relief plan is going to get worse. With this plan will create a massive traffic bottleneck around this already congested area.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Plan has no vision we the community do not want any microbrewery or any other licensed business's on the Western Foreshore. We already have plenty of these types of businesses on the eastern foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Not attractive by reducing public open space for families for commercial site. Not attractive by having a Brewery built alongside the War Memorial.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing!!!!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

The plan is not in the interests of local residents. It is the loss of open space for commercial interests.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Not here!!

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

There is a local park now for Mandurah residents and visitors. It is not for commercial interests that the city has to financially support.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Maintains the space for public use and for the whole community

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Improve the shoreline vegetation and habitat refuges for wildlife.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It brings the community to nature and to interact with what Mandurah is built upon the foreshore.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I don't like the micro brewery or any construction that restrict access and removed public open space. The key feature of this space is the public open space you can get this back and it's not the council's role to take it away. Pop up bars during events or for periods is the best way to activate this space, land transactions are not in the best interest of the public or community long term prosperity . Maintaining this space as public open space accessible for all is what it should stay as

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Open space, Family areas and areas for children to play. The area is said to be accessible for people with a diversity of physical need.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I am vehemently opposed to yet another brewery in Mandurah. There are already MANY MANY places for people to go and drink. Who was the fool that decided a brewery would be a good business to place near a children and Family area? Get rid of the brewery entirely and retain King's Carnival. King's Carnival is beloved by the local community. It is part of the history of the area. Keep your brewery and let the children play at King's Carnival as they have been for many years. Council could put the money they are "investing/ wasting" into upgrading the carnival if you feel it is so outdated. Not everything that is deemed to be old has no value. Progress for the sake of progress is wrong. Turning everything modern is not viable or desirable to everyone. If you have to go ahead, and let's face it Council really does not care, please make sure you have sufficient parking for people with disabilities. Ensure that the area has clearly delineated markings between the roadway and footpaths. Areas on the Eastern Foreshore now have now kerb and for a person with vision impairment it is horrendously dangerous not to be able to tell where the path ends and the road begins. But then I did not go to university and study town planning so what would I know? I seriously doubt anyone is even looking at these surveys and I am probably just wasting my time.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Open space and parklands with areas for families.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Are you kidding? I have already outlined my opposition to putting a brewery anywhere near a family recreation area. Mandurah has more than enough issues with alcohol fueled violence without providing yet another drinking venue. How about the residents? I bet they are not going to be pleased about the increase in local traffic in their up market neighbourhood. How do the cafe and business owners on the Eastern Foreshore feel about their livelihoods being placed at risk? There is no way I would take my family to this ill considered waste of money. Current Council will definitely not be having my vote at the next election.

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I agree the foreshore being upgraded great idea , although I think if kings carnival is to be replaced then considering it already has a kids skatepark there that corner could be a designated kids corner, each year there is a ice rink brought down to Mandurah which gets packed by so many people wanting to use it, why not build a permanent ice rink that could be rollerskating in summer, incorporate a disco run there for kids, of all ages , add a time zone, bowling, and arcade , the kids of mandurah need something there is nothing for them, Don't put a Brewery next to a kids skate park. I think if kings carnival is to be replaced then that corner area could be like a " kids cove " or kids corner entertainment for kids . I believe Mandurah has enough pubs clubs and restraints to meet Mandurah needs it doesn't need another alcohol venue and certainly not next to a kids skatepark god forbid setting up for drinks to hang out where kids are stupidest idea ever.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Mandurah needs more for the growing population of kids of all ages at any time of the year Mandurah gets packed by so many people wanting to use find something that there kids can do , why not build a permanent ice rink that could be rollerskating in summer, incorporate a disco run there for kids, of all ages , add a time zone, bowling, and arcade , the kids of mandurah need something there is nothing for them, Don't put a Brewery next to a kids skate park. I think if kings carnival is to be replaced then that corner area could be like a " kids cove " or kids corner entertainment for kids . I believe Mandurah has enough pubs clubs and restraints to meet Mandurah needs it doesn't need another alcohol venue and certainly not next to a kids skatepark god forbid setting up for drinks to hang out where kids are stupidest idea ever.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It's great creating nature and building for the future relaxation ECT but people don't relax when the wonder what there kids are doing or trying to plan days out with kids in Mandurah, they come down and there's nothing for them to do , they often go to kings carnival , so now what they take them to the brewery please ridiculous ide

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Some good ideas but there needs to be more for kids my kids grew up here in Mandurah and like so many other families it's all about resteraunts cafes car yards, there needs to be more for the kids of mandurah,

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

large play space, spaces for events and more entertainment business opportunities

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

more entertainment opportunities

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It looks good

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive to families

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I actually don't mind the plans for the Leisure precinct - but i do feel that the some of the rides from Kings Carnival could still be a part of this - Things like the kiddies carousel - Similar to parks in Europe

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep some sort of fun park in the area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Its great but still short sighted when it comes to families

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

we do not need another microbrewery - there are several around town already

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

It is such a great place to meet up with my family and entertain the little ones. I never really used to go on this side of the foreshore and since it has been updated, it is a beautiful place to hang out. I often walk around the park, have been here for picnics and have taken my younger family members to the playground.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

They have created this space for everyone to enjoy. What hasn't been thought of? It is such a pleasant environment to be in. Especially in the Summertime.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I feel this will become a very popular space for all to enjoy. I would be thrilled to see this come alive. I feel Mandurah need some more restaurants/brewery's and this particular location would be perfect.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Mostly the non-commercial bits that are more Touristy than resident community focussed

Q2. Is there anything about the Western Foreshore Yes

Precinct Plan which you think could be improved upon?

