

### **Additional Information**

Your Voice For Mandurah. Residents First. I've served as your independent Councillor since 2019 with integrity & transparency, bringing council to your doorstep as promised - listening to residents about their concerns.

Despite millions of dollars spent, Mandurah still faces rising crime, job losses & businesses shutting due to vandalism & theft - damaging our city's reputation.

Mandurah deserves more than words - it needs proven advocacy & an independent Mayor who delivers results. The Mayor is the city's only official advocate with the authority to fight for our fair share of State & Federal funding.

My advocacy has delivered the long-forgotten Lakelands Train Station, secured 14 extra police for Mandurah in 2022, extended retail trading hours, expedite live streaming Council meetings & reshaped the city's tree management policy. These are real results that make a difference. I've also consistently voted against rate rises since 2019.

I'm not a talker - I'm doer. I know how to get things done & I've already proved it by working outside the box.

If elected, my priorities are clear: deliver no-rate-increase budgets for 4 years without cutting services, oppose the Hall Park brewery, secure State & Federal funding, create jobs, reduce crime, make streets safer, improve health services, create vibrant public spaces & hold quarterly Town Hall meetings in every ward to ensure accountability & transparency.

I've lived here 15+ years with my wife & son. I'm an Engineer & business leader with 20+ years experience in governance, finance & strategic decision-making. I've also worked in both white-collar & blue-collar roles, shaping me into a people-focused leader who understands the everyday challenges families face. I'm independent, not tied to parties or groups & I'll work for all without bias.

This election is not about who has lived here longest - it's about who has a proven record of successful advocacy.

A vote for me is a vote for No Rate Increases for 4 years.
