I am happily married with grown up children.

I retired last year and while still being active have missed the challenges and stimulation of working.

My early studies were in Accounting. Subsequently I completed Master's units in Law & Economics

I come from a background in mining, utilities and local government focusing on management, construction, contract and asset management.

My time in Local Government was in SA and WA: - Director of Assets and Infrastructure, Kangaroo Island; - CEO, Franklin Harbour. SA; - CEO, Boyup Brook. WA.

I have a sound working knowledge of the WA Local Government Act 1995, the role and function of Council and my expected role as a Councillor.

I am interested in the environment and waterways.

I would like to see a more dog friendly environment.

Much of my life work has been around optimisation of resources with focus on employees, contractors, assets and delivery.

Putting all this together delivers value for money for our residents and ratepayers.
