I have been a resident of Mandurah for 30 years. Upon selling my small business in Nedlands I became involved in voluntary work for the betterment of community.

I have supported the chaplains in local government schools as Chairperson of YouthCARE and founded and continue to Chair WA Mums Cottage, a local charity. The concern I have always had has been the quality of life of the people of Mandurah and the welfare of our young people.

**This continues to be my concern.**

With the experience of small business management and the governance of a local charity I can claim to be prudent when it comes to financial management and governance. I believe in an open and transparent government that is consultative.

I know and understand the issues that concern people. I care for the place in which I choose to live. Because of that I am nominating as Mayor of Mandurah

Together we can create a community that is safe for families and careful of our environment.
