

Additional Information

For more than 30 years, Ive walked alongside people across Mandurah, mentoring and championing people of all ages, working with local businesses and organisations.

To serve effectively on Council, I completed the Diploma of Local Government, the highest accreditation available, currently serving on key committees including Audit and Risk, Emergency Management, Planning and Community Consultation, and Access and Inclusion.

I serve on the boards of WestAus Crisis & Welfare, Allambee Counselling, and several local school boards, strengthening advocacy for those too often unheard, and ensuring decisions reflect the needs of our community.

Ive worked in Centrelink, school chaplaincy, small business, and local government. Growing up in a home affected by domestic violence and addiction built my resilience, shaped my understanding of complex social issues, to advise on policy, and deepened my commitment to creating real, positive generational change.

As your Mayor, I will focus on four key pillars:

1. Stronger Together: Ill unite Mandurah to build a city where no one is left behind. That means supporting youth through real opportunities, inclusive community programs, protecting our environment, and ensuring families and seniors feel supported and safe.

2. Transparent, Accessible, Responsive Council: Ill lead a Council that listens, communicates openly, and follows through. I will promote financial responsibility, open information access, and genuine community consultation.

3. Action & Results: I wont just talk, Ill deliver. Ill work across all levels of government, business, and community to tackle issues at the root and make smart, effective use of resources.

4. Safer Streets: Ill advocate for greater police presence, improved lighting, well-designed public spaces, making Mandurah more secure and welcoming for all.

The Mayors role isnt just ceremonial, its about leadership, connection, and action. With your support, Ill be a Mayor who listens, unites, and delivers.