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

More basic relaxation facilities and less commercial money making facilities

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It is currently biased towards attracting tourism than improving basic facilities for locals families

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

There will be limited attraction for the varied range of individuals that fit under the heading of FAMILIES! I forsee it being crowded with tourists in the season but quite barren and deserted outside of the season. Especially the money making facilities!

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nature Playground which looks to have various forms of play incorporated in it. These types of playgrounds are very appealing to families with children

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plan compliments the existing foreshore shoreline and provides an appealing area to experience nature & outdoor play

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very attractive as it offers aspects that appeal to many demographics and ages.

Q6. Are you a resident of the City of Mandurah No

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I like the fact that there will be more activities for families. And it will attract more tourists

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Better paving. Some seating. Refreshment area

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it should meet these visions and values

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Extremely. Normally we have to travel to Swan Valley or Margaret River for some of these facilities

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Love the idea of the micro brewery with incorporated areas for family i.e mini golf, pickle ball etc.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

We have travelled Australia for the last 3 years and find splash parks to be a huge attraction for families local and travelling. The foreshore here in Mandurah along with your long hot and dry seasons make it a perfect place for a splash park/man made rock pools (similar to the Gold Coast Broadwater)

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I do think this is achieving that although I would love to see more planned activities for youth over school holiday periods.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think with the addition of a splash park Mandurah would be. Stand out for locals and travelling families alike.

Q6. Are you a resident of the City of Mandurah No

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I dont like the plan at all.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

It should be scrapped. This is a residential area and public open space. Kids need space to kick the footy, walk their dogs and enjoy family time. Definitely not an area that should be considered for a pub and carparks. Havent we got enough on the eastern side of the inlet?,

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It doesnt. It will just negatively affect residents and their ability to enjoy public open space.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

You mention microbrewery as if it is supposed to sound like it is small in size or a small boutique brewery. Given the hideously large shed that this company has built on the foreshore at Busselton, how could they be trusted to build something that fits in with the local environment in Mandurah? We have recently purchased a house in Port Mandurah and could think of nothing worse than a pub and large volumes of traffic that it would bring to this last remaining section of inner city parkland.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I think that we need to focus on children as that has been their area for years.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? No

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

not answered

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

The plans align with making money and not focusing on family friendly activities by taking away the fun park

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think that the shire are not considering locals and what we think is best.

Q6. Are you a resident of the City of Mandurah Yes

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

I love the idea of additional jetties and the paddle launch area. I can't wait for the restaurant / microbrewery to open - this is so exciting! And who doesn't love chocolate!!

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

I would like to see the ferris wheel stay. It's become iconic and I like to see the sunset behind it - you know straight away this is Mandurah.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think it fits perfectly - it will create heaps of jobs and attract lots of visitors and locals. It makes use of an area that is very under utilised.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

I think it will be very attractive to families. They can have a meal or snack, Mum and Dad can have a cheeky drink. There is also a fantastic playground and skate park right next door which caters for babies right through to teenagers / youths.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Absolutely nothing

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

By returning Hall Park King Carnival lease area to public open space and not commercial activities.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I do not believe the local community was widely canvassed so please stop telling us that "this was what you asked for".

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Its natural attributes are far more attractive and socially acceptable for families than a multi-storey brewery.

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City [REDACTED]

Respondent No: 490

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The under bridge amphitheatre.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Need more good vibes and gourmet options. Why aren't the markets a happening success? I could only dream for our markets to be more like Busseltons or Denmark's. More free family fun, or low cost there just needs to be more activities. A surf skate track would be great, a wave park would be amazing!

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

I think planning a music scene under the bridge, is a pretty good start, small but cool.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

6/10

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

The option for commercial and community advancement is great.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Many large Eastern councils make these areas a shared venture with sporting codes such as Cricket, Rugby League, AFL and Soccer, so as to attain a year long utilisation. I think considering there are many of what is being proposed within the Peel region, perhaps it would be viable to see it as a shared venture.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

Agreed. A shared venture would provide this, especially if it is designed to incorporate all that is wonderful to the Peel region. Put it on the map to the country, persay.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Very, as long as it is not rushed and properly considered. A shared space with a sporting code that is like nothing else in the state.

Q6. Are you a resident of the City of Mandurah Yes

[REDACTED]

Q1. What do you like about the proposed Western Foreshore Leisure Precinct Plan?

Nothing if a brewery and retail outlets are being added to a park reserve.

Q2. Is there anything about the Western Foreshore Precinct Plan which you think could be improved upon? Yes

Q3. How do you think the Western Foreshore Leisure Precinct Plan could be improved?

Keep it as leisure. do not add retail. Do not remove park land for car park.

Q4. The community has told us that they want Mandurah to be a thriving city, connected to its people and nature, delivering possibility for everyone. To what extent do you think the Plan aligns to this vision?

It misses what people want changing Hall Park from an A-Class reserve for something as common as retail / brewery is a terrible mistake that is intergenerational. Our youth and the next generation will have an important component of growing up replaced with another liquor venue which is not needed.

Q5. Considering the different elements that make up this plan (eg. under-bridge events space, on-water recreation area, improved pathways, pickleball, town square and events space, licensed restaurant/microbrewery with mini golf, cafe and chocolate factory etc), how attractive do you think the Western Foreshore will be to families?

Adding the licensed restaurant/microbrewery, cafe and chocolate factory etc will take from all the work already done with the skatepark and adventure playground. It will reduce the ability of holding events there as 40% of the area will be carpark for the brewery. How can a mix of "on-water recreation align with a brewery?

Q6. Are you a resident of the City of Mandurah Yes

Q7. Please enter your email address if you would like to continue receiving updates on this project and others around the City not answered
